

Dr. Richard H. Fuhrmann
1880-1937

Courtesy of Missouri Historical Society and Research Center

Dr. Richard H. Fuhrmann was an eighteen-year old living in his parents' home at 3221 California Avenue in St. Louis in 1898 when he started his campaign to obtain patriotic envelopes with autographs of approximately 150 military figures who participated in the Spanish American War, including President Theodore Roosevelt and Admiral George Dewey.

Fuhrmann explained in his letter which accompanied each envelope and request:

As I am a philatelist and desire to add a patriotic section to my exceptionally large collection of postage stamps and envelopes, I kindly request of you to inscribe your name, with what Infantry and where stationed at the present time under the word 'From' on the enclosed addressed envelope, and see that it is deposited in the mails.

The existence of Fuhrmann's extraordinary collection of Spanish American War patriotic covers has never been widely known. At one time the entire group belonged to William H. Semsrott, a prominent St. Louis collector, who sold it more than 50 years ago to the late J. Leonard Diamond. In a note to Diamond after selling the Fuhrmann correspondence (except for two relatively minor covers), Semsrott wrote, "Have fun!!!—You now have the greatest. I'm sad."

Each officer's rank and command are stated as of the date the envelope was signed. Many were subsequently promoted, and some held different ranks in the volunteer and regular armies.
