FOREWORD

As is usual with our Postal History auctions there is such a wealth of material of extraordinary interest that one hardly knows where to begin in writing about it. However, the Colorado, Kansas and Nebraska covers, together with the Pony Express Covers and Express Company covers between the Rocky Mountains and the rail-heads, which comprise a further portion of the collection of the late Robert W. Baughman, are certainly of outstanding importance. Never before, in our recollection, has such a broad and comprehensive offering in this area been made at one time. After all, it represents more than a generation of careful search for such covers and many of those offered are of the highest order of rarity.

Offered also is the collection of Texas covers formed by Mr. A. T. Seymour, which encompasses Texas as a Republic, as one of the United States, as an Independent Confederate State and as one of the Confederate States. This, too, is an offering of major importance in American Postal History.

Those whose interests lie in the area of stampless covers will find many choice and desirable lots; the same may be said of the 1851-1857 “Three Cent” which presents a host of choice, attractive covers, mainly from the Coleman Estate.

Actually, it is difficult to mention any one lot, such as the 2c 1869 bisect cover without doing an injustice to those we do not mention so it is simply best to suggest that you go over the catalogue carefully to be certain you do not overlook the hundreds of interesting and unusual lots we offer.

VALUATIONS  
Upon request, estimate of value furnished on any lots in this auction.
Our sales offer many covers, cancellations, varieties and other items for which there is no catalogue value or where catalogue value does not reflect the actual value. In order to assist our clients, we are placing a fair net valuation on such lots as a guide to bidders. The chart below will be used. For example, E. IV means that our estimated net value on the lot is $30.00 to $40.00. Lots may actually realize more or less than our estimates, which are under no circumstances to be considered reserves but merely a guide to bidding.

A few covers used during the 34 days of Independent Confederate Statehood are included in the last area, appropriately described.
