VALUATIONS

Upon request, estimate of value furnished on any lots in this auction.
Our sales offer many covers, cancellations, varieties and other items for which there is no catalogue value or where catalogue value does not reflect the actual value. In order to assist our clients, we are placing a fair net valuation on such lots as a guide to bidders. The chart below will be used.

For example, E. IV means that our estimated net value on the lot is $30.00 to $40.00. Lots may actually realize more or less than our estimates, which are under no circumstances to be considered reserves but merely a guide to bidding.

TRANS-OCEANIC AIR MAIL COVERS

THE AWARD-WINNING "KRINSKY" COLLECTION

This collection is of such magnitude and importance that it needs no further comment. It has won numerous awards at exhibitions of national importance. Every pertinent factor relating to these flight covers will be found in the individual descriptions of the lots.

The American Air Mail catalogues, the best and most complete guides, have been used in the preparation of the auction catalogue.

Volume 1, published in 1966, has been used for the vast majority of the covers in the sale. Volume 3, published in 1970, has been used for Canada and Newfoundland.

Obviously the prices of so many years ago are now obsolete, a factor the prospective buyer should keep in mind when making up his bids and valuations. Collateral material, mainly photos, accompanies a number of lots. Such lots are indicated by "C" following the description.
