VALUATIONS

Upon request, estimate of value furnished on any lots in this auction.
Our sales offer many covers, cancellations, varieties and other items for which there is no catalogue value or where catalogue value does not reflect the actual value. In order to assist our clients, we are placing a fair net valuation on such lots as a guide to bidders. The chart below will be used. For example, E. IV means that our estimated net value on the lot is $30.00 to $40.00. Lots may actually realize more or less than our estimates, which are under no circumstances to be considered reserves but merely a guide to bidding.

ESTIMATES
SALE #481

CONDITIONS OF SALE

1. The terms of sale are strictly cash on delivery to the highest bidder unless special arrangements have been made prior to the sale.

2. All bids are per lot as numbered in the catalogue unless otherwise announced by the auctioneer at the time of sale. The right is reserved to group two or more lots; to withdraw any lot or lots from the sale, or to act in behalf of the seller. The auctioneer shall regulate the bidding and in the event of any dispute his decision shall be final.

3. Any lot, the description of which is incorrect is returnable, but only within five days of receipt. All disputed lots must be returned intact as received. The following lots may not be returned for any reason whatsover: Lots containing ten or more stamps; Lots from buyers who have had the opportunity to examine them before the sale; Lots described as having defects or faults may not be returned because of any faults. No illustrated lots may be returned because of centering, margins or other factors shown in the illustrations.

4. Successful bidders, unless they are known to us or supply acceptable references are expected to make payment in full before the lots are delivered. Mail bidders will be notified of the amount of their purchases. All mail bidders who have established credit with us must make payment within three days after receipt. We reserve the right in our sole and absolute discretion to demand cash payment at the time a lot is knocked down to any bidder who has not previously established credit with us or whose account is in arrears. In the event any buyer refuses to pay cash for any lot at the time it is knocked down to him, the auctioneer reserves the right to re-offer the lot immediately for sale to the highest bidder.

5. If the purchase price has not been paid within the time limit, nor lots taken up within seven days from date of sale they must be resold and any loss arising from such sale will be charged to the defaulteur. Any account more than thirty days in arrears is subject to a late payment charge of 1½ % per month so long as the account remains in arrears. If the auctioneer, in his discretion, should institute any legal action to enforce payment of a delinquent account the defaulting purchaser shall pay all legal expenses incurred by the auctioneer and such charges will be added to the amount owed.

6. All lots are sold as genuine but should any lot be proved otherwise by written opinion of any competent, responsible authority acceptable to us, immediate refund of the full purchase price will be made, provided that such claim is made in writing within 14 days from date of sale. If claim is not made within this period, no lots are returnable for any reason at any time. So long as we are notified within the 14 day period that an opinion is being sought the matter will remain open until such opinion is rendered. We will not be responsible for any charges incurred by the buyer for expertization fees and costs unless the opinion states the item is not genuine, in which case we will pay actual costs up to a maximum of $50.00.

7. Until paid for in full, all lots remain the property of Robert A. Siegel Auction Galleries, Inc. in behalf of the seller.

8. All forwarding charges will be added to the purchase price. The mode of shipment shall be at our option unless we are given specific instructions.

9. Lots may be sent for inspection to buyers known to us upon written application. All such lots must be returned to us by registered mail, adequately insured and within 24 hours after receipt. The applicant assumes all responsibility and for insurance against all risks from time of receipt until they are actually received back by us, and is to pay all expenses of postage and insurance. No lots can be sent for inspection within eight days from date of local viewing. Large lots and collections cannot be sent for inspection.

10. Agents are responsible for all purchases made in behalf of their clients unless other arrangements are made prior to the sale.

11. In this sale there are some lots in which the Galleries have an interest other than that as agent for the owners. These may include lots on which cash advances have been made or lots where the seller may be indebted to the Galleries, giving the Galleries a direct or indirect interest in the sale of these lots. If any lot is sold against a minimum realization and this is not met, such sale may be effected at a reduced commission charge.

12. The placing of a bid shall constitute acceptance of the foregoing conditions of sale.

SOVIET POSTMasters' PROVISIONAL HANDSTAMPS. The extra-
ordinary collection with more than 400 stamps, virtually all used, and 12
covers issued during the earliest days of Soviet Government in Russia.
Chaotic conditions prevailed throughout all of Russia, yet a postal service
was essential and its needs were met by the issuance of these provisional
issues. There are 70 different districts represented covering both the First
and Second period and the collection contains singles, pairs and blocks.
Many items are on pieces of the original covers, There are numerous un-
listed varieties and some Mixed Frankings. These issues are of particular
interest as they demonstrate the extreme inflation of the Russian currency
during this period. Excellent condition prevails throughout. The Scott cata-
logue gives no listing of these issues but they are well covered in the Cata-
logue of Russian Soviet Issues of the "Cercle Philatelic France –
U. R. S. S.,” a work which has been of material assistance in arranging and
cataloging the collection. Authenticity has been established by the leading
authorities in this area of Philately, Dr. R. J. Ceresa, who has put his hand-
stamp guarantee on many items (RJC) and Rosselovitch (Ross); also “Pohl”
and others. This is a fabulous collection, perhaps one of the finest ever
assembled. Many individual items are of such rarity and value that they
would warrant individual listing but to break into the collection would be
an injustice to Philately. We have therefore decided to offer the collection
in its entirety as a unit and, in keeping with our usual practice, have placed
a very conservative estimate on it

622 RUSSIAN TOWN POSTMARKS, The stupendous collection of many hundreds of Imperial Issues, 19th and 20th Century encompassing the enormous number of different town postmarks. Some of the same towns and cities are represented by different types and some include railroad postmarks. There is a very interesting showing of numeral cancellations in the early issues, some in fancy frames, some in dots, some in ovals and a few in color. While most of the cancellations are of European Russia, there is a substantial representation from Siberia and a few from Central Asia cities, such as Tashkent. It is impossible to do justice to a collection of this magnitude in a catalogue description. It must be seen to be appreciated. Condition throughout appears to be Fine–Very Fine and all cancellations are clear and legible. A small group of undecipherable cancellations accompanies. There appears to be a few hundred stamps from the early issues up to about 1915. While we have not checked the various issues, there is a good likelihood that some of the cancellations may be found on some of the better stamps. This is a most desirable and valuable collection and our estimate is certainly on the conservative side .................................................. E. XIV

650 RUSSIAN INFLATION COVERS: The extensive collection of several hundred covers showing the effect of inflation after the end of World War I and the chaotic conditions in the early days of the Bolshevik Government. At first the old stamps of Imperial Russia were used, but represented several times their face value. Early in inflation days they represented ten times their face value; a ruble was equal on a letter to 10 rubles. As the Soviet-issued stamps came into use they were first expressed in hundreds and in thousands of rubles but as the money depreciated, they were sold for postage to meet rates of a million times their face value. Some of the covers are franked with only a few stamps, others with huge quantities. Some letters have full sheets and large blocks, even of the high values. The period covered is 1920–1923 at which time the currency was revalued on a
basis of gold and some semblance of sanity restored to postal rates. There are covers to show every phase of the inflation of every re-valuation. This is a very important representation in an important period of Russian Postal History and is an exceptionally fascinating lot of covers. ARMENIA

732 ARMENIA, The extensive and highly specialized collection of the National Republic issues, 1919–1920 (Betw. 1–265) A marvelous showing of these difficult-to-classify issues, all neatly mounted and correctly identified on album pages. The collection is of singles and multiples, cancelled and un-cancelled and there are many errors and unlisted varieties. The many surcharges are well represented with many very scarce items. The collection has been examined by Dr. R. J. Ceresa, acknowledged as the present day authority on the stamps of Armenia and he has placed his guarantee mark (the letters “R.J.C.”) on the backs of the majority of the stamps. Dr. Ceresa, in verifying the stamps in the collection calls attention to various sub-types, according to the Ashford study, and notes that these are valued much more highly by specialists outside of the United States. Condition is of a high standard throughout; virtually every item rates Fine–Very Fine. This is one of the most important collections of Armenia ever put together and represents many years of search for elusive items. We doubt if it could be duplicated at anything like the estimate, which we feel is very conservative
