Conditions of Sale

The property described in this catalogue will be offered at public auction by Robert A. Siegel Auction Galleries, Inc. ("Galleries") on behalf of various consignors and itself or affiliated companies. By placing a bid on any lot, the bidder acknowledges acceptance of and will be bound to these Conditions of Sale.

1. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "final bid" means the last bid acknowledged by the auctioneer, which is normally the highest bid offered. The purchase price payable by the buyer will be the sum of the final bid and a commission of 10% of the final bid ("buyer’s premium"), together with any sales tax or use tax which may be due on the sale.

2. The auctioneer has the right to reject any bid, to advance the bidding at his discretion and, in the event of a dispute between bidders, to determine the successful bidder, to continue the bidding or to reoffer and resell the lot in dispute. The Galleries’ record of the final sale shall be conclusive.

3. All bids are per number lot in the catalogue unless otherwise announced by the auctioneer at the time of sale. The right is reserved to group two or more lots, to withdraw any lot or lots from the sale, or to act on behalf of the seller. The Galleries will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.

4. Lot numbers followed by the symbol * are offered subject to one or more of the following conditions: (i) the lot is subject to a minimum final bid ("reserve"), below which it will not be sold, (ii) the Galleries have advanced monies to the seller and have a financial interest in the lot, (iii) the Galleries have guaranteed the seller a minimum sale price, and (iv) the Galleries may have ownership interest in the lot, either in part or whole. The absence of the symbol * means that the lot is offered without reserve.

5. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason: Lots containing ten or more items; lots from buyers who have registered for the pre-sale exhibition or received lots by postal viewing, thereby having had the opportunity to inspect them before the sale; any lot described with "faults" or "defects" may not be returned because of any fault or defect. No illustrated lots may be returned because of centering, margin or other factors shown in the illustrations.

6. Successful bidders, unless they have established credit with the Galleries prior to the sale, must make payment in full before the lots will be delivered. Buyers not known to the Galleries must make payment in full within three days from the date of sale. The Galleries retain the right to demand payment at the time the lot is knocked down to the highest bidder, for any reason whatsoever. In the event that any buyer refuses or fails to make payment in cash for any lot at the time it is knocked down to him, the auctioneer reserves the right to reoffer the lot immediately for sale to the highest bidder.

7. If the purchase price has not been paid within the time limit specified above, nor lots taken up within seven days from the date of sale, the lots will be resold by whatever means deemed appropriate by the Galleries, and any loss incurred from resale will be charged to the defaulting buyer. Any account more than thirty days in arrears will be subject to a late payment charge of 1¼% per month as long as the account remains in arrears. Any expenses incurred in securing payment from delinquent accounts will be charged to the defaulter.

8. All lots are sold as genuine. Any lot which is accompanied by an expert certificate (for U.S. items, the accepted authority is The Philatelic Foundation), dated within the past five years of the sale date, is sold "as is" and in accordance with the description on the certificate. Such lots may not be returned for any reason, including but not limited to a contrary certificate of opinion obtained after the sale. Buyers who wish to obtain a certificate for any item that is not accompanied by a certificate dated within the past five years may do so, provided that the following conditions are met: (1) the purchase price must be paid in full, (2) the item must be submitted to an acceptable expertizing committee with a properly executed application form within 21 days of the sale, (3) a copy of the application form must be given to the Galleries, (4) in the event that an adverse opinion is received, the Galleries retain the right to resubmit the item on the buyer's behalf for reconsideration, without time limit or other restrictions, (5) unless written notification to the contrary is received, items submitted for certification will be considered cleared 90 days from the date of sale, and (6) in the event any item is determined to be "not as described", the buyer will be refunded the purchase price, plus interest accrued on the purchase price at the prevailing Treasury Bill Rate from the date of payment, and the certification fee up to $100.00 unless otherwise agreed.

9. Until paid for in full, all lots remain the property of the Galleries on behalf of the seller.

10. Agents executing bids on behalf of clients will be held responsible for all purchases made on behalf of clients unless otherwise arranged prior to the sale.

11. The buyer assumes all risk for delivery of purchased lots, and agrees to pay for all out-of-pocket costs incurred in shipping.

Terms and Abbreviations Used in Descriptions

Centering
The width of margins and the centering of the design within perforations are graded in strict accordance with the Scott Standard Postage Stamp Catalogue standards. The following grades are used:

**Extremely Fine (EF):** Exceptionally large margins or near perfect centering, used to describe stamps which are of superior grade for the issue.

**Very Fine (VF):** Normal size margins for the issue and well-centered with design a bit closer to one side.

*Please note that this grade is superior to the one on which Scott Catalogue retail prices are based.*

**Fine (F):** Imperforate stamps may have smaller than usual margins and perforated stamps will be noticeably off-center. Issues before 1890 may have the design touched in places. If used, fairly lightly cancelled.

**Very Good (VG):** Attractive appearance, but margins or perforations may cut into.

**Good (G):** Average off-centered example with slight faults. This condition is generally acceptable for multiples and rarities.

Gum
Stamps issued before 1900 should not be expected to have original gum unless specifically stated in the description. 20th Century issues may be expected to have original gum unless described otherwise. Terms used to describe the condition of gum are as follows:

**Mint:** As issued by the post office and never hinged.

**Original Gum (O.G.):** Stamp retains full original gum showing slight disturbance caused by previous hinge, which may be present or entirely removed. Early 19th century stamps should be expected to show cracking and toning in gum, which occurs naturally over time.

**Part Original Gum:** Up to half of the gum is missing, but the remaining portion is original.

**Disturbed Original Gum:** The gum is original to the stamp, but has been noticeably affected by hinge removal and/or humidity, mount glazing, etc.

**Hinge Mark:** Noticeable area where hinge has been removed and gum has been redistributed. Stamps described with hinge marks may not be returned because of gum disturbance.

**Hinge Remnant (H.R.):** All or part of hinge remaining affixed to gum.

Covers
Minor nicks, tears and slight reduction from opening are to be expected in 19th century covers. Folded letters normally have tears in the reverse and file folds, which will not be mentioned unless they affect the stamps or markings. Light cleaning of covers is an accepted form of conservation and is not grounds for return of a lot. The terms "Extremely Fine", etc., are meant to convey the overall appearance of cover, not the condition of an individual stamp.

Catalogue Values and Estimates
Unless otherwise noted, U.S. stamps are catalogued according to the Scott 1995 U.S. Specialized Catalogue or Volume 1 (previous editions have been used to catalogue certain Special Printings). Scott 1995 Volumes 1-5 have been used for British and foreign stamps. The 1995 Stanley Gibbons British Commonwealth Catalogue and other foreign catalogues are cited where appropriate.

Catalogue values are indicated by decimal figures in the right column (for example, "175.00"). Stamps in extremely fine quality and items for which catalogue values are not available have been given estimate ranges (for example "E. 750-1,000"). Lots offered subject to a reserve will never be reserved for more than the estimate (usually a fraction of the estimate).

FOREWORD

The following commentary on the V. P. Manwood Collection of New South Wales has been generously contributed by one of the foremost authorities on Australasian philately, Mr. Geoffrey Kellow. We are grateful to Mr. Kellow for providing this most informative background to New South Wales philately, and we wish to acknowledge his work in preparing the Manwood collection for exhibition. The owner of the collection also wishes to express his profound gratitude to Mr. Robson Lowe, whose distinguished career in philately provided three generations of the owner's family with professional guidance and service.

New South Wales was established as a penal colony in 1788, and appropriately the first postmaster, in 1809, was an ex-convict, Isaac Nichols. Despite these humble beginnings, New South Wales commands a pre-eminent position in classic philately. In 1838, embossed lettersheets which prepaid postage within the Sydney city limits were issued. These were the idea of the Postmaster, James Raymond, who had read Rowland Hill's pamphlet advocating postal reform. The Sydney prepaid stationery was a world first and preceded the issue of the Penny Black by eighteen months. Examples of these items in the "Manwood" collection include the earliest recorded date of use.

New South Wales became the tenth country in the world to issue adhesive stamps, on January 1, 1850. The imperforate issues form three distinct groups—the "Sydney Views", the "Laureates", and the "Diadems". The "Sydney Views" plates, for 1d, 2d and 3d values, were each hand-engraved on copper by a different engraver. Subsequent wear meant that the 1d plate had to be re-engraved once, and the 2d plate four times. The "Sydney Views" are noteworthy for being amongst the first stamp issues ever to be "plated" by philatelists, and it is probably accurate to say that these stamps were the most popular in the world amongst serious collectors at the turn of the 20th century.

The "Laureates" were also hand-engraved plates, and re-engravings were needed of the 2d (twice) and 6d plates. Even as the "Laureates" were being prepared and issued, arrangements were being made for the production of engraved stamps by Perkins, Bacon & Co. in London. These were the "Diadems", and their interest is enhanced by the fact that all printings were made in the colony.

The first issues of New South Wales have always held a fascination, and been the most popular of Australian issues, for the great collectors. There remain four major permanent collections still intact. These are the H. L. White and A. A. Vickery collections, both in Sydney museums, the Tapling Collection in the British Library, and the Royal Philatelic Collection. The Tapling and White Collections were both completed by 1910. However, the Vickery and Royal Collections include much material from the Ferrary and Arthur Hind Collections. Later famous collectors who have formed important collections of New South Wales include Pack, Caspary, Burrus, Dale/Lichtenstein, Lilly and Boker. The most notable of the specialized New South Wales collectors have been George Ginger, John Hutson and W.R.D. Wiggins in the U.K., and Theodore Steinway in U.S.A.

The "Manwood" collection is replete with material from all these sources and represents the finest collection of imperforate New South Wales that is possible today. The collection is particularly strong in unused multiples, and in this regard contains almost all the significant items that are still available. The covers include important sections of "mixed issue" frankings and of the interchangeable use of "Sydney Views" with Victoria's "Half-Length" stamps.

The collection also contains what is universally considered to be the most important, and most valuable, item of Australasian philately. This is the vertical tête-bêche pair of the 2d Sydney View used on cover. This is the only such pair known, and proves that the stamps were produced by a "print and turn" technique on large sheets of paper. The cover, discovered in 1903, is further enhanced by being addressed to Charles Latrobe, the then Superintendent of the Port Phillip District (and following political separation, the first Governor of Victoria). The cover at first graced the New South Wales collection of Harvey Clarke, and later passed into the collection of Australian rarities formed by Louis Meinertzhagen. In 1941 it was acquired by Alfred F. Lichtenstein, and only reappeared on the market with the dispersal of the Dale/Lichtenstein Australians in 1990. This unique piece is hard to surpass for its spectacular nature and its deep technical interest.

Geoffrey Kellow
1838 Sydney Two-Penny Post. Embossed stamp on part of entire with bold red "FREE/NO*29/1839" crown oval datetamp, sealed crack in embossing

The earliest recorded use of the Sydney Post Office stamp—the world's first prepaid postage, pre-dating by two years Great Britain's first issue. Spurred on by a copy of Rowland Hill's 1837 pamphlet on postal reform, the New South Wales postmaster, James Raymond, introduced the world's first prepaid postage stamp in November 1838. The colorless embossing was applied with a die showing the Royal Arms, engraved by W. Wilson. The stationery was sold for 1½p each or 1sh3p per dozen and were valid within the Sydney Local Post, for which the normal rate was 2p. The embossed stamps did not prove popular, despite a price reduction in 1841, but remained in use until 1851. Examples are very rare, this being the earliest dated use.

THE UNIQUE TÊTE-BÊCHE PAIR ON COVER

1850, 2p Dull Blue, Pl. II Late (SG 25; Sc. 5). Positions 1 and 12, tête-bêche straddle-pane pair, large to huge margins, cancelled by oval grids on folded cover (with one flap and tear in address panel, well clear of stamps), originating in Sydney with ms. endorsement “O.H.M.S.” and “Col. Treasury 30th July 1850” (Colonial Treasury Office) and addressed to C. J. La Trobe, Superintendent in Melbourne, backstamped with “Sydney Jy 30 1850” circular datetimestamp and “Port Phillip Au 8 1850” oval datetimestamp, the pair is sound and superb, the cover is clean and attractive

THIS FAMOUS AND UNIQUE EXAMPLE OF THE SYDNEY VIEW ISSUE IN TÊTE-BÊCHE FORM IS RENOWNED AS THE MOST IMPORTANT ITEM IN AUSTRALIAN PHILATELY AND ONE OF THE WORLD’S OUTSTANDING PHILATELIC PIECES.

To date this is the only recorded multiple of any Sydney View showing a complete tête-bêche configuration of the stamps. The 2p Plate II, from which this pair was printed, comprised 24 subjects arranged in two horizontal rows of 12 each. Sheets of 48 stamps were created by a print-and-turn technique, resulting in tête-bêche (head-to-foot) orientation between one pane and the other on the same sheet. In evidence of this printing method, we have some stamps that show so-called “double compartment lines”, which are, in fact, the outer framelines of an adjoining tête-bêche impression printed close together. We also have this complete tête-bêche pair; no other inter-pane pair or multiple of any size is known.

This cover was discovered in 1903 by a Sydney stamp dealer, Fred Hagen. The cover was part of the Clarke and Meinertzhagen collections before passing into the Alfred F. Lichtenstein collection of Australian States. It was retained by the Dale-Lichtenstein Foundation until 1990.

Illustrated in Rare Stamps, L. N. and M. Williams. Exhibited among the “Aristocrats of Philately” at Anphilex 1971 and Interphil 1976.

THE ONLY RECORDED UNUSED BLOCK OF ANY OF THE SYDNEY VIEWS IN PRIVATE HANDS AND ONE OF THE MOST OUTSTANDING ITEMS IN AUSTRALIAN PHILATELY.

Most surviving Sydney View unused blocks are in two old-time collections held by institutions. The Tapling collection in the British Library has three unused blocks: a block of four 1p Plate I, a block of nine 1p Plate II and a block of four 2p Plate IV. Tapling never had the opportunity to acquire a 3p unused block, since the only find of unused 3p multiples was made after his death. In 1912 a lady in London found a part-sheet of 3p Sydney View stamps, which was purchased from her by Henry Duveen. The find was reported and illustrated in *Stanley Gibbons Stamp Monthly*, June 29, 1912. The largest piece from this find was a block of thirteen, and when Charles Phillips dispersed the Duveen collection privately, he divided that block into a corner block of four (offered here) and a marginal block of nine. The block of nine passed into the Royal collection, as did an unused block of four of the 1p Plate I, also from the Duveen collection. Thus, of the six known unused Sydney View multiples, only this corner margin block remains available to collectors, to the best of our knowledge. Another unused block of four is rumored to exist but remains unconfirmed.

This 3p block remained in private hands after the Duveen dispersal and was purchased by Arthur Hind. It later appeared in the Burrus, Tomasini and Boker collections. Other than an irregular piece of the 2p Plate I (a strip of five and parts of adjoining stamps below, pictured in the Hutson book) and the L-shaped block of three (lot 4175), we know of no other unused Sydney View multiples larger than a pair in private hands.

SYDNEY VIEW AND LAUREATE
MIXED-ISSUE FRANKING COVER

1853, 8p Dull Yellow, Bluish (SG 79; Sc. 20). Margins all around, used with 1850, 3p Emerald Green, Bluish (SG 43; Sc. 9), large margins, tied by oval grids, Sydney circular datestamp on back of small Jul. 1853 cover to Stokesley, England, redirected to South Shields, ms. "Postage Paid Thro" endorsement and "p. Chusan" ship routing, "TOO LATE" handstamp in frame, ms. "6" late fee, red ms. "8" (pence) confirming prepayment of U.K. incoming ship letter charge, red receiving backstamp

AN EXTREMELY FINE AND VERY UNUSUAL MIXED-ISSUE FRANKING WITH THE 3-PENCE SYDNEY VIEW AND 8-PENCE LAUREATE USED TOGETHER.

This cover was sent on the Chusan, which left Sydney on July 28, 1853, arriving at Marseilles on October 26, and at Southampton on November 3. This cover is backstamped at London on October 28, so it clearly travelled with the mails via Marseilles. The prepaid Marseilles rate at this time was an extra 5p per ¼ oz., which should have been charged to the addressee on this cover, but there is no indication that this was done. It appears that the prepayment of the 8p U.K. ship-letter charge, in addition to the 3p Colonial ship-letter rate, carried the letter to its recipient free of any further charges.

1861 ROWLAND HILL PRESENTATION PROOFS

At the request of Ormond Hill, nephew of Rowland Hill, Perkins Bacon supplied in August 1861 six presentation sets of Colonial stamps printed by them. These sets were distributed to members of the Hill family. The stamps were obliterated by an oval grid containing the word "CANCELLED". This action, taken without consultation with the Colonial Agent-General or the Colonial administrations, was a major factor leading to the forfeiture by Perkins Bacon of many of the Colonial contracts the following year. These sets are the first Specimen stamps of the British Colonies. New South Wales represents an unusual case. Since no supplies of any Diadem values were ever printed in London, the only New South Wales stamps available were plate proofs in issued colors. Two values only, 6p and 1sh, are recorded with the Perkins Bacon obliterator. It was the only colony for which proofs were used for this purpose.

1856 3-PENCE WATERMARK "3" BLOCK OF EIGHT
ON COVER TO ENGLAND

1856, 3p Yellow Green, Wmk. "3" (SG 111; Sc. 34a). L-shaped block of eight, mostly full margins, touched in places, "51" dotted ovals, Deniliquen backstamp on blue Jun. 1857 folded cover (address panel and one large flap) to London, England, from the Lewes correspondence, Albury and Sydney transit backstamps, red London "Paid" cds on arrival, wrinkles in lettersheet and block
A VERY FINE AND OUTSTANDING FRANKING. PROBABLY THE LARGEST USED MULTIPLE OF THE 3-PENCE DIadem EXTANT ON OR OFF COVER.
This cover travelled from Sydney on the Columbia via Suez, arriving in London on September 25, 1857. There are very few used blocks of the 3p Diadem on record. One is in a private collection and another is in the Manwood collection (lot 4545), both of which are in faulty or repaired condition. This is believed to be the largest used multiple.
Ex Steinway .......................................................... E. $4,000-5,000
