Conditions of Sale

The property described in this catalogue will be offered at public auction by Robert A. Siegel Auction Galleries, Inc. ("Galleries") on behalf of various consignors and itself or affiliated companies. By placing a bid on any lot, the bidder acknowledges acceptance of and will be bound to these Conditions of Sale.

1. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "final bid" means the last bid acknowledged by the auctioneer, which is normally the highest bid offered. The purchase price payable by the buyer will be the sum of the final bid and a commission of 10% of the final bid ("buyer's premium"), together with any sales tax or use tax which may be due on the sale.

2. The auctioneer has the right to reject any bid, to advance the bidding at his discretion and, in the event of a dispute between bidders, to determine the successful bidder, to continue the bidding or to reoffer and resell the lot in dispute. The Galleries' record of the final sale shall be conclusive.

3. All bids are per numbered lot in the catalogue unless otherwise announced by the auctioneer at the time of sale. The right is reserved to group two or more lots, to withdraw any lot or lots from the sale, or to act on behalf of the seller. The Galleries will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.

4. Lot numbers followed by the symbol * are offered subject to one or more of the following conditions: (i) the lot is subject to a minimum final bid ("reserve"), below which it will not be sold, (ii) the Galleries have advanced monies to the seller and have a financial interest in the lot, (iii) the Galleries have guaranteed the seller a minimum sale price, and (iv) the Galleries may have ownership interest in the lot, either in part or whole. The absence of the symbol * means that the lot is offered without reserve.

5. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason: Lots containing ten or more items; lots from buyers who have registered for the pre-sale exhibition or received lots by postal viewing, thereby having had the opportunity to inspect them before the sale; any lot described with "faults" or "defects" may not be returned because of any fault or defect. No illustrated lots may be returned because of centering, margins or other factors shown in the illustrations.

6. Successful bidders, unless they have established credit with the Galleries prior to the sale, must make payment in full before the lots will be delivered. Buyers not known to the Galleries must make payment in full within three days from the date of sale. The Galleries retain the right to demand payment at the time the lot is knocked down to the highest bidder, for any reason whatsoever. In the event that any buyer refuses or fails to make payment in cash for any lot at the time it is knocked down to him, the auctioneer reserves the right to reoffer the lot immediately for sale to the highest bidder.

7. If the purchase price has not been paid within the time limit specified above, nor lots taken up within seven days from the date of sale, the lots will be resold by whatever means deemed appropriate by the Galleries, and any loss incurred from resale will be charged to the defaulting buyer. Any account more than thirty days in arrears will be subject to a late payment charge of 1½% per month as long as the account remains in arrears. Any expenses incurred in securing payment from delinquent accounts will be charged to the defaulter.

8. All lots are sold as genuine. *Any lot which is accompanied by an expert certificate (for U.S. items, the accepted authority is The Philatelic Foundation), dated within the past five years of the sale date, is sold "as is" and in accordance with the description on the certificate. Such lots may not be returned for any reason, including but not limited to a contrary certificate of opinion obtained after the sale. Buyers who wish to obtain a certificate for any item that is not accompanied by a certificate dated within the past five years may do so, provided that the following conditions are met: (1) the purchase price must be paid in full, (2) the item must be submitted to an acceptable expertizing committee with a properly executed application form within 21 days of the sale, (3) a copy of the application form must be given to the Galleries, (4) in the event that an adverse opinion is received, the Galleries retain the right to resubmit the item on the buyer's behalf for reconsideration, without time limit or other restrictions, (5) unless written notification to the contrary is received, items submitted for certification will be considered cleared 90 days from the date of sale, and (6) in the event any item is determined to be "not as described", the buyer will be refunded the purchase price, plus interest accrued on the purchase price at the prevailing Treasury Bill Rate from the date of payment, and the certification fee up to $100.00 unless otherwise agreed.

9. Until paid for in full, all lots remain the property of the Galleries on behalf of the seller.

10. Agents executing bids on behalf of clients will be held responsible for all purchases made on behalf of clients unless otherwise arranged prior to the sale.

11. The buyer assumes all risk for delivery of purchased lots, and agrees to pay for all out-of-pocket costs incurred in shipping.

Terms and Abbreviations Used in Descriptions

Centering
The width of margins and the centering of the design within perforations are graded in strict accordance with the Scott Standard Postage Stamp Catalogue standards. The following grades are used:

**Extremely Fine (EF):** Exceptionally large margins or near perfect centering, used to describe stamps which are of superior grade for the issue.

**Very Fine (VF):** Normal size margins for the issue and well-centered with design a bit closer to one side.

**Fine (F):** Imperforate stamps may have smaller than usual margins and perforated stamps will be noticeably off-center. Issues before 1890 may have the design touched in places. If used, fairly lightly cancelled.

**Very Good (VG):** Attractive appearance, but margins or perforations may cut into.

**Good (G):** Average off-centered example with slight faults. This condition is generally acceptable for multiples and rarities.

Gum
Stamps issued before 1900 should not be expected to have original gum unless specifically stated in the description. 20th Century issues may be expected to have original gum unless described otherwise. Terms used to describe the condition of gum are as follows:

**Mint:** As issued by the post office and never hinged.

**Original Gum (O.G.):** Stamp retains full original gum showing slight disturbance caused by previous hinge, which may be present or entirely removed. Early 19th century stamps should be expected to show cracking and toning in gum, which occurs naturally over time.

**Part Original Gum:** Up to half of the gum is missing, but the remaining portion is original.

**Disturbed Original Gum:** The gum is original to the stamp, but has been noticeably affected by hinge removal and/or humidity, mount glazing, etc.

**Hinge Mark:** Noticeable area where hinge has been removed and gum has been redistributed. Stamps described with hinge marks may not be returned because of gum disturbance.

**Hinge Remnant (H.R.):** All or part of hinge remaining affixed to gum.

Covers
Minor nicks, tears and slight reduction from opening are to be expected in 19th century covers. Folded letters normally have tears in the reverse and file folds, which will not be mentioned unless they affect the stamps or markings. Light cleaning of covers is an accepted form of conservation and is not grounds for return of a lot. The terms "Extremely Fine", etc., are meant to convey the overall appearance of cover, not the condition of an individual stamp.

Catalogue Values and Estimates
Unless otherwise noted, U.S. stamps are catalogued according to the Scott 1996 U.S. Specialized Catalogue or Volume 1 (previous editions have been used to catalogue certain Special Printings). Scott 1996 or 1997 Volumes 1-5 have been used for British and foreign stamps. The 1996 Stanley Gibbons British Commonwealth Catalogue and other foreign catalogues are cited where appropriate.

Catalogue values are indicated by decimal figures in the right column (for example, "175.00"). Stamps in extremely fine quality and items for which catalogue values are not available have been given estimate ranges (for example "E. 750-1,000"). Lots offered subject to a reserve will never be reserved for more than the estimate (usually a fraction of the estimate).

THE TITO GIAMPORCARO COLLECTION OF GREAT BRITAIN'S MULREADYS AND THEIR CARICATURES AND BRITISH PRINTED AND HAND-ILLUSTRATED PICTORIAL ENVELOPES

1840 HOUSE OF COMMONS ENVELOPE.

1001° 1840, House of Commons, 1p Black on White Entire. Two-line imprint on envelope addressed to Bognor, Sussex, clearly struck red crown-circle dated January 30, 1840, light fold at top, Very Fine. After free-franking privileges for members of the Houses of Parliament were revoked with the introduction of the Uniform Penny Post act on January 10, 1840, Rowland Hill arranged for plain printed envelopes to be supplied, probably without charge, to the members of both houses. When posted in official Parliamentary boxes the envelopes incurred no postal charges. They were available on or about January 16, 1840, and this example is an extremely early use of the House of Commons envelope (reported to be the earliest). All of the Parliamentary envelopes were discontinued in May 1840. ............. E. 2,000-3,000

1839 TREASURY COMPETITION ESSAYS

1002° 1839 Treasury Competition, “Harwoods Envelopes” Essay. In Green, address panel with black eight-line imprint “SPECIMEN OF ENVELOPE, STAMP, AND ADHESIVE LABEL, SUGGESTED BY CHARLES WHITING TO THE LORDS OF HER MAJESTY'S TREASURY, AS EXEMPLIFYING HIS SUGGESTIONS FOR CARRYING OUT THE MECHANICAL REQUIREMENTS OF A CHEAP POSTAGE.”, printed on back is Whiting’s “PAID” embossed essay in Pale Red at upper left and the Beaufort House square essay in Red and Green at upper right; vertical and horizontal folds with some minor erosion spots and tears, small stain at upper left, still a Fine example of this rare 1839 Treasury Competition essay................................................................. E. 500-600
1004° 1840, Mulready Die Proof Without Value Tablet, Black on India. Engraving almost as issued (fainter lines of shading), card mounted, inscribed in pencil “Artists Proof of the Mulreadys, only 6 impressions taken. This was R. Hills copy & was obtained by me from Pearson Hill.”—minor staining, otherwise Fine, ex Shaida. E. 1,500-2,000

1005° 1840, Mulready Die Proof Without Value Tablet, Black on India. Engraving almost as issued, but with weak framelines, undeveloped skirt of the woman at lower left, other minor differences due to strength of engraving, folded to letter-sheet format and inscribed “Proof of the design for the Letter Covers”, scuffed in several places (thru paper at upper left), some soiling, nevertheless a key progressive die proof and extremely rare, ex Shaida, with 1981 B.P.A. certificate. E. 1,500-2,000

1006° 1840, Mulready Die Proof Without Value Tablet, Black on India. Almost as issued except engraving with fainter lines, pencil note in bottom margin “This proof impression India plate paper is from the original metal block before Stereotype plates were made from it. Fred. A. Philbrick” (Philbrick was a prominent 19th century collector who became president of the organization now known as The Royal Philatelic Society), ex Shaida. E. 1,500-2,000

1840, Mulready Die Proof Without Value Tablet, Black on Green Wove. Virtually identical to the issued version except for missing value, folded vertically and horizontally. According to information contained in the Yates sale catalogue (Robson Lowe, Feb. 9, 1949), four of these proofs on green paper were found among the effects of John Thompson, the engraver, and were probably pulled from the finished die by Clowes, the printer; two of these are contained in the Royal collection. A great rarity. Ex Yates, Shaida. With 1974 R.P.S. certificate. E. 1,500-2,000

1840, Mulready Lettersheet, Unfinished Plate Proof in Black on White Wove. Produced by John Thompson in March (?) 1840, showing unadopted side panels and engine-turned upper and lower panels—quite similar to Charles Whiting’s work—two light vertical folds and tiny edge tear, still Very Fine, extremely rare progressive proof containing design elements that were never adopted in the final Mulready lettersheet, ex Yates, Shaida............................................. E. 5,000-7,500
THE MULREADY PRESENTATION EXAMPLES
FROM THE ROBERT WALLACE ARCHIVE

1840, A Pair of Mulready Presentation Examples from the Robert Wallace Archive. The first item is a progressive die proof without value tablet, in Black on India, almost as issued except with fainter lines, folded to lettersheet format (minor damp staining and splits along folds), with archival note in pencil in top margin:

"Unfinished proof of Penny Postage Cover presented to Mr. Wallace by Rowland Hill, March 15th 1840".

Three days later, the printing contract for the Mulreadys was awarded to William Clowes.

The second item is a finished 2p Blue lettersheet (Stereo a91) on Dickinson thread paper, inscribed "Proof" over value tablet, with Wallace archival note in pencil in top panel:

"Completed Penny Postage Stamp Cover presented to Mr. Wallace by the Right Hon. Francis Thornhill Baring, April 15th, 1840".

Francis Thornhill Baring was Chancellor of the Exchequer during the postal reform. It was he who suggested that Henry Cole, who was responsible for selecting appropriate designs for the new postage stamps and stationery, visit William Mulready. On April 15th, the presentation date on this 2p lettersheet, Henry Cole wrote to William Mulready, enclosing a 2p lettersheet from stereo a99 (also inscribed "Proof") and stating "My dear Sir, Here are specimens of the real thing"—Mulready’s first look at the finished examples of his design.

A UNIQUE AND HISTORIC PAIR OF MULREADYS, PRESENTED TO ONE OF THE LEADING POSTAL REFORMERS OF THE 19TH CENTURY BY THE MEN RESPONSIBLE FOR THE MULREADY'S CREATION.

Robert Wallace was one of the foremost postal reformers of the 1830's and 1840's, and his efforts paved the way for cheap postage and Rowland Hill's reforms. As progress was made in the months before the May release of the Mulreadys, Wallace was kept abreast of the developments, as evidenced by these two examples linking Wallace with Rowland Hill, Francis Baring and the ill-fated Mulready stationery. These are the only examples known to us that are securely dated prior to May 1, 1840—none is contained in the Phillips collection at the National Postal Museum in London.

Ex Shaida (where the pair realized 88,550 Sfr.)...................... E. 20,000-30,000

AN EXTRAORDINARY USE OF THE MULREADY TO THE AUSTRALIAN COLONIES DURING THE FIRST TWO WEEKS OF ISSUE. PROBABLY THE FIRST EXAMPLE TO BE SEEN IN THAT PART OF THE WORLD.

New South Wales introduced the world’s first prepaid postal stationery in November 1838. The colonial postmaster, James Raymond, was spurred on by a copy of Rowland Hill’s 1837 pamphlet on postal reform and issued embossed stationery for the convenience of local patrons. The Sydney Two-Penny Post lettersheets never gained popularity, although they remained in use until 1851. The arrival of Great Britain’s Mulready, mailed just two weeks after going on sale, was surely a source of fascination for the Sydney postmaster.

PICTORIAL ENVELOPES BY HUGH ROSE

The King-Harman Correspondence

The following lots originate from the famous King-Harman correspondence between Hugh Rose, the artist, and Constance King-Harman or members of her family. They represent the Victorian custom of illustrating envelopes with the greatest degree of ability and imagination.

Captain, and later Lieutenant-Colonel, Hugh Rose (1863-1946) was a member of the Black Watch. He served in the Nile expedition of 1885-86, the Boer War in 1901-02, and in Europe during the first World War. Constance King-Harman (1871-1961) was the daughter of a general and the wife of Sir Charles King-Harman, a British overseas administrator and governor. Captain Rose developed a close relationship with the King-Harman family while he served as aide-de-camp to Charles King-Harman in Mauritius during the early 1890s.

In addition to the obvious excellence of the artwork, the King-Harman correspondence is noteworthy for the geographic origins and destinations. All of the following items are complete envelopes, painted in watercolor. Some have minor flap defects from mounting.
