Conditions of Sale

The property described in this catalogue will be offered at public auction by Robert A. Siegel Auction Galleries, Inc. ("Galleries") on behalf of various consignors and itself or affiliated companies. By bidding on any lot, whether directly or by or through an agent, in person, or by telephone, facsimile or any other means, the bidder acknowledges and agrees to all of the following Conditions of Sale.

1. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "final bid" means the last bid acknowledged by the auctioneer, which is normally the highest bid offered. The purchase price payable by the buyer will be the sum of the final bid and a commission of 10% of the final bid ("buyer's premium"), together with any sales tax or use tax which may be due on the sale.

2. The auctioneer has the right to reject any bid, to advance the bidding at his discretion and, in the event of a dispute between bidders, to determine the successful bidder, to continue the bidding or to reoffer and resell the lot in dispute. The Galleries' record of the final sale shall be conclusive.

3. All bids are per numbered lot in the catalogue unless otherwise announced by the auctioneer at the time of sale. The right is reserved to group two or more lots, to withdraw any lot or lots from the sale, or to act on behalf of the seller. The Galleries will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.

4. Lots with numbers followed by the symbol * are offered subject to a confidential minimum final bid ("reserve"), below which the lot will not be sold. The absence of the symbol * means that the lot is offered without a reserve. In the absence of a reserve, the auctioneer has sole discretion to establish a minimum opening bid and may refuse an offer of less than half of the published estimate. Any lot that does not reach its reserve or opening bid requested by the auctioneer will be announced as "passed" and excluded from the prices realized lots after the sale. The Galleries may have a direct or indirect ownership interest in any or all lots in the sale resulting from an advance of monies or goods-in-trade or a guarantee of minimum net proceeds made by the Galleries to the seller.

5. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason: Lots containing ten or more items; lots from buyers who have registered for the pre-sale exhibition or received lots by postal viewing, thereby having had the opportunity to inspect them before the sale; any lot described with "faults" or "defects" may not be returned because of any fault or defect. No illustrated lots may be returned because of centering, margins or other factors shown in the illustrations.

6. Successful bidders, unless they have established credit with the Galleries prior to the sale, must make payment in full before the lots will be delivered. Buyers known to the Galleries must make payment in full within three days from the date of sale. The Galleries retain the right to demand a cash deposit from anyone prior to bidder registration and/or to demand payment at the time the lot is knocked down to the highest bidder, for any reason whatsoever. In the event that any buyer refuses or fails to make payment in cash for any lot at the time it is knocked down to him, the auctioneer reserves the right to reoffer the lot immediately for sale to the highest bidder.

7. If the purchase price has not been paid within the time limit specified above, nor lots taken up within seven days from the date of sale, the lots will be resold by whatever means deemed appropriate by the Galleries, and any loss incurred from resale will be charged to the defaulting buyer. Any account more than thirty days in arrears will be subject to a late payment charge of 1½% per month as long as the account remains in arrears. Any expenses incurred in securing payment from delinquent accounts will be charged to the defaulters. A fee of $250.00 per check will be charged for each check returned for insufficient funds.

8. All lots are sold as genuine. Any lot which is accompanied by an expert certificate (for U.S. items, the accepted authority is The Philatelic Foundation), dated within the past five years of the sale date, is sold "as is" and in accordance with the description on the certificate. Such lots may not be returned for any reason, including but not limited to a contrary certificate of opinion obtained after the sale. Buyers who wish to obtain a certificate for any item that is not accompanied by a certificate dated within the past five years may do so, provided that the following conditions are met: (1) the purchase price must be paid in full, (2) the item must be submitted to an acceptable expertizing committee with a properly executed application form within 21 days of the sale, (3) a copy of the application form must be given to the Galleries, (4) in the event that an adverse opinion is received, the Galleries retain the right to resubmit the item on the buyer's behalf for reconsideration, without time limit or other restrictions, (5) unless written notification to the contrary is received, items submitted for certification will be considered cleared 90 days from the date of sale, and (6) in the event any item is determined to be "not as described", the buyer will be refunded the purchase price and the certification fee up to $100.00 unless otherwise agreed.

9. Until paid for in full, all lots remain the property of the Galleries on behalf of the seller.

10. Agents executing bids on behalf of clients will be held responsible for all purchases made on behalf of clients unless otherwise arranged prior to the sale.

11. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs (see back of Bid Form).

12. The bidder consents that any action or proceeding against it may be commenced and maintained in any court within the State of New York or in the United States District Court for the Southern District of New York, that the courts of the State of New York and United States District Court for the Southern District of New York shall have jurisdiction with respect to the subject matter hereof and the person of the bidder. The bidder agrees not to assert any defense to any action or proceeding initiated by Galleries based upon improper venue or inconvenient forum. The bidder agrees that any action brought by the bidder shall be commenced and maintained only in a Federal Court in the United States District Court for the Southern District of New York or the State Court in the county in which Galleries has its principal place of business in New York. These Terms and Conditions shall be governed by and construed in accordance with the substantive laws of the State of New York.

Centering and Gum

Margin width, centering and gum are graded according to Scott Catalogue standards.

**Extremely Fine (EF):** Exceptionally large margins or near perfect centering. The term “Gem” describes condition that is the finest possible for the issue.

**Very Fine (VF):** Normal size margins for the issue and well-centered with the design a bit closer to one side.

**Fine (F):** Smaller than usual margins or noticeably off center. Pre-1890 issues may have the design touched in places.

**Very Good (VG):** Attractive appearance, but margins or perforations cut into the design.

**Good (G) or Average (Ave.):** Cut into or perfs far into design and usually with slight faults. This condition is generally acceptable for rarities, scarce multiples or stamps used on unusual covers.

**Disturbed Original Gum:** Gum showing noticeable effects of humidity, climate or hinging over more than half of the gum. The significance of gum disturbance in valuing a stamp in any of the Original Gum categories depends on the degree of disturbance, the rarity and normal gum condition of the issue and other variables affecting quality. For example, stamps issued in tropical climates are expected to have some gum disturbance due to humidity, and such condition is not considered a negative factor in pricing.

**Covers**

Minor nicks, short edge tears, flap tears and slight reduction at one side are normal conditions for 19th century envelopes. Folded letters should be expected to have at least one file fold. Light cleaning of covers and small mends along the edges are accepted forms of conservation. Unusual covers may have a common stamp with a slight crease or tiny tear. These flaws exist in virtually all 19th century covers and are not always described. They are not grounds for return.

**Catalogue Values and Estimates**

Unless otherwise noted, the currently available *Scott Catalogue* values are quoted in dollars with a decimal point. Other catalogues are often used for foreign countries or specialized areas and are referred to by their common name: *Stanley Gibbons (SG), Dietz, American Air Mail Catalogue (AAMC), Michel, Zumstein, Facit,* etc. Estimates are indicated with an “E.” and reflect our conservative valuation in dollars. Reserves will never exceed the low end of the estimate range; they will sometimes exceed *Scott Catalogue* value for stamps in Extremely Fine condition.

Because of certain pricing inconsistencies in the *Scott Catalogue*—for example, blocks that have no gum, the absence of premiums for Mint N.H. items, etc.—we cannot guarantee the accuracy of values quoted for multiples, specialized items and collection lots. We generally try to be conservative, but buyers may not return a lot because of a discrepancy in catalogue value due to *Scott* pricing inconsistencies.

Introduction to The Sevenoaks Collection

A DECADE AGO THE GENTLEMAN behind the Sevenoaks collection attended a stamp auction I was calling and bought several lots of decidedly mixed quality. It was a humble beginning to what has become a great collection, achieved through careful study, determined acquisition and the willingness to cull items deemed unworthy by increasing standards.

The entire Sevenoaks collection — named for the owner’s estate — covers the period from 1847 to 1861. A major part of the collection was exhibited by invitation at Anphilex ’96, the centenary celebration of the Collectors Club of New York. The Anphilex exhibition catalogue described the Sevenoaks collection as “a representative collection, containing items selected for their aesthetic appeal and rarity... to show how stamps of this classic period were used.” Those are the dry words of academic philately, describing what I believe is one of the most outstanding classic United States collections ever formed. In content and quality, it compares closely with the Krug, Neinken, Wunderlich, Rohloff, Baker and Grunin collections.

The owner’s decision to sell is part of the natural (and healthy) evolutionary process most collectors experience. Only the imperforate issues will be sold at this time. The choice to sell imperforate issues was made because the 1857-61 perforated issues are more abundant and more diverse, and thus they satisfy this collector’s appetite for acquisition. For the same reason, collectors of imperforate issues who find the marketplace somewhat barren will marvel at the number, importance and quality of the items in this sale.

The 173 lots offered include many highlights of the major collections sold during the past ten years. To point out certain items in this introduction would serve an injustice upon others not mentioned. Viewed as a whole, the collection offers a careful balance between philately and postal history. It will generate an equal amount of excitement among collectors of gem quality stamps, collectors of rare varieties and multiples, collectors of beautiful covers and collectors of unusual covers.

Whenever a collection is offered under a pseudonym, there is the possibility that the collector has deprived himself of proper recognition over concerns for privacy. If the collector behind Sevenoaks must be identified by his achievement and not by his name, then this catalogue will begin to create the recognition he deserves.

THE SEVENOAKS COLLECTION OF UNITED STATES CLASSIC IMPERFORATE ISSUES 1847-1856

1847 ISSUE

1° ★ 5c Red Brown (1). Horizontal block of six, full original gum (slightly thicker at center), large margins except at bottom right where slightly into frameline and upper right where frameline touched, beautiful bright shade, choice appearance but three vertical creases affect five stamps (upper right not affected), tiny thin in bottom center stamp, small scissors-cut in right margin

VERY FINE APPEARANCE AND AN EXTREMELY RARE BLOCK WITH ORIGINAL GUM.

With 1973 P.F. certificate describing "light vertical creases" only. Scott Retail for block and pair with original gum $43,500.00............................................... E. 7,500-10,000

2° ★ 10c Black (2). Extraordinarily huge margins including full top sheet margin and large parts of adjoining stamps at left and right, part original gum, tiny scissors-cut in bottom right margin not touching design, light vertical and diagonal crease not affecting appearance

EXTREMELY FINE APPEARANCE. THIS FAMOUS STAMP FROM THE CASPARY AND LILLY COLLECTIONS IS WIDELY REGARDED AS THE MOST OUTSTANDING SINGLE 10-CENT 1847 EXTANT.

This stamp is described in the Brookman book (Vol. 1, p.60) as follows: "The finest unused single undoubtedly is the tremendous sheet margin copy sold in the first Caspary Sale in 1956 for $1,800.00. This is a record that might stand forever unless this particular copy is resold. It has a sheet margin at the top, wide margin at the bottom, and shows large portions of the stamps at each side. An almost unbelievable copy."

The Caspary realization of $1,800 was 7.2 times the $250 Scott Catalogue value in 1956. The Lilly realization of $4,400 was 6.3 times the $700 Scott Catalogue value in 1967. Applying the average multiple from these two previous auction realizations (6.75) to the 1998 Scott Catalogue value yields $175,500.

Ex Caspary and Lilly. With 1967 and 1991 P.F. certificates........................................... 26,000.00

E. 3,000-4,000

VERY FINE. ONE OF THREE 5-CENT 1847 COVERS RECORDED FROM INDIAN TERRITORY AND THE ONLY 1847 ISSUE COVER KNOWN FROM EAGLETOWN.

In addition to this 5c cover from Eagletown, there are two 5c 1847 covers from Doaksville to Colonel Pitchlynn at Eagletown and five 10c 1847 covers used from Doaksville (four addressed to the wife of Lieut. Clinton W. Lear).

Colonel Peter Perkins Pitchlynn, born to a Native American mother and a white interpreter commissioned by George Washington, was a prominent figure in Native American affairs from 1835 until his death in 1881. His memorial in the Washington D.C. Congressional Cemetery bears the inscription, “Chief and Delegates of the Choctaw Nation for whose advancement many years of his life were devoted—Choctaw Brave.”

This letter was mailed to Col. Pitchlynn while he was in Washington D.C. to negotiate and sign the Treaty of Washington in 1854. (Reference: Creighton C. Hart, “1847 Covers from Indian Territory”, Chronicle 72, pp. 182-185).

The use of an 1847 stamp in 1854, three years after the issue was demonetized, is also quite unusual. The recent Alexander census of post-demonetization 1847 covers (Chronicle 174) lists 69 examples, of which two are used from Indian Territory, including the cover offered in this sale.

A cover of tremendous historical interest........................................ E. 5,000-7,500

EXTREMELY FINE. ONE OF FOUR RECORDED MATCHING DIAGONAL BISECTS FROM THE EVANS CORRESPONDENCE. A BEAUTIFUL PAIR OF HEADSTAMPS IN THE FINEST ATTAINABLE QUALITY.

This pair of matched bisects comes from the correspondence written by former U.S. Senator from Maine, George Evans, to his wife. The Evans correspondence was the subject of two articles by the late Susan M. McDonald (Chronicle Nov. 1969, Feb. 1984), who conjectured that Senator Evans was writing to his wife while she stayed at one of the medical spas existing in Brattleboro at the time. According to our records, the Evans correspondence yielded four pairs of matched bisects, all diagonal. The first pair (in chronological sequence) is postmarked in red, dated Apr. 28 and May 2 (ex Moody, Baker and sold in our 1996 Rarities sale for $44,000). The second sequential pair is postmarked in red (May 5) and blue (May 8), both offered in the Meroni sale (John A. Fox, Nov. 10-14, 1952). The third pair is dated May 12 and May 14, both postmarked in blue (ex Knapp). The fourth and latest recorded pair is offered in this sale. In addition to the Gardiner bisects, a fifth matched pair of diagonal bisects, cancelled in manuscript, was found in the Stilpin correspondence. There is also a unique matched pair of vertical bisects used from New York City (ex Haas and Kapillof).

Illustrated in Amphilex '96 exhibition catalogue (p. 38). Ex Rust (from our 1981 Rarities sale, where this pair realized $44,000), Garrett and Kapillof (our Sale 742, realized $49,500). Each with 1937 A.P.S. certificate............................... E. 50,000-75,000

VERY FINE. THE ONLY RECORDED USE OF THE 1847 ISSUE ON A SHIP LETTER RECEIVED AT A UNITED STATES PORT AND SENT TO BRITISH NORTH AMERICA. ONE OF THE MOST REMARKABLE 1847 COVERS IN EXISTENCE.

This extraordinary cover was discussed in detail by the late Creighton C. Hart in his article "1847 Covers to Canada: Part II" (Chronicle, Nov. 1973). Hart described this as "One of the most unusual covers to Canada" and explained the usage: "This letter came into Eastport on a coastal ship and the captain received 2c from the Eastport post office for his service. Unfortunately the original letter is missing, but Eastport is just a port stop away from St. John, New Brunswick. Carriage of mail by coastal vessels from ports in Maritime was a common practice. The stamp was on the envelope before it reached the States and may represent a use of the '47 stamps from New Brunswick. If the letter had originated at Eastport there would not be the "due" and "SHIP 2" markings." Adding a final comment, Hart wrote "It's treasures such as this that make philatelic hunting sometimes very rewarding."

The Alexander census records 5c and 10c 1847 stamps on two other separate covers originating in St. John, New Brunswick. Both are addressed within the United States and were not treated as ship letters. The cover offered here is remarkable not only as a use of the 1847 Issue from outside United States borders—almost certainly St. John—but also as an inbound ship letter received in transit to Canada. We know of no other comparable 1847 Issue cover............................................. E. 20,000-30,000

FRESH AND VERY FINE. ONE OF THE RAREST UNITED STATES AND CANADIAN CROSS-BORDER FRANKINGS.

The treaty rate of 10c U.S. or 6p Canadian began on April 6, 1851. The 1847 Issue was demonetized on July 1st, leaving a brief period in which 1847 stamps could be used to prepay the treaty rate. Two, one with large margins, other just in at left, each cancelled by bold black grid, green “N.O.U.S. City Post, Sep. 29” snow-shovel datestamp applied by carrier department, brilliant red “New Orleans La. Sep. 30” cds on 1851 folded letter to Bordeaux, France, red Paris cds, black French decimes due hs, receiving backstamps A VERY FINE AND EXTREMELY RARE, PERHAPS UNIQUE, USAGE OF THE NEW ORLEANS CARRIER MARKING ON A TRANSATLANTIC LETTER BEARING THE 1851 3-CENT ORANGE BROWN.

According to contemporary advertisements for the New Orleans carrier service, which began on July 1, 1851, there was no charge for letters carried in the post office for delivery outside of New Orleans. Examples of the N.O.U.S. markings on outbound mail are exceedingly scarce, especially on letters bound for Europe. The 6c postage on this letter was probably intended, out of the sender’s misunderstanding of the carrier fee structure, to prepay the 5c inland rate plus 1c for carrier service.

A VERY FINE AND EXTREMELY RARE USE OF THE BROWNE & CO. STAMP FOR DELIVERY TO THE MAILS ON A TRANSATLANTIC COVER.

The Browne & Co. 1-cent local stamp prepaid the fee for delivery to the Cincinnati post office. The "5" in circle was used to cancel the stamp in New York City before posting aboard the next steamer bound for England. This is one of two known examples of the Browne & Co. local stamps on a transatlantic cover, the other being a later usage from the same correspondence, on which there is no U.S. government stamp.

THE ONLY RECORDED COVER BEARING A PAIR OR ANY MULTIPLE OF THE 1855 5-CENT KAMEHAMEHA FIRST PRINTING. ONE OF THE MOST OUTSTANDING MIXED-FRANKING COVERS OF THE PERIOD.

This cover comes from the Archer correspondence, which includes the unique Missionary/Kamehameha mixed franking offered as lot 6 in the Honolulu Advertiser sale. The cover does not have a year-date, but was probably carried in 1856 on the Yankee, which cleared Honolulu on September 4 and arrived in San Francisco on September 21. The San Francisco datetamp does not show the day clearly, but it was probably postmarked on or about the first of the month when the next Panama sailing was set to depart. The small red pencil “32c” accurately reflects the necessary postage for a double-rate letter (2 x 5c Hawaiian = 10c, plus 2 x 10c U.S. = 20c, plus the 2c ship captain’s fee), but the use of two 12c stamps involved a 2c overpayment.

By September 1856 the Honolulu post office was beginning to run short of 5c stamps, as a consequence of the April 1855 rate change, which increased the Hawaii-U.S. rate from 13c to 17c and created greater demand for 5c-plus-12c frankings. This pair is the only recorded multiple of the 5c First Printing (Scott 5) on cover.
