Conditions of Sale

The property described in this catalogue will be offered at public auction by Robert A. Siegel Auction Galleries, Inc. ("Galleries") on behalf of various consignors and itself or affiliated companies. By bidding on any lot, whether directly or by or through an agent, in person, or by telephone, facsimile or any other means, the bidder acknowledges and agrees to all of the following Conditions of Sale.

1. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "final bid" means the last bid acknowledged by the auctioneer, which is normally the highest bid offered. The purchase price payable by the buyer will be the sum of the final bid and a commission of 10% of the final bid ("buyer's premium"), together with any sales tax or use tax which may be due on the sale.

2. The auctioneer has the right to reject any bid, to advance the bidding at his discretion and, in the event of a dispute between bidders, to determine the successful bidder, to continue the bidding or to reoffer and resell the lot in dispute. The Galleries' record of the final sale shall be conclusive.

3. All bids are per numbered lot in the catalogue unless otherwise announced by the auctioneer at the time of sale. The right is reserved to group two or more lots, to withdraw any lot or lots from the sale, or to act on behalf of the seller. The Galleries will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.

4. Lots with numbers followed by the symbol * are offered subject to a confidential minimum final bid ("reserve"), below which the lot will not be sold. The absence of the symbol * means that the lot is offered without a reserve. In the absence of a reserve, the auctioneer has sole discretion to establish a minimum opening bid and may refuse an offer of less than half of the published estimate. Any lot that does not reach its reserve or opening bid requested by the auctioneer will be announced as "passed" and excluded from the prices realized lists after the sale. The Galleries may have a direct or indirect ownership interest in any or all lots in the sale resulting from an advance of monies or goods-in-trade or a guarantee of minimum net proceeds made by the Galleries to the seller.

5. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned within 14 days of receipt. All disputed lots must be returned intact with the original packing material. The following lots may not be returned for any reason: Lots containing ten or more items; lots from buyers who have registered for the pre-sale exhibition or received lots by postal viewing, thereby having had the opportunity to inspect them before the sale; any lot described with "faults" or "defects" may not be returned because of any fault or defect. No illustrated lots may be returned because of centering, margins or other factors shown in the illustrations.

6. Successful bidders, unless they have established credit with the Galleries prior to the sale, must make payment in full before the lots will be delivered. Buyers not known to the Galleries must make payment in full within three days from the date of sale. The Galleries retain the right to demand a cash deposit from anyone prior to bidder registration and/or to demand payment at the time the lot is knocked down to the highest bidder, for any reason whatsoever. In the event that any buyer refuses or fails to make payment in full for any lot at the time it is knocked down to him, the auctioneer reserves the right to reoffer the lot immediately for sale to the highest bidder.

7. If the purchase price has not been paid within the time limit specified above, nor lots taken up within seven days from the date of sale, the lots will be resold by whatever means deemed appropriate by the Galleries, and any loss incurred from resale will be charged to the defaulting buyer. Any account more than thirty days in arrears will be subject to a late payment charge of 1 1/2% per month as long as the account remains in arrears. Any expenses incurred in securing payment from delinquent accounts will be charged to the delinquent. A fee of $250.00 per check will be charged for each check returned for insufficient funds.

8. All lots are sold as genuine. Any lot which is accompanied by an expert certificate (for U.S. items, the accepted authority is the Philatelic Foundation), dated within the past five years of the sale date, is sold "as is" and in accordance with the description on the certificate. Such lots may not be returned for any reason, including but not limited to a contrary certificate of opinion obtained after the sale. Buyers who wish to obtain a certificate for any item that is not accompanied by a certificate dated within the past five years may do so, provided that the following conditions are met: (1) the purchase price must be paid in full, (2) the item must be submitted to an acceptable expertizing committee with a properly executed application form within 21 days of the sale, (3) a copy of the application form must be given to the Galleries, (4) in the event that an adverse opinion is received, the Galleries retain the right to reinspect the item on the buyer's behalf for reconsideration, without time limit or other restrictions, (5) unless written notification to the contrary is received, items submitted for certification will be considered cleared 90 days from the date of sale, and (6) in the event any item is determined to be "not as described", the buyer will be refunded the purchase price and the certification fee up to $100.00 unless otherwise agreed.

9. Until paid for in full, all lots remain the property of the Galleries on behalf of the seller.

10. Agents executing bids on behalf of clients will be held responsible for all purchases made on behalf of clients unless otherwise arranged prior to the sale.

11. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs (see back of Bid Form).

12. The bidder consents that any action or proceeding against it may be commenced and maintained in any court within the State of New York or in the United States District Court for the Southern District of New York, that the courts of the State of New York and United States District Court for the Southern District of New York shall have jurisdiction with respect to the subject matter hereof and the person of the bidder. The bidder agrees not to assert any defense to any action or proceeding initiated by Galleries based upon improper venue or inconvenient forum. The bidder agrees that any action brought by the bidder shall be commenced and maintained only in a Federal Court in the United States District Court for the Southern District of New York or the State Court in the county in which Galleries has its principal place of business in New York. These Terms and Conditions shall be governed by and construed in accordance with the substantive laws of the State of New York.

Grading Terms, Abbreviations and Values Used in Descriptions

Centering and Gum
Margin width, centering and gum are graded according to Scott Catalogue standards.

Extremely Fine (EF): Exceptionally large margins or near perfect centering. The term “Gem” describes condition that is the finest possible for the issue.

Very Fine (VF): Normal size margins for the issue and well-centered with the design a bit closer to one side.

Fine (F): Smaller than usual margins or noticeably off center. Pre-1890 issues may have the design touched in places.

Very Good (VG): Attractive appearance, but margins or perforations cut into the design.

Good (G) or Average (Ave.): Cut into or perfs far into design and usually with slight faults. This condition is generally acceptable for rarities, scarce multiples or stamps used on unusual covers.

Mint Lightly Hinged Hinge Mark or Never Hinged Faint impression
Remnant

1999

YEARS FROM NOW THERE WILL BE DISCUSSIONS around the dinner table about what it was like to live at the turn of the 20th century and, of course, where we were when the dreaded Y2K struck.

From the stamp collector’s perspective, entering the third millenium (anno Domini) is filled with uncertainty. We ask ourselves, will stamps endure? Where will new collectors be created? Can stamps compete with Super Nintendo? How will organic elements such as paper, ink and that most precious of all philatelic commodities—gum—maintain their post-office fresh state of existence? Will Bill Gates decide to collect stamps and buy up all of the great rarities?

The answer to this neurotic philatelic fretting is that things will stay pretty much the same. They’ll probably get better, too.

Stamps will be around a long time because, like love letters and buttons on clothing, they appeal to our emotions and serve a practical purpose with artistry—something that meters and e-mail cannot match.

Over the next fifteen to twenty years, new collectors will come from the population born between the years 1950 and 1970, who are now turning 50 and 30—people such as I. We collected as kids. Through hard work and savings, we now have disposable income. Collecting stamps is something we enjoy and can afford. And, after we are gone, there will be others—if only because the postal services of the world are the best marketing force there is.

Computers? If anything, the digital age will make it possible to see more stamps, more of the time, in full color and with lots of information. Those of us who spent time in a local stamp shop will miss it, but to the generation who knows the internet before first grade, the resources are much greater and more diverse. And it will only become faster and easier to use them.

Preservation of stamps is a significant issue with real challenges. Sulphur in the air and climatic changes are concerns. The use of photocopiers and scanners affects ink and paper. And natural degradation of organic matter should be studied with the intent to prevent problems far off in the future. However, as science and medicine continue to extend the human lifespan, certainly something will be done to ensure that stamps also survive.

As for Gates or another mega-rich dude plundering the market, here is where I start breaking a sweat. Collectors (and auctioneers) thrive on supply. Stamps trading back and forth create opportunities (and commissions). A free market full of stamps is good. A rigged market or one deprived of stamps is bad...very bad. So, I will keep my fingers crossed that a) those who buy always have the incentive to sell, b) no more stamp collections are stolen and removed from the supply, c) collections are sold and not donated to institutions, and d) sellers keep choosing the open market for buying and selling, and professionals do everything in their power to maintain the market's integrity.

The last Rarities sale of the 20th century is, I think, one of our best ever. I hope you will agree—and I encourage everyone to bid like it’s 1999.

**The Amistad Case.** Autograph letter signed by Roger S. Baldwin ("R. S. Baldwin") to Theodore Sedgwick in New York City, datelined New Haven Ct., Nov. 21, 1840, red "New Haven Ct. Nov. 29" circular datestamp, ms. "10" rate, receipt docketing, some soiling on one half of address leaf, the letter is very clean and readable.

**ROGER S. BALDWIN. ATTORNEY FOR THE IMPRISONED SLAVES FROM THE AMISTAD, DISCUSSES PREPARATIONS FOR ARGUING THEIR CASE BEFORE THE SUPREME COURT AND DESCRIBES JOHN QUINCY ADAMS'S CONFIDENCE THAT THE PROSECUTION "CANNOT HOPE TO BE SUCCESSFUL."

The Amistad case, which was tried before the Supreme Court in 1840, established the important principle that the United States should treat any slave who escaped from illegal bondage as a free man. Ex-President John Quincy Adams, an anti-slavery advocate, eloquently presented the argument on behalf of the Amistad captives to the Supreme Court. At the time, the case attracted widespread national and international attention, but for many years, it was lost to the history books. Its significance was recently revived with the production of a major motion picture, *Amistad*, directed by Steven Spielberg.

This letter, written in November 1840, explicitly refers to the case. It reads, in part: "The facts which were principally in controversy on the trial in the District Court, are now distinctly admitted on the record via the authenticity of the decision of 1817, the treaties of 1817 & 1815, the Ordinance of Nov. 1838 & the fact that the negroes are native Africans recently imported into Cuba. Mr. Adams, who spent the day here on Tuesday, in consultation, thinks the Court, when they see the record, may abandon their appeal without a hearing; as they are very confident they cannot hope to be successful. If it is argued, he will go very fully into it. By the way, if you suggest, our friends expect both of us to argue the case with the Ex president, they must apprehend they cannot be disappointed, as it will not be in our power to gratify them, consistently with the rules of the Supreme Court, which only allow two counsel on a side."

An important letter, which has only recently come to light.................. E. 5,000-7,500

**Francis Scott Key.** 2pp autograph letter signed "F S Key" and datelined at Georgetown D.C. Apr. 2, 1828, to J. H. B. Latrobe in Baltimore regarding legal issues involving the American Colonization Society, for which Latrobe served as president for many years (he prepared the first map of Liberia), the letter pertains to a settlement arising from the transportation of colonists and cargo, red "Geoc. Town D.C. Apr. 3" cds and ms. "10" rate, several folds, still clean with bold handwriting. Key was not only the author of The Star-Spangled Banner but a very successful attorney — the association between Key, one of the colorful patriots of 19th century America, and the society that created a nation for freed slaves is a very desirable bit of history .................. Hale & Co., (6c) Red, Ms. "23 State" Overprint (75L2 var). Position 2, octagonal design cut to shape, tiny tear, tied by ms. cross strokes (in style of the precancel that was applied with ruler) on bluish folded cover to Boston, docketing on flap dated Mar. 26, 1845, with pencil notation that the origin was Worcester, ms. "Late for Tuesday", small cover tear at top center

VERY FINE. THE ONLY RECORDED HALE & CO. RED STAMP WITH MANUSCRIPT OVERPRINT SHOWING CHANGE OF ADDRESS. A SIGNIFICANT INDEPENDENT MAILS RARITY.

Accompanied by copy of Robson Lowe letter authenticating the cover and commenting on its rarity. The handstamped "City Despatch Office, 23 State St." overprint is listed in Scott as 75L3 (Red stamp) and 75L4 (Blue stamp), and the manuscript "23 State St." on Blue stamp with blank address is listed as a variety of 75L5. This manuscript overprint on the scarcer Red stamp is currently not listed, although that is likely to change when attention is drawn to this cover. With 1973 P.F. certificate ................. E. 2,000-3,000
Hale & Co., (6c) Blue, Without Street Address (75L5). Two cut-to-shape stamps with different styles of magenta pen "NB" New Bedford pre-cancel, used on separate 1844 folded letters, one cancelled by red "Paid" struck twice, matching "Forwarded by Hale & Co. from New Bedford" oval (letter dated Aug. 20), other cancelled by red boxed Collect handstamp, black "Forwarded by Hale & Co. from New Bedford" oval (letter dated Jul. 12), both stamps tied by file creases, fresh and Very Fine, the Hale & Co. stamps with New Bedford precancels are extremely rare — a marvelous pair...\ldots... E. 1,000-1,500

Hartford Mail Route, (5c) Black on Yellow Glazed (80L1). Ample margins to slightly in, ms. "South" cancel, used on folded cover addressed in blue to New York City, red "Hale & Co.'s Worcester Mail" oval handstamp, matching "Collect Six Cents for Hale & Co." framed handstamp, receipt docketing dated Jun. 17, 1845, the last month of independent mails before ban on July 1, file fold EXTREMELY FINE. ONE OF THE FEW KNOWN EXAMPLES OF THE HARTFORD MAIL ROUTE STAMP USED IN CONJUNCTION WITH HALE OR ADAMS MARKINGS. IN MANY RESPECTS THE MOST ATTRACTIVE OF ALL HARTFORD MAIL ROUTE COVERS.

Although our records of Hartford Mail Route covers are somewhat incomplete, sources consulted reveal only four covers showing the Hartford Mail Route stamp used in conjunction with independent mail service provided by Hale or Adams. According to an article by Francis E. Stern (Collectors Club Philatelist, Vol. 41, No. 3, pp. 109-117), the Hartford Mail Route was operated by two principals, Parsons and Fuller. Parsons also served as superintendent of the Adams Express, and Fuller was the terminal agent for Thompson & Co. express. The Hartford Mail Route linked with Hale and Adams, evidenced by examples showing conjunctive use on mail between cities via Hartford. The manuscript markings on stamps coincide with the direction from Hartford; in this case, "South" to New York City.

Menant & Co. Express Post, New Orleans La., 2c Dark Red (104L1). Unused (no gum), large margins all around, light vertical crease

VERY FINE APPEARANCE. ONE OF FOUR RECORDED EXAMPLES OF THE MENANT & CO. LOCAL POST STAMP. A GREAT PHILATELIC RARITY.

The Scott Catalogue contains a footnote to No. 104L1 that reads "Only one genuine example is known. It has a Philatelic Foundation certificate." The stamp offered here also has a certificate, and it is the second of two stamps certified genuine by the Philatelic Foundation. There is a total of four in our records (all unused): 1) ex Souren, illustrated in The Great Mail (p. 133); 2) ex Middendorf (faults incl. hole at top right); 3) ex Caspary (thins) and 4) the stamp offered here, which is a recent discovery.

According to The Great Mail, Menant & Co.'s Express Post commenced operations in 1853 at 21 Conti Street and were still in business as late as 1856, although at a different address, 118 Exchange Place, near the post office.

Roumet backstamp.......................... 5,000.00

17° Millbury Mass., 5c Black on Bluish (7X1). Two clear to ample margins, just into outer rim at top and left, clear impression on bright fresh paper, tied by neat “Millbury Ms. Mar. 23” circular datestamp in red on piece of folded cover (circa 1847), light folds in piece clear of stamp.

A VERY FINE EXAMPLE OF THIS DISTINCTIVE POSTMASTER’S PROVISIONAL STAMP. THE ONLY SOUND COPY AMONG THE NINE USED STAMPS RECORDED ON PIECE OR OFF COVER.

This piece is illustrated and discussed in Philip T. Wall's article on the Millbury provisional (Chronicle 120 and 121), in which he records seventeen examples (an eighteenth stamp on cover has since been recorded). There are three stamps known on pieces, two of which are tied by the town marking. The stamps on the other two pieces are creased.

All of the six used stamps off cover and not on piece have creases or more serious faults.

THE HEIDELBERG COVER

5c Orange Brown, 10c Black (1b, 2). 10c large margins at sides, ample at bottom and just in at top, fine impression on deep bluish paper, used with 5c horizontal strip of five, large margins except close at bottom of center stamp, which also has a sharp pre-use crease ending in small tear, beautiful rich Orange Brown shade — a late printing from the cleaned plate — tied by red 9-bar open grid cancels, matching “Mic. Central R.R. Mic. Apr. 4” (1851) Michigan Central Railroad route agent’s circular datestamp on white envelope to Heidelberg, Baden, Germany, red “New-York Apr. 8” backstamp and Heidelberg May 9 receiving backstamp indicate 1851 sailing of the Washington (departing New York Apr. 19, arriving at Bremerhaven on May 5), “PAID PART” straightline handstamp indicating prepayment of United States portion of postage — 10c domestic rate and 24c Ocean Line rate (1c overpayment) — red “AMERICA/UBER BREMEN” two-line handstamp applied at Bremen, red “1½” (gutegroschen) debit handstamp applied by Hannover Post Office at Bremen for its transit fee due from the Thurn & Taxis Post, who carried the mail south to Baden, light red ms. “6/6” applied by Thurn & Taxis Post indicating 6 kreuzer (equivalent to 1½ ggr.) plus 6 kreuzer (Thurn & Taxis transit fee) due in southern German currency, the total of 12 kreuzer debited to Baden, to which an additional 4 kreuzer internal postage was added, for a total of “16” kreuzer due from addressee (expressed in black manuscript), small piece of flap torn.

THE CELEBRATED HEIDELBERG COVER — A COMBINATION OF THE TWO FIRST UNITED STATES GENERAL ISSUES, CANCELLED IN RED BY THE MICHIGAN CENTRAL RAILROAD MAIL-ROUTE AGENT, PREPAYING THE UNITED STATES SHARE OF POSTAGE FOR AMERICAN OCEAN LINE SERVICE VIA BREMEN. ONE OF THE MOST OUTSTANDING COVERS IN ALL OF CLASSIC PHILATELY.

The United States postal reforms of 1845 set in motion the post office's efforts to establish a subsidized American transatlantic mail line with regular routes to and from Europe. The creation of the Ocean Steam Navigation Company and successful negotiation of the U.S.-Bremen postal treaty of 1847 were consequences of this long and involved process, the history of which has been (and continues to be) documented by students here and abroad. An excellent series of articles on the subject, including research by Wolfgang Diesner and Richard F. Winter, has appeared in The Chronicle (Whole Nos. 126, 129, 149 and 159), which updates earlier published work by George E. Hargest (copies of these excerpts are provided with this lot). We are grateful to Richard F. Winter for his analysis of the Heidelberg cover's rates and sailing dates.

Covers to Europe carried by the Ocean Line are surprisingly scarce, and we are aware of only two such covers franked with 1847 stamps — the other (ex Pope, illustrated in Ashbrook's Special Service, Photograph No. 125) has a single 10c for domestic postage and was carried on the same voyage of the Washington.

From a philatelic viewpoint, the 5c multiple is one of the largest recorded 5c 1847 frankings on cover (the largest is a strip of ten) and the Orange Brown shade (late printing) is very scarce in multiples of any size. Its use here — in combination with the 10c on mail sent by the Michigan Central Railroad to New York City for carriage to an overseas destination — is extraordinary.

THE RETALIATORY-RATE COVER TO BELGIUM

2978

5c Red Brown, 10c Black (1, 2). 5c three large margins, touched at top, used with 10c horizontal strip of three, Positions 22-24R, full to large margins except where frameline just touched at top right, tied by red square grid of New York City on folded cover to Gand, Belgium, from the De Coster correspondence, docketing indicates letter originated at Charleston S.C. on October 28, 1848, sender's route instructions "pr Mail to Boston for Steamer 'Niagara'" were followed and the cover was conveyed outside the mails (probably by rail) to New York City, then posted to Boston, from which port it was carried by the Cunard Niagara, departing November 1 and arriving at Liverpool on November 13, red Liverpool "OD 14 NO 14 1848" circular datestamp on back, corresponding British "1/8" ms. debit marking, Ostend Nov. 15 red backstamp, red rectangular accountancy handstamp (with rates in blue ink) "DEBOURS ETRANGERS 1/8 / TAXE REDUITE 20 / PORT BELGE 4" representing postage of 1sh8p British, re-stated 20 decimes in Belgian currency, plus 4 decimes internal rate, large blue "24" decimes ms. marking for total amount due from addressee, final marking is a red Gand receiving datestamp on back, horizontal file fold clear of stamps.

EXTREMELY FINE. THE ONLY RECORDED 5-CENT AND 10-CENT 1847 COMBINATION COVER TO BELGIUM. A MAGNIFICENT FRANKING, PAYING THE UNITED STATES DOMESTIC RATE AND TRANSATLANTIC PACKET POSTAGE DURING THE RETALIATORY-RATE PERIOD.

The so-called Retaliatory Period resulted from Great Britain's effort to maintain its monopoly on transatlantic mail carriage through the subsidized Cunard steampship line, which operated without competition from 1840 through 1846. In response to the emergence of subsidized American packets in 1847, the British issued an order (effective June 9, 1847) authorizing its receiving offices to collect the usual British packet postage on letters delivered by American mail steamers. The order effectively treated prepaid American packet letters arriving in England as if they had been sent unpaid, and the British collected sea postage from the addressee when no service had been rendered.

The United States vehemently protested the British order through diplomatic channels, but efforts to persuade the government to rescind the anti-American postal tariff were unsuccessful. In December 1847, U.S. Postmaster General Cave Johnson petitioned Congress for power to levy like charges on mail carried by British steamers to or from the United States, but he was not authorized to do so until June 1848. On all Cunard sailings from June 24, 1848 (the Caledonia from Liverpool) through December 31, 1848 (the Europa arriving at New York), American packet postage was charged whether or not one of the American vessels was used. Beginning with the departure of the Europa from New York on January 10, 1849, earlier rates were restored, and soon after the new U.S.-British treaty rate was effected.

This cover to Belgium reflects the dispute between Great Britain and the United States, because it had to be carried to Liverpool for further transit to Ostend and Gand, Belgium. The well-informed sender designated the sailing of the Cunarder Niagara from Boston and prepaid 10c domestic postage plus the 24c British packet rate (1c overpayment). The letter originated in Charleston, but was not put into the mails until it reached New York City, probably on a northbound train. Although postage from New York to Boston was normally 5c, the sender was obliged to pay the full 10c over-300 miles rate from Charleston. On arrival at Liverpool, the American prepayment was ignored, and "1/8" (one shilling, eight pence) for British packet service was debited to Belgium. This amount, re-stated as 20 decimes Belgian currency plus 4 decimes internal postage, was collected from the addressee (approximately 48c).

This remarkable cover, bearing both first issues of the United States — including a strip of the 10c — was discussed in detail in Ashbrook's Special Service (Photograph No. 60) and is signed by him on back. It has at various times been described as one of the most important and valuable covers in classic American philately.

Hawaii, 1851, 13c Blue, "Hawaiian Postage" (3). Type II, three huge margins at top, bottom and right, the left margin (between two clichés in form) is ample, stamp free of any repair, slight creasing and small tears typical of the fragile pelure paper when found in its natural state on cover, pair of 3c Dull Red (11) damaged from vermin and lifted from its original position over 13c Missionary, cancelled by part strike but heavily impressed San Francisco Cal. circular datetamp, the impression carries thru to 13c stamp, leaving a slight indentation that ties it, both stamps paying United States and Hawaiian postage — composite 5c Hawaiian, 2c ship captain's fee and 6c U.S. transcontinental rate — on buff cover to Farmington Falls Me., with original letter datelined "Lahaina March 22d/54" to which the address has added an introductory letter on the other leaf, second dateline "Farmington Falls May 10/54", minor cosmetic cover restoration — stain removal around edges and sealed opening tear at upper left — but the Missionary is untouched.

ONE OF SIX RECORDED COVERS WITH MIXED FRANKING OF HAWAIIAN MISSIONARY AND UNITED STATES STAMPS — THE ONLY COMBINATION INVOLVING THE 13-CENT "HAWAIIAN POSTAGE" STAMP. DISCOVERED IN A STEAMER TRUNK OF PAPERS AND OFFERED TO THE MARKET FOR THE FIRST TIME.

This cover is No. 3-I1-COV-144 in our census of Hawaiian Missionary stamps (see Honolulu Advertiser sale catalogue, Sale 769, Appendix). There are 28 individual Missionary covers known, but of these three are permanently contained at the National Postal Museum and a fourth is at the British Library, leaving 24 covers available to collectors. Of these, only six have combination frankings with United States stamps, including the famous 2c cover. Only this cover has a 13c "Hawaiian Postage" used with United States stamps.

Based on the Lahaina March 22 dateline and Farmington Falls May 10 date, the cover was carried from Hawaii on the Prince de Joinville, an American brig which left Honolulu on March 23 and arrived in San Francisco on April 10, in time to make the mid-month eastbound Panama sailing (dates courtesy of Fred F. Gregory). March 1854 is a relatively late use of the 13c "Hawaiian Postage" Missionary, but 13c is the correct composite rate, and the practice of affixing United States postage over Hawaiian postage is evidenced by several other covers from the same period.

The absence of Hawaiian postal markings — in particular, the "Honolulu * U.S. Postage Paid *" red datetamp — suggests two possibilities: 1) the paste-over U.S. franking was viewed in Hawaii as sufficient to indicate full prepayment to the San Francisco post office, or 2) the cover (from Lahaina) was not handled directly by the Honolulu office.

An exciting artifact of Hawaiian postal history and well-suited for exhibition

VERY FINE. A REMARKABLE AND EXTREMELY RARE FRANKING THAT LEFT THE 2-CENT SHIP CAPTAIN'S FEE UNPAID ON ARRIVAL AT SAN FRANCISCO. BELIEVED TO BE A UNIQUE COMBINATION OF STAMPS AND MARKINGS — FROM THE CROSWELL CORRESPONDENCE.

In our analysis of a similar cover in the Honolulu Advertiser sale (lot 103), we stated that the “Paid” marking — identical to this strike — was most likely applied at Honolulu to indicate to San Francisco that payment of the ship captain's fee had been received. However, the difference between the orange-red ink of the “Paid” and the deep red ink of the Honolulu dates-tamp causes us to revise our opinion. We now believe that San Francisco applied the “Paid” after receiving reimbursement for the 2c, perhaps through an accounting with Honolulu................................. E. 7,500-10,000

The "S.TOMAS" transit was applied at San Juan (along with the circular datetamp on back), and the letter was sent to St. Thomas, where the forwarder applied the 10c stamp and his blue oval marking. The narrowly-spaced 30c 1861 plate left very little room for the 12-gauge perforations between stamps. Consequently, examples with wide margins at sides are extremely rare — this fact is acknowledged in the Scott Catalogue footnote to No. 71. 3-CENT SCARLET PRINTING

95°  3c Scarlet (74). Well-centered, rich color, bold "D" oval grid cancel of New York City Station D

VERY FINE. ONE OF THE FEW GENUINELY CANCELLED EXAMPLES OF THE 3-CENT SCARLET TRIAL COLOR ON STAMP PAPER. ONLY FIVE SUCH STAMPS ARE BELIEVED TO EXIST, THIS BEING THE FINEST.

The Scarlet trial color comes unused, pen-cancelled with four lines, signed in manuscript, or, as this example shows, cancelled by the oval grid, which was part of the duplex datetamp device used at New York City's Station D post office. It has been established that the 3c Scarlet printing was not regularly issued during the life of the 1861-66 Issue, but was released through one or more channels and ultimately reached John W. Scott, who published the Scott Catalogue. Evidence points to Scott himself as the source of the few recorded 3c Scarlet stamps cancelled by the oval grid, and it is accepted as fact that he posted letters with some of his supply to validate his claim that these stamps were legitimate postage. Today, there are perhaps five copies cancelled in this manner. The other four examples have perfs touching or cutting in at right and two also have faults.

With 1996 P.F. certificate. Unpriced in Scott with handstamped cancellation (usual pen-stroke cancel valued at $5,000). ................................................. E. 15,000-20,000
3c Scarlet (74). Manuscript "J.M. Jan. 31, 1868" in three lines, intense shade and impression, centered slightly to top.

FINE. ONE OF THREE RECORDED EXAMPLES OF THE 3-CENT SCARLET WITH INITIALS AND DATE — PRESUMED TO BE IN THE HAND OF JAMES MACDONOUGH, ONE OF THE NATIONAL BANK NOTE COMPANY FOUNDERS. THIS IS THE ONLY KNOWN PERFORATED EXAMPLE.

The story of the 3c Scarlet has been well-documented by Jerome S. Wagshal in a series of articles appearing in the Chronicle (Nos. 56, 60, 61 and 62). Wagshal quotes statements made in 1893 and 1910 by a Washington D.C. stamp dealer, Carl F. Rothfuchs, to the effect that Rothfuchs obtained a supply of the 3c Scarlet in 1893—probably from the Post Office Department in exchange for his assistance with the Columbian Exposition—and sold them with pen marks and original gum. The Rothfuchs lot is not from the same supply acquired by John W. Scott in the late 1870's, from which stamps exist uncancelled and cancelled with a New York City Station D oval.

Three examples of the 3c Scarlet exist with the initials and date: one perforated and two imperforate (one of the latter is offered in the following lot). The "J.M. Jan. 31, 1868" was probably applied by James Macdonough, one of the National Bank Note Company founders. Although Wagshal offers some convincing evidence dating the Scarlet to 1861, these 1868-dated examples suggest an alternate theory that the Scarlet was produced about the time of the 1868 regular-production grills. The existence of numerous essays and color varieties made in 1867 and 1868, as well as actual changes in the color and paper of stamps produced in 1868, show that National was experimenting with various means to prevent stamp re-use and to improve production efficiency and quality. The Scarlet may related to this effort.

3c Scarlet, Imperforate (74a). Enormous bottom left corner sheet margin, other sides large, manuscript "J.M. Jan. 31, 1868" in three lines, presumed to be in the hand of James Macdonough, one of the founders of the National Bank Note Company, the shade and paper are identical to the perforated example offered in the preceding lot, creases not readily apparent on face.

EXTREMELY FINE APPEARANCE. AN EXTRAORDINARY EXAMPLE OF THE IMPERFORATE 3-CENT SCARLET PRINTING — ONE OF THREE RECORDED WITH THE MANUSCRIPT INITIALS AND DATE.

The other imperforate 3c Scarlet with initials and date was offered in the third Ferrary sale in lot 477. All three initialled and dated 3c Scarlet items are without gum and are identical in shade. It is possible that they originate from an ungummed and partially perforated sheet or pane containing subjects that were individually initialled and dated by Macdonough. .......................................................... 1867-68 GRILLED ISSUE

3c Rose, A. Grill (79). Unused (no gum), perforations complete on all four sides, fresh bright paper, few light rust specks in grill points on back only. EXTRREMELY FINE. A BEAUTIFUL UNUSED EXAMPLE OF THE 3-CENT 1867 ALL-OVER GRILL.

The 3c A Grill, Scott 79, is one of the most distinctive of 19th century United States stamps by virtue of its consistently poor appearance. The August 1867 experimental A Grill was the first grilled issue. It was soon learned that the all-over grill weakened the paper and interfered with perforating and separating, resulting in rough perforations and pieces torn out of the margins when split apart. The Scott Catalogue values this stamp in Fine-Very Fine grade and with perforation faults, the norm for the issue. Any sound example with complete perforations is valued far above Scott Catalogue price.

FINE AND RARE BLOCK — THIS IS THE LARGEST-SIZE 6-CENT 1869 PICTORIAL MULTIPLE. A MAGNIFICENT EXHIBITION PIECE.

Two unused blocks of sixteen of the 6c 1869 Pictorial are recorded — the other block, with better centering and small faults, realized $55,000 in our October 1998 Zoellner sale. Scott Retail as blocks of four with no premium for Mint N.H. stamps... 35,000.00

119° 10c Yellow (116). Well-centered, negligible perf toning, tied by bold “St. Louis Mo. Aug. 27” circular datetamp and circle of wedges cancel on small cover simply addressed “To the Government of China, Kingkitao”, carried to the Far East by P.M.S.S. contract vessel, thus no other markings necessary

VERY FINE. THE ONLY RECORDED 1869 PICTORIAL COVER ADDRESSED TO KOREA AND ONE OF THE EARLIEST PIECES OF MAIL DIRECTED TO KOREA.

In the 1869 period, Korea was isolated from other countries and communicated only through Chinese diplomatic channels. Kingkitao was the Chinese name for their administrative district in west-central Korea in the Pyonggi-do Province. This cover to Kingkitao was probably carried to Hong Kong by a P.M.S.S. contract vessel — other 10c 1869 covers to Japan or China via P.M.S.S. steamers also lack transit markings — and from Hong Kong it travelled via diplomatic courier into Korean territory. At various times in the 1860’s and early 1870’s, American missionaries and adventurers who had made their way into Korea were killed. This cover may have contained a plea for information related to Americans in Korea. .......................................................... E. 7,500-10,000
15c Brown & Blue, Ty. II (119). Block of twenty with right sheet margin, Positions 46-50/56-60/66-70/76-80, marvelous rich colors and impression, slightly disturbed original gum, h.r., centered to bottom right, perf separations sensibly reinforced, creases affect center two rows.

ONE OF THE LARGEST 15-CENT TYPE II 1869 PICTORIAL BLOCKS IN EXISTENCE. THIS BLOCK ORIGINALLY COMES FROM THE UNUSED BLOCK OF FIFTY, WHICH WAS LAST SEEN INTACT IN THE 1920'S AND WAS BROKEN INTO SMALLER UNITS SOME TIME AGO.

There are no more than four known unused blocks of twenty. The best-centered block is a left margin block of twenty and was offered in our 1997 rarities sale, where it realized $68,750. The second recorded block is a poorly centered bottom right corner margin imprint and plate no. block of twenty, ex Ackerman, which has not been seen for some time. A third block of twenty exists showing right sheet margin, ex Worthington and Caspary. The fourth recorded block of twenty is offered in this sale.

GRILL. ONE OF PERHAPS FIVE OR SIX MULTIPLES KNOWN.
There are at least five, and perhaps six or seven, blocks of the 30c 1869 Without Grill.
The two known top sheet-margin multiples show that the flag plate, printed in blue, was
missing the plate number that later appears on proof impressions. There is no record of
a second flag plate being made, so the use of an unnumbered plate almost certainly indi-
cates a printing that pre-dates the regular issue.............................. 32,500.00

1901 ONE-CENT PAN-AMERICAN INVERT ON COVER

The Property of Dr. Hubert C. Skinner

1c Pan-American, Center Inverted (294a). Dark frame shade, attractively centered, tied by neatly struck “Bessemer Ala. Aug. 29 AM 1901” circular datetamp with duplex oval grid on tiny cover addressed to Mr. and Mrs. J. A. Hendrick in Bessemer, stamp has a tiny nick next to lower right numeral, a minute sliver of paper used to improve appearance

VERY FINE. THE EARLIEST OF THREE RECORDED COVERS BEARING THE ONE-CENT PAN-AMERICAN INVERT, WHICH IS THE ONLY 20TH CENTURY UNITED STATES INVERT ERROR KNOWN ON COVER. TO THE BEST OF OUR KNOWLEDGE, THIS IS THE SOLE SURVIVING COVER FROM BESSEMER, ALABAMA, THE PLACE WHERE THE FIRST ONE-CENT INVERTS WERE DISCOVERED. AN ICON OF 20TH CENTURY PHILATELY.

There are three covers known with the 1c Pan-American Invert. This cover from Bessemer, Alabama — the location of the first discovery of the 1c Invert — is the earliest date (August 2, 1901). An August 24 cover from Oakland, California, is recorded with the 1c Invert and normal 4c used together for the 5c rate to Paris, France. The third known cover is a philatelist’s creation, mailed from St. Louis on January 9, 1903, well after the Invert error was recognized.

According to the 1937 revised Johl-King book (p. 7), “The first known copies of this error were discovered at Bessemer, Alabama, by the Carrel Jewelry Company on some circulars just prior to mailing them. When they realized the find they had made they lost no time in removing the stamps from the circulars and thus saved them to Philately.” Whether this stamp originates from the Carrel Jewelry Company or another source within Bessemer, we cannot say. The size of the envelope and local address suggests it was used to send polite correspondence or an invitation.

The Bessemer cover has appeared at auction only on two occasions: first at the 1910 Seybold sale, and second at the 1957 Atwood sale. It was acquired by Dr. Skinner in 1957 as a direct purchase from Raymond and Roger Weill of New Orleans. E. 75,000-100,000

PAN-AMERICAN INVERT.
The 1c Pan-American Inverts were found in at least four different post offices around the
country, soon after release of the issue in May 1901. Between 600 and 700 are likely to
have been issued. With 1971 P.F. certificate......................... 10,000.00

171 * 2c Pan-American, Center Inverted (295a). Lightly hinged, perfectly centered, brilliant
frame color and fine vignette impression
EXTREMELY FINE GEM. ONE OF THE FINEST ORIGINAL-GUM EXAMPLES OF THE RARE
2-CENT PAN-AMERICAN INVERT.
The 2c is the rarest of the three Pan-American Inverts. It is surmised that approximately
200 were issued through the post office, with two distinct shades known. Estimates of
surviving examples range from an early count (1945) of 55 unused and 2-3 used to the
1998 Datz estimate of 150 unused, 3-5 used and a block of four intact. Our Levi records
contain the intact block (4), reconstructed block (4), 64 unused singles and 7 used singles,
for a total of 72 unused and 7 used. Many of the unused singles have disturbed gum or
no gum, and/or are off center to top or top left.
Scott footnote states "Almost all unused copies of No. 295a have partial or disturbed
gum. Values are for examples with full original gum that is slightly disturbed." ................

173 * 2c Pan-American, Center Inverted (295a). Very well-centered, bright colors, neat oval registry cancel, small thin spot, few slight creases, corner crease ending in small tear at top right. EXTREMELY FINE CENTERING AND APPEARANCE. ONE OF THE BEST-CENTERED EXAMPLES OF THIS GREAT TWENTIETH CENTURY INVERT RARITY. ONLY SEVEN USED EXAMPLES ARE KNOWN. FROM A RECENTLY DISCOVERED FIND. Only one other of the seven recorded used 2c Pan-American Inverts compares with the stamp offered here in terms of centering. The other well-centered example has a small tear at bottom and is on a piece. Every other known used example of the 2c Invert is either thinned and creased. Two are also reperfed and one has clipped perfs. The stamp offered here was recently discovered in a collection formed by a missionary during the first part of this century .................................. 16,000.00

**4c Brown, Schermack Ty. III (314A).** Wavy-lines machine cancel, full Schermack perfs at right, left margin ample but without perfs

**A FINE AND COMPLETELY SOUND EXAMPLE OF THIS MAJOR 20TH CENTURY RARITY.**

Our unpublished census of Scott 314A contains 44 used examples, including three strips of three (one on cover), three singles on separate covers, and 32 single used copies, most of which were retrieved from mass mailings.

With the rising popularity of vending and affixing machines, the Bureau of Engraving and Printing received numerous requests from manufacturers for supplies of imperforate stamps, which could then be privately perforated to conform to each firm's machine. In May 1908, a supply of 25 sheets (400 stamps per sheet) of the 4c 1902 Issue, without perforations, was delivered to the Schermack Mailing Machine Co. in Detroit. The entire supply was cut into coils with Schermack Type III perforations, designed for the firm's patented affixing machine and delivered to the Winfield Printing Co. for use on mass mailings of advertising material. Approximately 6,000 were used on a mailing for Hamilton Carhartt Manufacturer, and almost all of the 4,000 balance were used on a mailing for Burroughs Adding Machine Co.

FRESH AND EXTREMELY FINE. AN OUTSTANDING EXAMPLE OF THE VERY RARE 30-CENT PERF 10 WASHINGTON-FRANKLIN ON UNWATERMARKED PAPER.

In an article in Philatelic Opinions V published by the Philatelic Foundation, William T. Crowe, head of the Expert Committee, discusses the discovery of this rare stamp and how it might have been issued. The production of Scott 476A occurred during the period of transition from gauge-10 perfs to gauge 11. Bureau records do not list a 30c printing on unwatermarked paper that was perforated 10, but the existence of two certified panes—one bottom-right pane from Plate 6917 and one top-right pane from Plate 6911—is evidence that the combination of new unwatermarked paper and old 10-gauge perfs occurred, even if inadvertently. Stamps from these two panes (200 total), two left sheet-margin blocks of four and a bottom plate no. 6914 single, none of which have any trace of watermark, are the only accepted examples of Scott 476A.

According to Post Office records, two shipments of A.E.F. panes were made to France. The first likely arrived sometime in early to mid-August, and the second shipment arrived in early September. Usages that can be tied to this first shipment are particularly rare. This single franking is especially scarce. Active-duty soldiers were given free-franking privileges, and the 1c post card rate was raised to 2c on November 2.

1c Green, Rotary, Perf 11 (594). Horizontal pair, tied by "Madison Sq. Sta. N.Y. Oct. 4, 1924" machine cancel on piece, deep shade

The 1c Green, Scott 594, is waste from a horizontal rotary printing used to make coils. At the beginning or end of a coil-stamp print run from the 170-subject rotary plates, some leading or trailing paper was produced that was too short for rolling into 500-stamp rolls. In 1919 the Bureau devised a plan to salvage this waste by perforating and cutting the sheets into panes. They were put through the 11-gauge flat-plate perforator in use at the time, giving the sheets full perforations on all sides. In 1923 coil waste from the new 1c and 2c rotary production was turned into stamps later classified as Scott 578-579 and 594-595. These were the last of the coil-waste issues. The existence of Scott 594 was not reported until four months after the final sheets were delivered, and the 1c Rotary Perf 11 was soon recognized as one of the rarest United States stamps.

There are today fewer than 100 confirmed examples of Scott 594. The first major find of this stamp was made in 1934 by Ernest E. Fairbanks, who retrieved nine pairs (18 stamps, one or two damaged) on nine separate covers that were returned by the post office years earlier from a bulk mailing. All were postmarked at New York City on October 4, 1924. The nine Fairbanks covers were cut down into pieces, and today there are five of these pairs on piece still intact. There is also one cover bearing a pair (not from the Fairbanks correspondence), and two pairs off cover. Of the five pairs on pieces, three have major faults, as does one of the two off-cover pairs. There are no recorded unused multiples.

FRESH AND FINE. ONE OF THE FEW SOUND AND ATTRACTIVE SINGLES OF THE 43 2-CENT HARDING ROTARY PERF 11 STAMPS RECORDED IN OUR CENSUS.

Our census of the 2c Harding Rotary Perf 11 (see Zoellner sale, Appendix, p. 389) records 39 used singles (one faintly cancelled, if at all) and two used pairs. Of the singles, 22 are sound, but of these quite a few are centered strongly to one corner.

The 2c Harding Rotary Perf 11 stamp was first discovered in 1938 by Leslie Lewis of the New York firm, Stanley Gibbons Inc. The Weills discovered three additional singles among unsorted 2c stamps soaked off envelopes postmarked at New Orleans, circa November 1923.

Gary Griffith presents his hypothesis in United States Stamps 1922-26 that rotary-printed sheets of 400 were first reduced to panes of 100 and then fed through the 11-gauge perforating machine normally used for flat plate sheets. This method distinguishes sheet-waste stamps—Scott 544, 596 and 613—from the coil-waste stamps and explains the existence of a straight-edge on Scott 613.

Flight of the Vin Fiz

In 1911, at a time when women could not vote and the Wright brothers' historic flight at Kitty Hawk was a recent memory, the concept of flying between coasts was widely regarded as futuristic fantasy. Aviation was a sport with little practical value. Pilots risked (and lost) their lives for the thrill of being airborne, and flights were held at fairgrounds for the amusement of crowds. However, within a few years, the airplane would gain respect as a practical means of transport and warfare, and pilots would be transformed from popular daredevils to highly-respected flyers. Calbraith Perry Rodgers, a descendant of Matthew Calbraith Perry and Oliver Hazard Perry, was a significant force behind aviation's progress.

Although Rodgers is less famous than other American pilots, such as Earl Ovington, Charles Lindbergh, Amelia Earhart or Jimmy Doolittle, he was in fact the first person to fly from one coast to the other. Cal Rodgers was one of four contestants in a race sponsored by William Randolph Hearst, who offered $50,000 to the first person to fly coast to coast in 30 days or less. Rodgers completed the journey first, flying from Sheepshead Bay, New York, on September 17, 1911, and arriving at Pasadena, California, on November 5; the last leg to Long Beach was completed on December 10. Because Rodgers took 49 days to reach the California coast, he lost the prize. Another tried again with success, becoming the second person to complete the transcontinental journey by air, flying west to east.

Cal Rodgers's flight was nothing less than a spectacle. The erratic path of his 4,291-mile journey followed transcontinental railroad lines. Adopting a novel form of product endorsement, his Wright Model EX aircraft was emblazoned with the name of a new grape soda, Vin Fiz, and the trip was sponsored and heavily promoted by the beverage-maker, the Armour Meat-Packing Company. A bottle of Vin Fiz was strapped to the plane during flight and fared much better than the machine or pilot.

The airborne Rodgers was followed on land by a three-car train, the Vin Fiz Special, which transported his rather large entourage. On board was Cal's scheming wife, Mabel, and she was joined for a time by her two young strapping male-mail assistants. Cal's overbearing mother, Mrs. Harry Sweitzer, rode for much of the journey, watching over Cal and making Mabel ever more insecure. There were mechanics, including Charles Wiggin, who married Mabel a few years after Cal died in a plane crash. Also in attendance were the chauffeur, representatives of the Armour and Vin Fiz companies, and a changing cast of family, guests and reporters.

At each of the 75 stops along the route, Rodgers and the Vin Fiz were met by cheering spectators and treated as visiting dignitaries. An exception was one farmer whose property became an unintended airfield and was less enamored with his guest. With each take-off and landing, a crowd gathered around Rodgers and his flying machine, and Mabel and her assistants would circulate, hawking souvenir cards and "air post" service for 25 cents per card or letter.

Along the way, Rodgers suffered twelve serious crashes and another four breakdowns. By the time he reached California, the Model EX was an almost entirely rebuilt machine. Rodgers escaped with relatively minor injuries until the final leg of his trip, which occurred after reaching the west coast. On his flight from Pasadena to Long Beach, on November 12, 1911, he crashed at Compton and was seriously injured with a brain concussion and trauma to the spine. After a month of convalescing and replacement of his aircraft, Rodgers resumed the last leg of his flight on December 10, flying from Compton to Long Beach with casts supporting both ankles.

The completion of the first transcontinental journey by air was heralded as a great achievement, and Cal Rodgers became a popular hero. At the 23rd Tournament of Roses parade on January 1, 1912, Rodgers flew over the parade, dropping 10,000 carnations on the crowd 700 feet below. At an evening gala held by the Aero Club of America in honor of President Howard Taft, Rodgers was presented with a gold medal for aeronautics and congratulated by President Taft. In April 1912, while performing aerial acrobatics over the water off the shore of Long Beach, Rodgers lost control of his machine and crashed, dying instantly from the impact.
Rodgers Aerial Post

Between 1910 and 1916, there were 94 U.S. flights that carried mail, most of which operated with Post Office Department sanction. The earliest flights in 1910 were not officially authorized to handle mail, and the Rodgers flight has never been fully documented as an official route. Conflicting accounts and lack of source documentation leave the Vin Fiz question, official versus unofficial, without a definite answer. Its status is now semi-official, a compromise in the absence of evidence.

It seems certain that prior to October 9, 1911, the Rodgers Aerial Post operated without authorization from the Post Office Department, despite Mabel Rodgers’ effort to obtain the official title “aeropost” and sanction for the air mail route. By one account, on Monday, October 9, upon returning to the Springfield Hotel in Illinois, Mabel received a telegram from Postmaster General Hitchcock, confirming her as the official “aerial postmistress” (reference: Flight of the Vin Fiz, p. 180); however, a copy of this telegram has never been located. Coincidentally — or perhaps as a consequence of Mabel’s new authority — the one recorded example of the straightline “RODGERS AERIAL ROUTE” (an official post-office designation) is postmarked at Springfield on October 9 at 11:00 p.m. This marking may indicate the first official mail carried by the Vin Fiz (see lot 233).

Another undocumented account states that Calbraith Rodgers was sworn in as an official United States postman by W. H. Hoffman, the postmaster at Waco, on October 19 (reference: Flight of the Vin Fiz, p. 217).

The Rodgers Handstamp Types

There are four handstamped markings associated with the Vin Fiz flights. They are identified as follows:

**Type 1**
Circle with 5 lines “1911/Aerial/Rodgers/Post/1911” in black
1 known (see also Type 1A)
Salamanca NY 9/25 7:30 AM
(lot 232)

**Type 1A**
Same as above with additional straightline
“RODGERS AERIAL ROUTE” in black
1 known
Springfield IL 10/9 11:00 PM
(lot 233)

**Type 2**
3 lines “Carried by RODGERS/AEROPLANE VIN FIZ/ Oct. 11t 11” (color unknown)
1 known
Kansas City MO 10/11 4:00 PM

**Type 3**
5 lines “Vin air ship from Pasadena to Long Beach, Cal./ Nov. 12, 1911 by Cal. P. Rodgers, first aviator/ to cross the continent in an air ship. Leaving/ Sheepshead Bay, N.Y., Sept. 17, 1911 and/ arriving at Long Beach, Cal. Nov. 12, 1911.” and separate 3 lines “Machine wrecked/at Compton/ Aviator Injured”, both in purple

The Vin Fiz 25c Adhesive Stamp

The 25c lithographed adhesive stamp (Scott CL2) sold by Mabel Rodgers for use on Vin Fiz mail was lithographed in black. It was certainly not authorized by the Post Office Department, and the 25c for each stamp sold went to Rodgers to defray expenses, not to the government. It is considered by the Scott Catalogue editors to be a semi-official airpost issue, similar in concept to semi-official carrier stamps.

Robert S. Rodgers, Calbraith’s uncle and an attorney in Kansas City, Missouri, as well as an amateur philatelist, was given the task of procuring a supply of stamps for use on Vin Fiz mail. On October 10, approximately two weeks after receiving a letter requesting his assistance, the elder Rodgers joined his nephew in Marshall, Missouri, for an overnight stay and remarked that delivery of the stamps was imminent (reference: Flight of the Vin Fiz, p. 121, 185).

The existence of one CL2 postmarked at Vinita, Oklahoma, on October 15, 1911, lends support to the prevailing theory that the stamps were first made available at Kansas City, Missouri, to be used for the October 14th flight to Vinita. The mail would necessarily be stamped at Kansas City on October 14 prior to the flight, and upon arrival at Vinita it would be removed from the mail bag and put into the post office — the one day lapse is not unusual.

The Vin Fiz card raises some question about the veracity of another account that places the arrival and first sale of the Vin Fiz stamps on October 16 at McAlester, Texas (reference: Flight of the Vin Fiz, p. 205):

"On board the Pullman for the leg to Denison was Mr. Jasper Allen, the eminent editor and publisher of the Hartshorne [Oklahoma] Sun. Mabel promptly charmed him into purchasing a Vin Fiz stamp, her first such sale. The sheets of Vin Fiz stamps sent by Robert Rodgers from Kansas City had arrived the night before [Oct. 16] at the McFarland Hotel. Twenty-five cents entitled the purchaser to an oversize label, an uninspired drawing of the Model EX in an oval frame. A letter or card with the stamp affixed would be carried on the succeeding leg of the transcontinental passage and then (with conventional postage) deposited in the U.S. mail system. The recipient would, Mabel pointed out, retain the privately issued stamp as a souvenir and as proof that the letter had indeed been delivered through the air."  *Allen placed his stamp on a postcard addressed to his wife in Hartshorne. The card was flown from Fort Worth to Dallas and canceled Oct. 19, 7:30 p.m. A second card and Vin Fiz stamp was purchased by Allen and delivered to his mother in Hartshorne.*

The Jasper Allen card is known to collectors (the stamp and card have been separated), but whether he obtained his stamp(s) on the first day seems doubtful, given the existence of the Vinita October 14-15 example.

To date, a total of eleven different examples of the Vin Fiz stamp have been recorded. There are seven pieces of mail with the stamp properly used, postmarked as listed below (all 1911 dates) and photographed in the Appendix on pages 141-142. Each flight that presumably carried the mail to its post-office entry point is shown in parentheses.

**Oct. 15** at Vinita Ok. (10/14 flight from Kansas City Mo.)
**Oct. 20** at Waco Tex. (10/19 flight from Dallas)
**Oct. 20** at Waco Tex. (10/19 flight from Dallas)
**Oct. 22** at San Antonio Tex. (10/22 flight from Waco, Granger, Austin or Kyle Tex.)
**Nov. 4** at Imperial Junction Cal. (10/30 flight from Deming N.M.), an envelope
**Nov. 4** at Imperial Junction (11/1 flight from Tucson to Phoenix)
**Nov. 8** at Pasadena Cal. (11/1 flight from Willcox Ariz.), a U.S. postal card to Germany (lot 234)

A souvenir card with a Vin Fiz stamp affixed to the back was sold in the F. W. Kessler sale of the Dr. Philip G. Cole collection, held October 26-27, 1939. The card, postmarked at Dallas Tex. on October 19, was mailed by Jasper Allan. Reference to this card is made above. However, at one point after the Cole sale, the stamp and card were separated. The card has since been sold at auction (our Sale 785, lot 512), but the current location of the stamp is not known. As such it is listed below as one of four off-cover examples.

**CL2 uncanceled** and affixed to piece, discovered April 1969, ex Aurea (Christie's Sep. 25, 1991, lot 55)
**CL2 with gum**, discovered in 1968, ex Atherton (Ivy, Shreve & Mader, Jul. 10-13, 1991, lot 2623)

**CL2 uncanceled**, ex Lettick and Zoellner (our Sale 804, lot 728)

**CL2 uncanceled**, removed from card postmarked Dallas Oct. 19 (ex P. G. Cole), whereabouts unknown

The collection of Vin Fiz cards and collateral offered in the following lots represents the most comprehensive group of material related to the Rodgers flight ever assembled. Included is a Middletown picture postcard depicting the crash that occurred on the morning of September 18, and it is postmarked at Middletown in the afternoon of the same day. There are the only known examples of the Type 1 and 1A handstamps, the latter postmarked at Springfield on October 9, the day Mabel is said to have received her official appointment telegram from Postmaster General Hitchcock. The fourth and certainly most significant item is the Vin Fiz stamp on a card sent from Willcox, Arizona Territory, to Germany. This remarkable card was carried all the way to Pasadena (postmarked there on November 8, three days after landing). It is the only U.S. postal card with a Vin Fiz stamp and the only Vin Fiz addressed to a foreign country. In addition to mail, there are examples of the promotional slips thrown overboard and one lot of photographs and ephemera, including one of the slivers of wood from the plane.

This group presents collectors with a remarkable opportunity to acquire items from this pivotal event in aviation history — the first successful crossing of the American continent by air.

*We extend our appreciation to Stephen Reinhard for providing information on the Vin Fiz stamp.*

Very fine. Of the eleven recorded examples (seven on mail) of the Vin Fiz, this is the only stamp known on a flown card that reached the West Coast destination of Pasadena, the only one on a United States postal card, and the only one on mail addressed to a foreign destination. In these three respects, this card is unique and a most significant artifact of the first successful transcontinental flight.

The message on back from C. F. Threlle to his brother-in-law in Germany reads: “Willcox Ariz. Nov. 1, 1911. Dear Otto, As the first Transcontinental Rodgers Aeroplane (Atlantic to Pacific Coast) passes through here to-day, I’ll use these means of conveyance to send you a few lines, which please attach to your stamp collection. With kind regards to all, Your a.b.i.l. [affectionate brother-in-law] C. F. Threlle”. On November 1, this card was flown from Willcox, Arizona Territory, arriving at Pasadena on November 5 after stops at Tucson and Maricopa Ariz. (Nov. 1), Phoenix and Stoval Ariz. (Nov. 2), Imperial Junction Cal. (Nov. 3, where some mail was posted), Banning Cal. (Nov. 4), and Beaumont and Pomona Cal. (Nov. 5). Because of the overseas destination, it is possible that the card was deliberately held until the city of Pasadena was reached. The message and postmark date leave no question that the Vin Fiz stamp was used and the card was actually flown.

ONE OF TWO PIECES OF MAIL CARRIED BY CHARLES A. LINDBERGH ABOARD THE SPIRIT OF ST. LOUIS ON HIS EPOCHAL NONSTOP TRANSATLANTIC FLIGHT FROM NEW YORK TO PARIS. ONE OF THE MOST SIGNIFICANT HISTORICAL ARTIFACTS OF THE 20TH CENTURY.

Upon arriving at Le Bourget in Paris 33½ hours after taking off from Roosevelt Field on Long Island, Charles A. Lindbergh, a 25-year-old American mail pilot, achieved historic fame as the first person to fly nonstop across the Atlantic. In technical aviation terms, his accomplishment displayed awesome navigating and flying skills, as well as phenomenal endurance. In more abstract terms, Lindbergh's flight fueled the age of aviation.

The principles of aviation were demonstrated first by Americans at the turn of the last century. In the intervening years their science progressed, both here and abroad. Important flights were made. It remained for one of our own citizens in May 1927 to arouse universal interest in the practical possibilities of travel through the air. His flight, alone and unaided, from New York to Paris thrilled the world. It appealed to the imagination of humanity... Because of what he has said and done we are told aeronautical plans for 1928 indicate an activity far beyond any dreams of six months ago.

The practical possibilities of flight were significant in Lindbergh's aspirations. As a mail pilot flying under contract for the United States Post Office Department, Lindbergh was familiar with the great risks of flight and the small reward. The fledgling Air Mail Service inaugurated in 1918 depended on a corps of aviators who flew at the mercy of mechanics and weather. Between October 1919 and July 1921, accidents claimed the lives of 26 Air Mail Service employees, including 19 pilots. Lindbergh, despite crashing on his own route between St. Louis and Chicago, held strongly to his vision of future flight, writing "What limitless possibilities aviation holds when planes can fly nonstop between New York and Paris! The year will surely come when passengers and mail fly every day from America to Europe. Of course flying will cost much more than transportation by surface ship; but letters can be written on light-weight paper, and there'll be people with such pressing business that they can afford the higher price of passage."

In preparing for his flight, Lindbergh's concern over fuel consumption outweighed most other considerations, including his personal comfort and safety. The Spirit of St. Louis was especially constructed for the 3,500-mile flight, becoming a virtual flying fuel tank. The pilot's forward window was sacrificed for fuel storage, and all equipment except items deemed absolutely essential was discarded. Mail, which Lindbergh was accustomed to carrying, also had to be sacrificed. In one account, after realizing how much excess fuel was available as he neared Paris, Lindbergh lamented "The gasoline left in my tanks when I reach France will weigh more than all the mail one of our DH's can carry between St. Louis and Chicago... I could have brought thousands of letters to Paris." In fact, by his own account, he brought only two pieces of mail, six letters of introduction and a business card. He stated "I'm taking one letter for Postmaster Conkling of Springfield — I couldn't say no to him — and one letter for my friend Gregory Brandeweide, who worked with me laying out the mail route. That's all — except for my messages of introduction." It is likely that the Conkling and Brandeweide covers were carried on the St. Louis-to-New York leg of the flight that originated in San Diego. The nine items carried by Lindbergh are well-documented in *The American Air Mail Catalogue* (pages 1417-1420).

In 1977, fifty years after Lindbergh's historic flight, our firm offered the Brandeweide cover in the Rarities of the World sale, where it fetched the then-extraordinary record-breaking sum of $35,000. Now, as we soon enter the 21st century, this artifact from one of this century's pivotal events will be offered again. ..................  E. 150,000-200,000
Charles A. Lindbergh. Signature "Charles A. Lindbergh" on cover of menu for luncheon held by Ministry of Foreign Affairs in honor of Lindbergh on May 26th, printed seal and title on front cover, along with signatures of 18 guests including Foreign Minister Aristide Briand, War Minister Painleve, President Doumergue and Ambassador Herrick, mounted in frame with portrait, small stain on menu page, a rare memento of this historic event. 

Lindbergh Souvenir Covers and Collateral. A few hundred items, including signed cover, "C.A. Lindbergh Apr. 17, '28" on back of airmail cover as a favor to Mayor J. Coombs, 36 Lindbergh Day souvenir covers, 24 "Good Will" Tour covers from Central America and a few other related souvenir covers, in addition to philatelic material there are bulging folders with original letters and forms related to Robertson Aircraft Corp.'s airmail contract, an original pen-and-ink drawing by Postmaster Conkling of the design used for cachet on Lindbergh's first flight from Chicago to St. Louis, two booklets showing gifts given to Lindbergh from different nations, a fascinating group.

1918 24-CENT INVERTED JENNY

According to *Jenny*! by George Anick (Amos Press, 1986), the original sheet of 100 inverted "Jenny" stamps was purchased by William T. Robey on May 14, 1918, one day after the stamp was placed on sale. Robey bought the sheet at the New York Avenue Post Office window in Washington, D.C. Soon after, the sheet was sold to Col. Edward H. R. Green through Eugene Klein, a Philadelphia stamp dealer. Green paid $20,000 for the sheet, then instructed Klein to divide it into singles and blocks, and to sell all but a few key position blocks.

24c Carmine Rose & Blue, Center Inverted (C3a). Position 57, rich colors on bright paper, fresh original gum, small light trace of hinging
EXTREMELY FINE. ONE OF THE BEST-CENTERED AND FRESHEST STAMPS FROM THE ORIGINAL SHEET OF 100. FOR THE COLLECTOR SEEKING THE FINEST QUALITY, THIS STAMP IS THE IDEAL INVERTED JENNY.

This stamp, with Positions 47-48 and 58, at one time comprised a block of four owned by Eugene Klein. After Klein's death in 1944, his daughter, Dolores Klein Hertz, was instructed to claim a sealed container held by a Philadelphia bank in accordance with his will. Resting on top of the various stamp collections in this container was the block.

The Klein-Hertz block was sold by Mrs. Hertz to Robert A. Siegel, who in turn placed it with Raymond H. Weil Co. The block was later sold by the Weilts to a collector, Mr. Phillips, whose philatelic estate they acquired in 1968 for just over $4 million. The Weilts received Philatelic Foundation certificate number 10,000 prior to splitting the block into singles at their client's request.

This example comes from the position next the Zoellner copy (Position 58), which realized $192,500 in our sale last October. With 1988 P.F. certificate.............. 150,000.00

246 CARMESE ROSE & BLUE, CENTER INVERTED (C3a). Left sheet margin block of four, discreetly rejoined along horizontal perfs, Positions 41-42/51-52, rich colors and well-centered, excellent impression, slightly mount-disturbed original gum, pinpoint thin spot in top left stamp.

VERY FINE TO EXTREMELY FINE. AN IMPORTANT AND UNIQUE POSITION PIECE OF THIS FAMOUS ERROR. ONE OF THE GREAT RARITIES OF AMERICAN PHILATELY.

This block was one of the few position pieces retained by Colonel Edward H.R. Green from his purchase of the discovery sheet. It was likely broken into two part arrow pairs by Col. Green. The block was offered in the Green sale of March 25, 1946, where it was purchased by New York dealer Y. Souren. Souren rejoined the block and sold it to a New York collector, L.D. White, in 1947. White sold it to New Orleans dealers Raymond and Roger Weill in 1950. The Weill Brothers placed the block with a collector, Mr. Phillips, in November 1950. In 1968, the Weills purchased the block from the estate of Mr. Phillips. The block was sold again by the Weill Brothers in 1970, to a Western collector, Mr. P. The block was repurchased in 1984 from the heirs of Mr. P.

VERY FINE AND CHOICE. A RARE COVER BEARING THE 2-CENT PORT HOOD PROVISIONAL. On December 29, 1898, the postage rate was lowered from 3c to 2c, effective as of January 1, 1899. This created a shortage of 2c stamps. Boggs quotes from the postmaster of Port Hood regarding the shortage:

"When the change in Canadian postage was made — of which we got notice by wire — I had only a very few two cent stamps in stock so that before I got my supply from Ottawa I completely ran out of them, and, to keep my account straight, was compelled to cut threes. About 200 "2" and 100 "1" were used. Those stamps I put on letters for delivery within the county as much as possible..."

This private-issue stamp appeared six months before the “Post Office” Mauritius and is the earliest stamp used in any British Colony. The stamp was issued in April 1847 to prepay the private conveyance of mails on the Lady McLeod between Port of Spain and San Fernando. Details regarding the printing of this stamp have never been found, but it has been surmised that they were likely printed at the offices of the local newspaper, as were several other early British Colonial stamps and the Hawaiian Missionaries.

The full story of this stamp is told on pp. 196-199 of Stamps of Fame by L.N. & M. Williams. .................. E 10,000-15,000

SIEGEL AUCTION GALLERIES - 142 - MAY 15, 1999
Bid Form

1. Please provide the following information:
   - NAME: 
   - ADDRESS: 
   - CITY/STATE/ZIP: 
   - TEL. (DAY): 
   - FAX: 
   - E-MAIL: 

2. Have you purchased from us in the past 5 years?  
   - YES (if so, please go to Section 3)
   - NO (please provide a trade reference and bank information)

3. In the space provided below, enter the lot number from Sale 811 and your corresponding bid. Please use whole dollar amounts only and enter the maximum bid you wish to have us execute on your behalf, according to the bidding increments (on other side of this form). Your bid will NOT include the 10% buyer’s premium. We will advance the bidding at one increment over the next highest bid; therefore, you may be awarded the lot at less than your maximum bid. Please do not use “plus” bids or “buy” bids. If you wish to bid on one lot or the other, indicate your “or” bid between lot number/bid entries and bracket your choices. If you wish to place a bidding limit on the total amount of your bids, please enter your limit in the space marked “Limit Bids”.

4. LIMIT BIDS: Check this box if you wish to limit the total amount of your bids (not including the 10% buyer’s premium) in this sale. Your bids will be executed until your bidding limit no longer allows for additional bids. The total amount you wish to bid is: $

4. AGREEMENT: By signing this bid form, you agree to pay for purchases resulting from your bids, in accordance with the Conditions of Sale printed in the sale catalogue. You also agree to pay the 10% buyer’s premium and any shipping costs (see reverse), which will be added to your successful bids, and any sales tax or use tax which may be due on the total invoiced amount. It is understood that these bids will be executed by Siegel Auction Galleries as a courtesy to absentee bidders, but that no legal responsibility shall lie with the auctioneer or the firm if these bids are not executed. You are responsible for your written bids, including any errors on your part.

### Sale 811—May 15, 1999

**Shipping and Transit Insurance**

We will be pleased to arrange for shipping and transit insurance for purchases in this sale (except those described as "floor sale only"). To expedite billing and delivery of lots to hundreds of buyers per sale, we use standard charges for postage and insurance, based on the invoiced total and mailing requirements (see schedule). The standard charges are sometimes slightly more or less than the actual postage, but we do not include any fees for our labor or packing costs. Therefore, we ask all buyers to remit the prescribed amount for shipping charges.

Transit insurance is provided in all cases, except when the buyer has furnished us with proof that insurance coverage is effective under another policy. Proof, in such cases, will be accepted in the form of a written certificate from the insurance carrier.

You are responsible for insurance charges, which will be added to your invoice. This coverage is provided for our mutual protection against theft or loss in transit.

### Bidding Increments

The auctioneer may regulate the bidding at his discretion. However, to assist absentee bidders in establishing their maximum bid for each lot, the increments shown at right will be used in most cases. We recommend that written bids conform to these increments (those which do not will be reduced to the next level).

**SERVICES FOR BUYERS**

If you wish to participate in our auctions, we will be pleased to assist you in many ways. Most of the following services are provided without additional charge.

**Mail Viewing**
Subject to availability, many lots can be sent to established clients (or those who submit references) for examination. Requests must be made no later than five days prior to the auction. Lots must be returned on the day of receipt. Postage/insurance costs will be invoiced. Large lots will not be available for mail viewing.

**Viewing by Appointment**
In addition to the regular public viewing hours, prospective bidders may view lots at our galleries by appointment.

**Lot Review**
Our on-staff philatelists will be pleased to review the description of any lot and provide more detailed information.

**Opening Bids**
During the two days prior to the sale, we will furnish approximate opening bids by phone or fax. Openings often change (up or down) and cannot be guaranteed as a reliable indicator of where the auctioneer will start the bidding. Opening bids will not be given on sale days.

**Hotel and Restaurant Reservations**
We will be pleased to furnish the names of good hotels and restaurants in the area. During peak seasons, we may be able to assist in placing reservations.

**Absentee Bidding by Phone or Fax**
Bidders who cannot attend the sale may leave written bidding instructions (see Bid Form). Bids called in must be confirmed in writing by fax or mail.

**Telephone Bidding**
Prospective bidders may apply for a telephone link to the auction and bid through one of our staff members. Applicants must call at least 24 hours prior to the sale date. Phone links are subject to availability and may be cancelled due to oversubscription.

**Expert Certification**
Individual items offered without a Philatelic Foundation certificate (or other accepted authority’s certificate) dated within the past five years may be purchased subject to certification (please see Conditions of Sale for details).

**Shipping and Delivery of Lots**
Instructions for shipping must be given to the gallery prior to or immediately after the sale. Unless special instructions are received, we will follow the shipping guidelines on the back of the Bid Form. Buyers are responsible for all prescribed shipping charges, whether or not the actual out-of-pocket expense is equal to the invoiced charge.

**Prices Realized**
A list of prices realized will be included with every buyer’s invoice. We will accept phone and fax requests for prices realized at any time during or after the auction. For those who qualify, our ASAP Prices Realized service will provide faxed daily results during the evening of the sale day (application available upon request). Printed prices realized lists are mailed to all others within 30 to 60 days of the sale.

---

**SERVICES FOR SELLERS**

If you wish to sell stamps, we will be pleased to provide the following standard services and options. Specially tailored proposals will be made for significant items and collections.

**Appraisals**
Verbal appraisals of material brought to our galleries are free of charge. Written appraisals for estate tax, insurance or other purposes are billed at hourly ($50) or daily ($500) rates. Fees will be rebated if the property is consigned within a certain period of time.

**On-Site Sale Consultation**
If your consignment is worth $75,000 or more, we will travel to you at our expense.

**Consignment Deadlines**
Closing dates for consignment can always be found in our quarterly newsletter, The Siegel Despatch, in our web site:

**Sale Settlement**
42 days from the sale date, consignor proceeds are mailed. Since 1930 our firm has never missed settlement day.

**Commission Rates**
10% seller’s commission and 10% buyer’s premium. Minimum seller’s commission is $25 per lot. Special terms for more valuable properties may be discussed.

**The Siegel Guarantee**
Major collections can be offered at auction with a guaranteed minimum net realization. Estate executors who must protect beneficiaries’ interests will be fully insured against a market downturn by the Siegel Guarantee.

**Advances**
Advances up to 50% of our valuation are available to consignors under certain terms.

**Negotiated Sale for Immediate Payment**
If you wish to sell your stamps for a specific price, we will be pleased to make an offer on behalf of ourselves or other clients.

**Single-Owner Sales**
Collections with a fair market value of $300,000 or more may qualify for a special single-owner sale catalogue. The Siegel firm leads the way in offering major name sales, including over the years the Krug, Newbury, Lilly, Matthies, Weatherly, Grunin, Rohloff, Baker, Haas, Kimmel, Wunderlich, Cole, Kapiloff, Honolulu Advertiser, Morris, Rose and Birkinbine collections.

**Annual Rarities of the World Sale**
Suitable individual rarities will be accepted for our annual Rarities of the World auction. The consignment deadline for this auction is generally in early March.
