Lot 1001
The 1918 24¢ Inverted “Jenny” (Scott C3a), Position 35

The first stamp to receive a Philatelic Foundation graded certificate
1001°

24c Carmine Rose & Blue, Center Inverted (C3a). Position 35, unusually choice centering with wide and well-balanced margins on all sides, fresh and bright colors, small hinged area EXTREMELY FINE. A REMARKABLY FRESH AND BEAUTIFULLY CENTERED EXAMPLE OF THE FAMOUS 1918 24-CENT INVERTED "JENNY". THIS STAMP IS ONE OF THE BEST-CENTERED POSITIONS FROM THE DISCOVERY SHEET.

According to Jenny by George Amick (Amos Press, 1986), the original sheet of 100 Inverted "Jenny" stamps was purchased for $24 by William T. Robey at the New York Avenue Branch Post Office window in Washington D.C., on May 14, 1918, one day after the stamp was first placed on sale at the main post office. On May 20, Robey sold his sheet for $15,000 to Eugene Klein, a Philadelphia stamp dealer. Klein had already arranged to sell the sheet to Col. Edward H. R. Green for $20,000. Colonel Green instructed Klein to divide the Inverted "Jenny" sheet into singles and blocks, and to sell all but a few key position blocks.

It is well-known among stamp specialists and professionals that examples of the Inverted "Jenny" come in different grades of freshness and condition. Many of the original 100 stamps were mistreated by collectors during the years, despite the stamps' rarity and value. Colonel Green himself allowed moisture to affect some of the stamps he retained. Other examples have become slightly toned from improper storage and climatic conditions. Hinge removal has caused thins and creases in numerous stamps, and at least seven have been "lost" to philately — or nearly so, as in the case of the copy swept up in a vacuum cleaner. This example is remarkable for its pristine state of preservation and for its centering, which is equalled (or surpassed) by only a small number of stamps in the original sheet (almost all of the others have disturbed gum or faults).

Ex Steffan and Bruechig. With 1969 and 2005 P.F. certificates (latter graded VF-XF 85) and 2005 P.S.E. certificate (VF-XF 85). In our opinion, this stamp deserves a grade of XF 90... 170,000.00
1002 ★★★ 5c Dark Brown (1a). Block of four, original gum, large to huge margins incl. sheet margin at bottom and part of adjoining stamps at left, beautiful Dark Brown shade, rich color and detailed impression on attractively blued paper, creases between stamps almost entirely in the margins, tiny scissors-cut in margin at right.

EXTREMELY FINE APPEARANCE. A SPECTACULAR ORIGINAL-GUM BLOCK OF FOUR OF THE 5-CENT 1847 ISSUE. RARE IN THE DARK BROWN SHADE AND ESPECIALLY DESIRABLE WITH THE SHEET MARGIN AT BOTTOM.

With 1980 Friedl certificate. ................................................................. 47,500.00
1003  

5c Orange Brown (1b). Large even margins all around, brilliant color in the rich Orange Brown shade, bold strike of red grid cancel

EXTREMELY FINE. A BEAUTIFUL EXAMPLE OF THE 5-CENT 1847 ISSUE IN THE RICH ORANGE BROWN COLOR.

With 2005 P.S.E. certificate (XF-Superb 95). To date this is the only example to earn this high P.S.E. grade. .................................................. 850.00

1004  

5c Orange Brown (1b). Brilliant color in the early Orange Brown shade, large even margins, light strike of red grid cancel

EXTREMELY FINE GEM. A BEAUTIFUL AND BRIGHT EXAMPLE OF THE 5-CENT 1847 ISSUE IN VIVID ORANGE BROWN COLOR.

With 2005 P.F. certificate................................. 850.00

1005  

5c Orange Brown (1b). Large to huge margins, a late printing in the scarce and elusive Orange Brown shade, neat black grid cancel and light red town datestamp

EXTREMELY FINE. A SCARCE EXAMPLE OF THE 5-CENT 1847 ORANGE BROWN WITH A BLACK GRID AND RED TOWN DATESTAMP.

With 1995 and 2005 P.F. certificates. Scott Retail does not include $200.00 premium for red town cancel.... 950.00
1006 (*) **10c Black (2).** Unused with traces of original gum, large even margins all around, detailed impression which clearly shows the intricately-engraved design

**EXTREMELY FINE. A GORGEOUS, REMARKABLY FRESH AND VERY RARE UNUSED EXAMPLE OF THE 10-CENT 1847 ISSUE.**

Most unused examples either have margins close or touching, or have defects such as creases. The example offered here, in sound condition and with four large margins, should be considered a great rarity.

With copy of P.F. certificate. Scott Retail with original gum is $30,000.00. The $12,500.00 value for No Gum is too low, in our opinion, considering the great rarity of sound unused examples. .......................................................... 12,500.00
1007  **10c Black (2).** Huge margins all around incl. sheet margin at left, crisp shade nicely contrasted by red grid cancel

**EXTREMELY FINE GEM. A MAGNIFICENT SHEET-MARGIN EXAMPLE OF THE 10-CENT 1847 ISSUE.**

With 2001 P.F. certificate and 2005 P.S.E. certificate (XF-Superb 95)

1,350.00

1008  **w 1c Blue, Ty. II (7).** Position 68L3, original gum, barely hinged, full and even margins all around, bright color

**EXTREMELY FINE. A RARE ORIGINAL-GUM EXAMPLE OF THE TYPE II ONE-CENT 1851 IMPERFORATE ISSUE FROM PLATE 3.**

According to Ashbrook and Neinken, Plate 3 is believed to have been made in March or April 1856, possibly to replace the defective Plate 2 and/or to meet the increased demand for stamps concurrent with the April 1855 change in postal regulations requiring prepayment of postage. For an unknown reason — possibly a severe defect that arose in the plate — very few stamps were printed from the new Plate 3 before it was retired, and surviving examples are rare.

With respect to Plate 3 stamps such as this, which can be plated with certainty, Neinken wrote (p. 220): “The fact is that in this day and age, if a stamp has been plated as a Plate 3 position, and this plating is substantiated by a knowledgeable student or a Philatelic Foundation certificate, the Plate 3 stamp realizes far more in auction sales, or when purchased from a dealer, even though it has no definite Plate 3 characteristics. There is only one certain way to identify a stamp as being printed from Plate 3, and that is to definitely plate the position.”

With copy of 2000 P.F. certificate for strip of three. The Plate 3 stamp is unpriced in unused condition. Another choice original-gum example realized $10,500 in our 2005 Rarities sale

1851-56 ISSUE

1009  1c Blue, Ty. III (8). Large margins to touching, rich color, bold strike of square grid cancel

VERY FINE AND CHOICE. A BEAUTIFUL EXAMPLE OF THE 1851 ONE-CENT TYPE III IMPERFORATE ISSUE.

With 1973, 1994 and 2005 P.F. certificates.......................... 5,250.00

1010  1c Blue, Ty. III, Position 99R2 (8). Three large margins incl. part of adjoining stamps at top and right, just barely touched at top left, deep rich color, neat strike of San Francisco circular datestamp leaves type characteristics clearly visible

Type III is defined by breaks in the outer lines at both top and bottom. Many Type III stamps have breaks that were created or enlarged by plate wear. Since the wear occurred over a period of time, a majority of stamps of this type (both unused and used) have small breaks in at least one line. The most notable exception is Position 99R2. According to the Neinken book, "The 99R2 stamp is a fresh entry, that was short transferred both at top and bottom, over an original entry that had been erased... The reason that 99R2 is the finest example of Type III is because of its very short transfer at top and at bottom, giving us the wide breaks in these lines." (p. 184).

With 1986 and 1991 P.F. certificates ........................................... 6,000.00
1c Blue, Ty. IIIa (8A). Large to full margins, bright “Robin’s Egg Blue” shade from Plate 1 Early nicely complemented by blue “Providence R.I.” circular datestamp, sharp impression clearly showing break at top which is the defining characteristic of the type

1016 5c Red Brown (12). Enormous margins all around incl. part of adjoining stamp at top,
bright color, neat New Orleans circular datestamps
EXTREMELY FINE GEM. A SUPERB LARGE-MARGINED EXAMPLE OF THE 5-CENT 1856 ISSUE.

EXTREMELY FINE ORIGINAL-GUM EXAMPLE OF THE 5-CENT 1857 ISSUE IN THE DEEP BROWN SHADE. THIS IS ONE OF THE FINEST EXAMPLES IN EXISTENCE.

Due to the narrow spacing, many examples have the outer projections touching or in to the perforations. The example offered here, with full original gum, deep rich color, full perforations and with balanced margins, is a true condition rarity.

1027 No Lot.
1028 ★ 3c Pink (64). Original gum, lightly hinged, bright color in the true Pink shade

**VERY FINE AND CHOICE ORIGINAL-GUM EXAMPLE OF THE 1861 3-CENT PINK.**

The 3c 1861 Pink (Scott 64) is one of the most difficult stamps of the 1861-66 Issue to find in sound, well-centered, original-gum condition with fresh color. The nature of the ink used to print the 3c Pink shade is such that over the course of time, with exposure to light and other adverse elements, the color tends to oxidize or lose its vibrancy.

Collectors who have searched in vain for a 3c Pink in such condition will appreciate the rarity of this stamp in such a remarkable state of preservation. Others who may be less familiar with the rarity of this early 1861 Issue — and perhaps deceived by the abundance of common 3c 1861 shades (Scott 65) — are urged to consider the extreme rarity of Scott 64 in sound original-gum condition. In numerous auctions, we have offered well-centered original-gum examples of the 1861-66 Issue, and the record realizations at large multiples of Scott value demonstrate the rarity of these stamps.

With 1994 and 2003 P.F. certificates. ................................................................. 9,500.00

1029 ★ 3c Rose Pink (64b). Original gum, lightly hinged, brilliant color on bright paper, Extremely Fine, with 2000 P.F. certificate for pair ....................... 600.00

1031  ** 10c Yellow Green (68). Mint N.H., deep rich color on bright paper, 
VERY FINE AND CHOICE. A SCARCE MINT NEVER-HINGED EXAMPLE OF THE 10-CENT 1861 ISSUE. 
This is the second Mint N.H. example of the 10c 1861 Issue we have offered since we began 
maintaining computerized records in 1992. Reaching further into the past through an exten-
sive review of auction catalogues, we have been unable to locate any Mint N.H. singles. 
Significantly, original-gum blocks of the 10c 1861, from which Mint N.H. stamps might be 
obtainable, have rarely appeared at auction, including major sales where one would expect to 
find them. Caspary had hinged blocks of four and six, and West had an off-center block of 
four. The Klein collection of blocks had only a no-gum block of six, and the Ishikawa collec-
tion had very poorly-centered hinged block of four. Not one unused block was found in the 
Lilly collection or any of our firm’s Rarities of the World sales. In recent years the auction 
realizations for Very Fine or Extremely Fine original-gum (hinged) examples of the 10c 1861 
have supported our observation that this issue is especially rare in such condition.

“Paid” in circle” handstamp, small paper wrinkle at top right not mentioned on either accompanying certificate

**VERY FINE AND CHOICE. AN EXCEEDINGLY RARE EXAMPLE OF THE 5-CENT RED BROWN 1862 ISSUE CANCELLED IN GREEN.**

It is not widely known that the late Marc Haas, who amassed one of the largest and most valuable U.S. cover collections of all time, also collected classic U.S. stamps in superb used condition. His collection was offered under the title “Distinguished Connoisseur” in our Sale 418, and we frequently refer to that sale catalogue to see what exists. Haas also had a penchant for green cancels, and, if he were able to obtain a green cancel on any of the 5c 1861 shades, it would have been in that sale. Not only is an example missing from the Haas sale, it is also missing from the Rohloff, Grunin and Klein sales, all of which had a significant number of 5c 1861-63 Issues.

With 2004 P.S.E. and copy of 2005 P.F. certificates as a pair. The other stamp in the pair realized $7,500 hammer in the 2005 Rarities sale. ................................. 500.00

**EXTREMELY FINE GEM. A SUPERB ORIGINAL-GUM EXAMPLE OF THE 24-CENT GRAY 1863 ISSUE. SCARCE IN SUCH CHOICE CONDITION.**

Although the 24c 1861-66 Issue exists in large quantities of used stamps and a fair quantity of off-center original-gum examples, all of the shades are rare in higher grades with original gum. This superb Gray (a later printing) is remarkable not only for its centering and gum, but there are no traces of toning that often plague original-gum examples of Scott 78b. ....................................................... 2,250.00
3c Rose, D. Grill (85). Clearly-defined grill which is easily visible from the front, brilliant color, light strike of segmented cork cancel

EXTREMELY FINE USED EXAMPLE OF THE 1868 3-CENT D GRILL.
With 2003 P.F. and 2005 P.S.E. certificates (XF 90)........ 1,050.00

2c Black, Z. Grill (85B). Well centered with huge margins for this stamp, full and clearly-defined grill showing all of the points, well-struck circle of diamonds cancel, long full perfs

EXTREMELY FINE GEM. AMONG THE FINEST EXISTING USED EXAMPLES OF THE 1868 2-CENT Z GRILL. AN OUTSTANDING STAMP IN EVERY RESPECT.
If this stamp was an ungrilled 2c Black Jack, it would merit the highest rank among used examples. The plates used to print these stamps failed to provide enough space between subjects for the large 12-gauge perf holes. Consequently, most Black Jack stamps have perfs touching the design on one or two sides. This scarcity of centered copies multiplies exponentially when the Z Grill is factored into the equation. Only a small quantity of 2c sheets were grilled during the period when the Z device was active — after the D Grill, the Z is the rarest of Black Jack grilled stamps — and discriminating collectors are well aware of the rarity of well-centered examples of Scott 85B. This stamp’s centering and margin width both far exceed the standard of the issue.
With 1995 and 2005 P.F. certificates .............. 1,250.00

10c Green, E. Grill (89). Original gum, unusually choice centering, easily identifiable grill points

EXTREMELY FINE. AN OUTSTANDING ORIGINAL-GUM EXAMPLE OF THE 1868 10-CENT E GRILL WITH REMARKABLE CENTERING — RARE IN THIS CHOICE CONDITION.
The centering and soundness of this 10c E Grill place it high on the condition census.

EXTREMELY FINE. A BEAUTIFUL ORIGINAL-GUM EXAMPLE OF THE 24-CENT 1869 PICTORIAL ISSUE.

The 24c 1869 Pictorial, even in original-gum condition, is not a rare stamp. However, centering and soundness are elusive qualities among examples of this issue. This stamp has color, centering and margins that appear more like its re-issue counterpart.

**EXTREMELY FINE. A GORGEOUS ORIGINAL-GUM EXAMPLE OF THE 30-CENT 1869 PICTORIAL ISSUE.**

Our experience with the 1869 Pictorial Issue has shown that the 30c with grill (as opposed to Scott 121a without grill) is extremely rare in well-centered original-gum condition. Centering seems to be a challenge in this issue, and our best estimate is that 12 to 15 stamps exist in the Extremely Fine grade with original-gum.

EXTREMELY FINE. AN INCREDIBLY RARE MINT NEVER-HINGED EXAMPLE OF THE 24-CENT 1869 PICTORIAL RE-ISSUE. WE KNOW OF NO OTHER MINT NEVER-HINGED EXAMPLE OF THIS STAMP.

Due to the extreme rarity of 24c 1869 Re-Issue multiples, there have been few opportunities to harvest Mint N.H. singles from blocks. Our records and a search thru auction catalogues failed to produce another Mint N.H. 24c 1869 Re-Issue.

1083  **90c Carmine (155).** Original gum, beautiful rich color and detailed impression, choice centering

EXTREMELY FINE. THE 1870 90-CENT NATIONAL BANK NOTE ISSUE IS RARE IN CHOICE ORIGINAL-GUM CONDITION.

The 1870 90c National Ungrilled Issue, Scott 155, is somewhat overshadowed by its grilled counterpart, Scott 144. Collectors are also misled by the availability of Scott 166, the 90c 1873 Continental. Although the difference in shades is distinct, collectors have a tendency to confuse the two and under-rate the 1870 National printing. Only a few original-gum examples of Scott 155 have the centering, color and freshness of the stamp offered here.

EXTREMELY FINE GEM. AN OUTSTANDING MINT NEVER-HINGED EXAMPLE OF THE 50-CENT 1902 ISSUE WITH PLATE NUMBER SELVAGE.

The 1902-03 Regular Issue was a great improvement over the Bureau’s first efforts in 1894 and 1895. Perforations tend to be cleaner, and centering better, but the large plate layout and perforating method still resulted in a large number of poorly centered stamps. Furthermore, stamps issued in choice condition seldom stayed that way, because the boom in stamp collecting that began with the Roosevelt administration caused hordes of hinge-bearing philatelists to mount stamps over and over again. For this reason, today’s collectors have grown accustomed to paying many multiples of Scott value for Extremely Fine stamps in Mint Never-Hinged state. Anyone who has pursued this set can testify that the 50c is rarely encountered in such condition. The 50c 1902 offered here probably ranks among the five highest-quality examples in existence.

EXEMPLARY FINE GEM. AN EXTRAORDINARILY RARE MINT NEVER-HINGED JOINT LINE PAIR OF THE 1915 2-CENT TYPE I VERTICAL COIL. AN OUTSTANDING RARITY.

Type I rotary press stamps were produced using the same master dies as had been used for flat plate printings. However, due to the curve of the plate to fit the rotary press, the impressions lacked some of the details of the flat plate printings. New dies were made with strengthened lines, resulting in the Type II stamps. After plate wear was noticed, further strengthening was necessary, resulting in the Type III stamps. Scott 449 was not produced until almost a year and a half after the Type I horizontal coil, Scott 453. Due to the unpopularity of vertical coils, this Type I stamp was in production for only a short period of time before being discontinued. The joint line pair offered here, in Mint N.H. condition and with such choice centering and color, is a major rarity, and it is one of the finest Scott 449 line pairs extant.

FRESH AND EXTREMELY FINE. AN OUTSTANDING MINT NEVER-HINGED EXAMPLE OF THE VERY RARE 30-CENT PERF 10 WASHINGTON-FRANKLIN ON UNWATERMARKED PAPER.

In an article in *Philatelic Opinions V* published by the Philatelic Foundation, William T. Crowe, head of the Expert Committee, discusses the discovery of this rare stamp and how it might have been issued. The production of Scott 476A occurred during the period of transition from gauge-10 perfs to gauge 11. Bureau records do not list a 30c printing on unwatermarked paper that was perforated 10, but the existence of two certified panes—one bottom-right pane from Plate 6917 and one top-right pane from Plate 6911—is evidence that the combination of new unwatermarked paper and old 10-gauge perfs occurred, even if inadvertently. Stamps from these two panes (200 total), two left sheet-margin blocks of four and a bottom plate no. 6914 single, none of which have any trace of watermark, are the only accepted examples of Scott 476A.

The position just above this one, with similar centering, realized $12,000 in our Piedmont sale in February 2002. With copy of 1984 P.F. certificate ......................... 5,750.00

1333 ★ 3c Deep Brown, Special Printing (J10). Part original gum, beautiful rich color, remarkably well-centered on bright white paper, small crease at bottom right

**EXTREMELY FINE APPEARANCE. THE 3-CENT IS POSSIBLY THE RAREST OF THE POSTAGE DUE SPECIAL PRINTINGS.**

Although 436 copies were reported sold, it is believed that 100 copies were destroyed in the Calman lot. A thorough search of the marketplace, combined with conversations with dealers and collectors, has confirmed the extreme rarity of this stamp.

This is only the fourth example we have sold in the last five years. The other three are the Zoellner copy (original gum, inclusion, poorly centered), the Drucker copy (no gum, poorly centered), and a third copy (original gum, reperfed at top). This is the only sound copy we have offered with any amount of original gum.

**EXTREMELY FINE GEM. IN OUR OPINION, AND SUBSTANTIATED BY OUR EXTENSIVE AUCTION RECORDS, THIS IS THE FINEST MINT NEVER-HINGED EXAMPLE OF THE 50-CENT 1894 UNWATERMARKED BUREAU POSTAGE DUE ISSUE. NOT ONLY ONE OF THE MOST OUTSTANDING POSTAGE DUE STAMPS IN EXISTENCE, BUT ONE OF THE GREATEST OF ALL BUREAU ISSUES.**

The 50c 1894 Unwatermarked Bureau Postage Due Issue is notorious for its typically poor centering. Only a tiny fraction of the total population exists with centering that could be compared with this example, and it is unlikely that any other has the margin width of this stamp or Mint N.H. gum.

For the record, we have offered three Mint N.H. singles, none with margins and centering equal to the stamp offered here.
