This cover was carried by PMSS Panama on May 1, 1850, connecting with USMSS Georgia at Chagres. This was the only trip handled by route agent R. J. Laurensen, who applied the manuscript postmark in the absence of a datetamping device. Only two examples of this manuscript marking are reported.

Mayer in Baltimore Md., red “Panama” straightline handstamp and “Steam Ship 30 Cts” in circle with rate crossed out in blue pen and matching “Free”;

Very Fine. One of Two Recorded Covers Franked by Fremont and Handstamped with the “Panama” Straightline at the United States Postal Agency in Panama.

John C. Fremont was the most famous of early explorers of the American West. When gold was discovered on his property, Fremont became a wealthy man, but he lost much of his fortune in subsequent failed business deals. He was politically well-connected and married to Jessie Benton, the beautiful and popular daughter of Senator Thomas Benton of Missouri, whose expansionist policies helped Fremont’s rising star. In 1850 Fremont became a U.S. Senator from California and proponent of the anti-slavery Republican Party. He ran as their presidential candidate in the 1856 campaign, but lost to James Buchanan. In later life Fremont’s stature declined, and it was only through the publication of books about his early years of exploration that the “Pathfinder of the West” remained financially solvent. The addressee, Charles F. Mayer, was a member of the Konig family and principal in the Baltimore firm of Mayer & Konig, a prominent importer and dealer in fancy goods.

This cover was handstamped “Panama” by the U.S. postal agent in Panama, and it was carried by steamship from the east coast of the Isthmus of Panama to New York City. At New York, the “Steam Ship 30 Cts” was applied to indicate postage due, but Fremont’s senatorial free frank was soon recognized, and the letter was properly marked “Free” (blue ink is typical of New York in this period). There is no date on the cover, but it was probably mailed in 1850.

On December 2, 1853, she was stranded off Anacapa Island in the Santa Barbara Channel and lost, but the mails, passengers and cargo were saved. Our Levi records contain nine examples of the two-line handstamp, of which two were carried before the Winfield Scott was commissioned into the Pacific service.

VERY FINE. THIS IS THE ONLY EXAMPLE OF THE McNEIL & DUDLEY RAILROAD PROPAGANDA DESIGN CONTAINED IN THE LEVI RECORDS OF WESTERN ILLUSTRATED COVERS.

The railroad designs were part of a public relations effort to promote completion of the transcontinental railroad. Although the “Per Overland Mail” route depicts a steam locomotive, the mail was actually transported by horses and stagecoach. Some of the designs are more explicit, reading “Overland Mail in hope of the [railroad].” This Napa City publisher’s design is distinctive and, according to our Levi records, represented by this sole cover.

**ADAMS & CO.’S EXPRESS, CAL., 50c BLACK ON BUFF ENTIRE (1LU4).** Unused 3c Red Nesbitt entire (U10), faint horizontal crease thru stamps not noted on certificate VERY FINE APPEARANCE. FEWER THAN A HALF-DOZEN EXAMPLES OF THIS SURPRINTED FRANK ARE REPORTED TO EXIST ON ANY OF THE NESBITT ENTIRES.

If contemporary, the Adams & Company stamped envelopes — 25c and 50c values on 3c and 6c Nesbitt entries or cut-outs used as adhesives — must come from the period from 1854 to the collapse of the firm in March 1855. Their rarity could be attributed to the sudden failure of the Adams firm. However, at least one student of the subject has recently argued that these stamped envelopes and cut-outs were created in the 1890’s by the notorious forger Wuesthoff. The controversy has not been resolved.

Rumrill & Co's Express, Connecting at Marysville with Wells, Fargo & Co." blue circular handstamp, conjunctive usage with "Wells, Fargo & Co. Express San Francisco" and "Free" in matching blue ovals on cover to Frank Rumrill at Marysville, originating in Franklin Mills, Ohio, with original letter datelined "Franklin Oct. 31, 1854" from Rumrill's sweetheart, Henrietta, one of a series of letters in which she pleads with him to return home, her constant whining evidently worked, because Rumrill quit the express business in 1855 (selling out to Langton) and appears to have left California, vertical crease in cover at left and slight wear, otherwise Fine, an outstanding express usage E. 500-750

F. Rumrill & Co.'s Express, Downieville. Clearly struck double-line oval handstamp on small blue cover to Rumrill's sweetheart, Henrietta, in Franklin Mills O., ms. "F" (for "Free"), probably mailed by Rumrill himself or someone known to him, "New-York 5 Cts. Nov. 14" integral-rate circular datestamp — the 5c rate indicates that this was carried outside the regular mails and placed into the New York City post office as an unpaid letter — minor edgewear, Very Fine, Henrietta's complaints about Frank's absence is the principal reason Rumrill quit the express business in 1855 (selling out to Langton) and presumably returned home, ex Barkhausen, illustrated in Letters of Gold ................................................................................................................ Aug. 20” oval datestamp on front and blue “Wells, Fargo & Co. Walla Walla Sep. 7” oval datestamp on back, a bit aged around edges, small corner repairs, still Very Fine, this 1861-62 express carried mail between the Salmon River and Nez Perces mines in Idaho and Walla Walla, Washington Territory, where Wells, Fargo & Co. provided connections to other locations; the service to and from the Idaho mines was probably provided by Wells, Fargo & Co. with the frank representing a surcharge (50c, 75c and $1.00 rates); this usage is unusual because of the sequence of datestamps and their locations — The Dalles (presumably the origin of this cover) lies west of Walla Walla, and Burnt River is about the same distance southeast of Walla Walla along the Oregon/Idaho border — our interpretation is that the cover travelled east from The Dalles (Aug. 20), then south from Walla Walla (Sep. 7) to Straw Ranch, which means the frank was used for express service to Burnt River (where gold was discovered in the 1850’s); ex Dale-Lichtenstein... VERY FINE. ONE OF THE MOST SPECTACULAR FRANKINGS WE HAVE EVER ENCOUNTERED AMONG 1861 ISSUE COVERS. A ‘TRIPLE THREAT” COVER, COMBINING WESTERN EXPRESS USAGE, A FIVE-STAMP FRANKING FOR TRANSATLANTIC POSTAGE TO SWITZERLAND AND AN UNUSUAL NEW YORK FOREIGN MAIL CANCELLATION.

Every so often a cover emerges from its hiding place to cause a stir. This is one of them. While we have handled numerous 1861 Issue covers to Switzerland and a good number of Wells, Fargo & Co. franked entire to Europe, the Franking on this cover is, in our experience, unique. In this case, the sender uprated the 3c franked entire with 68c postage made up by an additional four different values of the 1861 Issue. Wells, Fargo & Co. carried it outside the mail to New York City, where it entered the foreign exchange office and was cancelled by the distinctive 6-Point Star, one of the forerunners to the Bank Note era “New York Foreign Mail” cancellations. It was marked with a 38c credit for British Packet service and sent via Prussian Closed Mail to Geneva. Then, fortunately, it was saved.

Ogden Utah, Dalles Ore., Walla Walla and Portland, condition is quite mixed (representation was the goal) but the scarcity and unusual character of these covers outweighs minor faults, worth careful examination, a treasure trove of Western Expresses...............Not illustrated E. 3,000-4,000

Morley’s interest in Holland, Morley & Co., which served the Gibsonville Ridge and Feather River mining camps, and eventually he and Holland renamed the express Holland & Wheeler; in December 1863 Wheeler withdrew from the partnership and started his own express with his brother, operating along the same route, and he evidently took the “Holland & Wheeler” woodcut and handstamp and altered them by removing Holland’s name; the two brothers closed down their express after a short time and one or both became partners in Wheeler, Rutherford & Co. ................................................................................ 4386 Wheeler’s Express. Two-line printed frank in frame (Haller FW10, Ty. 2) on 3c Pink entire (U35) to Morristown Cal., no markings, reduced into embossed stamp at right, otherwise Fine, this simple typeset frank is one of the rarest of all associated with the ubiquitous Wheeler name, it was probably released by Sam Wheeler during one of the brief periods when he operated on his own, as a measure of rarity there were no examples of this frank in the Barkhausen, Edwards, or 1997-2004 Dale-Lichtenstein sales............. E. 750-1,000

4387 Wheeler, Rutherford & Co.’s Express. Printed frank in banner (Haller FW11) on 3c Pink entire (U58) to San Jose, conjunctive use with “LaPorte Express Co. La Porte May 10” and “Wells, Fargo & Co. Marysville May 11” oval datestamps (ca. 1865), opened at left but barely reduced, Very Fine, a fascinating cover, which could be a triple-conjunctive use involving Wheeler, Rutherford & Co. and the LaPorte Express Co. as separate entities, another possibility is that Wheeler started the LaPorte Express Co. after splitting with Rutherford in early 1865 (continuing to serve the Gibsonville and Feather River mining camps) and accepted the frank from his partnership with Rutherford (who kept the woodcut and altered it by removing Wheeler’s name), the same markings with the same dates are found on a LaPorte Express franked entire in the 2004 Dale-Lichtenstein sale (lot 1179), another bit of circumstantial evidence linking Wheeler to LaPorte is that Dr. E. L. Willard, a pharmacist in LaPorte, was agent for Wheeler, Rutherford & Co. and then turns up as agent for the LaPorte Express Co. — ex Dale-Lichtenstein, with 2004 P.F. certificate .................................................................................................................... EXTREMELY FINE. THE FAMOUS AND UNIQUE PAIR OF THE RARE GREEN BALTIMORE CARRIER STAMP. ONE OF TWO RECORDED USED MULTIPLES OF ANY BALTIMORE CARRIER ISSUE AND A SIGNIFICANT EXAMPLE OF THE 2-CENT RATE PREPAID BY STAMPS.

Denwood N. Kelly describes this pair in his *Collectors Club Philatelist* series (Vol. 51, No. 3, p. 157): “The only piece known to the writer that offers definite evidence that such a two cent fee [for delivery from the post office] was occasionally prepaid is the pair of one cent green stamps (Scott 1LB4) used on a small piece of cover, pencil cancelled. . . . This rare pair, formerly in the Frank A. Hollowbush collection, was sold to a professional in 1946 by a Baltimorean who claimed to have torn it off a letter as he was destroying some family correspondence. . . . The supposition is that the pair of stamps was used by some person temporarily out of the city who mailed a letter home and used the stamps to prepay its delivery by carrier when it arrived in Baltimore, having taken the stamps with him for the purpose. There is also the good possibility that the pair paid a special two cent rate for a bulk mailing of a magazine or other printed matter. . . . This is one of only two examples on record of used multiples of Baltimore carrier stamps.”

Denwood N. Kelly describes this cover in his Collectors Club Philatelist series (Vol. 51, No. 4, p. 211): “This rare cover is now in a prominent Eastern collection [Middendorf] and in addition to being a fine example of late usage is also an example of a drop letter delivered by carrier for the rate of one cent, as specified under the Act of April 3, 1860, the Baltimore circular date stamp showing that the letter had first been handed in at the Post Office and then turned over to the Carrier Department for delivery.” Our records and a thorough search of auction catalogues turned up no other example of the Green stamp tied by the blue grid.

VERY FINE. ONE OF THREE-recorded covers with the Philadelphia “S” carrier stamp. An important carrier rarity.

The initial “S” is believed to designate carrier G. B. Schock. Our records of 7LB2 covers include one used June 6 (1849) with a 5c 1847 (Dr. Morris collection), the cover offered here (June 16, 1849) and another to the same addressee, dated June 29, 1849 (Gronowski collection). In addition to the three known covers, there is at least one (probably two or three) off-cover stamps.

Aug. 10/5” integral-rate circular datestamp on lady’s small cover to New York City street address, scalloped flaps, with original 1849 letter enclosed, stamp and cover have minor stains (could easily be cleaned)

EXTREMELY FINE. ONE OF THREE-reported examples of the “H” carrier stamp tied on cover.

Only three of the seventeen reported covers have the “H” stamp tied. One of the three realized $3,750 in the Golden sale. The “H” possibly represents carrier Philip Henty.

A few covers and pieces dated in late March and early April are found with the 1849-50 carrier stamps, but most do not have evidence of the year and cannot be reliably dated. This March 13 postmark on a clearly-dated 1849 letter is the earliest use, even assuming the other March dates without the year indicated are 1849 usages. The Philadelphia carrier service was reorganized in February 1849, and stamps were issued at that time.

IV (9), ample margins, both stamps tied by “Philadelphia Pa. A FINE EXAMPLE OF THE U.S.P.O. EAGLE CARRIER ADHESIVE STAMP, OF WHICH FIVE ARE RECORDED.

The Philadelphia carrier stamps printed on the sheet selvage of imperforate 1c 1851 stamps hold a unique position in United States philately. Elsewhere in the world there are very few instances in which sheet selvage was used to produce adhesive stamps — the Emory Va. Confederate provisional and early stamps of Zanzibar come to mind as other examples.

Based on genuine dated examples of Scott 7LB16 and 7LB18, as well as the record of Eagle Carrier covers used in Philadelphia, it appears that the supply of Eagle Carrier stamps in Philadelphia was depleted sometime in 1856 and that the carrier department resorted to substitute means of supplying stamps for prepayment of the carrier fee. One step was to obtain and distribute 1c 1851 stamps, which required a special accounting arrangement with the post office. Another was the creation of the handstamped adhesives, Scott 7LB16 and 7LB18.

Two handstamps were used to create Philadelphia carrier stamps in 1856: the Eagle oval (Scott type C31), which produced 7LB16, and the large oval (type C32), from which 7LB18 was made. Both are rare, but 7LB16 is considerably rarer, with only five examples recorded: 1) rectangular margins, on cover with 3c 1851 removed, ex Hessel, Golden (realized $6,250); 2) rectangular margins, used on cover with strip of three 1c 1851, ex Caspary; 3) diamond-shaped margins, on piece with one 1c 1851 intact, ex Caspary, Boker, Golden, D.K. Collection, the example offered here; 4) rectangular margins showing part of imprint, used on cover to San Francisco with 10c 1855, Siegel 1993 Rarities sale, lot 338; and 5) irregular but mostly rectangular margins, grid cancel, Siegel Dec. 12-14, 1995 (Sale 771, lot 1151). Only one of the five recorded stamps is found on an intact cover.

Ex Caspary, Boker, Golden and D.K. Collection. With 2000 P.F. certificate. Scott Retail for off-cover stamp is $5,000.00. ........................................................... E. 5,000-7,500

VERY FINE APPEARANCE. THE ONLY EXAMPLE OF THIS RARE CARRIER STAMP WE HAVE SEEN IMPRESSED ON THE CORNER OF THE SHEET. THE ULTIMATE "CORNER COPY".

The Philadelphia carrier stamps printed on the sheet selvage of imperforate 1c 1851 stamps hold a unique position in United States philately. Elsewhere in the world there are very few instances in which sheet selvage was used to produce adhesive stamps — the Emory Va. Confederate provisional and early stamps of Zanzibar come to mind as other examples. Two handstamps were used to create the Philadelphia carrier stamps: the Eagle oval (Scott type C31), which produced 7LB16, and the large oval (type C32), from which 7LB18 was made. Adams’ City Express Post, New York N.Y., 2c Black on Buff (2L2). Large margins to just barely in lower left frameline, uncancelled but gum tones lettersheet beneath, tiny tear at bottom from separation, used on folded cover to Nassau, Baden, via Bremen, addressed in old German to “An Adolf Schafer, Ministerialrath in Wiesbaden, Herzogthum, Nassau, Deutschland”, bold “New York 24 Jun. 14” debit datestamp for unpaid sea postage, red “9/AMERICA/UBER BREMEN” two-line transit handstamp, red “10½” (gutegroschen) Bremen debit handstamp, German transit charges of “13/45” in red pen and “1f1” due in red crayon (1 florin 1 kreuzer, equal to 61 kreuzer), “D1 3 7” letter carrier backstamp, pencil notation indicates origin date was Jun. 12, 1851, which corresponds to the transit markings on this cover.

VERY FINE. AN EXTREMELY RARE AND SPECTACULAR COVER. PROBABLY NO MORE THAN A HALF-DOZEN EXAMPLES OF THE ADAMS 2-CENT ON BUFF EXIST. THIS IS BELIEVED TO BE THE ONLY BUFF STAMP SURVIVING ON A COVER TO A EUROPEAN COUNTRY.

We have located four or five covers bearing the Adams’ City Express Post 2c on Buff stamp. Among our photographs is an image of a damaged cover to Germany, with the Buff stamp tied by a “New-York Jan. 20” circular datestamp, but this stamp was removed from the cover, its margins were trimmed, and it is now an off-cover stamp (ex Hall, lot 407). There is also a cover bearing the 2c on Gray (2L4), addressed to Baden via Le Havre with a New York Oct. 11 (1851) datestamp, from which the stamp has been torn out and replaced. The cover offered here is by far the finer of the two Adams’ City Express Post covers to a foreign country — it is also the only one bearing the Buff stamp.

This cover was carried on the Ocean Line’s Washington, departing New York on June 14, 1851, arriving at Bremen on June 29. For an explanation of the rates and markings associated with U.S.-Bremen treaty mail, please refer to an article by James Van Der Linden in the Chronicle (Feb. 1986). We gratefully acknowledge the assistance of Richard F. Winter and James Van der Linden in deciphering the old German writing and transit markings on this cover.

4568° American Express Co., New York N.Y., 2c Black on Green (4L1). Uncancelled, margins mostly clear of ornaments, certificate spells out all of the typical flaws of this rarity (slight creases, thin spots, small tears and surface scrapes).

FINE FOR THIS ISSUE. ONE OF THE RAREST OF ALL LOCAL POST STAMPS — ONLY FOUR GENUINE EXAMPLES ARE REPORTED TO EXIST.

Researchers have argued over the origins of this post, but the best evidence available indicates that it was run briefly in 1856 as American Express Co. (no relation to the well-known firm by the name name) by proprietors Smith and the Dobson brothers. The name was changed to Smith’s City Express Post after the Dobsons departed. (Reference: “Smith’s City Express Post and the American Express Company”, John D. Bowman, The Penny Post, July 2002.)

4569° Smith’s City Express Post, New York N.Y., 2c Black on Green (Unlisted in Scott). Unused (no gum), margins mostly clear of ornaments, certificate notes typical flaws (small thin spots, small creases and small scrapes in glazing).

FINE FOR THIS RARITY. ONE OF TWO RECORDED GENUINE EXAMPLES OF THE SMITH’S CITY EXPRESS POST STAMP IN PRIVATE HANDS.

Evidence indicates that the American Express Co. local post (no relation to the well-known firm by the name name), which was started in New York City by Smith and the Dobson brothers, was re-named Smith’s City Express Post after the Dobsons departed, probably sometime in 1856. Calvet M. Hahn explored the question of which Mr. Smith ran the local post in the Collectors Club Philatelist (March-April 1994). The American Express Company and Smith’s City Express Post stamps were discussed in an article by John D., Bowman in The Penny Post (July 2002). The only two privately-held examples of the Smith’s stamp are reported: the one offered here and another uncancelled stamp, ex Richardson. Two others are held in the Tapling Collection at the British Library.

E. N. Barry is noted by Elliott Perry (One Hundred Years Ago, p. 63) as a “postman” in 1852. Contemporary source information and actual covers related to Barry are rare. *EXTREMELY FINE. THE ONLY ORIGINAL-GUM EXAMPLE AND BY FAR THE FINEST OF THE THREE RECORDED BENTLEY’S DISPATCH 10L1 STAMPS.*

The 10L1 and 10L2 stamps were issued by Henry Bentley, who operated the Madison Square Post Office (formerly Cornwell’s), circa 1857-59. It is believed that sometime in 1859, Bentley sold out to Benjamin Lockwood, who had acquired the Broadway Post Office (ca. 1853-54) and Swarts City Dispatch Post (ca. 1856). Lockwood’s business declined during this period, and the operation was closed by 1860 (reference: Perry-Hall, *The Chatham Square Post Office*, A.P.S. handbook).

Both Bentley’s stamps are extremely rare. Our records of 10L1 contain three examples: 1) pen-cancelled, ex Kelly, Boker, Golden (realized $8,000); 2) uncancelled, repaired, ex Needham, Boker, Golden (realized $4,750); and 3) original gum, the stamp offered here, discovered in 2001, ex D.K. *EXTREMELY FINE APPEARANCE. THE ONLY RECORDED MULTIPLE AMONG THE SEVEN RECORDED BENTLEY’S 10L2 STAMPS, OF WHICH SIX ARE AVAILABLE TO COLLECTORS.*

Our records contain seven examples of the Bentley’s 10L2 stamp: 1) top sheet margin, cancelled “Paid”, ex Lowe, Golden (realized $8,500); 2) cancelled “Paid” and pen stroke, slight thin spot, ex Boker, Golden (realized $3,000); 3) four margins, cancelled “Paid” (from S.E. to N.W.), small flaws, ex Schwartz; 4) uncancelled (?), Tapling collection, British Library; 5) uncancelled, thin spot, P.F. records; and 6-7) horizontal pair, unused, ex Schwartz, the pair offered here.

This pair shows two impressions from the same typeset position, which is identical to every other known example. It is evident that the Bentley 10L2 sheets were produced from a single-subject form repeated multiple times.

FINE APPEARANCE. THE ONLY RECORDED CALIFORNIA LETTER EXPRESS STAMP WITH A HANDSTAMPED CANCELLATION. THE DISTINGUISHABLE SAN FRANCISCO GRID AND DUPLEX DATESTAMP WERE USED IN THE MID-1860’S AND ON THIS STAMP THEY PROVIDE DEFINITIVE PROOF OF THE LEGITIMACY OF THE HOAG'S & MADISON'S POST.
This stamp is one of three confirmed examples of 33L3, including one in the British Library’s Tapling collection. The other confirmed 33L3 available to collectors is the cover offered our Golden sale (Sale 817, lot 861). Of all used examples of the Hoag & Madison stamps, including covers and stamps cancelled by pen, only this stamp is cancelled by the San Francisco post office’s distinctive grid. Dec. 29, 1845" — Fort Brooke is listed in Military Forts of the United States as a Florida garrison — the writer made an error in dating the letter 1845, because he refers to "next July 1845", and the docketing copies the incorrect dateline — assuming this was mailed in Dec. 1844 and arrived in Jan. 1845, the City Despatch marking falls into sequence with the five other recorded examples — a great usage, ex Golden............................................................ **VERY FINE. NO MORE THAN A DOZEN EXAMPLES OF FLOYD’S GREEN STAMP ARE KNOWN TO US, AND OF THESE ONLY TWO ARE IN SOUND UNUSED CONDITION.**

John R. Floyd advertised the start of his Penny Post in July 1860. In June 1861, after the outbreak of the Civil War, Floyd sold the firm to Charles W. Mappa, but continued to assist in managing the post for several months before leaving for war in January 1862. Mappa in turn sold out to Kimball & Waterman in May 1862, and the post continued at least until November 1862 and then closed.

The Brown and Blue stamps were the first issued, and the Blue continued to be issued from 1860 through 1862. The Green stamps are known used only in October and November 1862, thus they appear to be the last printing, probably by Kimball & Waterman before the post was closed. The Blue is the most common, and the Brown is extremely scarce. The Green is by far the rarest, with only two recorded covers, six or seven used stamps off cover, and three unused stamps (two with original gum) known to us.

**Frazer & Co., Cincinnati O., 2c Black on Green (69L3).** Three large margins, clear of left frameline, uncancelled, used on grayish blue folded letter datelined “Cincinnati Dec 1st 1847” to Mt. Auburn (a Cincinnati neighborhood), a poignant letter written by a gentleman to his lady friend the day after a lover’s quarrel, accompanying certificate notes a picked-out inclusion, but given the nature of this cover and its recent discovery, this is probably just a natural paper flaw.

EXTREMELY FINE. ONLY SEVEN COVERS BEARING THE FRAZER & COMPANY EAGLE STAMP ON GREEN ARE REPORTED. THIS EXAMPLE ON A LOVE LETTER IS RATHER EXTRAORDINARY.

Robert B. Meyersburg reported six covers with Frazer & Co.’s Green stamp (*Penny Post*, Aug. 1992), including three local usages and three covers delivered to the post office (postage unpaid). This recently-discovered cover becomes the seventh known.

VERY FINE. THE ONLY TIED EXAMPLE AMONG THE SEVEN RECORDED COVERS BEARING THE HAMPTON 77L1 STAMP. ONE OF THE MOST OUTSTANDING OF THE PHILADELPHIA LOCALS.

Very little information about the T. A. Hampton post is known. Different students have located the same 1852-53 city directory listing for Thomas A. Hampton, a printer located at Marshall and 5th, but nothing earlier. In his CCP article on Philadelphia locals (Nov.-Dec. 1994), Calvet M. Hahn attached special significance to the fact that tobacconists named Gilbert Harris and Benjamin Hampton occupied the same address at 11 North 10th Street during the relevant years. Although the first names do not match the local-post proprietors' names, Hahn believed that a family connection might exist that would link the two local posts. Steven M. Roth also noted the possibility of an association, based on the sequence of dated covers (Penny Post, Oct. 1993). Given the similarity of the stamps and the association of names and addresses, another possibility is that the Despatch Post was neither Harris's nor Hampton's individually, but that they were partners — the stamps with each partner's name could have been a convenient accounting method. Nothing is impossible, given the paucity of documentation.

Roth records five genuine 77L1 covers. Hahn recorded seven, but he cast doubt on three of them (as well as all 77L2's) because they are used in August 1848 and September-November 1849, which he considered to be too late for this post. Other researchers are less inclined to dismiss such a significant group of artifacts without additional information. The eight reported examples of 77L1, all cut to shape, including seven covers and one stamp added to a cover, are listed here in chronological order: 1) Aug. 7, 1847 (content), to P. H. Purviance, Auditor General, Harrisburg Pa., John A. Fox sale, Sep. 8, 1978; 2) Aug. 23, 1847, tied by Philadelphia datestamp on folded letter from unidentified origin to Friendsville Pa., ex Ackerman, Gibson, Boker, Golden, the cover offered here; 3) Oct. 5, 1847, to Daniel Blade, Easton Pa., ex Gibson, Golden; 4) Mar. 21, 1848, stamp repaired at bottom, to Tho. Woolman, Burlington N.J., Siegel Sale Apr. 1, 1965; 5) Sep. 25, 1849 (content), embossed cover to Benjaline French "Present", Sloane's records; and 7) Nov. 22, 1849 (content), embossed cover to Miss Benjaline French, 390 N. 7th St., ex Boker, Golden; and 8) no date, stamp added to cover with Philadelphia “Ship” and “12” handstamps, ex Caspary, Middendorf.

This cover is of the greatest significance as it is the only known tied example of any of the Hampton stamps. It is also the only stamp known with the small colorless "X" impressed below "Paid", which has never been previously noted.

Jefferson Market P.O., New York N.Y., (2c) Black on Blue Glazed (88L2). Large margins to just touching, uncancelled as usual, used on back of folded letter (in German) to Reading Pa., two datelines incl. Mar. 27, 1851, red “New-York 5 Cts. Apr. 15” integral-rate circular datestamp, opened for display, stamp has small surface scrapes and small tears, lettersheet has small tears and soiling.

FINE. ONE OF FIVE RECORDED EXAMPLES OF THE JEFFERSON MARKET POST OFFICE STAMP ON BLUE PAPER — EACH USED ON COVER, OF WHICH TWO ARE TIED.

The Jefferson Market P.O. was not officially connected to the New York Post Office, but used the “Post Office” designation in its name, much like Swarts and other contemporaries. The post is believed to have been operated by Godfrey Schmidt, who was listed in the 1850-51 city directory as Godfrey Smith at 6 Greenwich Avenue (source: Elliott Perry). In addition to the stamps issued by the Jefferson Market P.O., a stampless cover was reported by Thomas C. Mazza in *The Penny Post* (Jan. 1995). The stampless folded letter is addressed to Sing Sing N.Y. and bears a clear strike of a large Eagle-type frame containing “Jefferson Market Post Office/BY G. SCHMIDT & CO.” in two lines. It also has a red New York Jun. 30 datestamp, and the letter is year-dated 1850. This 88L2 cover is clearly postmarked Apr. 15 (1851), which establishes at least a ten-month existence for the post, corresponding to the city directory listing for Godfrey Schmidt (Smith).

Our records contain four examples of 88L1 (Pink paper), all uncancelled off cover, and five of 88L2 (Blue paper) used on separate covers. The stamps were not cancelled by the post, but in two cases they are coincidentally tied by a postal marking. The five 88L2 examples are listed here: 1) tied on Mar. 8, 1851 folded letter to Germany, ex Caspary, Boker; 2) uncancelled (scissors cut), New York Jan. 4 (1851) datestamp on cover to Baltimore, ex Caspary, Hall (realized $6,500) 3) tied by New York datestamp on cover to Julia Lampher, no other details, John A. Fox sale, Oct. 27, 1950, Sloane’s notes; 4) uncancelled, used on back of 1851 folded letter to Louis Kremp Mercer, Reading Pa., “New-York 5cts. VERY FINE. A BEAUTIFUL TIED EXAMPLE OF THE RARE "W. H. LAW" METROPOLITAN POST OFFICE STAMP, OF WHICH ONLY SEVEN COVERS ARE RECORDED.

The Metropolitan Post Office (a private post despite the name) is believed to have been established just prior to January 1854 by Lemuel Williams, whose abbreviated name “L. Williams” and 162 Ninth Street address appear on the first octagonal stamp (108L1). Curiously, Williams is never identified with the Metropolitan Post Office nor any mail operation in the city directories. The 1854-55 and 1855-56 directories list William H. Laws as proprietor of the “Post Office” at 13 Bible House, which was located across from Williams’ address. The 1856-59 directories list Laws at the same address, but the name “Metropolitan Post Office” is used. In 1859 Laws is listed with the business “Books”, which suggests the end of his involvement with the post. A trade directory links Williams and Laws in a partnership at 162 Ninth Street. (Reference: Patton book, p. 228, and Perry correspondence).

Although undated, it is our opinion that this cover could not have been mailed any earlier than 1856, based on the use of the “Metropolitan P.O.” and “Paid/W. H. Laws” markings, as well as the worn impression of the 108L3 stamp. We record a total of seven covers with 108L3 (updated from our Golden sale), including six local usages with identical markings.

VERY FINE APPEARANCE. ONLY SEVEN EXAMPLES OF PRICE’S EIGHTH AVENUE POST OFFICE STAMP ARE KNOWN TO US — ALL BUT ONE ARE UNCANCELLED ON COVERS.

Although little documentation has been produced, the accepted history of the Eighth Avenue Post Office is that it was operated by James Price in 1854 and sold that year to David Russell. Price may have issued the unique Eighth Avenue Post Office stamp (Scott 63L1), which is reported to have been used in 1852, however, we do not know the basis of the 63L1 year date, because the one recorded example is on a cover without a letter, postmark or other indication of date. The portrait on the 120L1 stamp issued by Price is thought to be his own. Price’s successor, David Russell, is listed at 387 Eighth Avenue in 1854 and then at 410 Eighth Avenue until 1857-58. The 1855-56 directory lists his occupation as “express” and in 1856-58 it is given as “subpost.” Russell issued a stamp very similar in design to Price’s.

We have located seven examples of Price’s 120L1 stamp, all uncanceled, six of which are on covers (at least three did not originate). We cannot be certain this stamp originated, although the “Paid 3 cents” — applied to the cover before the 3c 1851 was affixed — is positive evidence that a local post was involved in bringing it to the post office for mailing. Such notations were usually made when a coin was given to the post.

Steven M. Roth records twelve covers, including six tied examples, in his Oct. 1993 Penny Post article. We have located an additional cover to Baltimore with the 137L1 and 5c 1851 tied by a Philadelphia Jul. 21 datesamp. However, Roth’s list includes a Fox-fake tied cover (ex Malcolm, Siegel Sale 417, lot 1903), which must be removed from the record, leaving six genuinely tied covers.
