4c Columbian, Error of Color (233a). Disturbed original gum, deep rich color in the more intense of the two shades, wide margins for this difficult issue, light diagonal crease at bottom

VERY FINE APPEARING EXAMPLE OF THE 4-CENT COLUMBIAN ERROR OF COLOR.

The 4c Columbian color error was caused by the use of a wrong batch of ink, and spectrographic analysis has shown that the blue inks of the 4c error and 1c Columbian have the same components.

Stamps from at least two panes reached collectors, and the few cancelled examples indicate that stamps used by the public came from other panes. It is likely that a number of full sheets were printed using the wrong ink, and most of the stamps have simply been lost to philately.

With 1987 P.F. certificate ................................................................. 19,000.00

VERY FINE APPEARANCE, AN EXTREMELY RARE PLATE NUMBER BLOCK OF SIX OF THE $1.00 TRANS-MISSISSIPPI ISSUE.

The $1.00 Trans-Mississippi stamp is widely regarded as the most beautiful stamp ever issued by the United States. Plate blocks of six are much rarer than the four-stamp plate blocks. FINE APPEARING EXAMPLE OF THIS MAJOR 20TH CENTURY INVERT ERROR.
The 1c Pan-American Inverts were found in at least four different post offices around the country, soon after release of the issue in May 1901. Between 600 and 700 are likely to have been issued.

2c Pan-American, Center Inverted (295a). Barely disturbed original gum, superbly centered with wide balanced margins, bright colors and clear impressions of vignette and frame.

EXTREMELY FINE. ONE OF THE FINEST ORIGINAL-GUM EXAMPLES OF THE 2-CENT PAN-AMERICAN INVERT.

The 2c is the rarest of the three Pan-American Inverts. It is surmised that approximately 200 were issued through the post office, with two distinct shades known. Estimates of surviving examples range from an early count (1945) of 55 unused and 2-5 used to the 1998 Datz estimate of 150 unused, 3-5 used and a block of four intact. Our Levi records contain the intact block (4), reconstructed block (4), 64 unused singles and 6 used singles, for a total of 72 unused and 6 used. Many of the unused singles have disturbed gum or no gum, and/or are off center to top or top left. This Extremely Fine sound stamp with original gum that is only slightly disturbed from hinge removal is among the finest known examples.

Scott footnote states “Almost all unused copies of No. 295a have partial or disturbed gum. Values are for examples with full original gum that is slightly disturbed.” ...... 45,000.00

EXTREMELY FINE GEM. THIS IS PROBABLY THE FINEST MINT NEVER-HINGED PLATE BLOCK OF THE 50-CENT 1909 DOUBLE-LINE WATERMARKED WASHINGTON ISSUE IN EXISTENCE. A REMARKABLE SHOWPIECE.

Scott 341 was produced from only one plate, No. 4956. It produced plate blocks at top and bottom. A search of past auction catalogues has failed to find an equal to the plate block offered here

Ex Silver Lake. Undercatalogued in Scott — they assign a 228% premium for Mint N.H. singles versus hinged, but only assign a 178% premium for a Mint N.H. plate block versus the hinged despite its far greater rarity. Applying the same premium would result in a catalogue value of $16,000.00 and still would not fully account for the rarity of this plate block in relation to catalogue value for singles

............................................ 7,000.00
$1.00 Violet Brown (342). Top imprint and plate no. 4957 block of six, lightly hinged in selvage only, stamps Mint N.H., rich color, perfectly centered, one toned perf tip, sealed selvage tear just above imprint
EXTREMELY FINE APPEARANCE. A BEAUTIFUL PLATE NUMBER BLOCK OF THE $1.00 WASHINGTON.
Excluding the Bluish Paper issue, this is one of the rarest of the Washington-Franklin plate blocks. The Bureau experienced difficulty with paper shrinkage while printing the 1908 Issue, and the Bluish Paper experiment of 1909 was part of an effort to correct the problem. The 1908 high-denomination stamps are difficult to find well-centered, and plate blocks are extremely rare in higher grades.

The error passed unnoticed and the sheets were issued to the public Perf 10, Imperforate and Perf 11 (Scott 467, 485 and 505). The imperforate is by far the rarest of the three.

FINE-VERY FINE. AN EXTREMELY RARE AND DESIRABLE PLATE NUMBER BLOCK OF THE 1918 $2.00 ORANGE RED & BLACK. ONLY A HANDFUL OF PLATE BLOCKS EXIST, AND THIS LARGE MULTIPLE IS EVEN Rarer AND MORE DESIRABLE.
The $2.00 and $5.00 1918 Issue are the first bi-colored dollar-denominated postage stamps issued by the United States. Both were released just three months after the famous 1918 24¢ Inverted Jenny, but the early printings were issued in small quantities, since stocks of the 1902 $2.00 and $5.00 1917 issue were still on hand.

According to Johl, the $2.00 Orange Red & Black was a color error on the part of the Bureau of Engraving & Printing. The official description and order for the bi-color stamps specified “Red and Black” for the $2.00. When subsequent printings appeared in 1920 and philatelists brought the matter to the attention of the Bureau, they were told "this stamp has always been this color" (Johl, p. 306). From studies of Bureau and Post Office records, it is clear that the originally-intended color was not issued until November 1920 (Scott 547), and that the earlier Orange Red stamps were mistakes. The quantity issued has been variously estimated at between 47,000 and 68,000. ............... 14,700.00

Popularly called the "C.I.A. Invert", a single pane of 100 stamps was purchased at a the McLean Va. Post Office by employees of the C.I.A., for use on mail from the agency. They noticed the error, pooled together funds to buy a replacement sheet and kept the pane for themselves. EXTREMELY FINE GEM. A STUNNING BLOCK OF FOUR OF THE RARE GROUNDED PLANE VARIETY — EXTRAORDINARY BOTH FOR ITS CONDITION AND THE EXTREME DOWNWARD SHIFT OF THE PLANE VIGNETTE.

The true Grounded Plane stamps, in which the wheels of the plane break thru the top of “Cents”, come from portions of three sheets. The discovery sheet was owned and broken up by J. Klemann of Nassau Stamp Company. A second sheet was discovered in 1946 and sold in the Thomas A. Matthews sale (H.R. Harmer, Nov. 4, 1964), where it was purchased by Georges A. Medawar, publisher of Sanabria Airmail Catalogue. In Linn’s Stamp News of April 21, 1986, specialist Joseph R. Kirker Jr. published his research revealing a third source of this variety.

177 ★ 24c Carmine Rose & Blue, Center Inverted (C3a). Position 38, bright and fresh, well-centered, barest trace of hinging

VERY FINE AND CHOICE. A REMARKABLY FRESH AND BEAUTIFULLY CENTERED EXAMPLE OF THE FAMOUS 1918 24-CENT INVERTED “JENNY”. THIS STAMP IS ONE OF THE BETTER-CENTERED POSITIONS FROM THE DISCOVERY SHEET.

According to Jenny by George Amick (Amos Press, 1986), the original sheet of 100 Inverted “Jenny” stamps was purchased for $24 by William T. Robey at the New York Avenue Branch Post Office window in Washington D.C., on May 14, 1918, one day after the stamp was first placed on sale at the main post office. On May 20, Robey sold his sheet for $15,000 to Eugene Klein, a Philadelphia stamp dealer. Klein had already arranged to sell the sheet to Col. Edward H. R. Green for $20,000. Colonel Green instructed Klein to divide the Inverted “Jenny” sheet into singles and blocks, and to sell all but a few key position blocks.

It is well-known among stamp specialists and professionals that examples of the Inverted “Jenny” come in different grades of freshness and condition. Many of the original 100 stamps were mistreated by collectors during the years, despite the stamps’ rarity and value. Colonel Green himself allowed moisture to affect some of the stamps he retained. Other examples have become slightly toned from improper storage and climatic conditions. Hinge removal has caused thins and creases in numerous stamps, and a few have been “lost” to philately — or nearly so, as in the case of the copy swept up in a vacuum cleaner. This example is remarkable for its pristine state of preservation and for its centering, equalled by only a few stamps in the original sheet (almost all of the others have disturbed gum or faults).

Shipping and Transit Insurance

We will be pleased to arrange for shipping and transit insurance for purchases in this sale (except those described as “floor sale only”). To expedite billing and delivery of lots to hundreds of buyers per sale, we use standard charges for postage and insurance, based on the invoiced total and mailing requirements (see schedule). The standard charges are sometimes slightly more or less than the actual postage, but we do not include any fees for our labor or packing costs. Therefore, we ask all buyers to remit the prescribed amount for shipping charges.

Transit insurance is provided in all cases, except when the buyer has furnished us with proof that insurance coverage is effective under another policy. Proof, in such cases, will be accepted in the form of a written certificate from the insurance carrier.

You are responsible for insurance charges, which will be added to your invoice. This coverage is provided for our mutual protection against theft or loss in transit.

REVISED Bidding Increments

The auctioneer may regulate the bidding at his discretion. However, to assist absentee bidders in establishing their maximum bid for each lot, the increments shown at right will be used in most cases. We recommend that written bids conform to these increments (those which do not will be reduced to the next level).
