Information for Bidders

Bidding
The following means are available for placing bids:

1) **Attending the Live Auction in Person**: All bidders must register for a paddle, and new bidders must provide references at least three business days in advance of the sale.

2) **Live Internet Bidding**: Instructions for participating as a Live Internet Bidder are provided on the page opposite.

3) **Phone Bidding**: Bidders can be connected to the sale by phone and bid through a member of staff. Requests for phone bidding are subject to approval (please contact our office at least 24 hours before the sale). A signed Bid Form is required.

4) **Absentee Bids**: All bids received in advance of the sale, either by mail, fax, phone, e-mail or internet, are Absentee Bids, which instruct the auctioneer to bid up to a specific amount on one or more lots in the sale. Absentee Bids sent by phone, fax or e-mail should arrive at least one hour prior to the start of the sale session. Written bids should be entered legibly on the Bid Form in the sale catalogue. E-mail and internet bids should be carefully typed and double-checked. All new bidders must provide references. We recommend calling or e-mailing to confirm that Absentee Bids sent by mail, fax or e-mail have been received and entered.

Pre-Sale Viewing
Subject to availability, certain lots (except group lots) can be sent to known clients for examination. Requests must be made no later than 7 days prior to the sale. Lots must be returned on the day received. Postage/insurance costs will be invoiced. In addition to regular viewing, clients may view lots by appointment. Our staff will be pleased to answer questions or provide additional information about lots.

Expert Certification
Individual items offered without a current certificate (PF dated within the past five years of sale; PSE dated January 2004 or later) may be purchased subject to independent certification of genuineness and our description. Please refer to the Conditions of Sale and Grading Terms for policies governing certification.

Shipping and Delivery
Procedures and charges for shipping lots are printed on the back of the Bid Form. Bidders are responsible for all prescribed shipping charges and any applicable sales tax or customs duties.

Price Realized
Prices realized are sent with each invoice. Bidders with e-mail will receive a Bid Results report after the sale. Session results are posted immediately to siegelauctions.com
Live Internet Bidding at Siegel Auctions

Bidding from your computer lets you be part of the live auction from anywhere in the world!

There’s no substitute for following the auction in real time. Live Internet Bidding lets you bid and buy as though you were right there in the saleroom.

And it’s easy. Just start by following the simple steps to become a registered Live Internet Bidder. Once you’ve been approved for bidding, you can listen to the auction and place bids with the click of a mouse.

This step-by-step guide will instruct you how to register, set your browser and use the bidding interface.

1 Registering with Stamp Auction Network and Siegel Auction Galleries

Live Internet Bidding is managed by Stamp Auction Network (SAN). To bid, you must be registered and approved by both SAN and Siegel. To decide what you need to do, choose the description below that best fits you.

I’ve already registered with SAN and have been approved by Siegel for internet bidding. You’re ready for Step 2.

I’ve never registered with SAN, but I’m a Siegel client. Go to stampauctionnetwork.com/siegel and click on “Register” at the top. Check the box for Robert A. Siegel Auction Galleries (under “R”) and submit the form, indicating you are a Siegel client. Once registered at SAN, you’re ready for Step 2.

I’ve never registered with SAN, and this is the first time I’ve bid with Siegel. Go to stampauctionnetwork.com/siegel and click on “Register” at the top. Check the box for Robert A. Siegel Auction Galleries (under “R”) and submit the form with your trade references (please, no family members or credit card companies as references). Once registered at SAN and approved by Siegel for bidding, you’re ready for Step 2.

I’ve bid through SAN before, but this is the first time I’ve bid in a Siegel sale. Then you just need to be approved by Siegel. Go to stampauctionnetwork.com/siegel and click on “Update Registration” at the top. Your SAN account information will be sent to us for approval (you might be asked for other trade references). Once approved by Siegel for bidding, you can move on to Step 2.

2 Using your browser for Live Internet Bidding and understanding the way it works.

Live Internet Bidding works by providing an audio feed of the auction (for anyone using Internet Explorer) and by allowing registered bidders to observe and place bids. The bidding interface shows a photo and description of the lot, the current bid (and your bidding status), and options for placing competitive bids. To join the auction, go to stampauctionnetwork.com/siegel. You can also log on at siegelauctions.com.

The visual interface will work with any browser on both PC and Mac operating systems. However, the audio feed only works with Internet Explorer on a PC with ActiveX software installed. If ActiveX is not on your computer, you will have the option to install it.

Before bidding by internet for the first time, we recommend finding a sale in progress and listening to the public broadcast or logging in as a registered bidder. This will help you develop a feel for the sale tempo and bidding interface.

“System down” or “lost connection” events do occasionally happen. If you have any problems with Live Internet Bidding, please call 212-753-6421 for immediate assistance.

3 Using Live Internet Bidding to bid, track results and communicate with the auctioneer.

When you’re logged on as a Live Internet Bidder, the screen will display buttons with bid increments. After you click on a bid amount, the auctioneer is immediately notified of your bid. retracting a bid is usually not acceptable, so please bid carefully.

If you bid, then decide to stop, please use the “Pass” button, which appears once you’ve started bidding. This tells the auctioneer not to wait for another bid from you.

You can send messages to the auctioneer (for example, a request for extension). You can also track prior realizations from the bidding screen.
Conditions of Sale (please read carefully before bidding)

The property described in this catalogue will be offered at public auction by Robert A. Siegel Auction Galleries, Inc. (“Galleries”) on behalf of various consignors and itself or affiliated companies. By bidding on any lot, whether directly or by or through an agent, in person, or by telephone, facsimile or any other means, the bidder acknowledges and agrees to all of the following Conditions of Sale.

1. The highest bidder acknowledged by the auctioneer shall be the buyer. The term “final bid” means the last bid acknowledged by the auctioneer, which is normally the highest bid offered. The purchase price payable by the buyer will be the sum of the final bid and a commission of 15% of the final bid (“buyer’s premium”), together with any sales tax, use tax or customs duties due on the sale.

2. The auctioneer has the right to reject any bid, to advance the bidding at his discretion and, in the event of a dispute between bidders, to determine the successful bidder, to continue the bidding or to reoffer and resell the lot in dispute. The Galleries’ record of the final sale shall be conclusive.

3. All bids are per numbered lot in the catalogue unless otherwise announced by the auctioneer at the time of sale. The right is reserved to group two or more lots, to withdraw any lot or lots from the sale, or to act on behalf of the seller. The Galleries will execute bidding instructions on behalf of clients, but will not be responsible for the failure to execute such bids or for any errors in the execution of such bids.

4. Lots with numbers followed by the symbol ° are offered subject to a confidential minimum bid (“reserve”), below which the lot will not be sold. The absence of the symbol ° means that the lot is offered without a reserve. If there is no reserve, the auctioneer has sole discretion to establish a minimum opening bid and may refuse an offer of less than half of the published estimate. Any lot that does not reach its reserve or opening bid requested by the auctioneer will be announced as “passed” and excluded from the prices realized lists after the sale. The Galleries may have a direct or indirect ownership interest in any or all lots in the sale resulting from an advance of monies or goods-in-trade or a guarantee of minimum net proceeds made by the Galleries to the seller.

5. Subject to the exclusions listed in 5(A), the Galleries will accept the return of lots which have been misidentified or which have obvious faults that were present when the lot was in the Galleries’ custody, but not so noted in the lot description. All disputed lots must be received by the Galleries intact with the original packing material within 5 days of delivery to the buyer but no later than 30 days from the date of sale. (5A) EXCLUSIONS: The following lots may not be returned for any reason: lots containing 10 or more items; lots from buyers who registered for the pre-sale exhibition or received lots by postal viewing, thereby having had the opportunity to inspect them before the sale; any lot described with “faults,” “defects” or a specific fault may not be returned because of any secondary fault. Photographed lots may not be returned because of centering, margins, short/nibbed perforations or other factors shown in the illustrations. Lots may not be returned for any of the following reasons: the color of the item does not match the color reproduction in the sale catalogue or website listing; the description contains inaccurate information about the quantity known or reported; or a certification service grades a stamp lower than the grade stated in the description.

6. Successful bidders, unless they have established credit with the Galleries prior to the sale, must make payment in full before the lots will be delivered. Buyers not known to the Galleries must make payment in full within 3 days from the date of sale. The Galleries retains the right to demand a cash deposit from anyone prior to bidder registration and/or to demand payment at the time the lot is knocked down to the highest bidder, for any reason whatsoever. In the event that any buyer refuses or fails to make payment in cash for any lot at the time it is knocked down to him, the auctioneer reserves the right to reoffer the lot immediately for sale to the highest bidder. Credit cards are not accepted as payment.

7. If the purchase price has not been paid within the time limit specified above, nor lots taken up within 7 days from the date of sale, the lots will be resold by whatever means deemed appropriate by the Galleries, and any loss incurred from resale will be charged to the defaulting buyer. Any account more than 30 days in arrears will be subject to a late payment charge of 1% per month as long as the account remains in arrears. Any expenses incurred in securing payment from delinquent accounts will be charged to the defaulting buyer. A fee of $250.00 per check will be charged for each check returned for insufficient funds.

8. All lots are sold as genuine. Any lot accompanied by a certificate issued by The Philatelic Foundation within 5 years of the sale date or by Professional Stamp Experts since January 2004 is sold “as is” and in accordance with the description on the certificate. Such lots may not be returned for any reason, including but not limited to a contrary certificate of opinion. Buyers who wish to obtain a certificate for any item that does not have a P.F. or P.S.E. certificate (dated as above) may do so, provided that the following conditions are met: (1) the purchase price must be paid in full, (2) the item must be submitted to an acceptable expertizing committee within a properly executed application form within 21 days of the sale, (3) a copy of the application form must be given to the Galleries, (4) in the event that an adverse opinion is received, the Galleries retain the right to resubmit the item on the buyer’s behalf for reconsideration, without time limit or other restrictions, (5) unless written notification to the contrary is received, items submitted for certification will be considered cleared 90 days from the date of sale, and (6) in the event that an item is determined to be “not as described”, the buyer will be refunded the purchase price and the certification fee up to $600.00 unless otherwise agreed.

9. Until paid for in full, all lots remain the property of the Galleries on behalf of the seller.

10. Agents executing bids on behalf of clients will be held responsible for all purchases made on behalf of clients unless otherwise arranged prior to the sale.

11. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs. Buyers outside the U.S. are responsible for all customs duties.

12. The bidder consents that any action or proceeding against it may be commenced and maintained in any court within the State of New York or in the United States District Court for the Southern District of New York, that the courts of the State of New York and United States District Court for the Southern District of New York shall have jurisdiction with respect to the subject matter hereof and the person of the bidder. The bidder agrees not to assert any defense to any action or proceeding initiated by Galleries based upon improper venue or inconvenient forum. The bidder agrees that any action brought by the bidder shall be commenced and maintained only in a Federal Court in the United States District Court for the Southern District of New York or the State Court in the county in which Galleries has its principal place of business in New York. These Terms and Conditions shall be governed by and construed in accordance with the substantive laws of the State of New York.

Grades, Abbreviations and Values Used in Descriptions

Grades and Centering

Our descriptions contain detailed information and observations about each item’s condition. We have also assigned grades to stamps and covers, which reflect our subjective assessment. For stamps, the margin width, centering and gum are described and graded according to generally-accepted standards (an approximate correlation to numeric grades is provided at right). Although we believe our grades are accurate, they are not always exactly aligned with third-party grading terms or standards for all issues. A lot may not be returned because a certification service grades a stamp lower than the grade stated in the description.

Information from the P.S.E. Stamp Market Quarterly and P.S.E. Population Report™ is the most current available, but lots may not be returned due to errors or changes in statistics or data.

Extremely Fine Gem (90-100): The term “Gem” describes condition that is the finest possible for the issue. This term is equivalent to “Superb” used by grading services.

Extremely Fine (80-90): Exceptionally large/width margins or near perfect centering.

Very Fine (70-85): Normal-size margins for the issue and well-centered with the design a bit closer to one side. “Very Fine and choice” applies to stamps that have desirable traits such as rich color, sharp impression, freshness or clarity of cancel.

Fine (60-70): Smaller than usual margins or noticeably off center. Pre-1890 issues may have the design touched in places.

Very Good (below 60): Attractive appearance, but margins or perforations cut into the design.

PRE-1890 ISSUES

Scott “Never Hinged” Values for Nos. 219-771

Scott Value for “O.G.” (Actual value will be affected by the degree of hinging)

Disturbed Original Gum: Gum showing noticeable effects of humidity, climate or hinging over more than half of the gum. The significance of gum disturbance in valuing a stamp in any of the Original Gum categories depends on the degree of disturbance, the rarity and normal gum condition of the issue and other variables affecting quality. For example, stamps issued in tropical climates are expected to have some gum disturbance due to humidity, and such condition is not considered a negative factor in pricing.

Covers

Minor nicks, short edge tears, flap tears and slight reduction at one side are normal conditions for 19th century envelopes. Folded letters should be expected to have at least one file fold. Light cleaning of covers and small mends along the edges are accepted forms of conservation. Unusual covers may have a common stamp with a slight crease or tiny tear. These flaws exist in virtually all 19th century covers and are not always described. They are not grounds for return.

Catalogue Values and Estimates

Unless otherwise noted, the currently available Scott Catalogue values are quoted in dollars with a decimal point. Other catalogues are often used for foreign countries or specialized areas and are referred to by their common name: Stanley Gibbons (SG), Dietz, American Air Mail Catalogue (AAMC), Michel, Zumstein, Facit, etc. Estimates are indicated with an “E.” and reflect our conservative valuation in dollars. Reserves will never exceed the low end of the estimate range; they will sometimes exceed Scott Catalogue value for stamps in Extremely Fine condition.

Because of certain pricing inconsistencies in the Scott Catalogue—for example, blocks that have no gum, the absence of premiums for Mint N.H. items, etc.—we cannot guarantee the accuracy of values quoted for multiples, specialized items and collection lots. We generally try to be conservative, but buyers may not return a lot because of a discrepancy in catalogue value due to Scott pricing inconsistencies.

Catalogues and Prices Realized

Images and descriptions for all current sale catalogues are available from our website.

An archive of past sales (from Sale 786, April 1997) and prices realized (from Sale 742, May 1992) is constantly maintained to allow users to search for items and information from past sales.

The Siegel Encyclopedia and Rarities Census

This feature of our website contains a wealth of information gleaned from decades of philatelic research by the dedicated philatelists at Siegel.

The up-to-date census data for 19th and 20th century U.S. rarities are a valuable resource for buyers, sellers and researchers. Every recorded example of more than 30 different rare stamps is described and, in most cases, photographed.

Rarities of the World Sales Archive

Images and descriptions for every annual Rarities sale since 1964 provide an unparalleled source of information on the world’s greatest philatelic rarities. Digital images made from color slides for Rarities sales between 1964 and 1991 (the era of black-and-white catalogues) make this the only source of color images anywhere.

Informative Video Presentations

Downloadable video documentaries tell the stories of stamps and covers, such as the famous Inverted “Jenny.” This is the ideal way to introduce philately to others.
1 Brattleboro Vt., 5c Black on Buff (5X1). Position 2, large margins with full framelines complete on all four sides, lightly cancelled by pen (almost appears unused), slight trace of thinning at center

EXTRREMELY FINE APPEARANCE. AN ATTRACTIVE EXAMPLE OF THE RARE BRATTLEBORO PROVISIONAL.

A total of 52 Brattleboro provisional stamps are recorded (32 off cover and 20 on 19 covers). Of these, many are faulty due to the softness of the paper.

Ex Ferrary, Weill and Wall. “W.H.C.” (Colson) backstamp. ......................... 10,000.00

2 Providence R.I., 5c Gray Black (10X1). Position 2. Mint N.H., large margins incl. sheet margin at top, detailed impression, fresh and Extremely Fine, with 2000 P.F. certificate, Scott Retail as hinged................................................................................................. 350.00
3  St. Louis Mo., 5c Black on Greenish (11X1). Type II, Position 3, huge margins all around, crisp impression on beautiful greenish paper, lightly cancelled by single penstroke at top right leaving entire design clearly visible
EXTREMELY FINE GEM. A SUPERB FRESH EXAMPLE OF THE 5-CENT ST. LOUIS PROVISIONAL ON GREENISH PAPER.
Ex Twigg-Smith. With 1992 and 2005 P.F. certificates................................. 7,000.00

4  St. Louis Mo., 10c Black on Greenish (11X2). Type I, Position 2, large to huge margins all around, crisp impression, neat penstroke cancel, small closed tear at right in margin only, small scissors-cut at bottom in margin only
EXTREMELY FINE APPEARANCE. AN EXTRAORDINARILY LARGE-MARGINED EXAMPLE OF THE 10-CENT ST. LOUIS POSTMASTER'S PROVISIONAL ON GREENISH PAPER.
With 1991 P.F. certificate ............................................................................ 7,000.00
5  
St. Louis Mo., 10c Black on Gray Lilac (11X5). Type II, Position 4, large margins to well clear at bottom, without pen cancellation, cancelled solely by lightly-struck red circular datestamp

VERY FINE AND CHOICE. A SCARCE EXAMPLE OF THE 10-CENT ST. LOUIS "BEARS" CANCELLED SOLELY BY THE RED CIRCULAR DATESTAMP.

With 2000 P.S.E. and 2002 P.F. certificates. Scott Retail $7,000.00 for normally pen-cancelled stamp off cover (footnote states: "Values for used off-cover stamps are for pen-cancelled copies. Handstamp cancelled copies sell for much more.") ................................................... 7,000.00

6  
St. Louis Mo., 5c Black on Bluish Pelure (11X7). Type III, Position 5, ample margins to clear, usual pen cancel and also part of red "Paid" handstamp, typically fragile pelure paper has been partially repaired

FINE APPEARANCE. THE 5-CENT ON PELURE IS ONE OF THE RAREST OF THE ST. LOUIS "BEARS" PROVISIONALS.

Pelure paper was used for the last printing after the 20c denomination on Positions 1 and 3 was burnished out and the 5c values were re-engraved. At the time of this modification to the plate, Position 5 was slightly altered by adding a dot within the bottom ball of the figure "5", as visible on this example. Pelure stamps are almost always faulty and often seriously defective. The last example we offered at auction was in 2003, a stamp which was rebacked.

With 1990 P.S.E. certificate ........................................... 10,000.00

7  
St. Louis Mo., 10c Black on Bluish Pelure (11X8). Type III, Position 6, three full margins to in at bottom, sharp impression on deeply blued paper, without pen cancellation, cancelled only by a red handstamp, trivial paper wrinkling at top but none of the usual faults found in this thin and fragile paper

FINE. AN ESSENTIALLY SOUND EXAMPLE OF THE 10-CENT ST. LOUIS POSTMASTER'S PROVISIONAL ON PELURE PAPER, CANCELLED SOLELY BY THE RED HANDSTAMP. THE STAMPS ON PELURE PAPER ARE THE RAREST OF THE ST. LOUIS "BEARS".

As an indication of rarity, we have offered only nine other examples in all of our Rarities sales and in the last 14 years of Siegel auctions. Of these, only two were sound.

With 1990 P.S.E. certificate. Scott Retail $12,000.00 for normally pen-cancelled stamp off cover (footnote states: "Values for used off-cover stamps are for pen-cancelled copies. Handstamp cancelled copies sell for much more.") ................................................... 12,000.00
8 ★ 5c Red Brown (1). Original gum, h.r., three full to large margins, clear to just in at top, rich color
A FINE ORIGINAL-GUM EXAMPLE OF THE 5-CENT 1847 ISSUE.
With 2002 P.F. certificate ................................................................. 6,750.00

9 ★ 10c Black (2). Original gum across the entire back of stamp described on accompanying certificate as part original gum, full to large margins, intense shade and impression, trivial toned spots on face and at top right
VERY FINE APPEARANCE. A RARE FOUR-MARGIN ORIGINAL-GUM EXAMPLE OF THE 10-CENT 1847 ISSUE.
With 2007 P.F. certificate ................................................................. 35,000.00
1875 REPRODUCTION OF 1847 ISSUE

10 ★ 5c Red Brown, Reproduction (3). Without gum as issued, large even margins all around, brilliant color, Extremely Fine, with 1990 P.F. certificate................................. 800.00

11 ★ 10c Black, Reproduction (4). Without gum as issued, large margins, bright shade, crisp impression, Extremely Fine, a pretty stamp, with 2002 P.S.E. certificate (XF 90; SMQ $1,350.00)........................................................................ 975.00
1c Blue, Ty. I (5). Position 7R1E, clear to large margins all around including small part of sheet margin at top, rich color in the distinctive bright Plate 1 Early shade, proof-like impression, neat strike of "New-York Nov." circular datetamp leaves design clearly visible, shallow filled thin at bottom, also a small light crease not mentioned on accompanying certificate.

EXTREMELY FINE APPEARANCE. POSITION 7R1E — THE SEVENTH STAMP IN THE RIGHT PANE OF PLATE 1 EARLY — IS THE ONLY ONE OF THE 1,000 POSITIONS USED TO PRINT IMPERFORATE ONE-CENT STAMPS THAT SHOWS THE COMPLETE DESIGN (TYPE I). ESPECIALLY DESIRABLE WITH THE MARGINS CLEAR OF THE DESIGN ALL AROUND.

The published census compiled by Jerome S. Wagshal contains at least 98 unduplicated records of Scott 5. There are probably no more than ten examples existing outside of the Wagshal census population. Therefore, the 1c 1851 Type I is the rarest of all United States stamps issued regularly prior to the 1868 Grills.

Because of the significance attached to the outer portions of the 1c 1851 design, rare types that have been carefully cut apart, so as not to impinge on any part of the design, are extremely desirable. The narrow spacing between stamps in the sheet and the users' indifference to the outlying ornamentation during separation are factors that contributed to the great rarity of four-margin examples. The example offered here, with margins clear of the design all around and with a light cancel not obscuring the characteristics of the type, is one of the best-appearing examples of this rarity.

Wagshal Census No. 5-CAN-043. With 1997 P.F. certificate stating "genuine with a thin spot". 80,000.00
13 (**) 1c Blue, Ty. Ib (5A). Position 9R1E, unused (no gum), large margins to clear incl. sheet margin at top, brilliant color, faint corner crease at top right, light diagonal crease at top, faint vertical scoring line at left entirely in margin.

EXTREMELY FINE APPEARING EXAMPLE OF THE RARE 1851 ONE-CENT TYPE IB IMPERFORATE ISSUE. THIS IS WITHOUT QUESTION ONE OF THE RAREST OF ALL UNITED STATES CLASSICS TO OBTAIN IN UNUSED CONDITION.

Type Ib was produced only as an imperforate stamp. Six positions on Plate 1 Early furnished stamps qualifying as Type Ib—Positions 3-6R and 8-9R—distinguished by the complete design at top and nearly complete design at bottom. When first entered on the plate, these six positions (as well as 7R1E) had the complete design at top and bottom. However, unlike 7R, small portions of the bottoms were burnished away.

When Mr. Hoffman acquired this stamp privately, he asked us to determine how many unused examples of Scott 5A were known. A thorough search of past auctions and our own extensive records produced a result that surprised us. The unique block of eight from Pate 1E contains Position 7R1E (Scott 5) and five Type Ib stamps (with faults). The famous ex-Waterhouse copy of Position 7R1E is joined with a pair of Type Ib stamps (this unused unit is currently owned by William H. Gross). The multiples, containing a total of seven Type Ib stamps, really do not fit the needs of collectors who want a single unused example of Scott 5A. We located only three unused singles, and we were surprised at the conspicuous absence of any unused Scott 5A stamps in major name sales and the Wagshal exhibit.

With 2008 P.F. certificate. Scott Catalogue value is grossly misleading given the rarity of this stamp — Scott 6 in original-gum condition catalogues more than twice as much, yet it is not nearly as rare as Scott 5A. .......................................................... 7,500.00

1c Blue, Ty. Ia (6). Position 92R4, unused (traces of original gum), large margin at right, other sides in, deep rich Plate 4 color, completely sound  
FINE. AN EXCEEDINGLY RARE UNUSED EXAMPLE OF THE ONE-CENT TYPE IA IMPERFORATE STAMP — ONE OF THE MOST DIFFICULT STAMPS TO OBTAIN IN UNUSED CONDITION.  
Stamps printed from Plate 4 were issued in April, May and briefly in June 1857 before perforations were introduced. The relatively small number of imperforate Plate 4 stamps issued during this period explains the rarity and desirability of any of the imperforate stamp types produced from this plate (Ia, Ic, II, III and IIIa). The extremely rare Type Ia, showing the full design at bottom, was furnished only by 18 of the 200 subjects on Plate 4 (the remaining two bottom-row positions were sub-type Ic).  
As an indication of rarity, the last unused example of Scott 6 we offered was in our 2001 Rarities sale. Prior to that our 1999 auction of the Golin Collection contained an example which was creased and thinned — a stamp with faults in a collection whose owner focused on condition.

FINE APPEARING EXAMPLE OF THE RARE 1851 ONE-CENT IMPERFORATE TYPE III FROM POSITION 99R2.  
Type III is defined by breaks in the outer lines at both top and bottom. Many Type III stamps have breaks that were created or enlarged by plate wear. Since the wear occurred over a period of time, a majority of stamps of this type (both unused and used) have small breaks in at least one line. The most notable exception is Position 99R2. According to the Neinken book, “The 99R2 stamp is a fresh entry, that was short transferred both at top and bottom, over an original entry that had been erased… The reason that 99R2 is the finest example of Type III is because of its very short transfer at top and at bottom, giving us the wide breaks in these lines.” (p. 184).

FINE APPEARING ORIGINAL-GUM EXAMPLE OF THE RARE TYPE Ia.

The Type Ia stamps were produced from 18 positions in the bottom row of Plate 4. The most distinctive feature of Plate 4 is that the top row was entered with the designs complete at top (Type II), and the bottom row was entered with designs complete or nearly complete at bottom (Types Ia and Ic). VERY FINE. AN EXTREMELY RARE SOUND ORIGINAL-GUM EXAMPLE OF THE 1857 5-CENT BRICK RED SHADE — IN OUR OPINION, THE BRICK RED IS ONE OF THE RAREST STAMPS OF THE CLASSIC PERIOD IN SOUND CONDITION WITH ORIGINAL GUM.

To verify our intuition about the rarity of original-gum Brick Red stamps, we surveyed dozens of classic United States sale catalogues. We found approximately twenty stamps with original gum, allowing for duplicate offerings and excluding the one known original-gum block. Of the stamps we counted, about half had perfs touching two sides or were deeply cut into on one side. Almost two-thirds had stains or small faults.

Our search of old auction catalogues and the records of the Philatelic Foundation yielded only ten unused examples of Scott 28A. Of these, only four have been described as having any gum whatsoever. These are: 1) offered in the C. A. Brown Collection by Harmer, Rooke & Co. in 1941 where described as “full original gum”; it was offered in the 1968 Rarities sale and again as part of the A. T. Seymour Collection (Siegel Sale 373, Apr. 23, 1970, lot 35) where described as “large part original gum” and in our Sale 895 (lot 102, realized $75,000 hammer); 2) the “Ambassador” copy (Siegel Sale 300, Apr. 27, 1966, lot 45A), described as part original gum, also ex Argentum (Siegel Sale 807, Feb. 23, 1999, lot 76) where described as “unused (traces of gum)”; 3) the Caspary/Lilly copy, described in both catalogues as full original gum and with light horizontal crease (the example offered here, acquired by Mr. Hoffman in our Sale 946 for $160,000 hammer); and 4) the example offered in our sale of the Alan Geisler Collection, where described as part original gum, a light diagonal crease and two small corner creases at top right (Siegel Sale 929, lot 47, realized $110,000 hammer).

VERY FINE AND CHOICE ORIGINAL-GUM EXAMPLE OF THE 5-CENT BROWN 1857 ISSUE. AN EXTREMELY DIFFICULT STAMP TO FIND IN SUCH PRISTINE CONDITION. THIS IS ONE OF THE FINEST EXAMPLES IN EXISTENCE.

Due to the narrow spacing between subjects on the first 5c 1856 plate, many of the stamps have the outer projections touched or cut into by the perforations. A review of our computerized records shows that we have offered only eight other original-gum examples of this stamp since 1994. Of these, perhaps two would rate the grade of Very Fine or Extremely Fine. The example offered here, with full original gum, deep rich color, full perforations and with balanced margins, is a true condition rarity.

EXTREMELY FINE GEM. ONE OF THE FINEST KNOWN ORIGINAL-GUM EXAMPLES OF THE 1857 10-CENT GREEN FROM PLATE 1. A SPECTACULAR STAMP IN TERMS OF CENTERING, COLOR, IMPRESSION AND GUM.

The first perforated 10c stamps produced by Toppan, Carpenter from sheets printed from Plate 1 are notorious among collectors for their poor centering. They are also very scarce in original-gum condition because, unlike 10c Plate 2 stamps (Scott 35), there were no supplies on hand in 1861 when the issue was demonetized due to the outbreak of the Civil War.

The 1857 10c Type IV stamps come from eight positions scattered throughout Plate 1 that have the top, bottom or both lines recut. Only 4% of all 10c Plate 1 stamps produced were Type IV’s, and an even smaller percentage was issued with perforations.

EXTREMELY FINE GEM. A STUNNING ORIGINAL-GUM EXAMPLE OF THE 12-CENT 1857 ISSUE IN THE FINEST CONDITION ATTAINABLE. AN EXCEEDINGLY RARE EXAMPLE OF THE IMPRINT ON TOPPAN, CARPENTER, CASILEAR & COMPANY’S 12-CENT PLATE ONE.

Due to narrow spacing on the plate, most examples of this stamp (both used and unused) have perforations touching at least part of the outer frameline of the design. It is quite evident that this stamp does not fall into that category. There is a well-defined margin on each side, which is more typical of the later Plate 3 printing (Scott 36b) where the subjects were spread slightly farther apart on the plate. This stamp, with its fresh original gum, clear margins all around, bright shade and imprint, is truly superb in every sense of the word.

Unlike its Plate 3 counterpart, which survived in unused multiples when the issue was demonetized in 1861, very few examples of 12¢ stamps printed from Plate 1 show part of the Toppan, Carpenter, Casilear & Co. imprint. The Type I imprint was entered alongside Positions 40, 50, 60 and 70 on the right pane (and Positions 30/40/50/60 on the left pane). Plate 3 has a plate number, but no numbers were engraved on the two other 12¢ plates. We call the plate used to print stamps Plate 1, but the intriguing story behind these two plates will be found in James A. Allen’s chapter, “The 1851 12c Imperforate (Scott U.S. #17): Plating Update and Additional New Findings,” in The 1851 Issue of United States Stamps: a Sesquicentennial Retrospective. The stamp offered here comes from the position which would ordinarily show a plate number. The absence of a plate number was a significant point in Neinken’s study of the 12¢ plates.

Ex Concord and “J & J”. With 1995 and 2006 P.F. certificates (XF 90; SMQ $6,500.00). The SMQ value does not take into consideration the rarity of the stamp with imprint.

Plate 3 stamps (Scott 36b) are characterized primarily by uneven or broken outer framelines of the design. FINE APPEARANCE. ONE OF ONLY SIXTEEN RECORDED EXAMPLES OF THE 5-CENT 1861 FIRST DESIGN WITH ORIGINAL GUM, AND ONE OF ONLY NINE WITH FULL ORIGINAL GUM AVAILABLE TO COLLECTORS.

Our census published in the Zoellner catalogue (and available at our website at: http://www.siegelauctions.com/enc/census/57/57.htm) lists a total of 35 copies of Scott 55, including two cancelled and one sound original-gum copy in the New York Public Library collection. Of the sixteen original-gum copies available to collectors, seven have only part original gum. Of the nine copies available with full original gum, none are completely sound. Four have small perf defects, one is reperfed at right, one is repaired, one has unspecified faults (ex Caspary), and two have small closed tears.

Census No. 57-OG-20. With copy of 1948 and with 1969 P.F. certificates describing the stamp as sound. With 2001 P.F. certificate describing a small closed tear at top right center................................................................. 25,000.00
**61 ★ 10c Dark Green, First Design (62B).** Original gum described on 1998 P.F. certificate as “previously hinged” and on most recent certificate as “large part original gum” (we side with the former), deep rich color and proof-like impression, single shortish perf at right not mentioned on either accompanying certificate

VERY FINE. A RARE AND REMARKABLY CHOICE ORIGINAL-GUM EXAMPLE OF THE 10-CENT 1861 ISSUE FIRST DESIGN.

The 10c 1861 “First Design” (or Type I from Plate 4) is extremely difficult to find in well-centered, sound, original-gum condition. This is partly due to the narrow spacing on Plate 4, which was used for the earliest printing.

With 1998 and 2008 P.F. certificates ............... 8,000.00

**62 ★ 24c Dark Violet, First Color (60).** Original gum, lightly hinged, perfectly centered, distinctive dark First Color shade, proof-like impression

EXTREMELY FINE GEM. A SUPERB EXAMPLE OF THE 1861 24-CENT DARK VIOLET EARLY TRIAL PRINTING. ONE OF THE RAREST OF THE 24-CENT 1861-63 ISSUE SHADES.

The Dark Violet trial printing and Violet regular issue shades are often confused, and the Scott Catalogue adds to the confusion by putting the Dark Violet (the old Scott 60) in the Trial Color Proofs section as 70TCe, while the Violet gets a front seat as Scott 70c. In our opinion, there is no good reason to relegate the Dark Violet to the Trial Color Proof section. As a result, the stamp offered here is undercatalogued in relation to other 24c stamps of equal rarity. For example, Scott 70c has a value of $35,000.00 versus Scott 70Tce at $8,000.00.

Ex Zoellner and Silver Lake. With 1975 and 1998 P.F. certificates. Scott Retail as 70Tce ......................... 8,000.00
63 ★ 1c Blue (63). Original gum, bright color on fresh white paper, Very Fine and choice, with 2003 P.F. certificate ........ 375.00

64 ★ 3c Pink (64). Original gum, beautiful bright shade with strong Pink hue

VERY FINE. THE 3-CENT 1861 PINK IS EXTREMELY RARE IN SOUND ORIGINAL-GUM CONDITION.

Examples of the 1861 3c Pink with original gum are almost invariably creased and/or toned. This stamp is a rare exception.

With 2004 P.F. certificate ........................................ 14,000.00

65 ★ 3c Rose (65). Original gum, brilliant color on post-office fresh paper, gorgeous centering with Jumbo margins, Extremely Fine Gem, a massive stamp, with 1998 P.F. and 2004 P.S.E. certificates (XF-Superb 95 Jumbo; SMQ $650.00 as 95, $1,100.00 as 98), only one hinged and one Mint N.H. have graded higher to date, and this is the only example to achieve this grade .................................................. 150.00

66 ★ 3c Lake (66). Original gum, small h.r., selvage at top, wide margins, deep rich color and proof-like impression

VERY FINE AND CHOICE. A BEAUTIFUL ORIGINAL-GUM EXAMPLE OF THE 3-CENT 1861 LAKE TRIAL PRINTING WITH UNCOMMONLY WIDE MARGINS. A BEAUTIFUL STAMP IN EVERY RESPECT.

With 2005 P.F. certificate ........................................... 2,000.00
67 ★ **5c Brown Yellow (67a).** Original gum, radiant color, choice centering for this difficult issue, couple barely nibbed perfs at top not mentioned on accompanying certificate.

VERY FINE AND CHOICE. A RARE ORIGINAL-GUM EXAMPLE OF THE 5-CENT 1861 BROWN YELLOW SHADE. THIS IS ONE OF THE MOST CHALLENGING CLASSIC STAMPS TO OBTAIN IN SOUND AND ORIGINAL-GUM CONDITION WITH ANY DECENT DEGREE OF CENTERING. A GREAT RARITY.

The 5c Brown Yellow and its shade varieties (Buff and Olive Yellow) are recognized as the rarest of 1861-66 Issue stamps in original-gum condition. We have offered less than a dozen unused examples in any condition since keeping computerized records.

With 2004 P.S.E. certificate........................................................................................................ 27,500.00
68 ★ 10c Yellow Green, “TAG” Double Transfer (68 var). Original gum, deep shade on bright fresh paper, wide margins

EXEMPLARY FINE ORIGINAL-GUM EXAMPLE OF THE 10-CENT 1861 ISSUE WITH DOUBLE TRANSFER. AN EXTREMELY SCARCE STAMP IN THIS SUPERIOR GRADE.

The increased awareness of the rarity of 1847 to 1879 issues in superb original-gum condition has elevated many valuations for issues with modest Scott values. The 1861-66 issues are prime examples of this trend. This 10c 1861 has a Scott value of $1,250.00, yet one would be severely challenged to locate more than a few examples with original gum, choice centering and rich color.

With 1994 P.F. certificate (not noting double transfer). Scott Retail as normal................................. 1,250.00

69 ★ 12c Black (69). Original gum, sharp proof-like impression, well-proportioned margins

EXEMPLARY FINE. A BEAUTIFUL ORIGINAL-GUM EXAMPLE OF THE 12-CENT 1861 ISSUE.

Knowledgeable collectors recognize and appreciate the great rarity of well-centered, original gum classics. In particular, the 1861-66 Issue has been “discovered” as one of the most challenging of all. As escalating auction realizations show, collectors ignore Scott values in pursuing these elusive examples.

With 2005 P.F. certificate ........................................ 2,100.00

70 ★ 24c Red Lilac (70). Original gum, lightly hinged, absolutely stunning deep rich color and sharp proof-like impression, choice centering for this difficult issue

VERY FINE. A BEAUTIFUL ORIGINAL-GUM EXAMPLE OF THE 1861 24-CENT RED LILAC. SCARCE IN SUCH PRISTINE ORIGINAL-GUM CONDITION.

With a growing awareness by collectors that 1861 Issues (5c and up) are exceedingly scarce in well-centered, original-gum condition, we would expect this stamp to draw keen competition. Although one finds the 24c unused without gum in this grade, original-gum examples are often poorly centered or faulty. Only on rare occasions has our firm offered a 24c Red Lilac of this quality. The 1861-62 Red Lilac shade is actually one of the scarcest of the 24c color varieties to find in sound well-centered original-gum condition, despite its lower Scott catalogue value relative to the other shades.

With 2002 P.F. certificate .......................................... 3,000.00
71 ★ 30c Orange (71). Original gum, choice centering for this difficult issue, vivid color in a bright vibrant shade

EXTREMELY FINE GEM. A SUPERB ORIGINAL-GUM EXAMPLE OF THE 30-CENT 1861 ISSUE, WITH WONDERFUL GUM, CENTERING, COLOR AND PERFORATIONS.

The narrowly-spaced 30c 1861 plate left very little room for the 12-gauge perforations between stamps. Consequently, examples with wide margins at sides are extremely rare — this fact is acknowledged in the Scott Catalogue footnote to No. 71.

Ex Scarsdale. With 1986 and 2003 P.F. certificates ......................................................... 2,500.00

72 ★ 90c Blue (72). Original gum, lightly hinged, brilliant color, well-proportioned margins

EXTREMELY FINE. A BEAUTIFUL ORIGINAL-GUM EXAMPLE OF THE 90-CENT 1861 ISSUE. A REMARKABLY FRESH STAMP.

With 2002 P.F. certificate ................................................................. 3,500.00
73 ★ 3c Scarlet (74). Small part original gum, brilliant color, light horizontal crease, reperfed at right and bottom, Fine appearance, with 2002 P.S.E. certificate ......................... 7,000.00

74 ★ 5c Red Brown (75). Original gum, incredibly vibrant color and proof-like impression on brilliant paper, choice centering

VERY FINE AND CHOICE. A RARE ORIGINAL-GUM EXAMPLE OF THE 5-CENT 1862 ISSUE IN THE RED BROWN SHADE. A STAMP OF PHENOMENAL COLOR AND BEAUTY.

This stamp is very scarce in original-gum condition. The brilliant paper and incredibly vibrant color of this stamp are found only on a few examples, probably originating from the same multiple.

With 2002 P.F. certificate ........................................ 6,000.00

75 ★ 5c Brown (76). Original gum, lightly hinged, brilliant color, well-balanced margins

EXTREMELY FINE. A BEAUTIFULLY CENTERED AND UNUSUALLY FRESH ORIGINAL-GUM EXAMPLE OF THE 1863 5-CENT BROWN.

The 5c 1861-68 Issue was printed from plates with closely-spaced subjects that left little room for the large 12-gauge perforations. The Brown shade, Scott 76, is scarce in original-gum condition, and truly rare in this high grade.

With 2002 P.F. and 2005 P.S.E. certificates (XF 90; SMQ $3,950.00). Only one has graded higher to date (at 95) and only three others share this grade .......... 1,700.00

76 ★ 24c Lilac (78). Original gum, unusually well-centered, attractive deep shade and proof-like impression on bright fresh paper

VERY FINE AND CHOICE. LIKE THE OTHER HIGH DENOMINATION 1861 ISSUES, THE 24-CENT 1861-63 ISSUE IS EXTREMELY RARE IN SOUND AND WELL-CENTERED ORIGINAL-GUM CONDITION. A FAR GREATER CHALLENGE TO ACQUIRE IN THIS GRADE THAN MANY COLLECTORS REALIZE.

Scott values, which are influenced by the quantity of poorly centered copies extant, are irrelevant in the current market for original-gum classics.

With 1999 P.F. certificate ........................................... 2,750.00
77 ★ 3c Rose, A. Grill (79). Original gum, clearly-defined grill, radiant color, virtually intact perfs which is rare for this issue.

VERY FINE. THE 1867 3-CENT A GRILL IS SELDOM ENCOUNTERED IN SOUND, ORIGINAL-GUM CONDITION, ESPECIALLY WITH INTACT PERFORATIONS.

The experimental A Grill covered the entire stamp. On most examples, this caused the perforations to virtually disintegrate when the stamps were separated. When the unsatisfactory effects of the grilling process were observed during this experimental stage, the grill was reduced to a smaller area within the borders of each stamp. Examples of the 3c A Grill such as the stamp offered here, with virtually full perforations all around, are true condition rarities.

With 1983 and 1995 P.F. certificates.............................................................. 8,500.00

78 ★ 3c Rose, C. Grill (83). Original gum, lightly hinged, clearly-defined grill, brilliant color on bright paper, beautiful centering with well-balanced margins.

EXTREMELY FINE. A SUPERB ORIGINAL-GUM EXAMPLE OF THE 1867 3-CENT C GRILL, AN EXCEEDINGLY SCARCE STAMP IN SUCH PRISTINE CONDITION AND WITH SUCH CHOICE CENTERING.

With 1989, 1994 and 2004 P.F. certificates......................................................... 6,500.00
79 ★ 2c Black, D. Grill (84). Bottom sheet margin, original gum, clear and sharp grill points with second impression of grill in selvage, centered to right

VERY GOOD. A RARE AND PRESENTABLE ORIGINAL-GUM EXAMPLE OF THE 1868 2-CENT D GRILL.

As a thorough search of past auction catalogues shows, the 2c D Grill in original-gum condition is conspicuously absent from most important collections. The finest examples are contained in the intact block of four, ex Caspary, Lilly and Klein. We have offered perhaps four or five sound copies with centering we would consider Very Fine. The example offered here, with selvage containing an additional imprint of the grill, should be considered highly desirable.

With 1993 and 2000 P.F. certificates ........................................ 16,000.00

80 ★ 2c Black, Z. Grill (85B). Original gum, extraordinarily wide margins all around and perfectly centered, well-defined grill, sharp design impression, faint diagonal crease across top — practically invisible on the face of the stamp

EXTREMELY FINE APPEARANCE. IN TERMS OF CENTERING AND MARGINS, THIS STAMP RANKS AMONG THE TOP FIVE ORIGINAL-GUM EXAMPLES OF THE 1868 2-CENT Z GRILL.

To form our assessment of this 2c Z Grill, we conducted a survey of approximately 100 auction catalogues for major United States collections sold over the past 60 years. The majority of these collections contained only used or very poor unused examples of 85B. Many accomplished collectors were never able to locate a sound, well-centered original-gum 2c Z Grill. Although the stamp offered here is indeed creased, its appearance far surpasses most of the known copies. In our Sale 814, a sound, Extremely Fine 2c Z Grill realized $24,000 hammer.

With 1987 and 2005 P.F. certificates ........................................ 15,000.00

81 ★ 3c Rose, Z. Grill (85C). Original gum, clear grill points, deep rich color, horizontal crease at bottom

FINE APPEARANCE. A RARE ORIGINAL-GUM EXAMPLE OF THE 1868 3-CENT Z GRILL.

Excluding the supremely rare grills — 5c and 30c A Grill, 3c B Grill, 1c, 10c and 15c Z Grills — the 3c Z Grill is the second rarest of the regularly-produced grilled issues. Examples of the 3c Z Grill are usually far off-center and faulty.

With 2000 P.S.E. certificate .................................................. 25,000.00

82 (★) 12c Black, Z. Grill (85E). Unused (traces of original gum), intense color, clearly-defined grill

A FINE UNUSED EXAMPLE OF THE 1868 12-CENT Z GRILL.

83 ★ 1c Blue, E. Grill (86). Original gum, lightly hinged, bright blue color and proof-like impression on fresh paper, clear grill points

VERY FINE AND CHOICE. THE 1868 ONE-CENT E GRILL IS FAR SCARCE THAN ITS F-GRILL COUNTERPART, PARTICULARLY IN ORIGINAL-GUM CONDITION.

Some time ago we observed that the 1c E Grill appeared at auction very infrequently, in any form. After analyzing the early 1868 regular-production grills (Z, D, E and F), we concluded that grilling of the 1c 1861 issue with the E (and Z) Grill must have been short-lived, occurring sometime around February 28, 1868. Later grilling of 1c stamps was probably done with the F Grill. Relatively little of the 1c E Grill supply appears to have reached the philatelic market, as evidenced by the stamp’s scarcity.

Ex Silver Lake. With 2000 P.F. certificate ................................................................. 4,000.00

84 ★ 2c Black, E. Grill (87). Original gum, lightly hinged, bright shade, exceptionally clear grill points, wide margins

VERY FINE AND CHOICE. A BEAUTIFUL ORIGINAL-GUM EXAMPLE OF THE 1868 2-CENT E GRILL.

With 2005 P.S.E. certificate (VF 80; SMQ $2,000.00). This is the highest grade awarded to any of the four original-gum copies graded by P.S.E. to date......... 1,900.00

85 ★ 3c Rose, E. Grill (88). Original gum, lightly hinged, clearly-defined grill, brilliant color, fresh and Very Fine, with 2002 P.F. certificate ................. 1,200.00
**86 ★ 10c Green, E. Grill (89).** Original gum, lightly hinged, deep rich color and proof-like impression, clearly-defined grill

VERY FINE AND CHOICE. A BEAUTIFUL ORIGINAL-GUM EXAMPLE OF THE 1868 10-CENT E GRILL — RARE IN THIS CHOICE CONDITION.

While blocks of the 10c F Grill have been broken in recent years, yielding some choice single stamps, the 10c E Grill blocks are extremely rare and always have been. Caspary’s block of 18 was broken years ago, but many of the stamps had faults or disturbed gum. Few other blocks have become available to furnish singles. This stamp should be considered a condition rarity.

With 2002 P.F. certificate ........................... 5,500.00

**87 ★ 12c Black, E. Grill (90).** Original gum, strong grill, deep shade and sharp impression, very fresh

VERY FINE ORIGINAL-GUM EXAMPLE OF THE 1868 12-CENT E GRILL.

With 1990 P.F. and 1991 P.S.E. certificates .............. ........................... 5,250.00

**88 ★ 15c Black, E. Grill (91).** Original gum, clearly-defined grill, pretty shade

VERY FINE AND CHOICE. A RARE ORIGINAL-GUM EXAMPLE OF THE 1868 15-CENT E GRILL.

As an indication of the rarity of 15c E Grill stamps with original gum, the Scott Catalogue values Scott 91 at $4,500.00 without gum, and $12,000.00 with original gum. This stamp, with its unusually balanced margins, full original gum, clear grill and overall freshness, is truly a remarkable rarity.

VERY FINE AND CHOICE ORIGINAL-GUM EXAMPLE OF THE 30-CENT 1861 RE-ISSUE. THIS IS EASILY ONE OF THE MOST DIFFICULT DENOMINATIONS TO OBTAIN IN SOUND AND CENTERED ORIGINAL-GUM CONDITION.

Little space was left on the 30c 1861 plate for vertical rows of perforations between stamps, and the same plate was used for the 1875 Re-Issue. Therefore, well-centered copies with perforations clear at the sides are rare. Only 346 were sold. Our Levi records contain 146 unused singles, an unused pair and an unused block of four. Many have margins either touching or in on at least one side. Few of the sound copies retain all or part of their original gum.

The 24c 1869 Pictorial is readily available in original-gum condition. However, choice centering and sound paper are elusive qualities among examples of this issue. This stamp has color, centering and margins that appear more like its re-issue counterpart.

118 ★ 30c Ultramarine & Carmine (121). Original gum, intense colors, exceptionally well-centered with nicely balanced margins all around
EXTREMELY FINE GEM. A SUPERB ORIGINAL-GUM EXAMPLE OF THE 30-CENT 1869 PICTORIAL ISSUE. A WONDERFUL STAMP IN TERMS OF GUM, COLOR, CENTERING, FRESHNESS OF PAPER AND IMPRESSION.

The rarity of centered original-gum examples of the 30c 1869 with grill is somewhat obscured by the availability of off-center copies of the 30c with and without grill. If the scope were narrowed to Scott 121 only, and only grades of Very Fine or Extremely Fine were considered, we estimate that fewer than 15 examples would be counted. Among the qualifying stamps, this is without challenge one of the finest two or three. Referring to the P.S.E.'s Population Report, above the grade of 75 they have only graded two copies (one 90 and one 95).

EXTREMELY FINE. A VERY RARE SOUND AND BEAUTIFULLY-CENTERED ORIGINAL-GUM 3-CENT 1869 RE-ISSUE.

Original sales figures show that among the 1869 Pictorial Re-Issues, the 3c and 90c stamps accounted for the smallest number of units sold (1,406 and 1,356, respectively). Overall, the 1869’s were popular with stamp collectors, far outselling the 1851-60 and 1861-66 Re-Issue sets. However, the 90c stamp’s high denomination and the availability of ordinary 3c stamps limited demand. Today, both are rare, and handling over the years has not been kind to most of the surviving examples. This is a rare sound original-gum copy.

Considering original-gum examples only, after the extremely rare 12c and non-existent 24c, the 90c is the rarest of the 1870 National Grilled Issue. We have offered only four or five that were sound and centered Very Fine in all of our Rarities sales and in the past 14 years of auctions.

The 1870 90c National Ungrilled Issue, Scott 155, is somewhat overshadowed by its grilled counterpart, Scott 144. Collectors are also misled by the availability of Scott 166, the 90c 1873 Continental. Although the difference in shades is distinct, collectors have a tendency to confuse the two and under-rate the 1870 National printing.

VERY FINE. THE 15-CENT 1873 CONTINENTAL IS AMONG THE MOST ELUSIVE OF THE REGULAR BANK NOTE ISSUES IN THIS CHOICE ORIGINAL-GUM CONDITION.

Although defined by a secret mark, the 15c Continental, Scott 163, is very difficult to distinguish from its National counterpart, Scott 152. Certain shades and impressions of the 15c Continental closely match certain National printings, and the secret mark is often undetectable. However, the stamp offered here has what we believe are characteristics unique to Continental’s work. The shade is very bright and yellowish. The secret mark in the upper left triangle is also prominently featured in this impression. There is simply no question that this is a 15c Continental. Off-center stamps are the norm, and original gum is a rare commodity in this issue.

161 ★ 30c Gray Black (165). Original gum, lightly hinged, attractive charcoal gray shade, fine impression on fresh paper, enormous margins

EXTREMELY FINE GEM. EASILY ONE OF THE FINEST ORIGINAL-GUM EXAMPLES OF THE 30-CENT 1873 CONTINENTAL PRINTING IN EXISTENCE. A SUPERB STAMP IN EVERY RESPECT.

Among the various Bank Note issues, the 30c 1873 Continental printing deserves special note. The 30c Continental is extremely rare in any original-gum condition that approaches this example. Blocks have always been rare — for example, Caspary did not have one; Lilly had one well-centered block of four and an off-center block of six — which means that singles could not be harvested from multiples.

Our recently updated census records for Scott 167 contains 44 certified examples. Of these, less than ten have perforations all around (including two with either imprint or plate no. at bottom). Less than two of these are sound and centered, and none have margins approaching the size of the example offered here.

The Scott catalogue notes that “Although perforated, these stamps were usually cut apart with scissors. As a result, the perforations are often much mutilated and the design is frequently damaged.” For additional information, please see an article by William E. Mooz in Chronicle 183 titled “Scissors Cutting of the 1875 Special Printing Issues.” The example offered here, with its design complete and perforations intact on three sides, is one of the finest examples known of this rarity.

Our census of Scott 181 published in the Zoellner catalogue (and updated at our website at: http://siegelauctions.com/enc/census/180/180.htm) records 24 examples of this rare Special Printing, one of which is in the New York Public Library collection.

Census No. 180-UNC-04. With 1948, 1965 and 2002 P.F. certificates............ 80,000.00
175 2c Vermilion (178). Original gum, lightly hinged, radiant color as fresh as the day it was printed, Extremely Fine, a beautiful stamp, ex Vineyard, with 1986, 2003 and 2004 P.F. certificates.............................................................. 475.00

176 5c Blue (179). Original gum, lightly hinged, almost perfectly centered with wide balanced margins all around, incredibly rich color on deeply blued paper, sharp and detailed impression
EXTREMELY FINE GEM. A SUPERB EXAMPLE OF THE CONTINENTAL 1875 5-CENT TAYLOR. AN EXTREMELY DIFFICULT STAMP TO FIND IN SUCH EXCEPTIONALLY CHOICE ORIGINAL-GUM CONDITION.

The addition of a 5c value was made necessary by the creation of the General Post Union in 1874, which specified a rate of 5c between member countries, effective July 1, 1875. Of the two regular-issue 5c Taylor stamps — Scott 179 (Continental) and Scott 185 (American) — the former is much more difficult to obtain in this superb original-gum condition because comparatively few multiples have ever been available to feed the demand for singles.

With 2002 P.F. and 2005 P.S.E. certificates (XF 90; SMQ $2,050.00) ............... 850.00

VERY FINE. A REMARKABLY FRESH ORIGINAL-GUM EXAMPLE OF THE 10-CENT 1879 AMERICAN BANK NOTE ISSUE WITHOUT SECRET MARK.
Scott 187 without secret mark is significantly more difficult than Scott 188 to find in such superb condition. Collectors waiting for a Mint N.H. example may have a long wait — we have not offered one since keeping computerized records.
........................................................................ 3,500.00

183 ★ 10c Brown, With Secret Mark (188). Original gum, lightly hinged, Jumbo margins all around, deep rich color and proof-like impression
EXTREMELY FINE GEM. THE 10-CENT 1879 AMERICAN BANK NOTE ISSUE IS RARELY SEEN WITH SUCH UNIFORMLY WIDE MARGINS.
Collectors looking for the best possible condition would do well to seriously consider this stamp — we have offered only two Mint N.H. examples in the past 14 years, and of the hinged copies we have sold this is easily one of the finest.
With 2001 P.F. certificate.................................................. 2,500.00

Our recently completed census of Scott 192, available at our website at http://siegelauctions.com/enc/census/192/192.htm, records a total of 25 copies of Scott 192. Of these, fourteen are reported to be sound. The example offered here, centered to bottom but with perfs clear and in completely sound condition, is a very desirable example of this issue.

Census No. 192-UNC-11. Ex Vineyard. With 1971 and 2001 P.F. certificates  50,000.00
188 2c Black Brown, Special Printing (193). Without gum as issued, deep rich color, wide margins, trivial natural inclusion in left margin at center

VERY FINE AND CHOICE EXAMPLE OF THE 2-CENT 1880 AMERICAN BANK NOTE SPECIAL PRINTING. SCARCE WITH SUCH WIDE MARGINS.

Our recent review of records at the Philatelic Foundation found less than 50 certified examples of Scott 193.

Ex Chapin. With 1993 and 2003 P.F. certificates. ............................................... 25,000.00
3c Blue Green, Special Printing (194). Without gum as issued, intense shade and sharp impression, centered to right as are several of the few recorded examples, slightly and naturally elongated perf hole at lower right not mentioned on accompanying certificates.

Very fine. The 3-Cent 1880 American Bank Note Company Soft-Paper Special Printing is one of the rarest of all Special Printings — our census records only fourteen examples, making this one of the rarest of all special printings.

Our census of Scott 194, available at our website at http://siegelauctions.com/enc/census/194/194.htm, contains only fourteen examples. This puts it squarely in the company of the rarest Special Printings, such as Scott Nos. 180 (24 known), 181 (10 known), 203 (20 known), 204 (18 known), 205C (21 known) and 211D (25 known). It is the rarest of any Bank Note Special Printing among the Scott-listed “sets” (167-177 and 192-202).

Census No. 194-UNC-13. Ex Crocker. With 1971 and 2001 P.F. certificates. Based on relative rarity, this is significantly undervalued in Scott ................................. 75,000.00

Our recent review of records at the Philatelic Foundation found approximately 45 certified copies of Scott 201. Sound and centered examples are extremely rare — 14 have faults and of the sound copies very few compare favorably to the example offered here.

Ex Frank B. Allen. With 1950 and 2005 P.F. certificates............................. 24,000.00

197 ★ 90c Dull Carmine, Special Printing (202). Without gum as issued, bright color

FINE AND RARE. APPROXIMATELY 40 EXAMPLES OF THE 90-CENT 1880 AMERICAN BANK NOTE COMPANY SPECIAL PRINTINGS ARE KNOWN TO EXIST.

The 90c 1880 Special Printing on soft paper is notorious for its condition (thins affect most of the known examples) and typically poor centering.

198 ★  2c Scarlet Vermilion, Special Printing (203). Without gum as issued, beautiful rich color on fresh bright paper

Our census of Scott 203 published in the Zoellner catalogue (and updated at our website at: http://siegelauctions.com/enc/census/203/203.htm) contains only 19 stamps which are available to collectors. The 20th copy is in the Miller collection at The New York Public Library.

199 ★ 5c Gray Brown, Special Printing (205C). Without gum as issued, deep rich color and proof-like impression, almost perfectly centered
EXTREMELY FINE. ONE OF THE FINEST OF THE 21 EXAMPLES OF THIS STAMP RECORDED IN OUR CENSUS.

This elusive Special Printing was the subject of an informative article by William E. Mooz in the *Chronicle*, February 1992. His research provides strong evidence that the stamps recognized as Scott 205C are a small part of the 2,463 sold as Special Printings through the Third Asst. PMG, and that regular issues were used to fill the backlog of orders for the 5c Garfield.

Our census of this issue available at http://siegelauctions.com/enc/census/205c/205c.htm illustrates the 21 known copies. The provenance of the example offered here is especially desirable. The last example we offered at auction was in our sale of the Vineyard collection, in 2004.

200  **2c Pale Red Brown, Special Printing (211B).** Original gum, single hinge mark, brilliant color on bright paper, Fine, with 2001 P.F. certificate................................. 450.00

202 ★ **4c Deep Blue Green, Special Printing (211D).** Without gum as issued, rich color and proof-like impression

A VERY FINE EXAMPLE OF THE EXCEEDINGLY RARE 4-CENT 1883 AMERICAN SPECIAL PRINTING. ONE OF THE MOST ELUSIVE OF ALL BANK NOTE SPECIAL PRINTINGS.

Our census of the 4c 1883 Special Printing published in the Zoellner catalogue and updated on our website at: http://www.siegelauctions.com/enc/census/211D/211D.htm contains 26 stamps offered as No. 211D, of which 25 have been certified by The Philatelic Foundation. Post Office Department records indicate that only 26 were sold.

The Scott Catalogue value for No. 211D has not been correctly adjusted in relation to its counterparts, such as Scott No. 205C, with which it has always maintained near parity. For example, between 2001 and 2008, Scott No. 205C rose from $28,500 to its current $75,000, while Scott No. 211D only increased from $26,000 to $50,000. In our estimation, the Scott value for No. 211D should be at least $75,000. The copy in our recent Sale 953 realized $75,000 hammer despite a tiny thin, which confirms our assessment of this rarity’s true market value.

Census No. 211D-UNC-19. With 1983 and 2002 P.F. certificates................. 50,000.00

FINE AND PRISTINE. ONE OF THE FEW AVAILABLE MINT NEVER-HINGED EXAMPLES OF THE RARE 4-CENT COLUMBIAN ERROR OF COLOR.

The 4c Columbian color error was caused by the use of a wrong batch of ink, and spectrographic analysis has shown that the blue inks of the 4c error and 1c Columbian have the same components.

Stamps from at least two panes reached collectors, and the few cancelled examples indicate that stamps used by the public came from additional panes. It is likely that a number of full sheets were printed using the wrong ink, and most of the stamps have simply been lost to philately.

With copy of 1967 P.F. certificate for block of four and with 2002 P.S.E. certificate. We have offered only four other Mint N.H. examples since keeping computerized records.

**PAN-AMERICAN ISSUE**

285 1c Pan-American, Center Inverted (294a). Original gum, lightly hinged, deep rich colors, choice centering for this difficult issue

VERY FINE ORIGINAL-GUM EXAMPLE OF THE ONE-CENT PAN-AMERICAN ISSUE.

The 1c Pan-American Inverts were found in at least four different post offices around the country. Of the 600 to 700 known, most have disturbed gum and are off-center.

286 1c Pan-American, Center Inverted (294a). Deep rich colors, centered to bottom right, bold cork cancel leaves invert clearly visible

FINE APPEARING USED EXAMPLE OF THE ONE-CENT PAN-AMERICAN INVERT.

The 1c Pan-American Inverts were found in at least four different post offices around the country, soon after release of the issue in May 1901. According to the revised Johl-King book (p.7) “The first known copies of this error were discovered at Bessemer, Alabama, by the Carrell Jewelry Company on some circulars just prior to mailing them. When they realized the find they had made they lost no time in removing the stamps from the circulars and thus saved them to philately.” Three covers are known with one each used from Bessemer Ala., Oakland Cal. and St. Louis Mo.

The 1c Pan-American Invert in used condition is considerably scarcer than unused. With the increased collector demand for 20th Century stamps in used condition, the price of a used 1c Pan-American Invert has surged ahead from $7,000 in 2001 to $13,000 in 2008.

With 2006 P.F. certificate ..................................................................................... 13,000.00
2c Pan-American, Center Inverted (295a). Lightly hinged, superbly centered with wide balanced margins, rich color and clear impressions of vignette and frame

EXTREMELY FINE. ONE OF THE FINEST ORIGINAL-GUM EXAMPLES OF THE 2-CENT PAN-AMERICAN INVERT.

The 2c is the rarest of the three Pan-American Inverts. It is surmised that approximately 200 were issued through the post office, with two distinct shades known. Estimates of surviving examples range from an early count (1945) of 55 unused and 2-3 used to the 1998 Datz estimate of 150 unused, 3-5 used and a block of four intact. Our Levi records contain the intact block (4), reconstructed block (4), 64 unused singles and 6 used singles, for a total of 72 unused and 6 used. Many of the unused singles have disturbed gum or no gum, and/or are off center to top or top left. This Extremely Fine sound stamp with original gum is among the finest known examples.

Ex Drucker. With 1988 and 2002 P.F. certificates. Scott footnote states "Almost all unused copies of No. 295a have partial or disturbed gum. Values are for examples with full original gum that is slightly disturbed." The stamp offered here has fresh lightly-hinged gum.

288 ★ **4c Pan-American, Center Inverted (296a).** Beautiful colors, usual slightly disturbed original gum, unusually well-centered and fresh

VERY FINE AND CHOICE EXAMPLE OF THE 4-CENT PAN-AMERICAN INVERT. SCARCE IN SUCH PRISTINE CONDITION.

The 4c Pan-American Invert was a special printing and not regularly issued. Examples were distributed through two official channels, and the gum on the majority of stamps without “Specimen” overprint was disturbed. In fact, because the stamps were removed from mounting paper, they are generally thinned or have seriously disturbed gum.

297 ★★ $2.00 Dark Blue (312). Mint N.H., deep rich color on bright paper, beautifully centered with wide and balanced margins all around.

The 1902-03 Regular Issue was a great improvement over the Bureau’s first efforts in 1894 and 1895. Perforations tend to be cleaner, and centering better, but the large plate layout and perforating method still resulted in a large number of poorly centered stamps. Furthermore, stamps issued in choice condition seldom stayed that way, because the boom in stamp collecting that began with the Roosevelt administration caused hordes of hinge-bearing philatelists to mount stamps over and over again. For this reason, today’s collectors have grown accustomed to paying many multiples of Scott value for Extremely Fine stamps in Mint Never-Hinged state. This is especially true when it comes to the $5.00 denomination. This fact is made abundantly clear when you realize that the highest grade awarded by P.S.E. to a $2.00 in never-hinged condition is a 95, given to only one stamp.

Ex Scarsdale. With 2004 P.S.E. certificate (VF 80; SMQ $18,900.00). This is the highest grade awarded to date, and is one of only three $2.00 1902’s to achieve XF-Superb 95 status. SMQ does not even price this stamp in any grade above a 95. An example graded 95 realized $22,000 in our Scarsdale sale.

4c Brown, Schermack Ty. III (314A). Large margins to clear with full Schermack perforations at right, deep rich color, neat strike of wavy-line machine cancel, light creases, small tear, tiny thin spots

FINE APPEARANCE. A RARE EXAMPLE OF THE 4-CENT 1908 IMPERFORATE.

With the rising popularity of vending and affixing machines, the Bureau of Engraving and Printing received numerous requests from manufacturers for supplies of imperforate stamps, which could then be privately perforated to conform to each firm’s machine. In May 1908, a supply of 25 sheets (400 stamps per sheet) of the 4c 1902 Issue, without perforations, was delivered to the Schermack Mailing Machine Co. in Detroit. The entire supply was cut into coils with Schermack Type III perforations, designed for the firm’s patented affixing machine and delivered to the Winfield Printing Co. for use on mass mailings of advertising material. Approximately 6,000 were used on a mailing for Hamilton Carhartt Manufacturer, and almost all of the 4,000 balance were used on a mailing for Burroughs Adding Machine Co.

Our unpublished census contains 45 used examples, including three strips of three (one on cover), three singles on separate covers, and 33 single used copies (four are or were at one time on piece, including one of the sound copies with full margins). All three strips of three and two covers were used by Karl Koslowski, who was the only person able to acquire some of the 4c Imperforates. He is also the source for the only known unused copies. Our published census of unused examples (updated) contains four pairs, two guide line pairs and nine singles, for a total of 21 unused stamps.

Unpublished Census No. 314A-CAN-24. This issue rarely is seen at auction — the last example we offered at auction was in our Lake Shore sale in 2004. With 1985 P.F. certificate............................................ 45,000.00
1c Blue Green, Coil (316). Pair, full original gum, lightly hinged, rich color, well-centered for this difficult issue.

VERY FINE AND EXCEEDINGLY RARE. OUR CENSUS RECORDS ONLY TWELVE UNUSED PAIRS AND ONE UNUSED SINGLE. ONE OF THE FINEST PAIRS OF ONE OF THE RAREST STAMPS OF 20TH CENTURY PHILATELY.

Armstrong, in his book United States Coil Issues 1906-38, recorded 33 stamps in total certified by the Philatelic Foundation. Our census of Scott 316 as published in the Zoellner catalogue and available at our website at http://siegelauctions.com/enc/census/316/316.htm records twelve unused pairs and an unused single, for a total of 25 stamps. Armstrong probably double-counted a few pairs that were certified more than once. In addition, the strip of four in his notes has since been broken into two pairs, and the strip of three has been broken into a pair and a single.

Census No. 316-OG-PR-01. With 1960 and 2004 P.F. certificates. This is the first example we have offered since our Zoellner sale in 1998.............................. 150,000.00

VERY FINE AND CHOICE MINT NEVER-HINGED PAIR OF THE RARE 5-CENT 1908 VERTICAL COIL. THIS IS EXCEEDINGLY RARE IN MINT NEVER-HINGED CONDITION.

The 5c 1908 Coil stamps, which were stripped by hand, are almost always strongly centered to one side. This pair, in Mint N.H. condition and with wide margins, is one of the finest extant.

VERY FINE. A RARE STRIP OF FOUR OF THE ONE-CENT 1908 HORIZONTAL COIL, SCOTT 318.
There are probably fewer than six strips of four in existence, which are the largest recorded multiples. Most have been broken to feed collector demand for pairs and singles.

304 ★ 2c Carmine, Coil (322). Pair, lightly hinged, brilliant color
FRESH AND VERY FINE PAIR OF THE 2-CENT 1908 HORIZONTAL COIL.
Armstrong notes that only 167 examples had been certified by the Philatelic Foundation as of 1980. The frequency with which this coil appears at auction would indicate that it may in fact be rarer, and that Armstrong’s census information may contain duplicate records. Issued on July 31, 1908, and intended only to be used by private vending machine companies, Scott 322 is only known with the Die II widened line at lower left.

A BEAUTIFUL AND RARE PAIR OF THE 10-CENT HORIZONTAL COIL, SCOTT 356.

According to Johl (Volume 1, page 181), only 10,000 of the 10c Washington coil stamp were issued. They were made especially for a New York firm to send out advertising samples, similar to the 3c Orangeburg coil. Only a few rolls were sold to the firm, and the remaining rolls were distributed to some of the large post offices across the country. Dealers acquired several rolls, but because most contemporary collectors did not collect coils, many were used and destroyed. VERY FINE AND CHOICE. A SCARCE MINT NEVER-HINGED GUIDE LINE PAIR OF THE 2-CENT VERTICAL COIL, SCOTT 386.

According to Johl (Vol. 1, p. 111), the Bureau switched to Perf 8½ for their coils after a very short period of time. The Perf 12 coils proved to be too susceptible to falling apart in the machines used to affix (and make) the coils. Scott 386 was one of the first to be discontinued. Only one Mint N.H. guide line pair has been certified to date by P.S.E. (graded 70), and we have offered only perhaps a dozen since keeping computerized records.

VERY FINE GUIDE LINE PAIR OF THE 2-CENT HORIZONTAL COIL, SCOTT 388.
This 2c coil was in production for only a short period of time before being superseded by the Perf 8½ issue. Due to the greater popularity of the horizontal coils with users, combined with a wary attitude by many collectors that early coils were simply trimmed stamps, many were used and few preserved.

371 ★ 3c Deep Violet, Orangeburg Coil (389). Pair, full original gum, deep rich color and proof-like impression, centered to left but completely sound.

FINE. AN EXCEEDINGLY RARE ORIGINAL-GUM PAIR OF THE 3-CENT ORANGEBURG COIL, SCOTT 389. ONLY TWO UNUSED SINGLEs AND SIX UNUSED PAIRS ARE AVAILABLE TO COLLECTORS. ONE OF THE GREATEST RARITIES OF 20TH CENTURY UNITED STATES PHILATELY.

The Orangeburg coil was made by the Post Office Department in 1911, specifically for use by the Bell Pharmaceutical Company. The 3c coil stamps were used to send samples of their products to physicians. Due to the quantity of mail, they were put through the first-class cancelling machine at Orangeburg, New York. The Orangeburg coil stamps' use on third-class mail and the fact that philatelists were generally unaware of their production accounts for their rarity.

A census of the Orangeburg coil, published in The Philatelic Foundation’s Opinions VII book, records two singles and seven unused pairs, including one in the Miller collection at The New York Public Library. We recall seeing only one other pair at auction in the past 15 years.

Our up-to-date census of Scott 423A is available at our website, at http://siegelauctions.com/enc/census/423A/423A.htm. In addition to some unused copies, we record a used total of 31 singles, eleven pairs, a block of four and three covers. Eleven copies are known with the inverted Chicago precancels.

Census No. 423A-CAN-01. As an additional indication of rarity, we have not offered an example at auction since 2004. Ex Chesapeake. With 1997 P.F. certificate. EXTREMELY FINE GEM. AN EXTRAORDINARILY RARE MINT NEVER-HINGED EXAMPLE OF THE 1915 TYPE I VERTICAL COIL. AN OUTSTANDING RARITY.

Type I rotary press stamps were produced using the same master dies as had been used for flat plate printings. However, due to the curve of the plate to fit the rotary press, the impressions lacked some of the details of the flat plate printings. New dies were made with strengthened lines, resulting in the Type II stamps. After plate wear was noticed, further strengthening was necessary, resulting in the Type III stamps. Scott 449 was not produced until almost a year and a half after the Type I horizontal coil, Scott 453. Due to the unpopularity of vertical coils, this Type I stamp was in production for only a short period of time before being discontinued. The stamp offered here, in Mint N.H. condition and with such choice centering and color, is a major rarity.

The 2c Type I rotary plate was used very briefly to make vertical coils issued in December 1915. It was superseded in February 1916 by the Type III plate. The early printing of the 2c rotary vertical coil was almost completely overlooked by contemporary collectors and dealers, who did not anticipate further production of vertical coils.

2-CENT SCHERMACK PERFORATIONS, SCOTT 482A

2c Deep Rose, Ty. Ia, Imperforate, Schermack Ty. III Private Perforation (482A). Deep rich color on bright white paper, Schermack perforations completely intact at left showing significant portion of adjoining stamp at left, cancel leaves design clearly visible, shallow thin spot at top, tiny tear to the left of Schermack perf at upper left outside the boundary of the stamp itself (neither of these observations mentioned on accompanying certificate)

FINE APPEARANCE. ONE OF ONLY 40 RECORDED EXAMPLES OF THIS MAJOR 20TH CENTURY RARITY.

Scott 482A, like its more famous predecessor, Scott 314A, was issued imperforate by the Bureau of Engraving and Printing and sold to the Schermack Company for use in its patented stamp-affixing machines. The Schermack “Sealer and Stamper” machine typically applied stamps one at a time, and, in most cases, the hyphen-hole perfs on one side would be cut off. Unlike Scott 314A, the release of imperforate sheets printed from the experimental Type Ia plates escaped the notice of contemporary collectors, and, therefore, this stamp has a very small survival rate.

Our updated census of Scott 482A published in the Zoellner catalogue and available at our website at: http://www.siegelauctions.com/enc/census/482a/482a.htm records three covers, one unused single, a used pair and 34 used singles for a total of 40 stamps. Most examples are either cut well into the design or have the Schermack perfs trimmed away on one side.

Schermack Type III stamps are often cut into the design by the oblong perforations or miscut with one side of the perforated margin missing. This problem for collectors, which meant very little to contemporary users of the stamps, resulted from two consecutive events. First, the sheets were perforated with the Schermack holes, creating an opportunity for misalignment between the stamps. Second, when the strip of stamps was fed through the Schermack affixing machine, the cutting blade did not always align with the space between stamps.

487 ** 5c Carmine, Imperforate, Error (485). Mint N.H. double error in block of twelve, large margins all around, luminous color

EXTREMELY FINE. A BEAUTIFUL MINT NEVER-HINGED EXAMPLE OF THE 5-CENT IMPERFORATE DOUBLE ERROR IN A BLOCK OF TWELVE. AN IMPRESSIVE MULTIPLE.

During the course of production of the normal 2c plate No. 7942, three positions were noted to be defective. The plate was returned to the siderographer, who burnished out the three positions and mistakenly re-entered them using a transfer roll for the 5c stamp. The error passed unnoticed and the sheets were issued to the public Perf 10, Imperforate and Perf 11 (Scott 467, 485 and 505). The imperforate is by far the rarest of the three.

This single is among the rarest of all 20th Century issues in sound Mint Never-Hinged condition. As an indication of rarity, we have offered only three other Mint N.H. singles, two Mint N.H. pairs and three Mint N.H. joint line pairs in the 14 years since we have been keeping computerized records.

Coil pairs, and especially line pairs, are exceedingly difficult to find in the higher grades. So many factors can affect the condition, including placement of the guide or joint line, how the margins were stripped on the coil machine, and of course the centering within the perforations.

**EXTREMELY FINE. A CHOICE MINT NEVER-HINGED EXAMPLE OF THIS RARE ROTARY-PRESS COIL WASTE ISSUE. AN EXCEEDINGLY DIFFICULT STAMP TO FIND IN SUCH CONDITION. THIS IS ONE OF THE FINEST WE HAVE EVER OFFERED.**

At the beginning or end of a coil-stamp print run from the 170-subject rotary plates, some leading or trailing paper was left over that was too short for rolling into 500-stamp rolls. In 1919, the Bureau devised a plan to salvage this waste by converting the stamps from coil stamps into sheet stamps. This was accomplished by cutting the sheets into panes and putting the panes through the flat-plate perforator in use at the time, giving the stamps perforations on all sides.

Since Scott 539 was put through two different perforating machines of differing gauges at different times, most of the stamps are off-center. The stamp offered here is a true condition rarity by virtue of its centering, margins and Mint N.H. state. The only example we have encountered in a better grade realized $22,000 hammer in the Scarsdale sale.

1c Green, Rotary Perf 11 (544). Mint N.H., fresh and bright color, choice centering for this notoriously challenging issue

VERY FINE AND CHOICE. ONE OF THE FEW EXTANT MINT NEVER-HINGED EXAMPLES OF THIS MAJOR 20TH CENTURY RARITY. PROBABLY FEWER THAN 20 OF THE 1923 ONE-CENT ROTARY PERF 11, SCOTT 544, EXIST IN ANY UNUSED STATE — LESS THAN TEN ARE MINT NEVER-HINGED.

A small quantity of 1c Rotary Press stamps was perforated 11 at the end of 1922, using remainder sheets from the earlier printings that were normally perforated in 10 gauge or 11/10 compound gauge. Its existence as a Perf 11 variety was discovered in 1936, and the stamp received its Scott Catalogue listing in 1938.

Most of the recorded copies of Scott 544 are off-center or have been damaged — the result of poor production standards and mis-handling.

FINE APPEARANCE. AN ATTRACTIVE UNUSED EXAMPLE OF THE ONE-CENT ROTARY PERF 11 ISSUE, SCOTT 594. ONE OF THE RAREST 20TH CENTURY STAMPS IN UNUSED CONDITION.

The 1c Green, Scott 594, is waste from a horizontal rotary printing used to make coils. At the beginning or end of a coil-stamp print run from the 170-subject rotary plates, some leading or trailing paper was produced that was too short for rolling into 500-stamp rolls. In 1919 the Bureau devised a plan to salvage this waste by perforating and cutting the sheets into panes. They were put through the 11-gauge flat-plate perforator in use at the time, giving the sheets full perforations on all sides. The existence of Scott 594 was not reported until four months after the final sheets were delivered, and the 1c Rotary Perf 11 was soon recognized as one of the rarest United States stamps.

Our census of Scott 594 unused, based on the Levi and P.F. records, contains only 21 stamps. Of these, ten have no gum at all, and eight have only a small part of original gum (these were removed from postcards and envelopes). Of all unused stamps, only six are sound, including two with perforated initials of Crowell Publishing Co. of Springfield, Ohio. As an indication of rarity, the last time we offered an unused example was in our Golin sale in 1999.

FINE APPEARANCE. A RARE OPPORTUNITY TO ACQUIRE THE ONE-CENT FRANKLIN ROTARY PERF 11 ISSUE, SCOTT 596, WHICH IS ONE OF THE KEYS TO A COMPLETE COLLECTION OF UNITED STATES STAMPS.

The Rotary Perf 11 rarities (Scott 544, 594, 596 and 613) were created during an attempt by the Bureau of Engraving and Printing to salvage waste from the end of the paper during rotary press printings. The rotary press, first used for printing coil stamps in 1915, was a new printing method designed for rapid production. Rather than print stamps on a flat plate one sheet at a time, the rotary press was fitted with a cylindrical plate that continually applied impressions to long rolls of paper.

Rotary press stamps have dimensions that differ slightly from their flat plate counterparts, due to the curvature of the cylinder. If the plate is wrapped around the cylinder from top to bottom (endwise) then the design is slightly longer; if wrapped around from side to side (sidewise) then the design is slightly wider.

At the beginning or end of rotary press printings, there was some leading or trailing paper that was too short for either rolling into coil rolls, or for perforating for 400-subject plates. In 1919, the Bureau devised a plan to salvage this waste by perforating and cutting the sheets into panes. These were put through the flat-plate perforating machine in use at the time, giving the stamps full perforations on all sides.

Scott 596 is waste from a vertical rotary press printing used to make sheet stamps — a fact proven by the existence of precancelled copies such as the example offered here.

Our updated census of Scott 596 published in our Zoellner sale (and available at our web site at: http://siegelauctions.com/enc/census/596/596.htm) records thirteen used stamps. Of these, eight are precancelled at Kansas City Mo. There are no known unused examples.

FINE. A RARE SOUND EXAMPLE OF THE 2-CENT HARDING ROTARY PERF 11, WHICH IS ONE OF THE RAREST OF ALL 20TH CENTURY ISSUES.

Our census of the 2c Harding Rotary Perf 11 (as published in our Zoellner sale catalogue and updated at our website at www.siegelauctions.com/enc/census/613/613.htm) records 43 used singles (one faintly cancelled, if at all), one used pair and the recently-discovered used strip of three. Of the singles, approximately 30 are sound.

The 2c Harding Rotary Perf 11 stamp was discovered in 1938 by Leslie Lewis of the New York firm, Stanley Gibbons Inc. Gary Griffith presents his hypothesis in *United States Stamps 1922-26* that rotary-printed sheets of 400 were first reduced to panes of 100 and then fed through the 11-gauge perforating machine normally used for flat plate sheets. This method distinguishes sheet-waste stamps — Scott 544, 596 and 613 — from the coil-waste stamps and explains the existence of a straight-edge on Scott 613.

EXTREMELY FINE. A PRISTINE MINT NEVER-HINGED EXAMPLE OF THIS POPULAR MODERN ERROR — THE C.I.A. INVERT.

Popularly called the “C.I.A. Invert”, a single pane of 100 stamps was purchased at a the McLean Va. Post Office by employees of the C.I.A., for use on mail from the agency. They noticed the error, pooled together funds to buy a replacement sheet and kept the pane for themselves. When it was discovered who had purchased the stamps, a scandal ensued over who actually owned the stamps. Of the pane of 100, only 93 sound examples reached collectors.

FRESH AND FINE. A RARE SOUND EXAMPLE OF THE 1918 24-CENT INVERTED "JENNY" ERROR. WITHOUT QUESTION THIS IS THE MOST FAMOUS STAMP IN AMERICAN PHILATELY.

According to Jenny by George Amick (Amos Press, 1986), the original sheet of 100 Inverted "Jenny" stamps was purchased for $24 by William T. Robey at the New York Avenue Branch Post Office window in Washington D.C., on May 14, 1918, one day after the stamp was first placed on sale at the main post office. On May 20, Robey sold his sheet for $15,000 to Eugene Klein, a Philadelphia stamp dealer. Klein had already arranged to sell the sheet to Col. Edward H. R. Green for $20,000. Colonel Green instructed Klein to divide the Inverted "Jenny" sheet into singles and blocks, and to sell all but a few key position blocks.

It is well-known among stamp specialists and professionals that examples of the Inverted "Jenny" come in different grades of freshness and condition. Many of the original 100 stamps were mistreated by collectors during the years, despite the stamps' rarity and value. Colonel Green himself allowed moisture to affect some of the stamps he retained. Other examples have become slightly toned from improper storage and climatic conditions. Hinge removal has caused thins and creases in numerous stamps, and a few have been "lost" to philately — or nearly so, as in the case of the copy swept up in a vacuum cleaner.

Ex Frank B. Allen and Hewitt. With 1985 P.F. and 2005 P.S.E. certificates (Fine 70). The SMQ value in Fine 70 is $380,000.00, but it jumps to $650,000.00 in VF 80 (F-VF 75 is not priced). Based on recent market activity and the attractiveness of this sound example of the Inverted "Jenny", we think it will probably outperform its current SMQ value......
535 ★ 24c Carmine Rose & Blue, 1918 Air Post, Grounded Plane Variety (C3 var). Bottom selvage block of four, vignette shifted down exceeding the standard amount for classification as the Grounded Plane variety, pristine gum described by the P.F. as “previously hinged”, an opinion with which both the P.S.E. and we (vehemently) disagree, bright fresh colors on brilliant paper, bottom left stamp with small light internal wrinkle harshly described by the P.F. as a crease

EXTREMELY FINE GEM. A STUNNING BLOCK OF FOUR OF THE RARE GROUNDED PLANE VARIETY — EXTRAORDINARY BOTH FOR ITS CONDITION AND THE EXTREME DOWNWARD SHIFT OF THE PLANE VIGNETTE.

The true Grounded Plane stamps, in which the wheels of the plane break thru the top of “Cents”, come from portions of three sheets. The discovery sheet was owned and broken up by J. Klemann of Nassau Stamp Company. A second sheet was discovered in 1946 and sold in the Thomas A. Matthews sale (H.R. Harmer, Nov. 4, 1964), where it was purchased by Georges A. Medawar, publisher of Sanabria Airmail Catalogue. In Linn's Stamp News of April 21, 1986, specialist Joseph R. Kirker Jr. published his research revealing a third source of this variety.

BUFFALO BALLOON

5c Deep Blue, Buffalo Balloon, Tête-Bêche Pair (CL1a). One Schoendorf Type II, other Schoendorf Type III, large margins, one stamp Mint N.H., other with natural fiber inclusion at upper right and usual margin thin spot

EXTREMELY FINE APPEARANCE. AN ATTRACTIVE AND FRESH TÊTE-BÊCHE PAIR OF THE BUFFALO BALLOON POST ISSUE.

The Buffalo Balloon stamp, designed by John F. B. Lillard and engraved by John H. Snively, was printed by Wheeler Brothers Printers in Nashville, Tenn. The stamps were intended for use on a balloon flight from Nashville to Gallatin Tenn., which took place on June 18, 1877. Of the 300 that were printed, only 23 were used.

Approximately a dozen tête-bêche pairs have been certified as genuine by the Philatelic Foundation. Of these, most have some slight thinning in the margin, leading us to believe that at some point these were stacked for sale and exposed to mild moisture.

With 2006 P.F. certificate. This is the first tête-bêche pair we have offered since our Rudy sale in 2004. ......................................................................................................................... 21,500.00
1911, 25c Black. Rodgers “Vin Fiz”, Unofficial Air Post (CL2). Clear margins to just in as are almost all of the known examples, slight nick at bottom right, few small faults including small tears and corner crease.

Very fine appearance and extremely rare. Only four of the twelve recorded examples of the 25-cent Rodgers “Vin Fiz” stamp are unused. A great air post rarity.

The Vin Fiz stamp was issued by Pilot Calbraith Rodgers’ wife for his attempted transcontinental flight in October 1911. Rodgers was competing for a $50,000 prize offered by publisher William Randolph Hearst to the first person to complete the trip within 30 days. Vin Fiz refers to the popular soft drink maker who was a sponsor of Rodgers’ flight.

Our updated census of the Vin Fiz can be viewed at our website at http://www.siegelauctions.com/enc/census/cl2/cl2.htm

1879 AMERICAN BANK NOTE CO. SPECIAL PRINTING

562 ★★ 1c Deep Brown, Special Printing (J8). Mint N.H., beautiful intense shade and sharp proof-like impression on bright paper

FINE. A WONDERFUL MINT NEVER-HINGED EXAMPLE OF THE RARE ONE-CENT POSTAGE DUE SPECIAL PRINTING.

The 1c, 2c and 3c are undoubtedly the rarest values of the American Bank Note Co. Postage Due Special Printings, although the sold quantities in the official records are relatively high. William E. Mooz, in an article on the 1c appearing in Chronicle No. 170, May 1996, offers evidence to support his theory that the actual number of true Special Printings sold was significantly lower than the reported figures. For the 1c, Mooz estimates 500 sold, but it is possible that as many as 400 purchased by G. B. Calman were destroyed. It is widely accepted that nearly 9,000 1c stamps sold as Special Printings were actually regular issues.

As an indication of rarity, we have only sold two others in Mint N.H. condition. The most recent, with similar centering, realized $35,000 hammer in our 2005 Rarities sale.

**VERY FINE AND CHOICE. A BEAUTIFUL EXAMPLE OF THE RARE 2-CENT POSTAGE DUE SPECIAL PRINTING, WHICH IS EXCEEDINGLY DIFFICULT TO OBTAIN IN SUCH BEAUTIFUL CONDITION.**

As noted in the description of lot 562, the reported sale figures for the 1c, 2c and 3c Postage Due Special Printings probably include orders filled with regular stamps. The 2c is one of the rarest of the set, especially in this sound and centered original-gum condition.

With 1970 and 1995 P.F. certificates. ................................................................. 15,000.00

564 (★) 3c Deep Brown, Special Printing (J10). Unused (no gum), bright color and detailed impression, choice centering for this difficult issue.

**EXTREMELY FINE. THE 3-CENT IS POSSIBLY THE RAREST OF THE POSTAGE DUE SPECIAL PRINTINGS, AND IS EXTREMELY RARE IN SOUND AND CENTERED CONDITION.**

Although 436 copies were reported sold, it is believed that 100 copies were destroyed in the Calman lot. A thorough search of the marketplace, combined with conversations with dealers and collectors, has confirmed the extreme rarity of this stamp.

This is the sixth example we have sold in the last five years. The other five are the Zoellner copy (original gum, inclusion, poorly centered), the Drucker copy (no gum, poorly centered), a third copy (original gum, reperfed at top), a fourth copy (part original gum, small crease), and a fifth copy (no gum and sound). This sound and centered copy should be considered very desirable.
