Bidding from your computer lets you be part of the live auction from anywhere in the world!

There’s no substitute for following the auction in real time. Live Internet Bidding lets you bid and buy as though you were right there in the saleroom.

And it’s easy. Just start by following the simple steps to become a registered Live Internet Bidder. Once you’ve been approved for bidding, you can listen to the auction and place bids with the click of a mouse.

This step-by-step guide will instruct you how to register, set your browser and use the bidding interface.

1 Registering with Stamp Auction Network and Siegel Auction Galleries

Live Internet Bidding is managed by Stamp Auction Network (SAN). To bid, you must be registered and approved by both SAN and Siegel. To decide what you need to do, choose the description below that best fits you.

I’ve already registered with SAN and have been approved by Siegel for internet bidding. You’re ready for Step 2.

I’ve never registered with SAN, but I’m a Siegel client. Go to stempauctionnetwork.com/siegel and click on “Register” at the top. Check the box for Robert A. Siegel Auction Galleries (under “R”) and submit the form, indicating you are a Siegel client. Once registered at SAN, you’re ready for Step 2.

I’ve never registered with SAN, and this is the first time I’ve bid with Siegel. Go to stempauctionnetwork.com/siegel and click on “Register” at the top. Check the box for Robert A. Siegel Auction Galleries (under “R”) and submit the form with your trade references (please, no family members or credit card companies as references). Once registered at SAN and approved by Siegel for bidding, you’re ready for Step 2.

I’ve bid through SAN before, but this is the first time I’ve bid in a Siegel sale. Then you just need to be approved by Siegel. Go to stempauctionnetwork.com/siegel and click on “Update Registration” at the top. Your SAN account information will be sent to us for approval (you might be asked for other trade references). Once approved by Siegel for bidding, you can move to Step 2.

2 Using your browser for Live Internet Bidding and understanding the way it works.

Live Internet Bidding works by providing an audio feed of the auction (for anyone using Internet Explorer) and by allowing registered bidders to observe and place bids. The bidding interface shows a photo and description of the lot, the current bid (and your bidding status), and options for placing competitive bids. To join the auction, go to stempauctionnetwork.com/siegel. You can also log on at siegelauctions.com

The visual interface will work with any browser on both PC and Mac operating systems. However, the audio feed only works with Internet Explorer on a PC with ActiveX software installed. If ActiveX is not on your computer, you will have the option to install it.

Before bidding by internet for the first time, we recommend finding a sale in progress and listening to the public broadcast or logging in as a registered bidder. This will help you develop a feel for the sale tempo and bidding interface.

“System down” or “lost connection” events do occasionally happen. If you have any problems with Live Internet Bidding, please call 212-753-6421 for immediate assistance.

3 Using Live Internet Bidding to bid, track results and communicate with the auctioneer.

When you’re logged on as a Live Internet Bidder, the screen will display buttons with bid increments. After you click on a bid amount, the auctioneer is immediately notified of your bid. Retracting a bid is usually not acceptable, so please bid carefully.

If you bid, then decide to stop, please use the “Pass” button, which appears once you’ve started bidding. This tells the auctioneer not to wait for another bid from you.

You can send messages to the auctioneer (for example, a request for extension). You can also track prior realizations from the bidding screen.
The property described in this catalogue will be offered at public auction by Robert A. Siegel Auction Galleries, Inc. ("Galleries") on behalf of various consignors and itself or affiliated companies. By bidding on any lot, whether directly or by or through an agent, in person, or by telephone, facsimile or any other means, the bidder acknowledges and agrees to all of the following Conditions of Sale.

1. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "final bid" means the last bid acknowledged by the auctioneer, which is normally the highest bid offered. The purchase price payable by the buyer will be the sum of the final bid and a commission of 15% of the final bid ("buyer's premium"), together with any sales tax, use tax or customs duties due on the sale.

2. The auctioneer has the right to reject any bid, to advance the bidding at his discretion and, in the event of a dispute between bidders, to determine the successful bidder, to continue the bidding or to reoffer and resell the lot in dispute. The Galleries' record of the final sale shall be conclusive.

3. All bids are per numbered lot in the catalogue unless otherwise announced by the auctioneer at the time of sale. The right is reserved to group two or more lots, to withdraw any lot or lots from the sale, to or act on behalf of the seller. The Galleries will execute bidding instructions on behalf of clients, but will not be responsible for the failure to execute such bids or for any errors in the execution of such bids.

4. Lots with numbers followed by the symbol * are offered subject to a confidential minimum bid ("reserve"), below which the lot will not be sold. The absence of the symbol * means that the lot is offered without a reserve. If there is no reserve, the auctioneer has sole discretion to establish a minimum opening bid and may refuse an offer of less than half of the published estimate. Any lot that does not reach its reserve or opening bid requested by the auctioneer will be announced as "passed" and excluded from the prices realized lists after the sale. The Galleries may have a direct or indirect ownership interest in any or all lots in the sale resulting from an advance of monies or goods-in-trade or a guarantee of minimum net proceeds made by the Galleries to the seller.

5. Subject to the exclusions listed in 5(A), the Galleries will accept the return of lots which have been misidentified or which have obvious faults that were present when the lot was in the Galleries' custody, but not so noted in the lot description. All disputed lots must be received by the Galleries intact with the original packing material within 5 days of delivery to the buyer but no later than 30 days from the sale date. (5A) EXCLUSIONS: The following lots may not be returned for any reason: lots containing 10 or more items; lots from buyers who registered for the pre-sale exhibition or received lots by postal viewing, thereby having had the opportunity to inspect them before the sale; any lot described with "faults," "defects" or a specific fault may not be returned because of any secondary fault. The buyer must agree to accept all lots as sold, and the Galleries are not responsible for any damages caused by improper handling or shipping. The Galleries are not responsible for any errors in the description.

6. Successful bidders, unless they have established credit with the Galleries prior to the sale, must make payment in full before the lots will be delivered. Buyers not known to the Galleries must make payment in full within 3 days from the date of sale. The Galleries retain the right to demand a cash deposit from anyone prior to bidder registration and/or to demand payment at the time the lot is knocked down to the highest bidder, for any reason whatsoever. In the event that any buyer refuses or fails to make payment in cash for any lot at the time it is knocked down to him, the auctioneer reserves the right to reoffer the lot immediately for sale to the highest bidder. Credit cards are not accepted as payment.

7. If the purchase price has not been paid within the time limit specified above, nor lots taken up within 7 days from the date of sale, the lots will be resold by whatever means deemed appropriate by the Galleries, and any loss incurred from resale will be charged to the defaulting buyer. Any account more than 30 days in arrears will be subject to a late payment charge of 1% per month as long as the account remains in arrears. Any expenses incurred in securing payment from delinquent accounts will be charged to the defaulting buyer. A fee of $250.00 per check will be charged for each check returned for insufficient funds.

8. All lots are sold as genuine. Any lot accompanied by a certificate issued by The Philatelic Foundation within 5 years of the sale date or by Professional Stamp Experts since January 2004 is sold "as is" and in accordance with the description on the certificate. Such lots may not be returned for any reason, including but not limited to a contrary certificate of opinion. Buyers who wish to obtain a certificate for any item that does not have a P.F. or P.S.E. certificate (dated as above) may do so, provided that the following conditions are met: (1) the purchase price must be paid in full, (2) the item must be submitted to an acceptable expertizing committee with a properly executed application form within 21 days of the sale, (3) a copy of the application form must be given to the Galleries, (4) in the event that an adverse opinion is received, the Galleries retain the right to resubmit the item on the buyer's behalf for reconsideration, without time limit or other restrictions, (5) unless written notification to the contrary is received, items submitted for certification will be considered cleared 90 days from the date of the sale, and (6) in the event any item is determined to be "not as described", the buyer will be refunded the purchase price and the certification fee up to $600.00 unless otherwise agreed.

9. Until paid for in full, all lots remain the property of the Galleries on behalf of the seller.

10. Agents executing bids on behalf of clients will be held responsible for all purchases made on behalf of clients unless otherwise arranged prior to the sale.

11. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs. Buyers outside the U.S. are responsible for all customs duties.

12. The bidder consents that any action or proceeding against it may be commenced and maintained in any court within the State of New York or in the United States District Court for the Southern District of New York, that the courts of the State of New York and United States District Court for the Southern District of New York shall have jurisdiction with respect to the subject matter hereof and the person of the bidder. The bidder agrees not to assert any defense to any action or proceeding initiated by Galleries based upon improper venue or inconvenient forum. The bidder agrees that any action brought by the bidder shall be commenced and maintained only in a Federal Court in the United States District Court for the Southern District of New York or the State Court in the county in which Galleries has its principal place of business in New York. These Terms and Conditions shall be governed by and construed in accordance with the substantive laws of the State of New York.

Grades, Abbreviations and Values Used in Descriptions

Grades and Centering

Our descriptions contain detailed information and observations about each item’s condition. We have also assigned grades to stamps and covers, which reflect our subjective assessment. For stamps, the margin width, centering and gum are described and graded according to generally-accepted standards (an approximate correlation to numeric grades is provided at right). Although we believe our grades are accurate, they are not always exactly aligned with third-party grading terms or standards for all issues. A lot may not be returned because a certification service grades a stamp lower than the grade stated in the description. Information from the P.S.E. Stamp Market Quarterly and P.S.E. Population Report™ is the most current available, but lots may not be returned due to errors or changes in statistics or data.

Extremely Fine Gem (90-100): The term “Gem” describes condition that is the finest possible for the issue. This term is equivalent to “Superb” used by grading services.

Extremely Fine (80-90): Exceptionally large/width margins or near perfect centering.

Very Fine (70-85): Normal-size margins for the issue and well-centered with the design a bit closer to one side. “Very Fine and choice” applies to stamps that have desirable traits such as rich color, sharp impression, freshness or clarity of cancel.

Fine (60-70): Smaller than usual margins or noticeably off center. Pre-1890 issues may have the design touched in places.

Very Good (below 60): Attractive appearance, but margins or perforations cut into the design.

<td>Disturbed Original Gum: Gum showing noticeable effects of humidity, climate or hinging over more than half of the gum. The significance of gum disturbance in valuing a stamp in any of the Original Gum categories depends on the degree of disturbance, the rarity and normal gum condition of the issue and other variables affecting quality. For example, stamps issued in tropical climates are expected to have some gum disturbance due to humidity, and such condition is not considered a negative factor in pricing.</td>

Catalogue Values and Estimates

Unless otherwise noted, the currently available Scott Catalogue values are quoted in dollars with a decimal point. Other catalogues are often used for foreign countries or specialized areas and are referred to by their common name: Stanley Gibbons (SG), Detsz, American Air Mail Catalogue (AAMC), Michel, Zumstein, Facit, etc. Estimates are indicated with an “E.” and reflect our conservative valuation in dollars. Reserves will never exceed the low end of the estimate range; they will sometimes exceed Scott Catalogue value for stamps in Extremely Fine condition.

Because of certain pricing inconsistencies in the Scott Catalogue—for example, blocks that have no gum, the absence of premiums for Mint N.H. items, etc.—we cannot guarantee the accuracy of values quoted for multiples, specialized items and collection lots. We generally try to be conservative, but buyers may not return a lot because of a discrepancy in catalogue value due to Scott pricing inconsistencies.

Catalogues, Prices Realized and Power Search

Images and descriptions for all current sale catalogues are available from our website. Using our Power Search™ tool, you can locate items from the Siegel database, including every Rarities sale since 1964 and every Siegel sale since 1993—more than 180,000 lots worth hundreds of millions of dollars.

The Siegel Encyclopedia and Rarities Census

This feature of our website contains a wealth of information gleaned from decades of philatelic research by the dedicated philatelists at Siegel. The up-to-date census data for 19th and 20th century U.S. rarities are a valuable resource for buyers, sellers and researchers. Every recorded example of more than 30 different rare stamps is described and, in most cases, photographed.

Rarities of the World Sales Archive

Images and descriptions for every annual Rarities sale since 1964 provide an unparalleled source of information on the world’s greatest philatelic rarities. Digital images made from color slides for Rarities sales between 1964 and 1991 (the era of black-and-white catalogues) make this the only source of color images anywhere.

Informative Video Presentations

Downloadable video documentaries tell the stories of stamps and covers, such as the famous Inverted “Jenny.” This is the ideal way to introduce philately to others.
1847 ISSUE

1

5c Red Brown (1). Large even margins all around, bright color beautifully complemented by orange-red “Paid” handstamp struck multiple times and also single strike of “Free” handstamp

EXTREMELY FINE. A BEAUTIFUL USED EXAMPLE OF THE 5-CENT 1847 ISSUE. ESPECIALLY DESIRABLE WITH SUCH AN UNUSUAL CANCELLATION.

With 1999 P.F. certificate ................................................................. 1,065.00

2

10c Black (2). Huge margins all around incl. wide sheet margin at top, bright shade and crisp impression, unobtrusive strike of red St. Louis circular datetamp leaves entire design clearly visible

EXTREMELY FINE GEM. A SUPERB TOP SHEET-MARGIN EXAMPLE OF THE 10-CENT 1847 ISSUE. NO DOUBT THIS STAMP WOULD GRADE VERY HIGHLY.

With 1996 and 2004 P.F. certificates.................................................. 1,400.00
10c Black (2). Position 10L, huge margins all around incl. enormous top right corner margins, 3-4mm at right and 8mm at top, intense early impression, tied by red square grid, matching "New-York Aug. 25" circular datestamp on blue 1847 folded letter to Vienna N.Y., faint vertical file folds well away from the stamp.

EXTREMELY FINE GEM. THIS IS WITHOUT QUESTION THE FINEST CORNER-MARGIN COPY OF THE 10-CENT 1847 ISSUE ON COVER. FROM A NEW DISCOVERY, WHICH WAS OFFERED TO THE MARKET FOR THE FIRST TIME IN OUR 2006 RARITIES SALE.

In his extensive census of the 10c 1847 issue with corner sheet margins, Philip T. Wall records a total of sixteen used stamps on or off cover (another three or four covers have since been recorded). Others can be plated as corner margin positions but do not show significant sheet margins. Many of these have faults, the most common being creases in the selvage.

This cover was part of a recent find of eleven 5c and 10c 1847 covers, which were discovered in 2004 in Geneva N.Y. Nine of the eleven are addressed to Samuel Baldwin.

With 2006 P.F. certificate. ............................................................. E. 30,000-40,000
1c Blue, Ty. I (5). Position 7R1E, large margins all around, bright early shade and impression, very lightly cancelled by black grid, with 1989 P.F. certificate describing stamp as "defective and repaired"; however, in fluid and under UV light, we detect only a crease in the top margin and several thins, but no evidence of any repair in the true sense of the word (an observation shared by Jerome S. Wagshal in his census of this issue)

Very fine appearance. Position 7R1E — the seventh stamp in the right pane of Plate 1 Early — is the only one of the 1,000 positions used to print imperforate one-cent stamps that shows the complete design (Type I). A great rarity.

The published census compiled by Jerome S. Wagshal contains at least 98 unduplicated records of Scott 5. There are probably no more than ten examples existing outside of the Wagshal census population. Therefore, the 1c 1851 Type I is the rarest of all United States stamps issued regularly prior to the 1868 Grills.

Ex Kelley and LeBow. Wagshal Census No. 5-CAN-22. With 1989 P.F. certificate. 80,000.00
1c Blue, Ty. Ib (5A). Position 8R1E, huge margins to barely touched incl. **sheet margin at top**, beautiful warm shade, neat strike of circular datetamp leaves the design characteristics clearly visible

**VERY FINE AND CHOICE. A STUNNING EXAMPLE OF THE RARE 1851 ONE-CENT TYPE IB FROM PLATE ONE EARLY FROM ONE OF THE TWO POSITIONS THAT FURNISHED THE BEST TYPE IB EXAMPLES.**

Type Ib was produced only as an imperforate stamp from Plate 1 Early. Six positions on Plate 1E furnished stamps qualifying as Type Ib — Positions 3-6R and 8-9R — distinguished by the complete design at top and nearly complete design at bottom. When first entered on the plate, these six positions (as well as 7R1E) had the complete design at top and bottom. However, unlike 7R, small portions of the bottoms were burnished away. Positions 6R and 8R had less of the bottom erased than the other Type Ib positions, and for this reason they are more desirable examples of the type.

With 1994 P.F. certificate .......................................................... 15,000.00
6  **1c Blue, Ty. Ia (6).** Position 100R4, huge margins all around incl. **bottom right corner sheet margin,** deep rich Plate 4 color, neat strike of circular datestamp leaves the design characteristics clearly visible

**EXTREMELY FINE. A REMARKABLE CORNER SHEET-MARGIN EXAMPLE OF THE 1851 IMPERFORATE ONE-CENT TYPE Ia, ONE OF THE RARITIES FURNISHED BY PLATE FOUR.**

Stamps printed from Plate 4 were issued in April, May and briefly in June 1857 before perforations were introduced. The relatively small number of imperforate Plate 4 stamps issued during this period explains the rarity and desirability of any of the imperforate stamp types produced from this plate (Ia, Ic, II, III and IIIa). The extremely rare Type Ia, showing the full design at bottom, was furnished only by 18 of the 200 subjects on Plate 4 (the remaining two bottom-row positions were sub-type Ic).

With 1992 and 2006 P.F. certificates (XF 90; SMQ $30,400.00). This remarkable stamp realized $10,000 more than 16 years ago in our 1992 Rarities sale. ......................... 12,500.00
1c Blue, Ty. III (8). Position 82L4, large margins all around, wonderful dark Plate 4 shade which is nicely complemented by red “U.S. Mail” New York carrier datetamp, clearly showing breaks at top and bottom (the defining characteristic of the type)

EXTREMELY FINE. A STUNNING EXAMPLE OF THE 1851 IMPERFORATE ONE-CENT TYPE III WITH A RED CARRIER CANCELLATION.

Type III is defined by breaks in the outer lines at both top and bottom. Many Type III stamps have breaks that were created or enlarged by plate wear. Since the wear occurred over a period of time, the majority of stamps of this type (both unused and used) has small breaks in at least one line. This stamp is notable both for its overall condition and also for the clear breaks which are evident at both top and bottom. It should also be considered extremely rare with a red cancellation — most have either black cancels or occasionally a blue cancel, neither of which stands out from the design as prominently as this red carrier datetamp.

With 2003 P.F. certificate .......................................................... 3,700.00
8  **1c Blue, Ty. IIIa (8A).** Large margins to full at top showing wide beak in outer line at top, deep rich Plate 4 color on bright paper, neat strike of **blue circular datestamp** cancel

**VERY FINE AND CHOICE EXAMPLE OF THE 1851 ONE-CENT TYPE IIIA IMPERFORATE WITH A BLUE CIRCULAR DATESTAMP CANCEL.**

Ex Hinrichs. With 1997 P.F. certificate...... 1,250.00

9  **1c Blue, Ty. IV (9).** Position 42L.1L, huge margins incl. significant portions of adjoining stamps at top and bottom, bold strike of **blue town datestamp**, Extremely Fine Gem, a huge stamp, with 2006 P.F. certificate (XF-Superb 95; SMQ $860.00)....................... 135.00

10  **5c Red Brown (12).** Large even margins all around, gorgeous warm color from what must be an early printing, unobtrusive strike of circular datestamp cancel leaves entire design clearly visible

**EXTREMELY FINE GEM. A SUPERB USED EXAMPLE OF THE 5-CENT 1856 ISSUE.**

Ex Hinrichs. With 1994 P.S.E. and 2004 P.F. certificates. . . ......................................................... 950.00
10c Green, Ty. I (18). Position 95L1, huge to enormous margins all around incl. portion of bottom sheet margin and adjoining stamp at right, lovely bright color and lightly cancelled by an almost face-free circular datestamp.

EXTREMELY FINE GEM. EASILY ONE OF THE FINEST USED 1855 10-CENT TYPE I IMPERFORATE STAMPS WE HAVE EVER OFFERED. A BREATHTAKING GEM.

For some unknown reason, even though the 10c Type I stamps come from the bottom row of the sheet, most have the sheet margin trimmed. The stamp offered here, with its wide sheet margin and enormous margins on all sides, is a true condition rarity.

With 1993 and 2005 P.F. certificates ......................................................... 950.00
12 10c Green, Ty. I (13). Enormous margins incl. *sheet margin at bottom* and significant portion of adjoining stamp at top, deep rich color, bold strikes of circular datestamp as well as trace of red transit at bottom right and also part of *red numeral* cancel at right

EXTREMELY FINE GEM. A MASSIVE EXAMPLE OF THE 1855 10-CENT TYPE I WITH SHEET MARGIN AT BOTTOM AND A PORTION OF ADJOINING STAMP AT TOP.

With 1979 and 2004 P.F. certificates ............ 1,075.00

---

13 10c Green, Ty. II (14). Huge margins all around incl. *straddle-pane margin* at left, deep rich color and proof-like impression, bold strike of circular datestamp

EXTREMELY FINE GEM. A MASSIVE EXAMPLE OF THE 1855 10-CENT IMPERFORATE TYPE II.

With 1986 and 1998 P.F. certificates ...... 200.00

---

14 10c Green, Ty. III (15). Phenomenal Jumbo margins all around incl. *sheet margin at left*, "New-York Oct. 15" circular datestamp, rich color

EXTREMELY FINE GEM. A MASSIVE SHEET-MARGIN EXAMPLE OF THE 1855 10-CENT IMPERFORATE TYPE III.

In recent years it has become fashionable to cut down imperforate multiples into enormous singles with parts of adjoining stamps attached. This stamp is what we might call a "natural" beauty. The "New-York" circular datestamp was not normally used to cancel stamps on foreign-bound covers, so this single was probably used alone on a trans-continental rate cover. Although it does not have parts of adjoining stamps all around, its margins extend to the limit, creating a "small die proof" effect. In a collection filled with great stamps, this is one we particularly admire.

With 1989 and 2004 P.F. certificates .......... 200.00
10c Green, Ty. IV (16). Position 74L1, large balanced margins, deep rich color and detailed impression, neat strike of “New Orleans La. Aug. 3, 1857” circular datestamp

EXTREMELY FINE. A SUPERB EXAMPLE OF THE 1855 10-CENT TYPE IV IMPERFORATE.

With 1999 P.F. certificate ................................................................. 1,700.00

12c Black (17). Huge margins all around, intense shade on bright paper, gorgeous impression, neat blue circular datestamp

EXTREMELY FINE GEM. A WONDERFUL LARGE-MARGINED EXAMPLE OF THE 12-CENT 1851 ISSUE WITH A BLUE CIRCULAR DATESTAMP CANCELLATION.

With 1985 and 2004 P.F. certificates ....................................................... 360.00
1c Blue, Ty. I (18). Radiant color, choice centering with wide and balanced margins, well-struck Oct. 31 circular datestamp

EXTREMELY FINE. A BEAUTIFUL USED EXAMPLE OF THE PERFORATED 1857 ONE-CENT TYPE I.

With 1983 and 2003 P.F. and 2005 P.S.E. certificates (XF 90; SMQ $1,750.00). Only five have graded higher to date and only two others share this grade. ....................... 700.00
1857-60 ISSUE

1c Blue, Ty. Ia (19). Position 95R4, choice centering with large part of the bottom plumes visible, light strike of town datetamp, intense shade and proof-like impression, a very early state of the plate with clearly defined plating marks including the vertical layout line along right ornaments.

VERY FINE AND CHOICE. A MAGNIFICENT EXAMPLE OF THE RARE 1857 ONE-CENT PERFORATED TYPE Ia STAMP. ONE OF THE FEW KNOWN USED EXAMPLES WITH CHOICE CENTERING AND A LIGHT CANCEL.

Due to narrow spacing on the plate, most examples of this stamp have part of the type characteristics cut away by the perforations. It is an obvious early impression from Plate 4. Signed Ashbrook. With 1984 and 2004 P.F. certificates. ................................. 10,000.00
19  

**1c Blue, Ty. II (20).** Plate 2, well-centered, rich color, **red New York “U.S. Mail” carrier datestamp** cancel, Very Fine and choice, a pretty stamp, with 1994 P.F. certificate...........  
................................................................................................................ 335.00

20  

**1c Blue, Ty. III (21).** Deep rich Plate 4 color on bright paper, almost perfectly centered with clear breaks at top and at bottom, light circular datestamp cancels  
EXTREMELY FINE GEM. THE 1857 ONE-CENT TYPE III PERFORATED ISSUE IS RARE IN THIS CHOICE USED CONDITION.  
Due to the narrow vertical spacing on this plate, stamps are most typically found with the perforations impinging on some portion of the design. The example offered here is centered so that the type characteristics are clearly visible.  
With 2004 P.F. certificate......................................................................................... 2,750.00
1c Blue, Ty. IIIa (22). Plate 4, perfectly centered showing wide break at top, rich color on bright paper, light strike of New York “U.S. Mail” carrier datestamp cancel leaves design and type characteristics clearly visible

EXTREMELY FINE GEM. A GORGEOUS USED EXAMPLE OF THE 30-CENT 1860 ISSUE WHICH HAS BEEN GRADED XF-SUPERB 95 BY P.S.E. AN EXTREMELY DIFFICULT STAMP TO FIND IN SUCH SUPERB USED CONDITION.

The 30¢ 1860 challenges collectors for several reasons. First, the subjects were closely spaced together on the plate, leaving almost no room for perforations and little opportunity to create stamps with perforations clear of the design on all four sides. Second, the 30¢ and 90¢ 1860 were only in circulation for a brief period before the series was demonetized in the Fall of 1861. Third, this high-denomination stamp was issued for use on transatlantic mail, and postal clerks were careful to thoroughly cancel the stamps to prevent cleaning and re-use. Therefore, 30¢ 1860 stamps in sound, well-centered and lightly-cancelled condition defy all circumstances and are extremely rare.

With 1984 P.F. and 2005 P.S.E. certificates (XF-Superb 95; SMQ $4,000.00). Only one has graded higher (at 95J) and only four others share this grade. ....................... 500.00

90c Blue (39). Gorgeous centering with wide margins all around, deep rich color and sharp impression, clear strike of black Philadelphia circular datestamp cancel, long and full perforations

EXTREMELY FINE GEM. A SUPERB USED EXAMPLE OF THE SHORT-LIVED 90-CENT 1860 — THE FIRST UNITED STATES 90-CENT ISSUE.

The 90c stamp was issued in 1860, along with the 24c and 30c values, all of which were needed to prepay high international letter rates established by various postal treaties. The basic 24c and 30c rates to England, France and Germany created a large volume of mail franked with those values. However, the 90c saw much more limited use, partly due to the rates in effect, but more because of the American Civil War. When supplies of current postage stamps were declared invalid in the South and ultimately demonetized by the Federal government, the 90c had been in use for only one year. For this reason, genuinely cancelled copies and covers bearing the 90c are extremely rare. Approximately 180 used examples have been certified as genuine by the Philatelic Foundation, of which approximately one-quarter are sound. Of these sound examples, many are off-center.

10c Dark Green, First Design (62B), Choice centering with wide and even margins, deep rich color and proof-like impression beautifully complemented by red New York circular datestamp, long and full perforations all around

EXTREMELY FINE GEM. A SUPERB USED EXAMPLE OF THE FIRST DESIGN 10-CENT 1861 ISSUE. AN EXTREMELY DIFFICULT STAMP TO FIND IN SUCH PRISTINE CONDITION. ESPECIALLY DESIRABLE WITH THE RED CANCEL.

The 10c 1861 “First Design” (or Type I from Plate 4) is extremely difficult to find in well-centered and sound condition. This is partly due to the narrow spacing on Plate 4, which was used for the earliest printing. This stamp is nearly the equal of the 10c Type I in our Sale 953 (lot 299), which realized $25,000 hammer.

EXTREMELY FINE GEM. A SUPERB USED EXAMPLE OF THE 5-CENT 1861 ISSUE IN THE BROWN YELLOW COLOR.

Due to narrow spacing on the 5c plate, it is very difficult to find centered copies with the perforations clear of the design on all sides. The stamp offered here, with choice centering and the red town cancellation, should be considered a condition rarity.

FINE EXAMPLE OF THE 24-CENT BLACKISH VIOLET. THIS IS POSSIBLY THE MOST DIFFICULT SHADE OF THE 1861-66 ISSUE TO OBTAIN IN ANY CONDITION.

A thorough search through past auction catalogues will demonstrate how rare this stamp is in either used or unused condition. With regard to used stamps, this shade was lacking from the Ishikawa, Grunin, Klein, Caspary and Twigg-Smith collections. The Zoellner collection contained an original-gum single even though the rest of the series was obtained in used condition, because a suitable used stamp was never offered.

2c Black, D. Grill (84). Perfectly centered, deep shade, lightly cancelled by blue-black target, full clear grill impression showing the requisite 15 columns of points.

Extremely fine gem. Apart from the A and Z Grill rarities, the 2-cent 1868 D Grill is the rarest of all grilled issues. Probably fewer than ten copies exist in this superb condition.

The device equipped with the D Grill was refitted with the E Grill on or about February 9, 1868. Based on the earliest known usages of the 2c D Grill (2/15/68) and 3c E Grill (2/19/68), it is our theory that the conversion from the D to E Grill took place only a day or so after sheets of 2c stamps were first run through the D-equipped machine. The great rarity of 2c D Grills, relative to all other regular-production grills, bears out this theory.

EXTREMELY FINE APPEARANCE. THIS IS EASILY ONE OF THE FINEST OF THE 20 USED EXAMPLES OF THE 3-CENT 1861 RE-ISSUE RECORDED IN OUR CENSUS. A GREAT RARITY.

Our recently updated census of Scott 104 in used condition, available at our website at http://siegelauctions.com/enc/census/104.pdf, contains only 20 used examples of the 3c 1861 Re-Issue (one has never been certified). Of these, less than half are sound. By virtue of centering, this is easily one of the finest in our records.

Our census of Scott 109 records thirteen used copies. Of these, four have faults.

90c Blue, Re-Issue (111). Perfect centering with wide even margins, deep rich color and intense impression on crisp white paper, neatly cancelled by New York City circular datestamp and oval grid

EXTREMELY FINE GEM. ONE OF THE TWO FINEST EXAMPLES OF THE 90 CENT 1861 RE-ISSUE IN USED CONDITION. ONLY FOUR USED COPIES ARE KNOWN TO EXIST. AN OUTSTANDING CLASSIC RARITY.

The footnote in Scott Catalogue at the end of the Re-Issue section states that "Five examples are recorded of No. 111 used, one of which has a non-contemporaneous cancel. Value is for centered and sound example (two are known thus.)"

The four recorded used copies of this stamp are as follows: 1) Census No. 111-CAN-01, sound and superbly centered, ex Sheriff, Zoellner (Siegel Sale 804, lot 275, realized $40,000 hammer), the stamp offered here; 2) Census No. 111-CAN-02, oval grid cancel, ex Twigg-Smith (Siegel Sale 835, lot 216, realized $50,000 hammer); 3) Census No. 111-CAN-03, sound, duplex cancel, centered slightly to top, from our 1986 Rarities sale (lot 97); and 4) Census No. 111-CAN-04, centered to top, small corner creases at top left with one ending in a small tear, offered in the Ameripex auction. They are illustrated in the census on our website at http://siegelauctions.com/enc/census/111.pdf

2c Brown, Re-Issue (124). Deep rich color, essentially perfect centering with wide balanced margins, sharp strike of "6" oval grid duplex cancel

EXTREMELY FINE GEM. ONE OF THE FINEST USED EXAMPLES OF THE 2-CENT 1869 PICTORIAL RE-ISSUE EXTANT.

We are aware of three or four sound used examples of the 2c 1869 Re-Issue with comparable centering and margins. The finest copy — with wider margins and a small oval grid cancel — was purchased by the Siegel firm on behalf of a client from Shreves sale of the William S. Floyd collection (October 2001) for $12,000 hammer.

COLUMBIAN ISSUE

4c Columbian, Error of Color (233a). Beautiful deep rich color, light strike of duplex circular datestamp, faint diagonal crease at top left

FINE APPEARANCE. ONLY THIRTEEN USED EXAMPLES OF THE 4-CENT COLUMBIAN ERROR OF COLOR HAVE BEEN CERTIFIED BY THE PHILATELIC FOUNDATION. ONE OF THE GREAT RARITIES OF USED UNITED STATES STAMPS.

Only four of the thirteen are sound, and two of the sound copies have not been re-examined for faults since the 1940’s. Therefore, the number of sound copies may actually be less than four, and may only be two. Most of the used examples are also off-center to some degree, with eight having the perforations either close or touching on at least one side. In the last seven years, this is only the fifth used example of this rarity we have handled.

Unpublished Census No. 233a-CAN-09. Ex Lake Shore. With 1979 Friedl and 1997 P.F. certificates. In our opinion, this is undercatalogued in Scott given its rarity compared to unused copies ........................................................... 16,500.00
111  *50c Columbian* (240). Beautiful wide margins and handsomely centered, incredibly intense color on bright white paper, light strike of circular datestamp, Extremely Fine, striking used example, with 2006 P.S.E. certificate (VF-XF 85; SMQ $270.00) ... 180.00

112  *$2.00 Columbian* (242). Choice centering with wide margins, intense shade and impression, lightly-struck cancel leaves design clearly visible

131  **1c Pan-American, Center Inverted (294a).** Deep rich colors, unusually choice centering, machine cancel leaves invert clearly visible

**EXTREMELY FINE GEM. EASILY ONE OF THE FINEST USED EXAMPLES OF THE ONE-CENT PAN-AMERICAN INVERT IN EXISTENCE.**

The 1c Pan-American Inverts were found in at least four different post offices around the country, soon after release of the issue in May 1901. According to the revised Johl-King book (p.7) "The first known copies of this error were discovered at Bessemer, Alabama, by the Carrell Jewelry Company on some circulars just prior to mailing them. When they realized the find they had made they lost no time in removing the stamps from the circulars and thus saved them to philately." Three covers are known with one each used from Bessemer Ala., Oakland Cal. and St. Louis Mo.

The 1c Pan-American Invert in used condition is considerably scarcer than unused. With the increased collector demand for 20th Century stamps in used condition, the price of a used 1c Pan-American Invert has surged ahead from $7,000 in 2001 to $13,000 in 2008; in our opinion, it is still undervalued.

134 4c Brown, Imperforate, Schermack Ty. III (314A). Large margins to full with full Schermack perforations on right side, deep rich color, usual wavy-line cancel

VERY FINE. A RARE SOUND EXAMPLE OF THE 4-CENT 1908 IMPERFORATE WITH SCHERMACK PERFORATIONS, SCOTT 314A.

With the rising popularity of vending and affixing machines, the Bureau of Engraving and Printing received numerous requests from manufacturers for supplies of imperforate stamps, which could then be privately perforated to conform to each firm’s machine. In May 1908, a supply of 25 sheets (400 stamps per sheet) of the 4c 1902 Issue, without perforations, was delivered to the Schermack Mailing Machine Co. in Detroit. The entire supply was cut into coils with Schermack Type III perforations, designed for the firm’s patented affixing machine and delivered to the Winfield Printing Co. for use on mass mailings of advertising material. Approximately 6,000 were used on a mailing for Hamilton Carhartt Manufacturer, and almost all of the 4,000 balance were used on a mailing for Burroughs Adding Machine Co.

Our unpublished census contains 44 used examples, including three strips of three (one on cover), three singles on separate covers, and 32 single used copies (four are or were at one time on piece, including one of the sound copies with full margins). All three strips of three and two covers were used by Karl Koslowski, who was the only person able to acquire some of the 4c Imperforates. He is also the source for the only known unused copies. Our published census (updated) contains four pairs, two guide line pairs and nine singles, for a total of 21 unused stamps.

Shipping and Transit Insurance
We will be pleased to arrange for shipping and transit insurance for purchases in this sale (except those described as “floor sale only”). To expedite billing and delivery of lots to hundreds of buyers per sale, we use standard charges for postage and insurance, based on the package weight and mailing requirements (see schedule). The standard charges are sometimes slightly more or less than the actual postage or Fedex fees, but we do not include any charge for our labor or packing costs. Therefore, we ask all buyers to remit the prescribed amount for shipping charges.

Transit insurance is provided in all cases, except when the buyer has furnished us with proof that insurance coverage is effective under another policy. Proof, in such cases, will be accepted in the form of a written certificate from the insurance carrier.

You are responsible for insurance charges, which will be added to your invoice. This coverage is provided for our mutual protection against theft or loss in transit.

Bidding Increments
The auctioneer may regulate the bidding at his discretion. However, to assist absentee bidders in establishing their maximum bid for each lot, the increments shown at right will be used in most cases. We recommend that written bids conform to these increments (those which do not will be reduced to the next level).

REVISED CHARGES FOR SHIPPING EFFECTIVE JUNE 1, 2008
Due to increased Fedex charges for secured delivery and fuel, we are revising our shipping charges. We apologize for circumstances beyond our control.
