Bidding
The following means are available for placing bids:

1) **Attending the Live Auction in Person:** All bidders must register for a paddle, and new bidders must provide references at least three business days in advance of the sale.

2) **Live Internet Bidding:** Instructions for participating as a Live Internet Bidder are provided on the page opposite.

3) **Phone Bidding:** Bidders can be connected to the sale by phone and bid through a member of staff. Requests for phone bidding are subject to approval (please contact our office at least 24 hours before the sale). A signed Bid Form is required.

4) **Absentee Bids.** All bids received in advance of the sale, either by mail, fax, phone, e-mail or internet, are Absentee Bids, which instruct the auctioneer to bid up to a specific amount on one or more lots in the sale. Absentee Bids sent by phone, fax or e-mail should arrive at least one hour prior to the start of the sale session. Bids entered through Live Internet Bidding will be visible to the auctioneer during the sale. Written bids should be entered legibly on the Bid Form in the sale catalogue. E-mail and internet bids should be carefully typed and double-checked. All new bidders must provide references. We recommend calling or e-mailing to confirm that Absentee Bids sent by mail, fax or e-mail have been received and entered.

Pre-Sale Viewing
Subject to availability, certain lots (except group lots) can be sent to known clients for examination. Requests must be made no later than 7 days prior to the sale. Lots must be returned on the day received. Postage/insurance costs will be invoiced.

In addition to regular viewing, clients may view lots by appointment. Our staff will be pleased to answer questions or provide additional information about lots.

Expert Certification
Individual items offered without a current certificate (PF dated within the past five years of sale; PSE dated January 2004 or later) may be purchased subject to independent certification of genuineness and our description. Please refer to the Conditions of Sale and Grading Terms for policies governing certification.

Shipping and Delivery
Procedures and charges for shipping lots are printed on the back of the Bid Form. **Bidders are responsible for all prescribed shipping charges and any applicable sales tax or customs duties.**

Price Realized
Prices realized are sent with each invoice. Bidders with e-mail will receive a Bid Results report after the sale. Session results are posted immediately to siegelauctions.com
Live Internet Bidding at Siegel Auctions

BIDDING FROM YOUR COMPUTER LETS YOU BE PART OF THE LIVE AUCTION FROM ANYWHERE IN THE WORLD!

There’s NO SUBSTITUTE for following the auction in real time. Live Internet Bidding lets you bid and buy as though you were right there in the saleroom. And it’s easy.

This step-by-step guide will instruct you how to register, set your browser and use the bidding interface.

Start by following the simple steps to become a registered Live Internet Bidder. Once you’ve been approved for bidding, you can listen to the auction and place bids with the click of a mouse.

Registering with STAMP AUCTION NETWORK & SIEGEL AUCTION GALLERIES

Live Internet Bidding is managed by Stamp Auction Network (SAN).
To bid, you must be registered and approved by both SAN and Siegel.
To decide what you need to do, choose the description below that best fits you.

I’ve never bid with Siegel, nor registered with SAN.
Go to stampauctionnetwork.com/siegel and click on “Register” at the top. Check the box for Robert A. Siegel Auction Galleries (under “R”) and submit the form with your trade references (please, no family members or credit card companies as references). Once registered at SAN and approved by Siegel for bidding, you’re ready for internet bidding.

I’ve already registered with SAN and have been approved by Siegel for internet bidding.

I’m a Siegel client, but I’m not registered with SAN.
Go to stampauctionnetwork.com/siegel and click on “Register” at the top. Check the box for Robert A. Siegel Auction Galleries (under “R”) and submit the form, indicating you are a Siegel client. Once registered at SAN, you’re ready for internet bidding.

I’ve bid through SAN before, but this is the first time I’ve bid in a Siegel sale.
Then you just need to be approved by Siegel. Go to stampauctionnetwork.com/siegel and click on “Update Registration” at the top. Your SAN account information will be sent to us for approval (you might be asked for other trade references). Once approved by Siegel for bidding, you’re ready for internet bidding.

Log on to the auction at stampauctionnetwork.com/siegel.
You can also log on at siegelauctions.com

When you’re logged on as a Live Internet Bidder, the bidding interface shows a photo and description of the lot, the current bid (and your bidding status), options for placing competitive bids and buttons with bid increments.

• After you click on a bid amount, the auctioneer is immediately notified of your bid.
• Retracting a bid is usually not acceptable, so please bid carefully.
• If you bid and then decide to stop, the “Pass” button will tell the auctioneer you are no longer bidding.
• You can send messages to the auctioneer (for example, a request for extension).
• You can track prior realizations from the bidding screen.

“System Down” or “Lost Connection” events do occasionally happen. If you have any problems with Live Internet Bidding please call 212-753-6421 for immediate assistance.
Conditions of Sale (please read carefully before bidding)

The property described in this catalogue will be offered at public auction by Robert A. Siegel Auction Galleries, Inc. (“Galleries”) on behalf of various consignors and itself or affiliated companies. By bidding on any lot, whether directly or by or through an agent, in person, or by telephone, facsimile or any other means, the bidder acknowledges and agrees to all of the following Conditions of Sale.

1. The highest bidder acknowledged by the auctioneer shall be the buyer. The term “final bid” means the last bid acknowledged by the auctioneer, which is normally the highest bid offered. The purchase price payable by the buyer will be the sum of the final bid and a commission of 15% of the final bid (“buyer’s premium”), together with any sales tax, use tax or customs duties due on the sale.

2. The auctioneer has the right to reject any bid, to advance the bidding at his discretion and, in the event of a dispute between bidders, to determine the successful bidder, to continue the bidding or to reoffer and resell the lot in dispute. The Galleries’ record of the final sale shall be conclusive.

3. All bids are per numbered lot in the catalogue unless otherwise announced by the auctioneer at the time of sale. The right is reserved to group two or more lots, to withdraw any lot or lots from the sale, or to act on behalf of the seller. The Galleries will execute bidding instructions on behalf of clients, but will not be responsible for the failure to execute such bids or for any errors in the execution of such bids.

4. Lots with numbers followed by the symbol ° are offered subject to a confidential minimum bid (“reserve”), below which the lot will not be sold. The absence of the symbol ° means that the lot is offered without a reserve. If there is no reserve, the auctioneer has sole discretion to establish a minimum opening bid and may refuse an offer of less than half of the published estimate. Any lot that does not reach its reserve or opening bid requested by the auctioneer will be announced as “passed” and excluded from the prices realized lists after the sale. The Galleries may have a direct or indirect ownership interest in any or all lots in the sale resulting from an advance of monies or goods-in-trade or a guarantee of minimum net proceeds made by the Galleries to the seller.

5. Subject to the exclusions listed in 5(A), the Galleries will accept the return of lots which have been misidentified or which have obvious faults that were present when the lot was in the Galleries’ custody, but not so noted in the lot description. All disputed lots must be received by the Galleries intact with the original packing material within 5 days of delivery to the buyer but no later than 30 days from the sale date. (5A) EXCLUSIONS: The following lots may not be returned for any reason: lots containing 10 or more items; lots from buyers who registered for the pre-sale exhibition or received lots by postal viewing, thereby having had the opportunity to inspect them before the sale; any lot described with “faults,” “defects” or a specific fault may not be returned because of any secondary fault. Photographed lots may not be returned because of centering, margins, short/nibbed perforations or other factors shown in the illustrations. Lots may not be returned for any of the following reasons: the color of the item does not match the color reproduction in the sale catalogue or website listing; the description contains inaccurate information about the quantity known or reported; or a certification service grades a stamp lower than the grade stated in the description.

6. Successful bidders, unless they have established credit with the Galleries prior to the sale, must make payment in full before the lots will be delivered. Buyers not known to the Galleries must make payment in full within 3 days from the date of sale. The Galleries retains the right to demand a cash deposit from anyone prior to bidder registration and/or to demand payment at the time the lot is knocked down to the highest bidder, for any reason whatsoever. In the event that any buyer refuses or fails to make payment in cash for any lot at the time it is knocked down to him, the auctioneer reserves the right to reoffer the lot immediately for sale to the highest bidder. Credit cards are not accepted as payment.

7. If the purchase price has not been paid within the time limit specified above, nor lots taken up within 7 days from the date of sale, the lots will be resold by whatever means deemed appropriate by the Galleries, and any loss incurred from resale will be charged to the defaulting buyer. Any account more than 30 days in arrears will be subject to a late payment charge of 1½% per month as long as the account remains in arrears. Any expenses incurred in securing payment from delinquent accounts will be charged to the defaulting buyer. A fee of $250.00 per check will be charged for each check returned for insufficient funds.

8. All lots are sold as genuine. Any lot accompanied by a certificate issued by The Philatelic Foundation within 5 years of the sale date or by Professional Stamp Experts since January 2004 is sold “as is” and in accordance with the description on the certificate. Such lots may not be returned for any reason, including but not limited to a contrary certificate of opinion. Buyers who wish to obtain a certificate for any item that does not have a P.F. or P.S.E. certificate (dated as above) may do so, provided that the following conditions are met: (1) the purchase price must be paid in full, (2) the item must be submitted to an acceptable expertizing committee with a properly executed application form within 21 days of the sale, (3) a copy of the application form must be given to the Galleries, (4) in the event that an adverse opinion is received, the Galleries retain the right to resubmit the item on the buyer’s behalf for reconsideration, without time limit or other restrictions, (5) unless written notification to the contrary is received, items submitted for certification will be considered cleared 90 days from the date of sale, and (6) in the event any item is determined to be “not as described”, the buyer will be refunded the purchase price and the certification fee up to $600.00 unless otherwise agreed.

9. Until paid for in full, all lots remain the property of the Galleries on behalf of the seller.

10. Agents executing bids on behalf of clients will be held responsible for all purchases made on behalf of clients unless otherwise arranged prior to the sale.

11. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs. Buyers outside the U.S. are responsible for all customs duties.

12. The bidder consents that any action or proceeding against it may be commenced and maintained in any court within the State of New York or in the United States District Court for the Southern District of New York, that the courts of the State of New York and United States District Court for the Southern District of New York shall have jurisdiction with respect to the subject matter hereof and the person of the bidder. The bidder agrees not to assert any defense to any action or proceeding initiated by Galleries based upon improper venue or inconvenient forum. The bidder agrees that any action brought by the bidder shall be commenced and maintained only in a Federal Court in the United States District Court for the Southern District of New York or the State Court in the county in which Galleries has its principal place of business in New York. These Terms and Conditions shall be governed by and construed in accordance with the substantive laws of the State of New York.

Grades, Abbreviations and Values Used in Descriptions

Grades and Centering

Our descriptions contain detailed information and observations about each item’s condition. We have also assigned grades to stamps and covers, which reflect our subjective assessment. For stamps, the margin width, centering and gum are described and graded according to generally-accepted standards (an approximate correlation to numeric grades is provided at right). Although we believe our grades are accurate, they are not always exactly aligned with third-party grading terms or standards for all issues. A lot may not be returned because a certification service grades a stamp lower than the grade stated in the description. Information from the P.S.E. Stamp Market Quarterly and P.S.E. Population Report™ is the most current available, but lots may not be returned due to errors or changes in statistics or data.

Catalogue Values and Estimates

Unless otherwise noted, the currently available Scott Catalogue values are quoted in dollars with a decimal point. Other catalogues are often used for foreign countries or specialized areas and are referred to by their common name: Stanley Gibbons (SG), Michel, Zumstein, Facit, etc. Estimates are indicated with an “E.” and reflect our conservative valuation in dollars. Reserves will never exceed the low end of the estimate range; they will sometimes exceed Scott Catalogue value for stamps in Extremely Fine condition.

Because of certain pricing inconsistencies in the Scott Catalogue—for example, blocks that have no gum, the absence of premiums for Mint N.H. items, etc.—we cannot guarantee the accuracy of values quoted for multiples, specialized items and collection lots. We generally try to be conservative, but buyers may not return a lot because of a discrepancy in catalogue value due to Scott pricing inconsistencies.

Revised 1/2008
Philatelic Black Holes

Black holes occur when a star collapses and its enormous mass is compressed into an extremely small space. The tremendous gravitational force of a Black Hole pulls in whatever mass comes close enough to be pulled over the event horizon. Even light cannot escape a Black Hole, thus its name and appearance.

Philatelic Black Holes also exist. They form when a collector with tremendous gravitational power (the product of money, determination and longevity) acquires numerous important items and holds them for what seems an eternity to other collectors.

Looking at past Siegel Rarities catalogues, it is apparent that Philatelic Black Holes exist. Rare stamps, large blocks and magnificent covers that we see in print have vanished into Black Holes. They are never exhibited, so their light can never escape. They exist as information, but we cannot touch them, own them or sell them. They are as elusive as whatever goes into an astronomical Black Hole.

Some physicists who study Black Holes think it is possible that they are the birthplaces of new universes. That is true in philately. The Carriers & Locals Black Hole which existed for decades finally gave birth to a new collecting universe when the Middendorf, Hall, Schwartz and Golden collections came to market in succession. The same thing occurred last year when the Wagshal and Vogel collections unleashed a huge quantity of 1¢ 1851-57 material. If one lives long enough, eventually a Philatelic Black Hole will decay and release its captive mass.

This year’s Rarities sale is relatively small. It certainly contains some world-class rarities and items of exceptional character, but it does not have the quantity of knockout items I personally like to see in a Siegel Rarities of the World auction. Blame it on Philatelic Black Holes, because right now the entire marketplace is suffering from their effects. This year’s auction catalogues have been, shall we say, lighter than usual.

As I said before, eventually a Philatelic Black Hole will give up its mass. The generations of collectors who bought in Rarities sales past will eventually sell. The tremendous holdings of stamps and covers which lie in dark bank vaults will come back into the market one day. Until then, we wait.

Now that I have acknowledged and explained why this year’s Rarities sale has a short count, please let me be a salesman and talk about some of the great items we do have.

Stamp collectors will find some major rarities, such as the 2¢ Pan-American Invert and 24¢ Inverted “Jenny,” as well as “Condition Rarities,” such as the 24¢ F Grill (PSE 95) and a Gem 100 example of the 8¢ 1922 (Scott 560). A choice group of back-of-book issues includes the $1.92 1875 Newspaper Special Printing (Scott PR48). Revenue specialists will find examples of the $3.00 Charter Party printed on both sides (R85ce) and printed with RS208 on back (R85cg).

Postal history collectors should be excited by some unusual covers, such as a 5¢ 1847 to Richard Rush in France, postmarked with the Long Island Railroad route agent marking. There is a 2¢ Black Jack stamp actually tied by the Cumberland Me. printed postmark, proving it is a true precancellation. Confederate specialists are offered rare Lee and Jackson autographs among a nice array of covers.

The Hawaiian lots include a complete set of 1851-52 Missionary stamps, featuring the 2¢ with a long and illustrious pedigree. In foreign we have rare French Maritime markings in Cuba and several wonderful British and European rarities.

Please join us on June 18th and create your own Philatelic Black Hole.

**CHEROKEE, CHER. NATION, Feb. 17, 1844.** Beautiful strike of rimless circular datestamp with month and day in manuscript on folded letter datelined “Cherokee Baptist Mission, Feb. 3rd, 1844” to Gilford N.H., manuscript “25” rate, written by Sarah Hibbard to her parents, letter touches on her missionary work: “The winter session of my school commenced Dec. 18th in a new brick building which the Cherokee have erected the past year, at an expense of over a thousand dollars”; she mentions courses taught, including “an interesting class in the native language, taught by Miss Hannah Jones (daughter of Rev. E. Jones) who acquired the language in childhood and speaks with the same ease as her mother tongue”; also a reference to the unconverted native population, “impressions have been made that will be lasting, they listen with apparent deep interest to religious instruction”; other interesting content discusses Sabbath services and how they are conducted, second part of letter is to her sister and describes her busy life, small edge tears at top well away from markings and of little consequence.

EXTREMELY FINE. ONE OF ONLY THREE RECORDED EXAMPLES OF THE CHEROKEE NATION INDIAN TERRITORY DATESTAMP. A RARE MARKING ON A FOLDED LETTER CONTAINING FASCINATING CONTENT ABOUT DAILY LIFE OF THE MISSIONARIES IN 19TH CENTURY AMERICAN INDIAN TERRITORY.

According to http://www.blogoklahoma.us/place.asp?id=13, Rev. Jessy Busyhead settled at Baptist Mission in Oklahoma in 1839, following the Cherokee removal from the East. He held services in his home until the Baptist Mission was established in 1841 by Rev. Evan Jones. A Cherokee National School was founded near there in 1843, and the mission established a female seminary there in the same year. The Mission Board of Boston furnished a printing press, and The Cherokee Messenger was printed at this mission, which was the first periodical in Oklahoma. According to the website http://cherokeeregistry.firstlightonline.org, a rift developed between the Missionaries, with slave owners on one side (Busyhead owned slaves) and abolitionists such as Evans on the other. This led to a schism among Cherokee Baptists as early as 1844-45, with Evans expelling Cherokee slaveowners from the church. This provided an opening for Southern Baptists, who started competing missions for slaveowners, who tended to be from the wealthier class. The Mission Station was burned by Confederates during the Civil War because of the missionaries’ anti-slavery teachings, and the mission was never rebuilt.

The post office at Cherokee was active from 1842 to 1844, and it is one of the earliest to employ the word “Nation” in its postmarks. Three examples of this marking are known: 1) Sep. 15, 1843 from Sarah Hibbard to her sister Deborah in Manchester N.H.; 2) Feb. 17, 1844, the folded letter offered here; and 3) April 8, 1844 folded letter to Rev. Babcock in Thetford Vt.

4° Brattleboro Vt., 5c Black on Buff (5X1). Position 10, full margins all around, intense shade and impression, pen cancel at left, small thin spot at center, totally negligible considering the superb appearance and otherwise excellent condition of this stamp.

EXTREMELY FINE APPEARANCE. A RARE FOUR-MARGIN EXAMPLE OF THE 5-CENT BRATTLEBORO POSTMASTER’S PROVISIONAL. ONLY 32 COPIES ARE RECORDED OFF COVER, THIS BEING ONE OF THE FINEST.

This stamp comes from the sheet retained by the printer, Thomas Chubbuck, who sold three stamps to collectors before selling the remaining block of seven to L. H. Bragg in September 1870. Bragg, in turn, sold the block to John W. Scott. The stamps from the Chubbuck block were eventually cut apart and sold to different collectors. In the 1920’s Raymond W. Lapham, with the professional help of Warren H. Colson, reconstructed the Brattleboro plate positions, including some stamps from the Chubbuck sheet. (Reference: “The Plating of the Brattleboros”, Calvet M. Hahn, Collectors Club Philatelist, Mar.-Apr. 1988). The plate reconstruction with this stamp appeared at auction in the Christie’s October 1989 sale of the Weill Brothers’ stock.

St. Louis Mo., 10c Black on Bluish Pelure (11X8). Type III, Position 6, unused (no gum), ample margins on three sides and just shaved along outer frameline at top, deep impression on fresh paper, tiny vertical crease at bottom.

Very fine appearance. This is the only recorded unused example of the St. Louis “Bears” 10-cent provisional on pelure paper. An important rarity among postmasters' provisionals.

A survey of our Levi records and auction catalogues produced a tally of approximately 35 examples of the 10c Pelure off and on cover. The vast majority of these stamps has faults or margins cutting into the design. The stamp offered here is essentially sound and one of the most beautiful examples extant. It is also the only certified unused example extant. Ex Pope and Wagshal. With 2010 P.F. certificate as unused.

Unlisted in Scott as unused. Scott Retail $13,000.00 as used, but footnote states: “Values of Nos. 11X7-11X8a, on and off cover, reflect the usual poor condition of these stamps, which were printed on fragile pelure paper. Attractive examples with minor defects sell for considerably more.” .................................................................

Rail Road N.Y. 5” Long Island Railroad route agent’s 5c integral-rate handstamp on cover to Paris, France, addressed to “Hon. Richard Rush, Minister des Etat Unis”, light strike of red circular datetamp overstruck by July 1849 Boulogne datetamp, red “Colonies &c Art. 13” framed Anglo-French accountancy handstamp tying stamp, manuscript “13” decimes due marking, light strike of July 3 receiving backstamp, probably carried on the Cunarder Europa, which departed Boston on June 20 and arrived in Liverpool on July 1, docketed at left “Wilkinson’s printing press wants information &c which I cannot give, not having it”, stamp with scissors-cut at bottom, cover with trivial wear

FINE. A RARE USE OF THE 5-CENT 1847 ISSUE TO FRANCE AND THE ONLY RECORDED EXAMPLE OF THE LONG ISLAND RAILROAD ROUTE AGENT’S MARKING ON COVER TO A FOREIGN DESTINATION.

The Alexander 1847 Issue census book records 31 examples of this Long Island Railroad marking, including one with the 10c and 30 with the 5c. This is the only cover to a foreign destination. The addressee, Richard Rush, was the recipient of the magnificent “Rush” cover, sent approximately eight months earlier during the Retaliatory Rate period (see Siegel Sale 912). VERY FINE. THE RED ORANGE IS THE RAREST OF ALL 5-CENT 1847 SHADES AND IS EXTREMELY DIFFICULT TO FIND ON COVER, ESPECIALLY IN SUCH CHOICE CONDITION. According to a series of articles by the late Calvet M. Hahn in the *Collector’s Club Philatelist*, the Red Orange shade was printed some time during the fourth and last printing, which took place in December 1850. A Power Search review produced one other example on cover (ex Amonette), but the P.F. later issued a certificate stating that the stamp is not the Red Orange. With 2010 P.F. certificate. EXTREMELY FINE. A REMARKABLE EXAMPLE OF THE 1851 IMPERFORATE ONE-CENT TYPE IА, ONE OF THE RARITIES FURNISHED BY PLATE FOUR.

Stamps printed from Plate 4 were issued in April, May and briefly in June 1857 before perforations were introduced. The relatively small number of imperforate Plate 4 stamps issued during this period explains the rarity and desirability of any of the imperforate stamp types produced from this plate (Ia, Ic, II, III and IIIa). The extremely rare Type Ia, showing the full design at bottom, was furnished only by 18 of the 200 subjects on Plate 4 (the remaining two bottom-row positions were sub-type Ic).

VERY FINE AND CHOICE. A RARE SOUND EXAMPLE OF THE 3-CENT CHICAGO PERF AND ONE OF ONLY FOUR KNOWN EXAMPLES TO ORIGINATE FROM OUTSIDE OF CHICAGO.

The origin of the Chicago perforation was revealed in an article published by Jerome S. Wagshal in the *Chronicle* 130 (May 1986). To briefly summarize Mr. Wagshal's revelations, the inventor of the machine used to create the Chicago Perf stamps was Dr. Elijah W. Hadley, a Chicago dentist. He probably constructed the machine in 1854. Over a two-year period, beginning in November 1854, Dr. Hadley's device was offered for sale to the Post Office Department thru R. K. Swift, a prominent Chicago banker and businessman. The distinctive 12¼ gauge Chicago Perf was applied to sheets of the 1c and 3c 1851 Issue.

Four examples are recorded of the 3c Chicago perf used from outside of Chicago. Two are on cover, from Rosedale Wis. and New York City, respectively, and were offered in Part 5 of our Jerome S. Wagshal sale in 2010 (sale 996, lots 3185-3186). This stamp also comes from the Wagshal collection. The fourth example, from Boston, was only recently found and resides in an important West Coast collection.

Eaves imprint, backflap tear and stamp with corner nicked from separation.

VERY FINE. A BEAUTIFUL CORNER CARD WITH THE 3-CENT CHICAGO PERF.

Wilson Hulme speculates in his article in *Chronicle* 175 that R.K. Swift distributed Chicago perf stamps to various businesses as a trial or to strengthen the possibility of selling the perforating machine to the post office. Many of the businesses were in a straight path between Swift’s bank and Elijah Hadley’s (inventor of the machine) office (p. 167).

VERY FINE AND CHOICE. AN EXTREMELY RARE MINT NEVER-HINGED COMBINATION BLOCK OF FOUR OF TYPES I AND II. MINT NEVER-HINGED EXAMPLES OF THIS ISSUE ARE VERY DIFFICULT TO OBTAIN IN THIS CHOICE CENTERED CONDITION.

As an indication of rarity, we have offered only three Mint N.H. examples of the Type I (all singles) and four Mint N.H. examples of the Type II (all singles) since keeping computerized records. VERY FINE APPEARANCE. A RARE COMBINATION BLOCK OF FOUR FROM PLATE FOUR, CONTAINING THREE EXAMPLES OF TYPE III AND ONE EXAMPLE OF TYPE IIIa. THIS IS ONE OF THE RAREST COMBINATION BLOCKS OF THE 1857 ONE-CENT ISSUE.

A Power Search review and our records revealed that blocks of any size containing more than two examples of the rare Type III are very difficult to find. The block of six, ex Moody, containing five examples of Type III (offered in our 1975 Rarities sale), has since broken into singles. Most perforated multiples contain two each of Types III and IIIa, or three copies of Type IIIa. Although one would expect more Type III perforated stamps from positions that wore as the plate was used, the reality is they are very rare, which suggests that the sheets were stacked with the earlier impressions at the bottom. The top of the pile was released without perforations, and the bottom sheets in the pile (earlier impressions) were subsequently perforated and issued.

Positions 98-100R2, horizontal strip of three, center stamp Position 99R2, the finest example of Type III on any plate, Position 98R at left is Type II (20), Position 100R at right has break in bottom line which qualifies it as Type IIIa (22), rich color, neat strike of New York circular datestamp, stamps at left and right have slight creases (ending in tiny tear in left stamp), center stamp (Position 99R2) tiny pinhole at the back of Franklin’s head.

VERY FINE APPEARING EXAMPLE OF POSITION 99R2 IN A STRIP WITH TYPES II AND IIIA. THIS IS ONE OF TWO USED MULTIPLES CONTAINING THE PERFORATED ONE-CENT 1857 ISSUE FROM POSITION 99R2. THIS POSITION FURNISHED THE WIDEST BREAKS OF ANY TYPE III ENTRY, AND THIS STRIP CONTAINS ONE OF THE FINEST EXAMPLES OF THE PERFORATED 99R2 IN USED CONDITION.

On Plate 2, 198 of the 200 positions were Type II. Position 100R was Type II in the early stage of the plate, but as wear began to weaken the bottom line, it became Type IIIa with a small break at bottom. Positions 89R and 99R on Plate 2 have been the focus of special attention, because of their unusual nature. Ashbrook states: “A study of the double transfers of 89R2 and 99R2 is most interesting, because here in a vertical pair of positions we have two distinct varieties... The 99R2 stamp is a fresh entry that was short transferred both at top and bottom over an original entry that had been erased... The stamp, 89R2, is a re-entry, but not in the proper sense of this term, because the re-entry on the lower part of this position was an error, as it was not made to correct an existent fault of the original 89R transfer.”

Plate 2 stamps were issued imperforate from December 1855 through June 1857. Beginning in July 1857 stamps from Plates 1 Late, 2 and 4 were issued with perforations, and Plates 2 and 4 continued to produce stamps through late 1857. Plate 2 stamps are rarer perforated than in imperforate form; conversely, Plate 4 stamps are rarer imperforate than in perforated form.

Our unpublished census of perforated Position 99R2 stamps contains one unused in a block of nine, three on covers, two in strips of three and 18 used singles. Most have faults or are poorly centered.

Very fine and choice. This is the first mint never-hinged example of the 5-cent 1861 orange brown shade we have offered since keeping computerized records. A rarity of the highest order.

This was the last 5c to be issued before demonetization and was only used for a very short period of time (earliest documented use is May 8, 1861). Unused remainders were discovered in the South after the war, and so unused copies are readily available. However, examples of this printing are rare in mint N.H. condition. The Cumberland press-printed postmarks are discussed by Sterling T. Dow in Maine Postal History and Postmarks and by James W. Milgram in an article in the Chronicle (May 2005, pp. 90-95). There are five types. This type (Dow Ty. 5), and perhaps all of the others, were printed by Horace I. Gray. Examples of this type are known on 1c, 2c and 3c 1861-63 Issue covers where the stamp is not tied and is separately cancelled (or perhaps precancelled) by manuscript. See the following lot for an example of a manuscript cancellation. Milgram stated that the Ty. 5 datestamp was printed prior to the stamps being applied and Dow believed that only the first four Cumberland types were always precancels. However, this cover is conclusive evidence that at least some of the run for the Ty. 5 cancel was printed after the stamps were applied, which would qualify this datestamp as a precancel, similar to the earlier Cumberland straightline precancels (Types 1-2) first popularized by Ashbrook in his 1c 1851 study. Three examples of the earlier straightline precancels on 1c 1857 Issue covers have realized between $22,000 and $28,000 in Siegel sales over the last seven years.

EXTREMELY FINE GEM. THIS IS EASILY ONE OF THE FINEST USED EXAMPLES OF THE 1866 15-CENT LINCOLN IN EXISTENCE. THIS STAMP HAS BEEN GRADED SUPERB 98 BY P.S.E. — THIS IS THE HIGHEST GRADE AWARDED TO DATE.

The 1866 15c Lincoln is one of the most difficult denominations to obtain in such choice used condition. The most common barrier to a high grade is the size of the side margins, which are often narrow. The stamp offered here is the exception. It has wide and balanced margins on all four sides, a strong impression, and a neat cancel which leaves the entire design clearly visible.

With 2010 P.F. and 2011 P.S.E. certificates (Superb 98; SMQ does not price this as a 98, SMQ $2,300.00 as 95). This is the highest grade awarded to date and one of only two to achieve this grade. ................................................................. 200.00

EXTREMELY FINE. THE 1868 15-CENT E GRILL IS ONE OF THE RAREST OF THE GRILLED ISSUES WITH ORIGINAL GUM AND WITH SUCH WIDE MARGINS.

As an indication of the rarity of 15c E Grill stamps with original gum, the Scott Catalogue values original-gum condition at more than twice the value of unused without gum. This stamp, with its unusually wide margins, full original gum, and overall freshness, is truly a remarkable rarity.

**EXTREMELY FINE. A BEAUTIFUL AND RARE SOUND AND CENTERED MINT NEVER-HINGED EXAMPLE OF THE 1867 5-CENT F GRILL. THIS IS WITHOUT QUESTION ONE OF THE FINEST IN EXISTENCE.**

The 5c F Grill is rare but does exist in Mint N.H. condition. These have primarily been harvested from blocks broken in the last decade. We have offered five others since keeping computerized records. However, none has been truly well-centered. The margins are generally narrow, and the perforations often touch the design. The stamp offered here has every characteristic one could hope for — Mint N.H. gum, a clear grill, wide and balanced margins which are well clear of the perforations and long and full perforations all around.

**EXTREMELY FINE GEM. A SUPERB ORIGINAL-GUM EXAMPLE OF THE 1867 24-CENT F GRILL, WHICH HAS BEEN GRADED XF-SUPERB 95 BY P.S.E. ARGUABLY THE FINEST SINGLE ORIGINAL-GUM EXAMPLE OF THIS STAMP EXTANT.**

The higher-denomination F Grills were produced in limited quantities and seem to have caused National Bank Note Co. difficulty in applying perforations. They are typically off-center with very choppy perfs This stamp has uncharacteristically precise centering and well-formed perforations. The attached sheet selvage also shows an impression of the grill, which appears only in the side selvage on Z and F Grills. Conversely, the extra grill impression appears in the top and bottom selvage of D and E Grills, which indicates a difference in how the D/E and F/Z Grills were applied.

VERY FINE. THE UNIQUE COMPOSITE ESSAY OF THE 5-CENT BUREAU ISSUE, COMBINING THE FRAME OF THE 5-CENT AND AN UNADOPTED DESIGN OF GEORGE WASHINGTON FOR THE VIGNETTE. A WONDERFUL RARITY.

The 5c stamps of both the earlier 1890 Issue and also the later Bureau Issue depict Ulysses S. Grant. The portrait used here of George Washington, which is a three-quarter portrait facing left, is similar to those used for earlier 1851 12c, 1855 10c and others of the 1861-66 Issue, but is more elaborate. It is also more elaborate than that used for the later 2c 1902 Issue, Scott 301.

VERY FINE. THIS REMARKABLE ESSAY FOR THE 50-CENT DENOMINATION, WITHOUT TRIANGLES AT THE TOP IS LIKELY UNIQUE. ONE OF THE GREAT RARITIES OF THE ISSUE.

The design from the 30c 1890 Issue was extensively reworked for the new 50c stamp, with the portrait of Jefferson almost completely re-engraved. Also part of the circular lines around the denominations at bottom extend into the ovals, as in the 1898 10c Type II.

It is believed that most examples of this error originate from a part sheet purchased by a collector at the Richmond Va. post office. The surviving multiples of this First Bureau Issue perforation error are usually hinged (all have typical gum creases) and some have no gum. This is arguably the finest pair extant, by virtue of both centering and its Mint N.H. gum.

EXTREMELY FINE. ONE OF THE FINEST ORIGINAL-GUM EXAMPLES OF THE 2-CENT PAN-AMERICAN INVERT.

The 2c is the rarest of the three Pan-American Inverts. It is surmised that approximately 200 were issued through the post office, with two distinct shades known. Our Levi records contain the intact block (4), reconstructed block (4), 64 unused singles and 6 used singles, for a total of 72 unused and 6 used. Many of the unused singles have disturbed gum or no gum, and/or are off center to top or top left. This Extremely Fine sound stamp with original gum is among the finest known examples.

VERY FINE AND CHOICE. A BEAUTIFUL AND RARE SOUND GUIDE LINE STRIP OF FOUR OF THE 10-CENT HORIZONTAL COIL, SCOTT 356.

According to Johl (Volume 1, page 181), only 10,000 of the 10c Washington coil stamp were issued. They were made especially for a New York firm to send out advertising samples, similar to the 3c Orangeburg coil. Only a few rolls were sold to the firm, and the remaining rolls were distributed to some of the large post offices across the country. Dealers acquired several rolls, but because most contemporary collectors did not collect coils, many were used and destroyed. Most guide line strips have been broken into pairs and singles.

FINE EXAMPLE OF THE RARE 3-CENT ORANGEBURG COIL. A DIFFICULT ISSUE TO FIND IN SOUND CONDITION.

The Orangeburg coil was made by the Post Office Department in 1911, specifically for use by the Bell Pharmaceutical Company. The 3c coil stamps were used to send samples of their products to physicians. Due to the quantity of mail, they were put through the first-class cancelling machine at Orangeburg, New York. The Orangeburg coil stamps' use on third-class mail, and the fact that philatelists were generally unaware of their production accounts for their rarity. The 2c Type I rotary plate was used very briefly to make vertical coils issued in late 1915. It was briefly used because the Type I plate was not very deeply engraved and the curvature of the rotary press yielded impressions lacking in some of the details. The Bureau noticed this immediately, and quickly replaced it with the Type III plate (according to Scott, the EDU for No. 449 is Oct. 29, 1915 and the EDU for Type III is Dec. 21, 1915).

2c Deep Rose, Ty. Ia, Imperforate (482A). Brilliant color on bright white paper, wide margins on all sides which is difficult to obtain on this issue, Schermack perforations clearly evident at right, wavy-line machine cancel leaves design clearly visible, tiny natural inclusion on neck.

VERY FINE. ONE OF ONLY 41 RECORDED EXAMPLES OF THIS MAJOR 20TH CENTURY RARITY. ESPECIALLY RARE AND DESIRABLE WITH SUCH CHOICE CENTERING.

Scott 482A, like its more famous predecessor, Scott 314A, was issued imperforate by the Bureau of Engraving and Printing and sold to the Schermack Company for use in its patented stamp-affixing machines. The Schermack “Sealer and Stamper” machine typically applied stamps one at a time, and, in most cases, the hyphen-hole perfs on one side would be cut off. Unlike Scott 314A, the release of imperforate sheets printed from the experimental Type Ia plates escaped the notice of contemporary collectors, and, therefore, this stamp has a very small survival rate.

Our updated census of Scott 482A published in the Zoellner catalogue and available at our website at: http://www.siegelauctions.com/dynamic/census/482A/482A.pdf records three covers, one unused single, a used pair and 35 used singles for a total of 41 stamps. Most examples are either cut well into the design or have the Schermack perfs trimmed away on one side.

Schermack Type III stamps are often cut into the design by the oblong perforations or miscut with one side of the perforated margin missing. This problem for collectors, which meant very little to contemporary users of the stamps, resulted from two consecutive events. First, the sheets were perforated with the Schermack holes, creating an opportunity for misalignment between the stamps. Second, when the strip of stamps was fed through the Schermack affixing machine, the cutting blade did not always align with the space between stamps.

EXTREMELY FINE. A REMARKABLY FRESH AND BEAUTIFULLY CENTERED EXAMPLE OF THE FAMOUS 1918 24-CENT INVERTED “JENNY”. THIS STAMP IS ONE OF THE BEST-CENTERED POSITIONS FROM THE DISCOVERY SHEET.

According to _Jenny_ by George Amick (Amos Press, 1986), the original sheet of 100 Inverted “Jenny” stamps was purchased for $24 by William T. Robey at the New York Avenue Branch Post Office window in Washington D.C., on May 14, 1918, one day after the stamp was first placed on sale at the main post office. On May 20, Robey sold his sheet for $15,000 to Eugene Klein, a Philadelphia stamp dealer. Klein had already arranged to sell the sheet to Col. Edward H. R. Green for $20,000. Colonel Green instructed Klein to divide the Inverted “Jenny” sheet into singles and blocks, and to sell all but a few key position blocks.

It is well-known among stamp specialists and professionals that examples of the Inverted “Jenny” come in different grades of freshness and condition. Many of the original 100 stamps were mistreated by collectors during the years, despite the stamps’ rarity and value. Colonel Green himself allowed moisture to affect some of the stamps he retained. Other examples have become slightly toned from improper storage and climatic conditions. Hinge removal has caused thins and creases in numerous stamps, and at least seven have been “lost” to philately — or nearly so, as in the case of the copy swept up in a vacuum cleaner. This example is remarkable for its pristine state of preservation and for its centering, equalled by only a few stamps in the original sheet (almost all of the others have disturbed gum or faults).

Brown & McGill’s U.S.P.O. Despatch, Louisville Ky., (2c) Black (5LB3). Large margins with three full framelines and almost complete frameline at right, uncancelled, used with 3c Dull Red, Ty. II (26) tied by blue “Louisville Ky. Apr. 13” circular datestamp on buff cover addressed in blue to Mr. W. Gail, Baltimore Md., the cover has two vertical folds, one thru 3c stamp, the other creating a faintly toned area where the surface of the Brown & McGill’s stamp was in contact with envelope, effectively tying it to the cover.

VERY FINE APPEARANCE. ONE OF TWO RECORDED EXAMPLES OF THE BROWN & MCGILL BLACK CARRIER STAMP USED WITH REGULAR STAMPS ON COVER (BOTH UNCANCELLED).

Our census contains 13 examples of 5LB3, including 10 uncancelled stamps, some (or all) of which were removed from pieces of covers, all dated in 1858. Two of the uncancelled stamps remain on their original covers with a 3c 1857 tied by the Louisville datestamp: the Apr. 13 cover offered here and a cover postmarked Aug. 14, 1858, each with P.F. certificate. This cover comes from the well-known Gail correspondence, from which a number of the genuine Brown & McGill carrier covers originate. A third cover with 5LB3 is missing the 3c 1857 stamp (it recently reappeared in a Rumsey sale after 70 years in hiding).

Jones’ City Express, Brooklyn N.Y., 2c Black on Pink Glazed (91L1). Full side margins, slightly in at top and bottom, uncanceled as usual, used on Feb. 17, 1845 folded letter from Brooklyn to New York City street address (pencil “44 Wall”), red “Boyd’s City Express Post, Feb. 18 12 O’C” oval datestamp, file folds clear of stamp.

VERY FINE. ONE OF THE FINEST OF THE NINE RECORDED FULL COVERS WITH THE RARE STAMP ISSUED BY JONES’ CITY EXPRESS OF BROOKLYN, NEW YORK.

It has been written that Jones’ City Express existed from late 1844 through early 1845 (Patton book), but dated covers are known only as early as Jan. 29, 1845, and as late as Nov. 4, 1845. It is supposed that the proprietor was George G. Jones, based on the 1844 Brooklyn directory, listing him as an engraver with residence at Clinton Avenue and Jamaica Road. George G. Jones is listed in later directories as manager of the Metropolitan Errand and Carrier Express Company in New York City (source: Abt notes). Conjunctive usages indicate that Jones linked with Boyd’s in Manhattan for local city delivery and with American Letter Mail Co. and Hale & Co. for inter-city service (prior to July 1, 1845).

Our updated records contain nine covers and two fronts (or pieces) with the 91L1 stamp: 1) uncanceled, used on Feb. 17, 1845 folded letter to John Jay, New York City, red Boyd’s oval, ex Caspary, Boker, Lilly, Golden, Gordon N. John, the cover offered here; 2) uncanceled, used on cover to Junius L. Taylor, local addressee, “Paid” straightline, ex Caspary; 3) cut to shape, used with American Letter Mail Co. 5L2 cut to shape (tied), on folded cover to Counsellor Gielou (spelling?), Philadelphia, red Am. Letter Mail oval (NYC) and circle (Phila.) handstamps, ex Patton (Robson Lowe sale, Mar. 1, 1973, lot 1604); 4) uncanceled, manuscript “Paid” on cover to J.D. & C.S. Pratt, East Chatham, N.Y., ex Boker; 5) uncanceled on Aug. 10, 1845 folded letter to Wm. Danforth, Hartford Conn., red Brooklyn datestamp and “5” rate, Siegel 1995 Rarities sale; 6) described as “Uncanceled on cover pmk. Boyd’s Brooklyn City Express. Creased from letter fold and rubbed on face. Rare.”, Siegel Sale 164, lot 759, no photo; 7) uncanceled on turned folded cover to Jno. W. Mitchell, New York City, red Brooklyn datestamp and “5” rate, ex Golden; 8) part of stamp (torn) on front only to Isaac Wendell, Philadelphia, with red American Letter Mail Co. (Phila.) circle and framed Collect handstamp, ex Golden (Siegel Sale 817, lot 1283, unsold); 9) tied by Hale & Co. oval with Collect box on large piece, Siegel Sale 358, lot 1004; 10) uncanceled on embossed Valentine cover to Miss Jane Case, Siegel Sale 841, lot 1629; and 11) uncanceled on 1845 folded letter to Constant Guilleau, Phila., red Brooklyn Nov. 4 datestamp, “Paid” and “5”, Gronowski collection.

In terms of condition and the added feature of conjunctive usage with Boyd’s, in our opinion the cover offered here is one of the three finest. Approximately six or seven off-cover 91L1 stamps are known.

THE PONY EXPRESS

The Pony Express was launched in 1860 by the overland freight express firm operated by William H. Russell, Alexander Majors and William B. Waddell. In an attempt to secure the lucrative government mail contract, the Central Overland California & Pikes Peak Express Company announced that it would carry letters between California and the railroad terminus at St. Joseph, Missouri, in less than ten days. The earliest advertisements appeared in January 1860, and the first pony rider left the Alta Telegraph office in San Francisco at 4:00 p.m. on April 3, 1860. The expressman and his bag of mail did not actually ride off toward St. Joseph. He first boarded the steamer *New World* and traveled up the Sacramento River to Sacramento. From there another horse and rider galloped off on the first leg of the journey. Several riders and horses were used along the arduous journey, and the mail reached St. Joseph ten days later, on April 13. The operation continued until October 1861.

A BEAUTIFUL AND EXCEPTIONALLY RARE COMPLETE USED SET OF THE JULY 1861 PONY EXPRESS STAMPS, INCLUDING ONE OF FEWER THAN SIX KNOWN OFF-COVER USED EXAMPLES OF THE $4.00 BLACK ISSUE.

Commencing July 1, 1861, the Pony Express was authorized by Congress to carry mail at the rate of $1.00 per half ounce. An additional fee was charged by Wells, Fargo & Co. to carry mail from San Francisco to the western terminus at Placerville. The contract also stipulated the mandatory U.S. postage charge of 10c per half ounce. Although the Scott Catalogue lists the July 1861 issue Pony Express stamps (143L3-143L6) with other private post issues, we wish to emphasize that these stamps were issued under the terms of a government mail contract; therefore, they have semi-official status.

EXTREMELY FINE. A BEAUTIFUL SET OF BLOCKS OF THE VIRGINIA CITY PONY EXPRESS ISSUES.

The gold and silver strikes in western Utah Territory between 1859 and 1863 brought a huge influx of miners and settlers into the Carson and Washoe Valley region. At the beginning of the Civil War, the Federal government moved quickly to ensure that the population of eastern California and western Utah Territory — along with its mineral wealth — remained loyal to the Union. Congress created Nevada Territory on March 2, 1861, carving out a portion of Utah Territory that included Carson City (the new capital of Nevada Territory), Genoa, Virginia City, Gold Hill, and Aurora. Wells Fargo & Co. and other express companies had long served this region. The transcontinental Pony Express of 1860-61 passed through Carson City and Virginia City. Therefore, when there was demand for a fast express service between San Francisco and Washoe, it was relatively easy for Wells Fargo & Co. to organize a horse-and-rider relay along their existing routes. The “Pony Express to Washoe Through in 24 Hours” was announced by Wells Fargo & Co. to start running on Monday, August 11, 1862. The schedule provided for a 4 p.m. departure from San Francisco and arrival in Virginia City by “the next evening.” Letters sent westbound from Virginia City would leave at 6 p.m. and arrive in San Francisco the “next evening, by Sacramento Boat.” From August 1862 through January 1863, the rate for the Virginia City Pony Express was 10c per half-ounce, which was paid by the Brown stamp. Sometime shortly after January 1863, the rate was increased to 25c, and a new stamp was issued in Blue. The 25c rate continued through to the end of the express service, but the stamp color was changed to Red around March 1864................................................................. **VERY FINE. A RARE INSTANCE WHERE THE DESIGNS OF TWO DIFFERENT STAMPS ARE VISIBLE ON THE FACE OF THE SHEET.**

There are very few cases in which two different stamps were unintentionally printed on the same sheet. Another example, offered in lot 159 of this sale, has the $3.00 Charter Party on the face and Sands’ Elixir of Opium medicine stamp (RS208) on the back. The item offered here is especially unusual in that both impressions are visible on the same side of the sheet. It occurred not from a printing error, but when the plate was made. The transfer roll, which contained more than one design, was rocked into the area that was normally blank. A portion of the adjoining 2c U.S.I.R. transfer was inadvertently entered on the plate. Impressions from this “unintended transfer” are only seen on stamps with the bottom selvage intact, which are rare.

159° $3.00 Charter Party, Perforated, Impression of No. RS208 on Back (R85cg). Face of stamp has rich color and August 19, 1865 manuscript cancel, back of stamp shows two part impressions of A. B. & D. Sands’ Dr. McMunn’s Elixir of Opium patent medicine stamp (RS208), diagonal crease at bottom right, small surface scuff at top right.

VERY FINE APPEARANCE. THIS IS THE UNIQUE STAMP PRINTED ON BOTH SIDES WITH THE $3.00 CHARTER PARTY FIRST ISSUE REVENUE ON ONE SIDE AND THE DR. McMINN’S ELIXIR OF OPIUM PRIVATE DIE PROPRIETARY ISSUE ON THE OTHER. ONE OF THE GREATEST AND MOST REMARKABLE OF ALL PHILATELIC RARITIES.

This $3.00 Charter Party stamp comes from a sheet that apparently had an unsatisfactory impression of the Sands’ private die proprietary stamp (RS208) on one side. It was put on the press a second time in order to produce the $3.00 Charter Party. The fact that both impressions are in the identical green color offers some intriguing possibilities for how the printers worked with plates and inks. Were press runs grouped by color, in order to use up a batch of ink? Were two or more presses operating simultaneously with the different plates? This unique artifact of Butler & Carpenter’s revenue stamp production is physical evidence that the printers were pressed for time and resources during the rush to produce huge quantities of Civil War tax stamps in 1862.

According to the Boston Revenue book, the $3.00 Charter Party first went to press on Dec. 1, 1862, and the first delivery was made on Dec. 9. The Sand’s private die was approved on Dec. 26, 1862, and the first issue was in Jan. 1863. During the month of Dec. 1862, many of the different green stamps printed by Butler & Carpenter were on the press. This $3.00 Charter Party stamp was evidently made from a sheet of paper with a poor impression of the Sands plate. The relative orientation of the impressions reflects the different plate layouts and dimensions for the two stamps: the Sands plate of 69 subjects and the $3.00 Charter Party plate of 72 subjects.

Dr. McMunn’s Elixir of Opium was first formulated in the mid 1830’s by Dr. John B. McMunn. The product became a big hit in the United States once the A. B. & D. Sands drug company bought the recipe in 1841. Soon after, advertisements for the product flooded newspapers and medical journals, many guaranteeing that McMunn’s was not habit-forming. Yet, bottles of the narcotic-laced formula were labeled as the “Pure and Essential Extract of the Native Drug”, and the preparation was said to be “Greatly Superior to Morphine.” Touted as a cure for a host of ailments, including the relief of “convulsions and spasmodic action,” as well as “pain and irritation, nervous excitement and morbid irritability of body and mind,” McMunn’s potent remedy was among the countless pharmaceutical preparations containing opiates and widely available to the 19th-century consumer.” (source: http://odysseysvirtualmuseum.com/products/Dr.-McMunn%27s-Elixir-Of-Opium-Bottle.html)

164  

EXTREMELY FINE EXAMPLE OF THE 8-CENT “I.R.” EMERGENCY PROVISIONAL OVERPRINT. THIS IS PROBABLY ONE OF THE FINEST IN EXISTENCE.

To meet the increased demands for federal revenue during the Spanish-American War, on June 13, 1898, Congress approved the War Revenue Law of 1898. The law was to become effective on July 1, 1898, leaving only seventeen days before the new stamps were needed. The Bureau of engraving and Printing had already started work on the dies, rolls and plates in anticipation of its passage, but they were still unable to issue stamps when the law went into effect.

A large quantity of 1c and 2c stamps were printed with an “I.R.” overprint (Scott R153, R154, R155 and R155A). Additionally, small quantities were produced in the 8c, 10c and 15c denominations. These issues mark the first time that the United States had to resort to surcharging.

According to Sloane’s Column (Jul. 31, 1948), the Michigan Mutual Life Insurance Co. handstamped copies of the 8c, 10c and 15c regular issues over a period of five days in July 1898. Sloane states these provisional revenues were brought to the philatelic market by J.E. Scott, a collector and employee of the company. J.E. Scott reported that the company used 41 copies of the 8c, 66 of the 10c and 28 of the 15c. The Scott Retail values support this relative mix of supply.

FINE. A RARE INTACT BOOKLET PANNE OF THE 25-POUND 1935 POTATO TAX STAMP. A GREAT RARITY.

According to Scott Catalogue, these stamps were required by the Potato Act of 1935, by which potato growers were given allotments and provided with Tax Exempt Potato stamps. The law restricted the export of potatoes and mandated that they be used instead to provide direct relief to those in need. Because of the federal government’s direct involvement in the economic affairs of American potato growers, this law was widely regarded as one of the most radical and controversial pieces of legislation enacted during the New Deal. The United States Supreme Court declared it unconstitutional on January 6, 1936, and the Tax Paid stamps were never used. It is reported that there are two intact booklets and approximately four loose panes. .................... 7,000.00

A similar article is manufactured in the United States from the crude opium, and in endeavoring to ascertain whether, in any given case, the article has been smuggled, it has been found difficult to determine whether it is of domestic or foreign manufacture.” The document continues with a recommendation for both external and internal taxes upon opium and that “opium prepared for smoking, imported into the United States or manufactured in the United States, found without proper stamps, be made liable to seizure and forfeiture.” The recommendation was that tax for internal production be equal to that imported, which was $6.00 per pound. .......................................................... Dec. 25” circular datestamp, small piece missing from backflap, slight creasing at top.

VERY FINE. AN OUTSTANDING EXAMPLE OF GENERAL ROBERT E. LEE’S SIGNATURE IN COMBINATION WITH A CONFEDERATE GENERAL ISSUE STAMP. MAILED DURING THE SIEGE OF PETERSBURG (JUNE 1864 TO MARCH 1865). A MARVELOUS COMBINATION OF HISTORY AND PHILATELY.

General Robert E. Lee’s letters sent from the field were enclosed in envelopes signed “R. E. Lee Genl”. The letters and other important papers were carried by military courier. Some of these letters were mailed at the post office with postage prepaid; locally-addressed mail was usually delivered by hand, although a few examples were given to the post office.

The Petersburg postmark on this cover is dated December 25. The letter that originally accompanied this cover is datelined “Hd Qrs Near Petersburg 23 Dec ’64” and briefly declines an invitation to attend a concert at the college. This is No. 14 in the list of 15 privately-held covers with Robert E. Lee’s signature and Confederate postal markings, compiled by Capt. James L. D. Monroe (http://www.jlkstamps.com/csa/archives/lee.htm).
Robert E. Lee. Bold signature “R.E. Lee” on double-sided 8 x 10 in. autograph letter dated-line “Lexington Va. 8 June 1866”, to C.S.A. Col. Osmun Latrobe, who was living in London, wonderful content related to Lee’s efforts to locate documents to reconstruct events of the war and the “Campaign of 1864” including in part: “My dear Col., I regret to learn by your letter of May that the maps of the official papers of Longstreet’s Corps were destroyed in the conflagration of Richmond. . . I will not deprive you of your diary which you kindly offer me. . . All my records, reports, returns, orders & were destroyed near Appomattox C.H. . . there is no possibility of ever replacing them.”, Lee goes on to express sorrow that Latrobe has been “called on” to reside in Europe and closes with the heartfelt sentiment “You will have my kindest regards wherein you go and my best wishes for your success and happiness. I recall with great pleasure our former association and my constant satisfaction at your cheerful and efficient aid.”, letter with a couple small holes along the folded edge (which is gummed) and couple edge nicks — none of which affect the signature or writing which is very fresh

VERY FINE. A SPECTACULAR AND RARE AUTOGRAPHED LETTER FROM THE ARMY OF NORTHERN VIRGINIA COMMANDER ROBERT E. LEE, WITH FASCINATING REFERENCES TO THE WAR.

At the time this letter was written, Lee was serving as president of Washington College, which was later renamed Washington and Lee University. Shortly after the war ended he began to attempt to gather sources that would allow him to write his memoirs. After 1866 he largely put the project aside and never did advance it very far before he died in 1870. This letter, written to the former chief of staff of Lee’s most senior subordinate in the Army of Northern Virginia, 1st Corps Commander Lt. Gen. James Longstreet, is an example of Lee’s efforts to obtain records that would assist in this effort.

According to a website dedicated to Gen. Longstreet, “Osmun Latrobe began the war as an officer on the staff of D.R. Jones where he provided valuable service. In the Army of Northern Virginia’s reorganization after the battle of Sharpsburg (Antietam), Longstreet requested Latrobe to join his expanded staff and assigned him with the duty of assistant-adju- tant and inspector general. Due to Longstreet’s faith in his abilities, Latrobe’s duties continued to expand as the war progressed. Wounded in the hand at the Battle of the Wilderness, Latrobe would recover and accompany Longstreet’s ambulance as it took the General off the field. La Trobe then continued to serve as part of the inner core of Longstreet’s staff during the final months of the war, succeeding Moxley Sorrel as chief of staff.” (http://www.longstreetchronicles.org/graphic60.htm)

Thomas J. “Stonewall” Jackson. Bold signature “T.J. Jackson” on 7.5 x 9.5 in. autograph letter datelined “Winchester Feb'y, 25th 1862” to Lt. Col. Lawson Botts in Charlestown Va., accompanied by brown cover addressed in Jackson’s hand and endorsed “introducing Lt. Boswell”, carried by military courier, thus without postal markings, the letter states “Colonel, This note will be handed to you by 1st Lt. Jas. K. Boswell of the Provisional Engineers. Please give him every assistance in your power favoring a thorough reconnaissance of Harpers Ferry.”, letter with minor nicks at one edge well away from the writing, one fold reinforced with archival tape, cover with some minor edge wear.

VERY FINE. A DESIRABLE AND RARE CIVIL WAR LETTER SIGNED BY THOMAS J. “STONEWALL” JACKSON, WITH THE ORIGINAL COVER WRITTEN IN JACKSON’S HAND.

In the Official Records of the Civil War, there is a letter from Jackson written from Winchester, to Gen. Joseph E. Johnston, dated the day before this letter with fascinating content related to military operations near Winchester and Manassas just prior to the start of Jackson’s famous Valley Campaign. It discusses fortifications and Lt. Boswell specifically, including “General, First Lieutenant James K. Boswell, of the Provisional Engineers, is directed to report to me for duty. I have plenty of work for him, but if you desire additional fortifications constructed for the defense of Winchester, please state what shall be their character, and I will put him at work immediately after his arrival. The subject of fortifying is of such importance as to induce me to consult you before moving in the matter... I have reason to believe that the enemy design advancing on this place in large force.”

Lt. Boswell was with Jackson on May 2, 1863, at the Battle of Chancellorsville, when both were accidentally shot by their own troops. Boswell died instantly, to be followed by Jackson eight days later.

According to the Virginia Military Institute archives, Lawson Botts was a Confederate officer who served with the 2nd Virginia Infantry Regiment. Prior to the Civil War he was a lawyer and served as one of the lawyers assigned to defend the abolitionist John Brown. In 1859 Botts became captain of a volunteer company known as the “Botts Grays.” When the Civil War began, this unit entered the service of Virginia as Company G, 2nd Virginia Infantry Regiment, one of the units that comprised the famous Stonewall Brigade, under Jackson. Botts was mortally wounded in action at 2nd Manassas on Aug. 28, 1862 and died two weeks later, seven months after receiving this letter from Jackson. (http://www.vmi.edu/archives.aspx?id=6507).

Jul. 6" circular datestamp, missing part of top flap and few edge flaws, stamp with few short perfs at right

A FINE AND RARE EXAMPLE OF THE "SOUTHERN LETTER UNPAID" HANDSTAMP.

Postmaster General Blair’s May 27 suspension order prohibited post offices from forwarding southbound mails to disloyal Southern states. However, northbound mail continued to be sent via Louisville. With the resignation of W. D. McNish as Nashville’s Federal postmaster on June 12, “Louisville held the mails still being sent north by the discontinued post office at Nashville. This held mail later became the well-known ‘Southern Letter Unpaid’ mail” (Walske). On June 24, Dr. J. J. Speed, the postmaster at Louisville, was advised to forward letters from the South to the loyal states after removing postage. With approximately 5,000 such letters accumulating at Louisville by this date, Postmaster Speed employed a more practical means of invalidating postage by creating the “Southern Letter Unpaid” handstamp.

Immediately after receiving instructions from Washington to forward the held mail, the Louisville post office began marking letters. Some of these have circular datestamps (June 27, 28 and 29 being the most common dates), while others have no Louisville datestamp.

The 2¢ Red stamps were printed without the marginal inscription “Usable exclusively in the New Orleans Post Office”. The 5¢ and subsequent 2¢ Blue printings all have the imprint. It is the accepted theory that the 2¢ Red stamps were printed first, before Riddell added the imprint, and were withheld from use until January 1862 when the supply of 2¢ Blue stamps was exhausted. The Crown book lists six 2¢ Red covers, while Dr. Hubert C. Skinner (The Congress Book, 1978) recorded eight covers. We record ten.

Williams who writes “The recent discovery of a Gold Mine in California, which promises extraordinary results, has induced a brisk demand for iron, clothing, shoes and we think provisions of all kinds will soon follow from the immense concentration of population in consequence of the discovery, and the neglect of crops... We think the Island will derive much advantage from this mania for Gold Digging, by taking from us a certain kind of population of no very reputable character as well as creating a demand for our surplus stock of mdze. The whaling fleet will congregate here from fear of desertion of their crews on the coast, and the impossibility of recruiting there while the excitement lasts.” etc., sent via China, this letter was charged 2 shillings for the Hawaii to Liverpool postage, and 2 shillings for the transatlantic transit, with 4 shillings collected in Boston, docketing on back indicates received on Dec. 15, 1848

VERY FINE. A RARE USE FROM HAWAII TO BOSTON, SENT VIA CHINA AND ENGLAND RATHER THAN VIA SAN FRANCISCO OR MEXICO. ESPECIALLY DESIRABLE WITH A CONTEMPORARY REFERENCE TO THE DISCOVERY OF GOLD IN CALIFORNIA.

According to Fred Gregory’s unpublished manuscript, letters from Hawaii were sometimes sent to the United States on ships traveling to Asia, and from there to England and across the Atlantic to the East Coast. This route via China and England was a shorter distance than the sailing route around Cape Horn. The British P & O Line started running service to China in September 1845, further decreasing transit times. The letter offered here was likely carried to China on the American schooner Indiana, which cleared Honolulu on July 25, 1848.

News of the gold discovered at John Sutter’s sawmill on February 24, 1848, spread slowly. It was Mormon Elder Sam Brannan, a shrewd San Francisco businessman, who set off the rush for gold on May 12, 1848, when he was heard shouting in public, “Gold! Gold! Gold from the American River!”, after having spent weeks quietly buying up large quantities of any merchandise miners would need.

1851, 2c Blue (1). Crocker Type II, deep shade, large margins to just touched, bold strike of large grid of squares cancel, expertly repaired at top left adding only a small portion of the design, small tear at right

A VERY FINE APPEARING EXAMPLE OF THE LEGENDARY HAWAIIAN 1851 2-CENT MISSIONARY, ONE OF PHILATELY'S RAREST STAMPS. ONLY FIFTEEN EXAMPLES OF THIS WORLD-RENOVED RARITY ARE RECORDED, OF WHICH TEN ARE AVAILABLE OUTSIDE MUSEUMS.

The first postage stamps of the Hawaiian Islands are known to collectors as the "Missionaries" because of their use on mail sent by early missionary settlers on the islands in the 19th century. The Missionaries were authorized by the Honolulu postmaster, Henry M. Whitney, a prominent merchant and printer. They were printed in 1851 at the offices of Honolulu's newspaper, The Polynesian, using printer's type currently on hand.

Stamps were printed from a "plate" consisting of two subjects. The left stamp was Type I and the right stamp was Type II. The two types can be distinguished by the position of the letters in the top label: in Type I the letter "P" of "Postage" is slightly indented; in Type II it is directly beneath the letter "H" of "Hawaiian".

The Missionaries consist of three denominations: 2c, 5c and two styles of 13c. The 2c is the rarest. It was used primarily on newspapers and other printed matter which was often destroyed. Its other function was to prepay the 2c ship fee on mail to the United States — the only recorded 2c cover demonstrates this ship fee usage.

Fifteen 2c Missionary stamps are recorded, including the unique unused stamp and the unique cover. They can be seen at http://www.siegelauctions.com/dynamic/census/HI1/HI1.pdf. Of the thirteen used copies, five are in museums, leaving eight used off-cover stamps available to collectors (including one on piece). None of the eight available used copies is entirely sound.

Only 35 used stamps are recorded off cover or on piece, and about two-thirds of these are repaired or in museum collections. Of those unrepaired copies that remain in private hands, only two sound examples are recorded: the stamp offered here and the example offered in our sale of the Twigg-Smith collection (Siegel Sale 931, lot 4007).

FRENCH MARITIME MARKINGS IN CUBA

In May 1862 the French “Compagnie Generale Transatlantique” opened a steamship line between St. Nazaire, France and Vera Cruz, Mexico with stops in Martinique and Santiago de Cuba. There were four original steamers employed in this service: Louisiane, Tampico, Veracruz and Floride. The mail agents on board used their own handstamps with the name of the ship and the port in which they were applied.

In 1865 the Imperatrice Eugenie was added, but a couple of months later the “Mexico Line” ceased to exist, ending the use of these markings. The octagonal marking “Mexique Imper. Eugenie” was erroneously applied in Cuba on a couple of occasions.

The is the first time that all five of the steamship markings used in Cuba have been offered at auction at one time.

Cuba Imper. Eugenie 20 Juin 65. Clear strike of octagonal datestamp on cover to Bordeaux, France, endorsed “Vie de St. Nazaire” at upper left, neat “8” decimes due handstamp, receiving backstamp of July 11, trivial edgewear

VERY FINE. THIS IS BY FAR THE FINER OF THE TWO RECORDED USES OF THE “CUBA IMPER. EUGENIE” STEAMSHIP HANDSTAMP.

The side-paddle steamship Imperatrice Eugenie was built for the Compagnie Generale Transatlantique, also known as the “French Line” in 1864. She made her maiden voyage from St. Nazaire to Vera Cruz on Feb. 16, 1865, and was intended for use on the “Mexico Line”, which carried mail between St. Nazaire in France and Vera Cruz in Mexico, with stops in Martinique and Santiago de Cuba. In June 1865 a reorganization took place in the French Line, due to the French military expedition to Mexico and the increase in volume of mail to Mexico. Markings thereafter bore the new “Ligne B” designation without the ship designation. It is possible this marking was applied on the last of the few voyages the Imperatrice Eugenie made before reorganization of the lines.

Only two examples of this marking are reported. The other has been cut out of the cover and then put back

207 (★) MAURITIUS, 1848, 2p Blue, “PENOE”, Intermediate Impression (6ad; SG 14a). Position 7, unused (no gum), ample margins to in, rich color and detailed impression which clearly shows the shading lines on the front of the bust and on forehead, some slight creasing, flaw at lower right corner where small repair.

FINE APPEARANCE. AN EXTREMELY RARE UNUSED EXAMPLE OF THE MAURITIUS 2-PENCE “POST PAID” FROM AN EARLY INTERMEDIATE IMPRESSION AND CLEARLY SHOWING THE “PENOE” SPELLING ERROR. ONE OF THE GREAT RARITIES OF MAURITIUS.

Mauritius was the first British colony to issue adhesive postage stamps, with the famous “Post Office” issue. The second “Post Paid” issue is almost as famous. The one and two-pence stamps were printed from sheets of twelve (three across by four down), and were engraved on the back of a copper plate previously used to print advertisements for a hotel in Port Louis. Each position was individually engraved, so each is unique. Position 7 (third row, first position) is the only position with the distinct “PENOE” spelling error.

Due to the softness of the copper plate the impressions quickly wore away. There are five widely recognized states of the plate: Earliest, Early, Intermediate, Worn and Latest. The Earliest and Early are the scarcest since the plate wore fairly quickly. The supplement to the 1993 Feldman catalogue of the Kanai Collection details each position on the plate and the characteristics necessary to identify the state of the impression. For Position 7, the lines at the base of the bust are clear in the Early state but have disappeared in the Intermediate state. A secondary characteristic is that the shading lines on the forehead extend at least halfway to the front edge. The stamp offered here shows both of these characteristics, but since the lines are faint we have correctly classified it as the Intermediate impression. There is a significant difference in catalogue value ($45,000 vs. $24,000) for Early vs. Intermediate impressions.

VICTORIA, 1850, 3p Light Blue, Type II (3a; SG 7). Two singles, large margins to just in, tied by oval handstamps on J. Valentine Ocean Penny Postage propaganda cover, State 3 of the design which was the first with four ships at right removed to give additional room for the address, to London, England, red “Ship Letter Melbourne OC 9 1852” and London backstamps, endorsed “By Ship Marco Polo” at center, neat manuscript “8” due marking, some slight overall wear not mentioned on accompanying certificate.

VERY FINE. A BEAUTIFUL AND RARE EXAMPLE OF J. VALENTINE’S OCEAN PENNY POST PROPAGANDA ENVELOPE USED FROM AUSTRALIA TO ENGLAND, WITH ONE OF THE VICTORIA STAMPS AFFIXED OVER THE ALLEGORICAL FIGURE OF PEACE AT LEFT ESPECIALLY DESIRABLE AS THIS WAS CARRIED ON THE CLIPPER SHIP MARCO POLO ON THE FIRST TRIP BACK TO LIVERPOOL.

According to http://www.new-brunswick.net/marcopolo/historic.html, the Marco Polo, built as a cargo ship, was launched near St. John in New Brunswick in April 1851. She was the longest ship built in New Brunswick, with three decks, and at her launch promptly got stuck in the sand and keeled over to one side. After two weeks she was freed and began her maiden voyage. In June of 1852 the Marco Polo was bought by James Baines of Liverpool for the Black Ball Line of Australian packets. She was refitted to carry passengers. She made her first trip to Australia in 76 days, landing at Port Phillips Head on September 18. An epidemic of measles among the children aboard caused 52 deaths during the voyage. After three weeks she returned to London in another 76 days, arriving on Boxing Day. This was the first recorded round trip in less than six months. This cover was carried on the return trip, and it is likely the blank propaganda envelope was carried by a passenger on the outbound voyage.

Accompanied by another example of the Ocean Penny Postage cover, State 5a, addressed to Hobart Town in Van Diemen’s Land with manuscript “pr Derwent 3/6/52” and carried privately. The two covers, one from and one to Australia, make an outstanding exhibition pair.

VICTORIA, 1858, 6p Blue (30; SG 73). Horizontal strip of three, horizontal pair and six singles, Perkins & Bacon London printing, used with three each of 3p Blue and 1sh Blue (SG 48, 81), 3p stamps J. S. Campbell printing, Pos. 5-6-1, straddling two transfer groups of 24, tied by “1” in grid cancels on cover front only to New York, sender’s route directive “Via Marseilles”, red “London MY 16, 1859” circular datestamp, red “96” (cents) and “4/-” (shilling) credit markings to the United States for 6 x 16c by American packet, “30” due marking applied in New York for 6 x 5c U.S. internal rate also ties a stamp, one stamp missing from lower left (most likely a 6p), file folds affect most stamps which also have other flaws.

A SPECTACULAR APPEARING COVER FRONT TO NEW YORK FRANKED WITH A HIGH VALUE AND COLORFUL ARRAY OF VICTORIA STAMPS. THIS IS THE HIGHEST FRANKING WE HAVE ENCOUNTERED ON A VICTORIA COVER.

The analysis of the rate paid by this cover is fascinating and somewhat complicated (our thanks to John Barwis and Dale Forster for their analysis). Assuming we are correct that the missing stamp is a 6p, the sender paid 9sh9p (a total of 117p) to prepay the British, French and American packet portion of the rate to the U.S. for British mail via Marseilles. The letter must have weighed between 2½ and 2¾ ounces — the single prepaid rate for less than ½ ounce was 2sh. For the single rate, the components upon leaving Victoria were 6p per half ounce to England, plus 3p per quarter ounce to the French for the railroad charge from Marseilles to Calais, plus 8p per half ounce transatlantic rate for the ship portion (of the 1sh prepaid rate between England and the U.S.) by American packet. For a cover weighing between 2½ and 2¾ ounces, this would be 6 x 6p Victoria to England, plus 11 x 3p French transit, plus 6 x 8p American packet, for a total of 117p, or 9sh9p. The 6 x 5c U.S. internal rate portion of the treaty rate from England was payable by the recipient.

The cover left Melbourne on the P & O steamer Emeu, departing on Mar. 17, 1859 — the Emeu put into Port Louis, Mauritius, with a broken screw on Apr. 13. Mails were transferred to the Granada which sailed from Port Louis on April 14, arriving in Aden on Apr. 27. From Aden the cover was carried on the P & O Bengal, sailing on Apr. 27 and arriving at Suez on May 4. The cover was then carried to Alexandria for the May 7 departure of the P & O Ellora, arriving at Marseilles on May 13. After a voyage by train to Paris and Calais, then making the trip to Dover and London, the cover finally sailed on the HAPAG Hammonia, departing Liverpool on May 18 and arriving in New York on May 30.

If this were a full cover it might well be regarded as the most spectacular Victoria cover in existence. Even as a front, it is very desirable and a most impressive franking .......... E. 3,000-4,000
FRANCE, Par Ballon Monte. Cover originating in Switzerland with 10c and 20c Helvetia stamps tied by "Basel 3.IX 70" datestamps and addressed to Paris then forwarded to Spa, Belgium, and again to London, England, forwarding postage paid by France 20c and 10c Napoleon tied by lozenge cancel. "Paris 7 Oct. 70" double-circle datestamp. French stamps also tied by "London 20 OC 70" circular datestamp, some wear incl. stamps with flaws, large tear in 20c stamp. Fine appearance. A phenomenal postal history rarity, sent from Switzerland to Paris just before the siege of Paris. It was then held in Paris during the siege and forwarded to Belgium by ballon monte, where it was forwarded yet again to England.

The blue French receiving marking indicates that this was received in Paris on Sep. 5. The recipient must have already left the city in anticipation of the siege. The Siege of Paris started about Sep. 18, so the only way to forward it was by ballon monte. It was carried aboard the Goddefroy Cavaignac which left Paris on October 14 and landed in occupied France on the same day. It arrived in Belgium on October 19 and was forwarded to London on the 20th where received on the same day.

The recipient, Elsie Bach, was one of the translators of Volume 2 of The French in America, which was based on her father’s papers. The first volume was published by her father in 1872 in Paris, and no doubt their work was interrupted by the war.

Shipping and Transit Insurance
We will be pleased to arrange for shipping and transit insurance for purchases in this sale (except those described as “floor sale only”). To expedite billing and delivery of lots to hundreds of buyers per sale, we use standard charges for postage and insurance, based on the package weight and mailing requirements (see schedule). The standard charges are sometimes slightly more or less than the actual postage or Fedex fees, but we do not include any charge for our labor or packing costs. Therefore, we ask all buyers to remit the prescribed amount for shipping charges.

Transit insurance is provided in all cases, except when the buyer has furnished us with proof that insurance coverage is effective under another policy. Proof, in such cases, will be accepted in the form of a written certificate from the insurance carrier.

You are responsible for insurance charges, which will be added to your invoice. This coverage is provided for our mutual protection against theft or loss in transit.

Bidding Increments
The auctioneer may regulate the bidding at his discretion. However, to assist absentee bidders in establishing their maximum bid for each lot, the increments shown at right will be used in most cases. We recommend that written bids conform to these increments (those which do not will be reduced to the next level).

REVISED CHARGES FOR SHIPPING EFFECTIVE SEPTEMBER 1, 2010
We have reduced the Fedex Envelope charge to $20, reflecting the elimination of the fuel surcharge. All other charges remain the same.
