The following means are available for placing bids:

1) **Attending the Live Auction in Person:** All bidders must register for a paddle, and new bidders must provide references at least three business days in advance of the sale.

2) **Live Internet Bidding:** Instructions for participating as a Live Internet Bidder are provided on the page opposite.

3) **Phone Bidding:** Bidders can be connected to the sale by phone and bid through a member of staff. Requests for phone bidding are subject to approval (please contact our office at least 24 hours before the sale). A signed Bid Form is required.

4) **Absentee Bids.** All bids received in advance of the sale, either by mail, fax, phone, e-mail or internet, are Absentee Bids, which instruct the auctioneer to bid up to a specific amount on one or more lots in the sale. Absentee Bids sent by phone, fax or e-mail should arrive at least one hour prior to the start of the sale session. Bids entered through Live Internet Bidding will be visible to the auctioneer during the sale. Written bids should be entered legibly on the Bid Form in the sale catalogue. E-mail and internet bids should be carefully typed and double-checked. All new bidders must provide references. We recommend calling or e-mailing to confirm that Absentee Bids sent by mail, fax or e-mail have been received and entered.

**Pre-Sale Viewing**

Subject to availability, certain lots (except group lots) can be sent to known clients for examination. Requests must be made no later than 7 days prior to the sale. Lots must be returned on the day received. Postage/insurance costs will be invoiced.

In addition to regular viewing, clients may view lots by appointment. Our staff will be pleased to answer questions or provide additional information about lots.

**Expert Certification**

Individual items offered without a PF or PSE certificate dated within the past five years may be purchased subject to independent certification of genuineness and our description. Please refer to the Conditions of Sale and Grading Terms for policies governing certification.

**Shipping and Delivery**

Procedures and charges for shipping lots are printed on the back of the Bid Form. **Bidders are responsible for all prescribed shipping charges and any applicable sales tax or customs duties.**

**Price Realized**

Prices realized are sent with each invoice. Bidders with e-mail will receive a Bid Results report after the sale. Session results are posted immediately to siegelauctions.com
Live Internet Bidding works by allowing registered bidders to observe and place bids.

Live Internet Bidding will work with any browser on both PC and Mac operating systems.

Before bidding by internet for the first time, we recommend finding a sale in progress and listening to the public broadcast or logging in as a registered bidder. This will help you develop a feel for the sale tempo and bidding interface.

Start by following the simple steps to become a registered Live Internet Bidder.
Once you’ve been approved for bidding, you can listen to the auction and place bids with the click of a mouse.

Registering with STAMP AUCTION NETWORK & SIEGEL AUCTION GALLERIES

Live Internet Bidding is managed by Stamp Auction Network (SAN).
To bid, you must be registered and approved by both SAN and Siegel.
To decide what you need to do, choose the description below that best fits you.

I've never bid with Siegel, nor registered with SAN.
Go to stampauctionnetwork.com/siegel and click on “Register” at the top. Check the box for Robert A. Siegel Auction Galleries (under “R”) and submit the form with your trade references (please, no family members or credit card companies as references). Once registered at SAN and approved by Siegel for bidding, you're ready for internet bidding.

I've already registered with SAN and have been approved by Siegel for internet bidding.

I'm a Siegel client, but I'm not registered with SAN.
Go to stampauctionnetwork.com/siegel and click on “Register” at the top. Check the box for Robert A. Siegel Auction Galleries (under “R”) and submit the form, indicating you are a Siegel client. Once registered at SAN, you're ready for internet bidding.

I've bid through SAN before, but this is the first time I've bid in a Siegel sale.
Then you just need to be approved by Siegel. Go to stampauctionnetwork.com/siegel and click on “Update Registration” at the top. Your SAN account information will be sent to us for approval (you might be asked for other trade references). Once approved by Siegel for bidding, you're ready for internet bidding.

This step-by-step guide will instruct you how to register, set your browser and use the bidding interface.

Start by following the simple steps to become a registered Live Internet Bidder.
Once you’ve been approved for bidding, you can listen to the auction and place bids with the click of a mouse.

“System Down” or “Lost Connection” events do occasionally happen.
If you have any problems with Live Internet Bidding please call 212-753-6421 for immediate assistance.
Conditions of Sale (please read carefully before bidding)

The property described in this catalogue will be offered at public auction by Robert A. Siegel Auction Galleries, Inc. (“Galleries”) on behalf of various consignors and itself or affiliated companies. By bidding on any lot, whether directly or by or through an agent, in person, or by telephone, facsimile or any other means, the bidder acknowledges and agrees to all of the following Conditions of Sale.

1. The highest bidder acknowledged by the auctioneer shall be the buyer. The term “final bid” means the last bid acknowledged by the auctioneer, which is normally the highest bid offered. The purchase price payable by the buyer will be the sum of the final bid and a commission of 15% of the final bid (“buyer’s premium”), together with any sales tax, use tax or customs duties due on the sale.

2. The auctioneer has the right to reject any bid, to advance the bidding at his discretion and, in the event of a dispute between bidders, to determine the successful bidder, to continue the bidding or to reoffer and resell the lot in dispute. The Galleries’ record of the final sale shall be conclusive.

3. All bids are per numbered lot in the catalogue unless otherwise announced by the auctioneer at the time of sale. The right is reserved to group two or more lots, to withdraw any lot or lots from the sale, or to act on behalf of the seller. The Galleries will execute bidding instructions on behalf of clients, but will not be responsible for the failure to execute such bids or for any errors in the execution of such bids.

4. Lots with numbers followed by the symbol “*” are offered subject to a confidential minimum bid (“reserve”), below which the lot will not be sold. The absence of the symbol “*” means that the lot is offered without a reserve. If there is no reserve, the auctioneer has sole discretion to establish a minimum opening bid and may refuse an offer of less than half of the published estimate. Any lot that does not reach its reserve or opening bid requested by the auctioneer will be announced as “passed” and excluded from the prices realized lists after the sale. The Galleries may have a direct or indirect ownership interest in any or all lots in the sale resulting from an advance of monies or goods-in-trade or a guarantee of minimum net proceeds made by the Galleries to the seller.

5. Subject to the exclusions listed in 5(A), the Galleries will accept the return of lots which have been misidentified or which have obvious faults that were present when the lot was in the Galleries’ custody, but not so noted in the lot description. All disputed lots must be received by the Galleries intact with the original packing material within 5 days of delivery to the buyer but no later than 30 days from the sale date. (5A) EXCLUSIONS: The following lots may not be returned for any reason: lots containing 10 or more items; lots from buyers who registered for the pre-sale exhibition or received lots by postal viewing, thereby having had the opportunity to inspect them before the sale; any lot described with “faults,” “defects” or a specific fault may not be returned because of any secondary fault. Photographed lots may not be returned because of centering, margins, short/nibbed perforations or other factors shown in the illustrations. Lots may not be returned for any of the following reasons: the color of the item does not match the color reproduction in the sale catalogue or website listing; the description contains inaccurate information about the quantity known or reported; or a certification service grades a stamp lower than the grade stated in the description.

6. Successful bidders, unless they have established credit with the Galleries prior to the sale, must make payment in full before the lots will be delivered. Buyers not known to the Galleries must make payment in full within 5 days from the date of sale. The Galleries retains the right to demand a cash deposit from anyone prior to bidder registration and/or to demand payment at the time the lot is knocked down to the highest bidder, for any reason whatsoever. In the event that any buyer refuses or fails to make payment in cash for any lot at the time it is knocked down to him, the auctioneer reserves the right to reoffer the lot immediately for sale to the highest bidder. Credit cards are not accepted as payment.

7. If the purchase price has not been paid within the time limit specified above, nor lots taken up within 7 days from the date of sale, the lots will be resold by whatever means deemed appropriate by the Galleries, and any loss incurred from resale will be charged to the defaulting buyer. Any account more than 30 days in arrears will be subject to a late payment charge of 1 1/2% per month as long as the account remains in arrears. Any expenses incurred in securing payment from delinquent accounts will be charged to the defaulting bidder. A fee of $250.00 per check will be charged for each check returned for insufficient funds.

8. All lots are sold as genuine. Any lot accompanied by a certificate issued by The Philatelic Foundation or by Professional Stamp Experts within 5 years of the sale date is sold “as is” and in accordance with the description on the certificate. Such lots may not be returned for any reason, including but not limited to a contrary certificate of opinion. Buyers who wish to obtain a certificate for any item that does not have a P.F. or P.S.E. certificate (dated as above) may do so, provided that the following conditions are met: (1) the purchase price must be paid in full, (2) the item must be submitted to an acceptable expertizing committee with a properly executed application form within 21 days of the sale, (3) a copy of the application form must be given to the Galleries, (4) in the event that an adverse opinion is received, the Galleries retain the right to resubmit the item on the buyer’s behalf for reconsideration, without time limit or other restrictions, (5) unless written notification to the contrary is received, items submitted for certification will be considered cleared 90 days from the date of sale, and (6) in the event any item is determined to be “not as described”, the buyer will be refunded the purchase price and the certification fee up to $500.00 unless otherwise agreed.

9. Until paid for in full, all lots remain the property of the Galleries on behalf of the seller.

10. Agents executing bids on behalf of clients will be held responsible for all purchases made on behalf of clients unless otherwise arranged prior to the sale.

11. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs. Buyers outside the U.S. are responsible for all customs duties.

12. The bidder consents that any action or proceeding against it may be commenced and maintained in any court within the State of New York or in the United States District Court for the Southern District of New York, that the courts of the State of New York and United States District Court for the Southern District of New York shall have jurisdiction with respect to the subject matter hereof and the person of the bidder. The bidder agrees not to assert any defense to any action or proceeding initiated by Galleries based upon improper venue or inconvenient forum. The bidder agrees that any action brought by the bidder shall be commenced and maintained only in a Federal Court in the United States District Court for the Southern District of New York or the State Court in the county in which Galleries has its principal place of business in New York. These Terms and Conditions shall be governed by and construed in accordance with the substantive laws of the State of New York.

Grades, Abbreviations and Values Used in Descriptions

Grades and Centering

Our descriptions contain detailed information and observations about each item’s condition. We have also assigned grades to stamps and covers, which reflect our subjective assessment. For stamps, the margin width, centering and gum are described and graded according to generally-accepted standards (an approximate correlation to numeric grades is provided at right). Although we believe our grades are accurate, they are not always exactly aligned with third-party grading terms or standards for all issues. A lot may not be returned because a certification service grades a stamp lower than the grade stated in the description. Information from the P.S.E. Stamp Market Quarterly and P.S.E. Population Report® is the most current available, but lots may not be returned due to errors or changes in statistics or data.

Extremely Fine Gem (90-100): The term “Gem” describes condition that is the finest possible for the issue. This term is equivalent to “Superb” used by grading services.

Extremely Fine (80-90): Exceptionally large/wide margins or near perfect centering.

Very Fine (70-85): Normal-size margins for the issue and well-centered with the design a bit closer to one side. “Very Fine and choice” applies to stamps that have desirable traits such as rich color, sharp impression, freshness or clarity of cancel.

Fine (60-70): Smaller than usual margins or noticeably off center. Pre-1890 issues may have the design touched in places.

Very Good (below 60): Attractive appearance, but margins or perforations cut into the design.

Catalogue Symbol:

- Scott Value for “O.G.”
- Scott “No Gum” Values thru No. 218
- Disturbed Original Gum: Gum showing noticeable effects of humidity, climate or hinging over more than half of the gum. The significance of gum disturbance in valuing a stamp in any of the Original Gum categories depends on the degree of disturbance, the rarity and normal gum condition of the issue and other variables affecting quality. For example, stamps issued in tropical climates are expected to have some gum disturbance due to humidity, and such condition is not considered a negative factor in pricing.

Covers

Minor nicks, short edge tears, flap tears and slight reduction at one side are normal conditions for 19th century envelopes. Folded letters should be expected to have at least one file fold. Light cleaning of covers and small mends along the edges are accepted forms of conservation. Unusual covers may have a common stamp with a slight crease or tiny tear. These flaws exist in virtually all 19th century covers and are not always described. They are not grounds for return.

Catalogue Values and Estimates

Unless otherwise noted, the currently available Scott Catalogue values are quoted in dollars with a decimal point. Other catalogues are often used for foreign countries or specialized areas and are referred to by their common name: Stanley Gibbons (SG), Dietz, American Air Mail Catalogue (AAMC), Michel, Zumstein, Facit, etc. Estimates are indicated with an “E.” and reflect our conservative valuation in dollars. Reserves will never exceed the low end of the estimate range; they will sometimes exceed Scott Catalogue value for stamps in Extremely Fine condition.

Because of certain pricing inconsistencies in the Scott Catalogue—for example, blocks that have no gum, the absence of premiums for Mint N.H. items, etc.—we cannot guarantee the accuracy of values quoted for multiples, specialized items and collection lots. We generally try to be conservative, but buyers may not return a lot because of a discrepancy in catalogue value due to Scott pricing inconsistencies.

Revised 1/2012
The hastily-organized Confederate States postal system was inaugurated on June 1, 1861, but postal officials were unable to print and distribute stamps for general use until months later. Even after General Issue stamps became available, problems with distribution often resulted in shortages at many Confederate post offices.

Postmasters in Southern states who suddenly found themselves without government-issued postage stamps resorted to various methods of accommodating the prepayment of postage in their towns and cities. The revival of pre-stamp era handstamped markings to indicate postage paid or due on mail brought to the post office was the easiest and least costly way to deal with the problem. This method created the category of C.S.A. stampless covers known as *Handstamped Paids and Dues*. Some postmasters handstamped envelopes in advance of use and sold them to local patrons; these are the so-called *Handstamped Postmasters’ Provisionals*, and they are distinguished from the ordinary stampless covers by the presence of control markings or postmasters’ signatures.

The third means by which postmasters facilitated prepayment was the issuance of adhesive stamps or press-printed envelopes. The adhesives and envelopes were produced in a variety of styles and methods. At one end of the spectrum are simple pieces of paper with nothing more than a numeral handstamped on them (for example, Oakway S.C.—see lot 1107). At the other end are the elaborate engravings printed by typography or lithography (there are no provisionals printed from intaglio plates).

Many of the stamps were printed at the offices of local newspapers, which also functioned as job printers. Some of the designs were embellished with the name of the post office or postmaster (or both). Others stated nothing more than the denomination. Whatever the design or method of manufacture, all of the Southern postmasters’ provisional stamps served the basic purpose of facilitating prepayment. A stamped letter could be prepaid and dropped at the post office, eliminating the need for the sender to pay postage at the post office window during office hours.

The D.K. collection comprises only the adhesive stamps and press-printed stationery issued by Southern postmasters. In forming his collection, D.K. focused special attention on the multiples and production varieties that reflect the methods used to print stamps. Rare shades and bi-colored stamps, typographic and color errors, largest recorded multiples and tête-bêche multiples convey the philatelic significance of the postmasters’ issues. The wartime conditions and Southern experience are reflected in the covers in the D.K. collection, which include rare frankings, unusual combinations, advertising and patriotic envelopes, and covers carried by steamboat or on “Special Routes” across the lines of war.

Between the time that each state seceded from the Union and the June 1st commencement date of the Confederate postal system, postmasters in the South were still obligated to report to the United States Post Office Department. Instructions from C.S.A. Postmaster General John H. Reagan specifically ordered Southern postmasters to:

...continue the performance of their duties as such, and render all accounts and pay all moneys to the order of the Government of the U.S. as they have heretofore done, until the Government of the Confederate States shall be prepared to assume control of its postal affairs.

Reagan also recognized the difficulties postmasters would experience in securing postage stamps during this interim period and decided "to leave it to postmasters and persons paying postage to arrange between themselves the manner in which these notes may be used." In effect, Reagan authorized postmasters to issue provisional postage until Confederate stamps were supplied, although provisional postage was specifically banned by the Federal government. Nonetheless, postmasters who knew they would soon be reporting to the Confederate government could be expected to improvise as they deemed necessary, especially when U.S. postal officials were unwilling to send supplies of stamps or stationery.

Prior to June 1, 1861, postmasters’ provisionals would necessarily be rated 3¢, the basic United States letter postage. The Scott Catalogue lists 3¢ 1861 Postmasters’ Provisional adhesive stamps for Hillsboro N.C., Madison Court House Fla. and Nashville Tenn. (the Nashville 3¢ stamp was never issued). Scott also lists handstamped envelopes for Jackson Miss., Selma Ala. and Tuscumbia Ala. (the Tuscumbia was formerly listed as 12XU1 in the U.S. provisionals section of the catalogue).

The Madison 3c provisionals were issued by Postmaster Samuel J. Perry only days after the Confederate States were formed at Montgomery, Alabama, on February 4, 1861. The earliest recorded use of the Madison provisional is dated February 13, 1861, by an enclosure (see Siegel Sale 824, lot 439). One of the off-cover stamps is cancelled by a February 21 (1861) Madison circular datestamp. These are the earliest postmasters’ provisionals issued in the Confederacy. Postmaster Perry issued the printed 5c entire sometime later (see Siegel Sale 824, lot 442).

Through testimony and contemporary source material, the Madison provisionals have been thoroughly documented and authenticated. The 3¢ was first reported by John W. Scott, who discovered the “CNETS” error in 1872. Scott described the Madison stamp as “the first issued, best authenticated and scarcest Confederate provisional.” The Madison 5c entire was found by C. H. Mekeel in 1895. In recent years, extensive research by Patricia A. Kaufmann has consolidated an enormous volume of information about the stamps, the postmaster and the unusual nature of these rarities. A brief excerpt of information provided in her two definitive articles follows (reference: “U.S. 3-Cent 1861 Postmaster Provisionals Used in the Confederacy,” American Philatelist, November 1984, and “The Madison, Florida, Postmaster Provisionals; Anatomy of a Postal History Research Project,” American Philatelist, February 2000).
Postmaster Perry had his stamps typeset and printed at the offices of *The Southern Messenger*, the newspaper published by his eldest son William. Soon after the stamps appeared, they were reported in *The New York Herald* under the headline “The PostMaster at Madison Fla has offered P Office Stamps contrary to Law,” which prompted an investigation by the United States postal inspectors. Perry was cleared of any wrongdoing, and he ended his tenure as a Federal appointee by filing all returns and remitting all money owed to the U.S. government.

Six examples of the Madison Court House 3c provisional are recorded (four normal off cover, one off cover with “CNETS” error, and one normal on cover):

1) Town circular datestamp dated Feb. 21 (1861), ex Philbrick, Avery, Ferrary, Lapham and Moody, Siegel 2000 Rarities sale (Sale 824, lot 440)
2) Circular datestamp, formerly owned by the Weills
3) Manuscript “(P)aid in (Money)” cancel, ex Ferrary, Moody, Felton (Siegel Sale 1019, lot 594)
4) Pen cancel, ex Piller inventory (stamp stolen and recovered), the stamp offered here;
5) Used on cover, cancelled by “Paid” in oval, ex Avery, Ferrary, Duveen, Hind, Caspary and Gross (Spink/Shreves sale, Nov. 19, 2009, lot 1)
6) “CNETS” error (Scott 3AX1a), town datestamp, ex Philbrick, Ferrary, Duveen, Lapham, Moody, Siegel 2000 Rarities sale (Sale 824, lot 441)

In addition to the 3c adhesive stamps, there is one 5c Confederate-rate entire, ex Ferrary, Lapham and Moody, and last offered in Siegel 2000 Rarities sale (Sale 824, lot 442).

We are grateful to Patricia A. Kaufmann for her permission to quote from her research in this introduction. Her article, with updates, can be viewed at http://webuystamps.com/madison.htm

The Athens adhesive provisional stamps were issued during postmaster Thomas Crawford’s term and bear his name. Crawford was appointed U.S. postmaster of Athens on April 15, 1859, and reappointed as C.S.A. postmaster on July 20, 1861. Crawford’s C.S.A. appointment was confirmed by the C.S.A. Senate on July 29, 1861. However, his reappointment under the permanent government on April 18, 1862, was not confirmed, and Josiah C. Orr was appointed in Crawford’s place on October 10, 1862, and confirmed on January 26, 1863 (this information was provided by Francis J. Crown Jr.).

The Athens provisional adhesives were printed from two woodcut engravings that produced typographed impressions in pairs with Type I (small “Paid”) on the left and Type II (large “Paid”) on the right. Crown believes that the two woodcuts were separate units bound together to make impressions. Multiples made from two separate impressions usually show some variation in shade and impression. Examples of four different types of multiples are shown below. The normal configuration for a horizontal pair is Type I at left and Type II at right, and these impressions are usually fairly uniform (although Crown believes there is a slight observable difference due to unevenness in surface level between the two woodcuts).

Horizontal pairs from two separate impressions show the transposed Type II-I configuration (such as lot 1002 in this sale). Likewise, the one recorded strip of four was made from three separate impressions, creating a Type II-I-II-I arrangement (the center pair comes from one impression). Vertical pairs always come from two work-and-turn impressions, which produced tête-bêche pairs with a distinct difference in impression between Type I and Type II.

The first printing was made in the Fall 1861, and all stamps from this printing are in Purple (ranging from light to dark). In the Spring 1862 a second printing was made in Red. Crown observed that the recessed lines of the woodcut were strengthened before the Red stamps were printed (“Athens 5c Red Provisional Recut,” Confederate Philatelist, July-August 2002). The Red stamps are much scarcer than their Purple counterparts.

The March 20, 1870, edition of the American Journal of Philately reported the discovery of a 5c Athens provisional in a Southern schoolboy’s collection. An American Philatelist article in April 1888 reported that the stamps were printed at the Broad Street office of The Banner Watchman.
**Horizontal Pair with Type II-I Transposed Positions**

1002  

**Athens Ga., 5c Purple (5X1).** Horizontal pair with transposed positions of Type II Large “Paid” at left and Type I Small “Paid” at right, from two separate impressions of the two-subject plate, full margins all around, left stamp has dry print spot in right frameline, tied by lightly struck grids, partly readable “Athens Ga. Paid Jan. 10” (1862) circular datestamp on small cover with **Lucy Cobb Institute blue corner card**, addressed to Sgt. S. P. Kenney, in care of Capt. Camak, Company D, Cobb’s Legion, at Yorktown Va., 10c over-500 miles rate, backflap removed, pinhole in cover clear of stamps

**EXTREMELY FINE. ONE OF THREE RECORDED MULTIPLES OF THE ATHENS PROVISIONAL WITH THE TRANSPOSED ARRANGEMENT OF TYPES. AN OUTSTANDING COVER OF GREAT PHILATELIC SIGNIFICANCE AND OVERALL BEAUTY — PROBABLY THE FINEST OF THE ATHENS PAIRS ON COVERS.**

The Athens provisionals issued by Postmaster Crawford were printed from two woodcut typographic engravings. An impression from the plate normally shows the small “Paid” (Type I) at left and the large “Paid” (Type II) at right. Because multiple impressions were made on each sheet, it is possible to have pairs with the type arrangement transposed — Type II at left and I at right. However, these are extremely rare. A survey of auction catalogues and collections produced only two others: a pair on cover to Dr. Edwin D. Newton, Richmond, ex Moody; and a horizontal strip of four on cover to Vice President Stephens in Richmond, ex Caspary and Kimmel. The Crown census confirms our own.

The addressee, Sgt. S. P. Kenney, was an officer with the Mell Rifles, Company D, Cobb’s Legion Infantry. This company was raised in Athens in July 1861 by Patrick Hues Mell, Baptist Minister and Vice Chancellor of the University of Georgia. After Mell resigned due to his wife’s death, Thomas U. Camak was named commander. John Boswell Cobb, Robert Goodman and W. A. Winn were named lieutenants. Non-commissioned officers were J. F. Wilson, Wm. A. Gilleland, S. P. Kenney, G. W. Barber, J. J. Mattox, and L. H. Horne. The unit fought throughout the war until two days before Appomattox, when it was surrounded and captured.

The small envelope has a printed corner card of the Lucy Cobb Institute. This girls’ school in Athens was founded by Thomas R. R. Cobb and named in honor of his daughter, who died of scarlet fever in 1858 at age 13, shortly before construction was completed and the school’s doors were opened.

VERY FINE. AN ATTRACTIVE PAIR OF THE ATHENS POSTMASTER'S PROVISIONAL PAYING THE OVER-500 MILES RATE TO YORKTOWN, VIRGINIA. THIS PAIR REFLECTS THE NORMAL CONFIGURATION OF TYPES I AND II.

The addressee, Lamar Cobb, enlisted as a private in Co. B, 2nd Battalion Ga. Infantry on April 20, 1861. He was appointed Sergeant-Major of the 16th Regiment Ga. Infantry on July 31, 1861; 1st Lieutenant and Aide-de-Camp to his father, General Howell Cobb on November 10, 1862; Capt. & A. A. General on June 25, 1863; and Major & A. A. General on December 14, 1863. He served with General Cobb until February 13, 1865 (http://researchonline.net/gacw/rosters/16inffi.htm).

Francis J. Crown Jr. reports 19 pairs of the Athens 5c Purple provisional on separate covers. We have visually confirmed fourteen of the Crown-listed covers, and we located one additional cover with a pair that is so severely defective, it should be disqualified. The condition of the pair and cover offered here is far superior to the typical condition of the fourteen covers in our photographic records.

Vertical Tête-Bêche Pair (Foot to Foot)

1004 ♦ Athens Ga., 5c Purple, Tête-Bêche Pair (5X1a). Types I and II in foot-to-foot vertical pair, full margins at sides, large at top and bottom, light and dark shades — another distinctive feature of the work-and-turn printing method that created the tête-bêche variety — tied by lightly-struck grid cancels, faint but readable “Athens Ga. Paid Dec. 2” (1861) circular datestamp on bright yellow cover to Capt. Porter King, Co. G, 4th Ala. Regt., Manassas Junction Va., over-500 miles rate, slightly reduced at right, couple slight edge nicks at right reinforced with paper

VERY FINE. ONE OF THREE RECORDED COVERS BEARING THE ATHENS PROVISIONAL TÊTE-BÊCHE VARIETY.

Only four post offices are known to have produced tête-bêche provisional varieties: Athens, Macon, Memphis and Nashville. In each case the tête-bêche multiple was created by the work-and-turn printing method, as opposed to an inverted cliché among subjects on the plate. All are extremely rare.

Of the Athens 5c tête-bêche, Crown records three covers:

1) Nov. 25 (1861) to Dr. E. D. Newton, ex Brooks, Jack Solomon, offered in this sale as lot 1005

2) Dec. 2 (1861) to Capt. Porter King, ex Brooks, Weatherly and Kilbourne, the cover offered here

3) Jan. 6 (1862) to A. H. Stephens, ex Ferrary

There are three additional off-cover tête-bêche pairs: 1) large margins, ex Caspary;

2) severely cut into (Siegel Sale 280); and 3) top of Type II clipped off down to oval, originally on a cover to Dr. E. D. Newton, ex Walcott, the pair was removed and offered off cover in the Meroni sale.

The addressee, Porter King, was captain of Co. G, 4th Ala. Volunteer Infantry Regiment, which was made up principally of students at Howard College. Capt. King fought in the First Battle of Manassas on July 21, 1861. After the battle the 4th Alabama Infantry was reorganized, and Porter was not elected captain. He resigned and returned to his plantation near Uniontown and became a Circuit Judge in 1863, serving until 1865, when the Union Military Governor of Alabama removed him.

This cover has the same date and address as the cover with a pair listed in the Charles J. Phillips census (Crown book, page 19) as belonging to Harold C. Brooks. The cover offered in the previous lot is also from the Brooks collection, and neither cover was offered in the Laurence & Stryker sale of the Brooks Confederate States collection (April 24, 1943). Some of the collection was sold privately. There is a notation on the back of this cover “C. S. Watson Co.” in Brooks’ hand.

Dr. Edward D. Newton’s biography appears in Vanishing Georgia, Georgia Division of Archives and History (http://dlg.galileo.usg.edu/vanga): "Asst. Surgeon; Surgeon, 7th Georgia Infantry. On April 27, 1861 Dr. Newton was appointed from his home in Athens, Ga. to report to the 4th Ga. Inf. in which he served until June of that year. He then reported to the Surgeon General and served at the General Hospital in Richmond and Camp Winder near there until reporting for duty to Gen. J. E. Johnston at Manassas in March, 1862. In April of ’62, Newton was transferred to the 7th Ga. Inf., and served with Cobbs Legion, Cobbs Brigade. In August he reported to Gen. R. E. Lee near Gordonsville, Va. He was promoted to Surgeon in Feb. 1863 and reported to Gen. Lee and Chief Surgeon McLaws who transferred him again to temporary duty with Cobbs Legion. In May 1864 he was ordered to ‘proceed to the field hospital of the Battlefield of the Wilderness.’ He signed orders as a Surgeon at the Receiving and Forwarding Hospital at Petersburg, Va. in August 1864. Mar. 28 Paid” (1862) circular datestamp on cover to Mrs. Howell Cobb, Macon Ga., reduced about half-inch at left

VERY FINE. ONE OF SEVEN RECORDED FULL COVERS BEARING THE ATHENS 5-CENT RED PROVISIONAL STAMP.

Our census contains one half-cover and seven genuine covers with the 5c Red (a suspect ninth cover has since been certified as having the stamp added). This count accords with the Crown census. All genuine examples are dated in March or April 1862. In addition, we record fewer than six off-cover examples of the 5c Red.

This cover is signed on back by Stanley B. Ashbook, who noted that it came from the Harold C. Brooks collection (lot 34 in the Laurence & Stryker Apr. 24, 1943 sale). There is a notation in Brooks’ hand, “C. J. Phillips,” indicating the source of the cover. Phillips handled the sale of the George Walcott Confederate States collection, and Brooks acquired a number of items privately (this cover did not appear in the May 23, 1935, Robert Laurence sale of the Walcott Confederates). The Phillips census (Crown book, page 22) incorrectly lists this cover as dated “Mch. 22” (it is “28”), and there is an entry that reads “The Nassau Stamp Co. have photographs of covers I have not located: 5c Type II, on cover, March 28, Mrs. Howell Cobb, Macon, Geo.,” which must be this cover. Nassau Stamp Co. handled a number of important collections containing Confederate provisionals, but we cannot determine which collection included this cover.

Joseph McCormick, Postmaster

Joseph McCormick was appointed to be Baton Rouge’s postmaster in 1853 and served during the Civil War. He was succeeded by Christopher Breckenridge in 1864. The 2c, 5c and 10c provisional stamps were issued during McCormick’s term.

The stamps were printed by George A. Pike, publisher of the local Baton Rouge newspaper, Comet and Gazette. They were printed from a typeset form of ten subjects, arranged in two horizontal rows of five. The setting was changed for each denomination, and two kinds of borders were used: the Maltese Cross ornamental border for the 2c, 5c and 10c, and the Criss-Cross (or lattice) border for a separate 5c printing. The 2c and 10c were printed in single colors of Green and Blue, respectively. Both types of the 5c stamp were printed in two colors.

For the 5c stamps a background “spider web” pattern was printed in Green, and the rest of the design was printed in Carmine. The Baton Rouge 5c, Greenville Ala. and Lenoir N.C. provisionals are the only Confederate stamps printed in two colors, and they are the first government-issued, bi-colored adhesive stamps to appear anywhere in the Western Hemisphere. As a technical point, the Lenoir provisional was handstamped in blue on paper with orange-red background lines. The Bridgeville Ala. and Unionville S.C. provisionals were handstamped in black within colored lines, but they are not considered bi-colored stamps.

EXTREMELY FINE. ONE OF FIVE RECORDED BATON ROUGE PROVISIONAL COVERS WITH THE PRINTED RETURN CARD OF GEORGE A. PIKE.

A biography of George A. Pike is available at the Library of Congress “Chronicling America” website (http://chroniclingamerica.loc.gov/lccn/sn88083120):

“In December 1856, George A. Pike’s Morning Comet and George C. McWhorter’s Baton Rouge Daily Gazette were consolidated to form the Daily Gazette and Comet, which Pike edited with Rev. William H. Crenshaw. The brother of prominent Baton Rouge landowner and businessman William S. Pike, George Pike had been an outspoken member of the anti-Catholic, nativist Know-Nothing Party, which he promoted as editor of the Morning Comet and its predecessor the Daily Comet. By 1856 the party had split over the issue of slavery, whereupon Pike, now editor of the Daily Gazette and Comet, shifted his focus to the growing sectional crisis between North and South.

“Pike opposed southern secession and called for compromise on the issue of slavery. In the presidential election of 1860, he supported Constitutional Union Party candidate John Bell of Tennessee and his running mate Edward Everett of Massachusetts. However, he also spoke favorably of pro-Union Democrat Stephen A. Douglas of Illinois. Louisiana secessionists whom Pike criticized included Senator John Slidell and Governor Thomas Overton Moore. In the months leading up to the election, the Daily Gazette and Comet reported on the activities of Unionists in and around Baton Rouge and on meetings of Bell and Douglas clubs. (The city ultimately cast the majority of its votes for Bell.) After the election, the paper reported local and regional responses to Lincoln’s victory. Pike himself disagreed with Republican ideology in regard to slavery but considered Lincoln to have been fairly elected and encouraged southerners to adopt a ‘wait and see’ attitude.

“Published Tuesday through Saturday in four pages, the Daily Gazette and Comet consisted primarily of advertisements and thus helps document Baton Rouge’s commercial life on the eve of the Civil War. Although the city’s population was then only about 5,500, it was one of the most important shipping centers on the lower Mississippi River and had served as Louisiana’s capital for eleven years. In addition to business news, Pike reported on sessions of the state legislature. Also of interest is news related to other local institutions, including the Louisiana Institution for the Deaf, Dumb and Blind and the newly founded Louisiana Historical Society, which Pike served as secretary.

“Publication of the Daily Gazette and Comet was suspended for about two months during the Civil War and appears to have ceased entirely by war’s end in favor of a weekly edition with which it had been published concurrently since 1856.”

EXTREMELY FINE. THE FINEST OF FIVE RECORDED EXAMPLES OF THE 5-CENT “McCCRMICK” ERROR ON COVER.

The addressee, Capt. Henry M. Favrot, was born in West Baton Rouge parish in 1826 and died there in 1887. He served as a member of the Louisiana legislature in the 1850’s and was opposed to secession. However, with the outbreak of the Civil War he joined the Confederate Army and became captain of the “Delta Rifles,” 4th Louisiana Infantry, and served throughout the entire war. Capt. After his recovery he was sent to northern Virginia with rank of colonel to gather all the records of the Army of Northern Virginia. He remained on active duty until the close of the war, when he returned home on mule-back, bringing with him the army records he was sent to compile.

Our records contain five on-cover examples of the 5c “McCcrmick” error (11X2a):

VERY FINE. ONE OF TWO RECORDED EXAMPLES OF THE BATON ROUGE PROVISIONAL CANCELLED AT NEW ORLEANS.

This cover travelled 129 miles down river from Baton Rouge and entered the mails at the New Orleans wharf office where the double-circle datestamp was used. Based on surviving covers, it is evident that the postmasters in New Orleans and Baton Rouge would accept stamps on letters coming off river boats.

Reverend Alexander Hinkle, Postmaster (1864)

According to Jim Wheat’s *Postmasters & Post Offices of Texas, 1846-1930*, the following men served as postmaster of Beaumont, Texas, from 1860 to 1866:

- John J. Herring, appointed Aug. 17, 1860 (resigned)
- Wilson A. Junker, Aug 5., 1861 (CSA) (resigned)
- P. H. Glaze, Nov. 12, 1861 (CSA)
- Rev. Alexander Hinkle, Dec. 5, 1863 (CSA)
- Thomas Snow, Feb. 22, 1865 (CSA)
- John J. Herring, Apr. 6, 1866
- George L. Ewing, Jul. 19, 1866

Since all recorded examples of the Beaumont provisional stamps are dated in 1864, they were probably issued by Reverend Alexander Hinkle, a Methodist pastor who settled in Beaumont around this time and was appointed as postmaster on December 5, 1863.

The stamps were typeset and printed from three different settings: one printed on Pink paper (Scott 12X2), and two on Yellow paper (12X1 and 12X3). A setting of four subjects (two by two) has been reconstructed from the Pink singles (there are no recorded multiples). Each subject has a different arrangement of long and short frame pieces. The printings on Yellow paper were made from two entirely different settings: one slightly smaller than the Pink stamps, and the other much taller with the words “Texas” and “Postage” added to the design.

Only 21 of any kind are recorded, including the unique Large 10c on Yellow (on cover), 5 of the Small 10c on Yellow (each on cover), and 15 of the Small 10c on Pink (12 covers, 3 off cover). Most of the recorded covers are faulty, and only four have postmarks of any kind tying the stamps.

Alfred Huger, Postmaster

After graduation from Princeton University, Alfred Huger returned to Charleston to run his plantation. Huger received his postmaster appointment from President Andrew Jackson on December 19, 1834, and he served until Federal occupation in February 1865. Huger was postmaster in July 1835 when sacks of mail containing abolitionist literature from the North were burned by a pro-slavery mob. After the war Huger declined President Andrew Johnson’s offer of reappointment as a U.S. postmaster.

Huger issued press-printed typographic provisional envelopes in the summer of 1861, probably close to the earliest known date of August 16 (Calhoun census). The lithographed adhesive provisional stamp followed in early September 1861. Lithography was used by only three postmasters to print provisional stamps (Charleston, Livingston and Mobile). The first supply of Confederate General Issue stamps was placed on sale on December 7, 1861, and the provisionals were withdrawn from sale. However, provisionals purchased by the public prior to withdrawal continued to be used concurrently with the General Issues. In June and July 1862 the Charleston post office ran short of General Issue stamps, and provisionals were re-released. The latest recorded use of a Charleston provisional is dated August 5, 1862, with a mixed franking of the 5c De La Rue Print (Scott 6) and 5c adhesive (Richard L. Calhoun, “Inventory of Charleston, South Carolina, Postmaster Provisionals,” Confederate Philatelist, Jan.-Feb. 1989).

It is reported that the stamps and envelopes were printed by the large Charleston-based printing firm of Evans and Cogswell. According to http://www.csa-scla.org:

...Evans & Cogswell Printing Company was retained as printers to the Secession Convention, and daily printed the minutes of the Convention in S.C., and printed the documents that communicated the secession to the other Southern States. The Ordinance of Secession, one of the most fateful and fatal documents in America’s history, was lithographed by Evans & Cogswell. During the War Between the States, Evans and Cogswell printed small denomination currency, Government bonds, the Soldier’s Prayer Book, books on war tactics, stamps, and medical books for the Confederacy.

In our opinion, the Scott value of $3,000.00, which is assigned equally to the Blue and the other colors — Buff, Amber, Orange and White — reflects neither the distinctiveness of the Blue envelope color nor the 6-to-1 ratio of all others versus the Blue.

EXTREMELY FINE. THIS IS THE UNIQUE CHARLESTON 10-CENT PRESS-PRINTED PALMETTO TREE PROVISIONAL ENVELOPE, USED DURING A SHORTAGE OF CONFEDERATE GENERAL ISSUES.

This Palmetto Tree design is unique among Southern Postmasters’ Provisionals. On this entire — the sole surviving example — the woodcut is printed in dark blue, identical in shade and impression to the 5c provisional envelope stamp issued in August 1861. The circular datestamp is struck at the center of the upper half of the entire. Charleston did not have a separate cancelling device and used the datestamp to cancel adhesive stamps; therefore, the position of the complete datestamp on this entire confirms the presence of the printed provisional at upper right and precludes the removal of an adhesive stamp from the envelope.

The first Charleston provisionals were the press-printed 5c envelopes issued in August 1861 and used consistently until the estimated 5,000 prepared were sold out in November 1861 (dates range from August 16 to November 12, 1861). Approximately 25,000 5c adhesive stamps were produced and placed on sale as early as September 1861 (earliest recorded date is September 4). Both provisionals were used concurrently with the handstamped “Paid” markings, but the surcharge on the price of provisionals made the stamps and envelopes less popular with the public. When the General Issues were finally received and put on sale on December 7, 1861, the large number of 5c provisionals still on hand was withdrawn, although they remained valid for prepayment.

In June 1862 the supply of 5c General Issues available at the Charleston post office was running low, and Postmaster Huger authorized the renewed sale of provisionals. More than a dozen examples of the 5c provisional stamp are known used in the months of June, July and August 1862. The handstamped “Paid” marking was also used again briefly in June 1862 after having been previously retired in December 1861. The rate increase from 5c to 10c for any distance became effective July 1, 1862, during this shortage of General Issues. Charleston covers are recorded in early July 1862 with the 5c Blue Lithograph and 10c Rose Lithograph stamps, but these are scarce, indicating that only a small supply of the newer General Issues was available. Further evidence of the shortage is an August 5, 1862, cover with a combination of the 5c De La Rue stamp and 5c provisional for the 10c rate. A supply of press-printed 10c envelopes from an earlier printing was probably released in anticipation of the July 1862 rate change and in response to the shortage of General Issues. The provisional envelope’s great rarity is probably due to the arrival of 10c Rose stamps in July 1862, which are found on covers dated July 3, 4, 5 and continuing on with frequency until replaced by the De La Rue and Richmond 5c printings.

This unique example of the 10c Palmetto Tree entire was discovered by the late Dr. Don Preston Peters of Lynchburg, Virginia, in an original correspondence to A. O. Norris at Anderson Court House, South Carolina. Norris was a newspaper publisher and, after the war, a probate judge. The receipt docketing indicates that the sender was J. H. Johnson. There was an ordnance sergeant with the 10th South Carolina Infantry Regiment named J. H. Johnson, who might be the same person.

We regard this entire as one of the most important and distinctive of all Southern Postmasters’ Provisionals, by virtue of its extreme rarity, the distinctive Palmetto Tree design, and as one of the few 10c provisionals issued east of the Mississippi.

William D. Coleman and William B. Payne, Postmasters

The Danville post office issued provisional adhesive and press-printed envelopes in close proximity. William D. Coleman, editor of the Democratic Appeal newspaper, had been Danville’s postmaster from September 14, 1860, to March 12, 1861. William B. Payne was appointed by the U.S. Post Office on March 12, 1861, but he served a very short term (Richard L. Calhoun, The Confederate Postmaster Provisionals of Virginia). Coleman enlisted in the army, but served only a few months before he was asked to replace Payne as Danville’s Confederate postmaster. Coleman was officially appointed on August 2, 1861, but his recollection was that he took over in October 1861 (Crown book, pages 85-87).

The press-printed provisional envelopes bear Payne’s name, and the adhesive bears Coleman’s name. Coleman stated that his stamps were printed at the offices of the Democratic Appeal. Philatelic authors have reported that the envelopes were also printed at the newspaper offices, but no proof of that claim has been offered. Postmaster Payne also sold handstamped envelopes with his initials.

The press-printed envelopes are among the most unusual of all Postmasters’ Provisionals. A stock typographic engraving was used with loose type set inside the blank oval. The illustration depicts a shoe fitting for an Antebellum lady. She is seated, while another woman kneels before her with shoe in hand, and a gentleman stands over her, also holding a shoe. It is reported that this engraving was used in advertisements for ladies’ shoes and boots. Another unusual feature of this provisional is the use of the slogan “Southern Confederacy” in addition to the post office and postmaster names, and the denomination. The word “Southern” is set in either a nearly straight line or slightly curved line.

The envelopes were printed with two different denominations: the 5c in Black, and the 10c in Red. The 5c envelopes properly used as provisionals are datestamped in July, August and early September. None of the 10c press-printed envelopes has been found properly used in that period. Both the 5c and 10c envelopes are found with later dates, sometimes with General Issue stamps affixed for postage (or removed), but these envelopes were used as stationery and not as provisional postage.

The Calhoun census lists 24 envelopes, but nearly half are not proper provisional uses (either lacking a Danville postmark or used with adhesive postage). There are only eleven or twelve properly used and postmarked envelopes (all 5c). The classification of Buff versus Amber is also questionable, and we think it is quite probable that all of the genuine July-September envelopes are more or less the same shade of Dark Buff (21XU3).

Thanks to research by Richard L. Calhoun, the unusual Emory provisional stamp made from the selvage of United States 1c 1857 sheets can be properly attributed to Professor Edmund Longley, rather than his successor, Isaac C. Fowler (Richard L. Calhoun, “Emory, Virginia, Postmasters and Provisionals, Confederate Philatelist, October-December 2011) and The Confederate Postmaster Provisionals of Virginia).

Longley, a professor at Emory & Henry College, served as U.S. postmaster of Emory (appointed January 12, 1847) and as C.S.A. postmaster from July 27 to August 30, 1861, when Fowler was appointed to replace Longley. The Emory provisional adhesives were issued during Longley’s term.

Postmaster Longley created his provisional issue by stamping the office “Paid” and “5” rate markings on the blank selvage of United States 1c 1857 Issue sheets. This method is unique among Confederate provisionals and, in all of philately, there are only a few issues created from the sheet selvage of other stamps. The Philadelphia carrier stamps made from the selvage of imperforate 1c 1851 sheets are similar in concept to the Emory provisionals.

The Calhoun census and our own records are in accord with nine covers bearing the Emory provisional (we know of no off-cover stamps), ranging in dates from June 24, 1861, to February 11, 1862. There are three known stamp formats: Paid over 5; Paid under 5; and 5 with Paid at top and side (narrow selvage). Two of the nine recorded covers have manuscript town postmarks, and four have stamps left uncancelled.

Fredericksburg, Virginia
Reuben T. Thom, Postmaster

Reuben Triplett Thom (1782-1868) was 78 when he was appointed to be Confederate postmaster of Fredericksburg on July 20, 1861. Thom had been postmaster since 1840, when he received his first appointment from President Van Buren. Fredericksburg, a Virginia town with an 1860 population of 4,000, was situated on the Fredericksburg & Potomac Railroad between the capital cities of Washington D.C. and Richmond. The town changed hands eleven times and was essentially destroyed during the Civil War, but Postmaster Thom performed his postal duties throughout the conflict (Richard L. Calhoun, “Fredericksburg, Virginia, Revisited”, Confederate Philatelist, March-April 1997). An interesting biographical account can be found at http://fredericksburghistory.wordpress.com/2011/04/12/fredericksburg-april-12-1861:

Elsewhere local citizens ruminated on more prosaic things, like a petition to the new President in Washington asking him to keep the town’s long-time postmaster Reuben Thom in place. Thom was 79 [actually 78] years old (one of the few people in town who likely remembered the flood of 1814) and an institution — ‘emphatically a good man,’ said the News. But Thom was a secessionist, and the newspaper saw in his prospective appointment the chance for the new president (Lincoln) to reach across sectional divides, place party politics aside and rise ‘superior to these little, petty political prejudices... and show himself superior to party distinctions.’ Events of the following weeks would render the citizens’ petition for Thom moot, but he would indeed be appointed postmaster of Confederate mails. Like Fredericksburg, Thom and his family suffered severely amidst the war that loomed in the newspapers that April 12, 1861. His house at what is today about 919 Caroline Street burned in the bombardment of December 11, 1862 — indeed, he and his family huddled in the basement until flames forced them into their garden. His neighbor John Wallace saw him soon after the battle, ‘I met in the street Mr. Thom who told me he was utterly ruined, I can assure you I felt deep sympathy for him. He is not alone, many are in the same situation.’

Postmaster Thom issued adhesive stamps in September 1861 in two denominations: the 5c Blue and 10c Red. It seems certain that the stamps were printed by Robert B. Alexander at the offices of the Democratic Recorder and Recorder Job Office (Dr. Keith E. Littlefield, “Robert B. Alexander: Printer of the Fredericksburg Va. C.S.A. Provisional Stamps,” Confederate Philatelist, Sep.-Oct. 1999). They were printed from a typeset form of 20 (5 by 4) on thin pelure paper. A fairly large number of unused stamps survived the war and entered the philatelic market. Calhoun records 40 covers with the 5c, but a 10c cover has not been discovered.

Goliad, Texas
John (Jno.) A. Clarke, Postmaster

The Confederate postmaster of Goliad was John (Jno.) A. Clarke, whose name was signed by hand on stamps of the first provisional issue and set in type as part of the setting for the second issue. Clarke also served as Secretary to the Board of Trustees of the Paine Female Institute, which later became Goliad College. Clarke signed an oath of allegiance after the war on January 9, 1866 (an image of the document is available at www.fold3.com).

August Dietz reported that the Goliad provisional stamps and the similar stamps of Helena, Texas, were printed at the offices of the Goliad Messenger. The editor of this newspaper was Reverend Alexander F. Cox (his middle initial was incorrectly stated as “M.” by Dietz). The publisher was R. W. Peirce. The November 12, 1864, edition of the Goliad Messenger is available on-line at http://texashistory.unt.edu. Reverend Cox died on April 5, 1897, and his obituary appeared in the Weekly Picayune (April 9, 1897).

The Goliad provisionals were printed from typeset forms in denominations of 5c and 10c. The Type I setting, without Clarke’s name, was used to print stamps issued prior to the Type II setting, probably in 1861 and 1862. The Type II setting was probably made in 1863.

Our records of Goliad provisionals contain eight 5c Type I stamps and four 10c Type I stamps. All but one of the twelve recorded 5c and 10c Type I provisionals bear the postmaster’s manuscript signature in either black or red ink. The Type I stamps were printed on a variety of colored papers, classified as White (5c 29X1, 10c 29X4), Gray (5c 29X2) and Rose (5c 29X3, 10c 29X5). Some stamps have a blue or red ink wash that appears to have been applied to the sheets. The variation in paper and signature color makes it difficult to accurately assign Scott numbers to each known example of the Type I provisionals.

Putting aside the paper or signature differences, the current census shows only three Type I provisional uses: the 5c cover-front offered in this sale (lot 1025), a 5c cover in the British Library’s Tapling collection, and the 10c on a patriotic cover, ex Caspary, Lilly and Hart. The Tapling cover will never become available, and there has been some debate about whether the 10c stamp originated on the patriotic cover. The cover-front offered in lot 1025 is the only one of the three with a Goliad postmark — the other two are uncancelled and have no town marking — and it is the only 5c Type I use available to collectors.

The Type II setting, in which “J. A. Clarke” and “Post Master” were added to each stamp, apparently followed in 1863. The earliest recorded date of use for any Type II provisional is October 21, 1863 (lot 1026 in this sale). When the second setting was assembled, the letters “I” and “O” were transposed in one position, creating the “GOILAD” error in both the 5c and 10c denominations.

The Type II provisionals were printed on two kinds of paper: Gray (5c 29X6, 10c 29X7) and Surface-Coated Dark Blue (5c 29X8, 10c 29X9), which is similar to the paper used for the British Guiana provisional issue. The printing on Dark Blue paper is represented by only one 5c stamp (on cover) and three off-cover 10c stamps (none with the “GOILAD” error). Two have February postmarks, which we believe are 1865 dates.

The July 1862 rate change to a 10c rate for any distance eliminated the need for a 5c stamp. While it seems likely that the Type II setting and printing occurred after July 1862, it is difficult to understand why Postmaster Clarke would bother to print 5c stamps when there was no 5c rate at this point. The 5c Type II stamps (on any type of paper) are much rarer than the 10c stamps. Our records of the 5c Type II on Gray paper (29X6, 29X6a) contain two single off-cover stamps, a pair with a combination of the normal “GOLIAD” and “GOILAD” error, and no covers. There is one recorded copy of the 5c on Dark Blue (Type II, 29X8), used on a cover from which the other 5c stamp was removed (it has never been located).

Of the eight normal 10c Type II (29X7) stamps in our records, five are on covers, including an uncancelled stamp on a cover in the Tapling collection at the British Library, which leaves four covers available to collectors. Only three of the four covers have stamps tied by the town datestamp or “Paid” cancel. In addition to the normal 10c Type II, there are three examples of the Type II “GOILAD” spelling error, including two on separate covers and one off cover with a circular datestamp. The three recorded 10c stamps on Dark Blue (Type II) are off cover.

The Finest of the Seven Recorded Goliad 5-cent Type I Provisional Stamps in Private Hands and the Only Available “Cover”

1025 (è) **Goliad Tex., 5c Black on Rose (29X3).** Signed “Clarke PM” in bright magenta ink, neatly cancelled by “PAID” straightline, matching “Goliad Tex.” rimless circular town handstamp (without date) on blue cover front to Clement R. Johns, Comptroller, Austin City, Texas, part of the letter is on back and there is a pencil June 21, 1862, date notation, the stamp has margins all around including three huge margins, slight creasing at top

EXTREMELY FINE. ONLY EIGHT GOLIAD 5-CENT TYPE I PROVISIONAL STAMPS ARE KNOWN, INCLUDING ONE ON COVER IN THE BRITISH LIBRARY COLLECTION. THIS COVER-FRONT IS THE ONLY TYPE I “COVER” AVAILABLE TO COLLECTORS AND THE FINEST OF THE SEVEN KNOWN STAMPS IN PRIVATE HANDS. ONE OF THE GREATEST OF ALL CONFEDERATE PROVISIONAL RARITIES.

Clement R. Johns was the Texas comptroller from 1859 to 1864. The June 21, 1862, date notation provides crucial evidence that the Goliad Type I setting (without postmaster’s name) preceded the Type II setting.

This cover-front is the only one of the three Type I uses with a Goliad postmark — the other two are uncancelled and have no town marking — and it is the only 5c Type I “cover” available to collectors. Equally significant is the stamp’s standing as the finest known example of this provisional rarity.

Illustrated in the color plate of the H. R. Harmer Caspary Sale 3 catalogue and in Ter Braake’s *Texas: The Drama of Its Postal Past* (p. 142).

The Earliest Recorded Use of a Type II Goliad Provisional and One of Four Available 10-cent Type II Covers

Goliad Tex., 10c Black on Gray (29X7). Mostly ample to clear margins, ornaments just touched at top and upper right, strong impression on distinctive blue-gray paper, tied by “Paid” straightline on lady’s cover — a small high-quality envelope made of wavy-line watermarked paper — to Stonewall Tex., with original letter enclosed, datelined “Goliad, Oct. 21st, 1863”, invisibly sealed opening tear along top edge at upper left corner.

EXTREMELY FINE. THE EARLIEST DATED EXAMPLE OF A GOLIAD TYPE II PROVISIONAL AND ONE OF THE FINEST OF THE FOUR 10-CENT TYPE II GOLIAD COVERS AVAILABLE TO COLLECTORS.

Of the eight normal Goliad 10c Type II (29X7) stamps in our records, five are used on covers, including an uncancelled stamp on a cover in the Tapling collection at the British Library, which leaves four covers available to collectors. Only three of the four covers have stamps tied by the town datestamp or “Paid” straightline. In addition to the normal 10c Type II, there are two other covers with the Type II “GOILAD” spelling error.

This cover with its original October 21, 1863, letter is the earliest recorded date for any Goliad Type II provisional. The Type I provisionals (without the postmaster’s name) were probably issued in 1861 or 1862. The Type II setting with “J. A. Clarke” and “Post Master” added to each typeset stamp was probably put to press in 1863.

Ex Hessel and Hill. This cover was acquired by D.K. in our Sale 810 in 1999 for $67,500 hammer versus the then-current Scott value of $7,500.00. With 1998 P.F. certificate............................................................... Scott Value $25,000.00
10-cent Type II on Surface-Coated Dark Blue Paper
The Finest of the Four Recorded Goliad Provisional Stamps
on the Distinctive Dark Blue Paper

Goliad Tex., 10c Black on Dark Blue (29X9). Large margins all around, tied by wide manuscript “X” cancel on yellow piece with bold strike of “Goliad Tex. Feb. 15” circular datestamp, probably 1865 year date

EXTREMELY FINE. BY FAR THE FINEST OF THE FOUR KNOWN GOLIAD POSTMASTER’S PROVISIONAL STAMPS PRINTED ON DARK BLUE PAPER. ONLY ONE 5-CENT AND THREE 10-CENT STAMPS ARE KNOWN ON THIS PAPER, AND ALL OF THE OTHERS HAVE FAULTS OR SERIOUS DEFECTS. THIS IS NOT ONLY ONE OF THE RAREST PROVISIONAL STAMPS ISSUED BY A SOUTHERN POSTMASTER, IT RANKS AMONG THE RAREST STAMPS IN ALL OF PHILATELY. OFFERED AT AUCTION FOR THE FIRST TIME SINCE ITS DISCOVERY IN 1930.

The use of Dark Blue surface-coated paper probably occurred after the printing on Gray paper. This piece and the 5c cover have February postmark dates, which we believe are 1865 year dates.

The only recorded examples of Goliad provisionals on Dark Blue paper are as follows:

1) Repaired 5c on a cover from which another stamp was removed, ex Ferrary, Hind, Graves, Gross

2) 10c on piece with Feb. 15 datestamp offered here, discovered by Albert Steves in 1930 (Crown book, page 117), but never offered at auction until now

3) Off-cover 10c stamp cancelled by pen “X”, ex Worthington, Hind and Lilly, sold by Cherrystone in 2006 for $17,000 hammer plus 15%

4) Off-cover 10c stamp cancelled by pen “X”, last seen in a photograph taken by Steves before 1911

The stamp offered here was acquired by D.K. in 1998 in a private purchase from Charles W. Deaton through the Siegel firm. Its condition is far superior to the condition of the other known examples, including the ex-Worthington-Hind-Lilly stamp, which realized nearly $20,000 in the Cherrystone 2006 auction.

Benjamin F. Porter, Postmaster

The Greenville provisionals were issued by Judge Benjamin F. Porter (1808-1868). His papers are located at Auburn University Libraries and a biography of Porter from the library website provides details of his life (http://www.lib.auburn.edu/archive/find-aid/155.htm):

Benjamin Faneuil Porter was born in Charleston, South Carolina in 1808. His father died while he was very young, which left his family financially troubled. His educational background was limited, having left school at an early age to support his mother and sister. He initially worked as a druggist in Charleston and attempted to study medicine. Porter however changed his mind and began to study law. In 1826 was admitted to the South Carolina Bar and soon afterwards began to practice law in Charleston. Three years later, in 1829, Porter and his new wife relocated to Claiborne, Alabama. He was granted a license to practice law in Alabama in 1830. In 1832 he was elected to the State Legislature from Monroe County. Two years later he was elected as County Judge. He and his family moved to Tuscaloosa, Alabama in 1835. Returning to politics he was re-elected to the State Legislature in 1837 and elected Circuit Court Judge in 1839. He was the first chair of the University of Alabama School of Law in 1845 but resigned within the year. Prior to the American Civil War he edited a newspaper; served as Reporter to the Alabama State Supreme Court; was the Superintendent of Education; was the President of Will’s Valley Railroad; and ran for State Senate but was defeated. At the outbreak of the war, he offered his services to Jefferson Davis and was appointed to command a camp of instruction at Greenville, Alabama. Following the war, Porter joined the Republican Party and accepted the Judgeship of the 12th Judicial Circuit. He died on June 4, 1868 in Greenville, Butler County, Alabama.

Postmaster Porter’s typeset provisional issue is not only very rare, it is remarkable as one of three postmaster issues printed in two colors — the others were issued at Baton Rouge and Lenoir. These are the first government-issued, bi-colored adhesive postage stamps to appear anywhere in the Western Hemisphere.

After a thorough search of relevant records (auction sales, Levi clippings, Philatelic Foundation and Confederate Stamp Alliance certificates) we have located only eight examples of either Greenville denomination, including four off-cover 5c stamps, two 5c covers, and two 10c covers. None of the Greenville stamps is cancelled.

One of Two Recorded Greenville 5-cent Provisional Covers

1028 ☞ Greenville Ala., 5c Red & Blue on Pinkish Glazed (33X1). Typical margins with borders and type almost complete, strong impressions and rich colors on bright fresh paper, uncancelled as always, “Greenville Ala. Oct. 19” (1861) circular date-stamp on yellow cover addressed to “George L. Henry Esq., Care of Capt. H. B. T. Montgomery, 5th Georgia Regiment, Pensacola, Fla.”, vertical folds in cover away from stamp, slight wear

VERY FINE. ONE OF TWO RECORDED COVERS BEARING THE 5-CENT GREENVILLE Provisional Stamp — FOUR OTHER EXAMPLES ARE KNOWN OFF COVER. THE STAMP ON THIS COVER IS COMPLETELY SOUND AND HAS RICH COLORS. A MAGNIFICENT COVER BEARING ONE OF THE FIRST BI-COLORED POSTAGE STAMPS TO APPEAR IN THE WESTERN HEMISPHERE. AN OUTSTANDING RARITY OF CLASSIC AMERICAN PHILATELY.

This cover was included in the Ferrary sale as part of a mixed lot of doubtful items, which included a few Greenville provisionals (Gilbert Sale 4, lot 4). The lot was purchased by Edward Stern of the Economist Stamp Co., and two of the 5c Greenville stamps were pronounced genuine: one off cover and the stamp on the cover offered here, which was sold to Alfred H. Caspary.

Knoxville, Tennessee
Charles W. Charlton, Postmaster

Charles W. Charlton (1825-1889), a Methodist minister and newspaper journalist, was Knoxville’s Confederate postmaster. He issued adhesive stamps and envelopes in 5c and 10c denominations. Charlton’s stamps were nearly identical to the stamps issued by his close acquaintance, William D. McNish, the postmaster of Nashville. It is possible that both the Nashville and Knoxville adhesives were engraved by a Nashville resident, Dan Adams, and printed in the offices of the Nashville Daily Gazette. When the Knoxville engraving was made, Charlton’s name was misspelled: the letters “C.H.” appear instead of “C.W.” or “CH.” (for Charles). The woodcut engraving was used to make stereotype plates. There was more than one printing, including reprints made after the war (the printings and papers are described in Confederate Philatelist articles by Richard Graham and Peter W. W. Powell).

Shortly before U.S. forces occupied Knoxville in September 1863, Postmaster Charlton sent the stamps on hand and post office effects to the postmaster at Dalton, Georgia. The stamps were never seen again (J. L. Poklis, “C. W. Charlton Comments on His Confederate Postage Stamps,” Confederate Philatelist, Apr.-Jun. 2008). After the war Charlton became editor of the Knoxville Whig.

Knoxville 5-cent Provisional Adhesive Used with Provisional Handstamp

1029 ☐ Knoxville Tenn., 5c Brick Red on Grayish Laid (47X1). Three huge margins, touched at upper left, distinctive light shade, tied by typically blurry but legible “Knoxville Ten. Paid 5” circular provisional handstamp (listed as Scott 47XU5) on cover to Kingston Tenn., neat receipt docketing dated Nov. 29, 1861

VERY FINE. ONE OF THREE RECORDED EXAMPLES OF THE KNOXVILLE PROVISIONAL HANDSTAMP USED TO CANCEL THE PROVISIONAL ADHESIVE.

There are probably no more than ten covers extant with the Knoxville 5c provisional (either shade) tied by a handstamped marking — more than half of the known covers are manuscript cancelled. The Knoxville cancellations — the double-circle and large-circle town datestamps, and the “Paid 5” in circle — are rarely struck clearly.

Typographic press-printed provisional at upper right corner of envelope, uncancelled as always, addressed to Arcadia Tenn. with sender’s routing “via Bristol” and instructions to Arcadia postmaster “Mr. Fain will please send this over to Esq. I will have the Whig changed & perhaps the Register, too — the former certain”, making reference to the Arcadia post office operated by the Fain family and to two newspapers, the Whig and Register; an additional note is written on back, evidently by the person who was instructed to take the letter from the Arcadia post office to the addressee — “Dear Friend, how do you do this morning, Farewell, I must think of starting home soon” — cleaned to remove stain at top which is not mentioned on accompanying certificate, Extremely Fine appearance, this entire (on White or Orange) is rare, and the mailing instructions on this example are of special significance considering the difficulties in transporting mail within Tennessee at this time, ex Dr. Green, with 2000 P.F. certificate.........................

James Harper, Postmaster

James Harper (1799-1879) served as postmaster of Lenoir from 1841 until sometime in 1862 or 1863. His son, George Washington Finley (G. W. F.) Harper (1834-1921), was the assistant postmaster and, according to the written affidavits, was responsible for carving the woodcut die used to make the provisional stamps and envelopes (see Crown book, pp. 172-178, 651-652). In 1862, G. W. F. Harper enlisted as a private in Co. H, 8th Regiment, N.C. Infantry, and eventually earned the rank of major.

The Lenoir adhesive stamp is one of three bi-colored provisionals issued by Southern postmasters (the others were issued at Baton Rouge La. and Greenville Ala.). Approximately 29 covers bearing the Lenoir adhesive stamp are known. The same woodcut device was applied directly to envelopes, as evidenced by the one recorded cut square with the single 5c impression (Scott 49XU1) and the unique 5c plus 5c entire (Scott 49XU2).

Lenoir Provisional Stamp on a Cover Addressed to Captain Thomas Lenoir

1033 ☐ Lenoir N.C., 5c Blue & Orange (49X1). Large right margins, top and bottom framelines touched, just slightly in at left, unusual gap in orange background lines at right (from the edge of the sheet), cancelled by manuscript “X”, partly clear blue “Lenoir N.C. Oct. 20” circular datestamp on cover addressed to “Capt. Thomas I. Lenoir, 25th Reg N.C.V. (Clingmans), Wilmington N.C.”, neat receipt docketing at left “From W. W. Lenoir in 1861”

VERY FINE. AN EXCEPTIONALLY FRESH AND CLEAN COVER BEARING THE BI-COLORED PROVISIONAL STAMP OF LENOIR, NORTH CAROLINA. ESPECIALLY DESIRABLE WITH THE MILITARY ADDRESS TO A MEMBER OF THE LENOIR’S NAMESAKE FAMILY.

Thomas Isaac Lenoir and Col. Joseph Cathey assembled a company of North Carolina mountaineers into a fighting unit he called the “Haywood Highlanders.” On July 18, 1861, Captain Lenoir led the Haywood Highlanders to Asheville to join the war, and they were eventually absorbed into the 25th N.C. Infantry under the command of Thomas Lanier Clingman. Clingman's Brigade fought at Goldsboro, Battery Wagner, Drewry's Bluff, Cold Harbor, Petersburg, Globe Tavern, Fort Fisher and Bentonville.

This cover to Thomas Lenoir was addressed by his brother, Walter Waightsell Lenoir. In 1862 Walter was commissioned into Co. H, 58th N.C. Partisan Rangers. He was promoted to captain and transferred to Co. A, 36th N.C. Infantry on July 18, 1862. A battlefield wound in September 1862 resulted in the amputation of his right leg, and he returned home.

Livingston, Alabama
Stephen W. Murley, Postmaster

Livingston is the county seat of Sumter County, Alabama, lying on the Selma and Meriden Railroad line about 130 miles north of Mobile, near the state’s western border. Official records name Stephen W. Murley as the Livingston postmaster in 1861. Although other sources attribute the stamp to another postmaster, Robert F. Houston, it seems almost certain that Murley was solely responsible for the Livingston provisional. According to research by Van Koppersmith, “Houston served as postmaster at Livingston on at least three different occasions for a total of about twenty years beginning in the late 1830’s. He was also a member of the state legislature in 1839 and again in 1857-1858, about the time he began and ended his terms as postmaster. Stephen W. Murley had taken over as postmaster at Livingston well before secession and remained to become the first Confederate postmaster, serving at least until the end of 1861. A thorough search of state, county and city history books yielded very little information on either postmaster. It is interesting to note that an S. W. Murley served as the postmaster in Selma, Dallas County, for a few years around 1840. However, further research showed that his first name was Samuel.” The Livingston provisional is known used in November-December 1861 and again in March 1862, coincidental with Murley’s term as postmaster.

The Livingston stamps were printed from a lithographic stone. Lithography was used by only three postmasters to print provisional stamps (Charleston, Livingston and Mobile). Every transfer on the stone has a small partly-complete circle (or curl) extending into the margin below the “T” of “Cents” at bottom. The allegorical design depicting images of the South is very unusual. Only two Confederate post offices, Livingston and Mobile, issued stamps with a figurative design specifically created for stamps (the Danville postmaster used a stock image for his provisional envelopes). It is almost certain that the same printer was responsible for both the Livingston and Mobile stamps, whose imprint “W. R. Robertson Mobile” appears on the Mobile lithographic stones. The size and layout of the Livingston stone has yet to be determined, and probably never will, due to the small number of surviving copies.

Our records contain a total of 11 stamps, including the famous and unique pair on cover (Nov. 12, 1861), 6 singles on separate covers (1861—Nov. 15, Nov. 15, Nov. 25, Dec. 10; 1862—Mar. 17 and Mar. 21), and 3 off-cover stamps. One of the single frankings, a corner-margin stamp (Nov. 25 date, ex Caspary, Antrim and Cole), was severely damaged when someone attempted to remove ballpoint pen ink with an eraser.
One of the First Two Livingston Provisionals Discovered

Livingston Ala., 5c Blue (51X1). Ample even margins all around, lightly struck Nov. 23 circular datestamp, upon careful examination of the thin wove paper we find a tiny sealed tear at top, a few minute scrapes and a slight crease, none of which significantly affect the appearance

VERY FINE APPEARANCE. THIS STAMP IS ONE OF THE TWO ORIGINAL DISCOVERY COPIES OF THE LIVINGSTON POSTMASTER'S PROVISIONAL. THERE ARE ONLY ELEVEN RECORDED EXAMPLES, ON OR OFF COVER.

This stamp and another single were found in 1869 by a Southern railroad employee. Used together on one cover, they are the first Livingston provincials discovered by philatelists and were reported in The American Stamp Mercury on page 110 of volume 3 (1869). News of the discovery was later reported by J. W. Scott in the June and July 1869 editions of The American Journal of Philately. The stamp offered here was sold to Dr. Petrie, and its mate was sold to Francis C. Foster.

Major Robert Henry Glass (1822-1896) was Lynchburg’s Confederate postmaster and the father of Carter Glass, a prominent U.S. congressman and senator who co-sponsored both the 1913 Glass-Owen Act, which created the Federal Reserve System, and the 1933 Glass–Steagall Act, which enforced the separation of investment banking and commercial banking, and established the Federal Deposit Insurance Corporation.

R. H. Glass was the patriarch of a Virginia family that owned the Lynchburg Daily Republican newspaper. An incident with some postal relevance occurred in 1860, when Glass’ associate editor killed a rival newspaperman who had accused Glass of using his position as postmaster to prevent the delivery of his competitor’s papers. The dispute nearly resulted in a duel, but was diffused by Glass’ wife. An exchange of letters between Postmaster Glass and Horace Greeley, publisher of the anti-slavery New York Tribune, proves that Glass would refuse to deliver newspapers he considered “incendiary” (Leon Whipple, The Story of Civil Liberty in the United States).

According to The Confederate Postmaster Provisionals of Virginia by Richard L. Calhoun, the U.S. Post Office appointed Alexander McDonald to be Lynchburg’s postmaster on March 27, 1861. Glass’ appointment as C.S.A. postmaster was recommended in the C.S. Senate on July 20 and 30, and confirmed on September 6, but he probably replaced McDonald after Virginia seceded in April.

The Lynchburg typeset provisional envelope was issued very close to the June 1, 1861, inaugural date of the Confederate postal system. The earliest recorded date of use is June 4 (1861), and the example offered in this sale is dated June 5 (1861). The envelopes were press-printed from a stock “5” engraving used in bank note production and the typeset word “Paid.” The subsequent adhesive provisionals, issued in August, were a step up from the envelopes and closely resemble the Memphis provisional. Postmaster Glass stated that he copied the Memphis design after seeing the stamps on incoming mail. The Lynchburg plate was stereotyped from a master woodcut engraving. The size and layout of the plate are not yet known. The production has been attributed to Glass’ newspaper office, but no documentary evidence has been located.

In response to our question — who was the early wartime postmaster at Macon? — Francis J. Crown Jr. provided this information:

[The situation] is somewhat confusing. Edward L. Strohecker was appointed the U.S. postmaster on 25 Mar. 1857. On 30 Jul. 1861 Washington Poe was appointed postmaster. However, the appointment required the consent of the Confederate Senate and this was not received until 19 Apr. 1862. So the question is, did Strohecker remain in the office until Poe was confirmed or did Poe go ahead and assume the position when originally offered the position (Jul. 1861)? I have attempted to resolve this issue but have been unsuccessful. I even looked through some of the Macon newspapers of the period. The only thing I could find was a notice dated 27 May 1861 mentioning Strohecker as postmaster. Based on the dates above we know with certainty that Strohecker was postmaster when Scott 53X4 (the plain two-line 5c stamp) was issued. Beyond that it is somewhat of a guess.

Dr. Edward L. Strohecker was graduated from the Medical College of South Carolina and elected three times as Macon’s mayor. He helped to organize the Georgia Medical Association, and travelled to visit and treat Confederate troops during the war. Washington Poe, a relative of the poet, also served a term as mayor and was elected as a Union delegate to the Georgia Secession Convention in Milledgeville.

All of the Macon provisional stamps were printed from typeset forms. The 2c and two of the three 5c settings simply state the denomination and nothing else, and they were the first stamps printed. These were followed by the four-line “square” stamp, which includes the words “Post Office” and “Macon, Ga.” The order of issue is confused by the Scott Catalogue listings. Based on dated examples in the Crown census, the correct order of the stamps on Wove is as follows:

- 2c (only one setting) and 5c with plain border — early June 1861 (earliest dated June 1)
- 5c with floral border — late June 1861 (earliest dated June 26)
- 5c four-line “Post Office, Macon, Ga.” — August 1861 (earliest dated August 15)

1038 Macon Ga., 5c Black on Yellow Wove (53X4). Large margins, well-tied by “Macon Ga.” circular datestamp with “2” date (most likely June, as explained below), “Paid” and small “5” handstamps on Greer & Lake grocer’s illustrated overall advertising cover lithographed in gray, to A. H. Greer in Oglethorpe Ga., ink stain with small erosion spot in area of “P” of “Paid” on cover has been skillfully repaired, small sealed opening tear at top center well clear of stamp VERY FINE. A MAGNIFICENT COVER, WHICH IS ONE OF FOUR RECORDED ADVERTISING COVERS BEARING THE EARLY TYPE OF MACON 5-CENT PROVISIONAL.

Based on dated examples, it appears that the 5c with plain border was the first stamp issued in Macon. Almost all of the recorded covers are dated during the first half of June 1861, including an uncanceled stamp originating on a cover dated June 1, the first day of the Confederate postal system. The Macon double-circle datestamp was often poorly struck; although this strike does not show the month, the “2” is very likely June 2, based on the use of the “Paid” and small “5” rate handstamp used in conjunction with the provisional, a marking pattern that disappears by late June.

Our records contain four Greer & Lake advertising covers with Macon provisionals, including two with 53X3 (floral border, one offered in the following lot) and two with 53X4 (line border). This cover, a cover in the 1940 Wickersham sale and the 53X3 cover offered in the following lot are illustrated designs.

James H. Francis, Postmaster

James H. Francis was appointed U.S. postmaster of Marion on December 31, 1859, and he was reappointed as Confederate postmaster on July 16, 1861 (Richard L. Calhoun, The Postmaster Provisionals of Virginia).

Postmaster Francis’ 5c and 10c provisional stamps, with their distinctive “Check” label at top, were issued in early June 1861 (the earliest dated example is postmarked June 7) and continued to be accepted for postage into 1863. The stamps were printed in two steps: first, the typeset form containing the border and words “P. Office, Marion, Va., Check. Paid” was impressed; then the value “5” or “10” was handstamped on the blank center. Postmaster Francis described his stamps in a January 1880 letter to August Dietz (Crown book, page 198), and he offered to make more from the “die” which he still possessed. Various “reprints” made from the typeset form were made by John W. Scott, including 2c, 15c and 20c values that have never been seen genuinely used.

Genuine Marion provisional stamps are extremely rare. Of the 5c stamp, our records contain a total of 11 examples on any kind of paper, including 4 on covers (one of which is in the British Library’s Tapling collection), 3 stamps on pieces, 3 used off cover and an unused example. One of the off-cover used stamps and the unused example are on bluish laid paper (Scott 55X3). The four recorded covers are dated as follows: Jun. 7 (1861), ex Kilbourne; Jun. 11 (1861), ex Haas; Jan. 24 (1862), ex Hessel; and Mar. 31 (1862), British Library, Tapling Collection. The 1862 year dates are certain, because the single 5c stamps paid the 5c under-500 miles rate that ended on June 30, 1862.

Our records now contain seven covers with the Marion 10c provisional, plus a repaired stamp affixed to the back of a cover noted in the Crown book as part of the Worthington collection. The most recent discovery of a Marion provisional occurred in March 2000 when a nearly complete cover surfaced in an auction of the R. G. Hunter estate in Virginia (sold in our 2000 Rarities sale, Sale 824, lot 443). In addition to the seven stamps on covers, there are two unused singles and perhaps one or two off-cover singles. Of the seven known covers, one is part of the Tapling collection at the British Library (a sound example dated Oct. 15, 1861), two have stamps with a significant portion of the design cut away (dated Oct. 25 and Nov. 16, 1861), and one has the bottom right corner of the stamp repaired (dated Sep. 24, 1861, ex Caspary). Therefore, there remain only three covers available to collectors in essentially sound condition: the ex-Hessel cover (dated Nov. 18, 1861, with repairs to the cover), the Mar. 2 cover (1862 or 1863) offered here, and the recently-discovered cover dated Jan. 21, 1863.

The Marion 10c provisional cover offered here, dated March 2, was previously assumed to be an 1862 use during the 5c/10c rate period, but the possibility of an 1863 use arises with the discovery of the cover dated Jan. 21, 1863. This cover is addressed to Kingston Tenn., which is well under the 500-mile limit for the 5c rate. Therefore, it is either a double 5c rate for weight or a March 1863 use after the rate increase to 10c for any distance.

Matthew Campbell Gallaway (1820-1898), a colorful newspaper editor and aide-de-camp to General Nathan Bedford Forrest, was the Memphis Confederate postmaster who issued adhesive stamps and press-printed envelopes until Memphis fell to Federal forces in June 1862. Gallaway was often referred to as “Colonel,” but military records show that he was paroled on May 10, 1865, as a 1st Lieutenant and Acting A.D.C. on General Forrest’s staff (www.fold3.com). In August 1866 Gallaway, after resuming his position as editor of the *Avalanche*, was shot through the hand in a murder attempt by a United States tax collector named G. W. Wood (*New York Times*, Aug. 26, 1866). Gallaway survived and continued working as a newspaper editor until his retirement in 1887. He lived another decade, almost long enough to experience the arrival of the 20th century.

The 2c and 5c adhesive provisionals were printed in sheets from stereotype plates of 50 made from woodcut engravings of each denomination. The 2c stamp bears Gallaway’s name, but the 5c stamp and envelope do not. The 2c was printed in Blue on thin paper, and the 5c was printed in a range of Carmine or Red shades on different types of paper stock (the thin paper is much scarcer).

Several positions on the 2c plate were flawed from damaged stereotypes. Impressions from these positions show printed “cracks” or are missing parts of the design. The 5c plate has an unusual layout, in which a block of ten stereotypes was positioned sideways relative to the other 40 positions. The two largest and most important multiples are present in the D.K. collection.

The Memphis provisional envelopes were printed on four kinds of paper stock: White, Amber, Orange, and the recently identified (and catalogued) Cream. The Cream envelope was probably carried out of Memphis in June 1862 and used as stationery, because no proper provisional uses are known, and the one recorded example has a 10c General Issue stamp affixed over the Memphis provisional.

The stereotype plate used to print the Memphis 5c provisional in sheets of 50 was created with ten subjects (two rows of five) at right turned 90 degrees clockwise relative to the other 40 subjects. This arrangement is confirmed by the existence of corner-margin multiples that have precisely the same alignment, which would be impossible if the sideways positions resulted from work-and-turn printing. Only a few multiples exist that show this unusual tête-bêche format. Multiples are also known that show the work-and-turn printing method, including three tête-bêche pairs (vertical head-to-foot, vertical foot-to-foot, and horizontal head-to-foot).

FINE. ONE OF ONLY THREE RECORDED 5-CENT MEMPHIS PROVISIONAL TÊTE-BÊCHE PAIRS ON COVER, AND THE ONLY RECORDED COVER WITH THE STAMPS FOOT TO FOOT.

If we count only the tête-bêche \textit{printing} varieties and exclude the multiples which contain sideways positions on the plate, there are just three recorded examples of the Memphis 5c provisional tête-bêche. Each is a pair on cover, and each shows a unique orientation. The vertical pair on the cover offered here has the impressions aligned foot to foot. The other two are a head-to-head vertical pair (offered in the following lot) and a side-to-side horizontal pair. These tête-bêche multiples were created during the work-and-turn printing process. They differ from the sideways tête-bêche multiples, which reflect the unusual 5c plate layout (see lot 1050). The sideways multiples are only known in unused condition.

The stamp to the left (as positioned on this cover) shows some of the plate marks of Position 45 (Pratt named this Position 37 in his plating diagram, because he assigned “S” numbers 1-10 to the sideways positions). If we imagine the second plate impression on the same sheet of paper to be turned 180 degrees and aligned below the bottom row, then the adjacent stamp (to the right on this cover) would be Position 47 (Pratt’s Position 39). Neither Pratt nor we have been able to analyze Position 47 (or 48) for plating marks (they are missing from the block of 37 in lot 1050). However, the alignment between the full impression and the small portion of the adjoining stamp to the right, which is visible in the margin, does not match the alignment of any two of the other known positions in the bottom row. Therefore, by process of elimination, it seems almost certain that this pair comes from one of the two Position 45/47 vertical tête-bêche pairs in the original sheet.

The addressee, Mrs. Mary W. Nash, is addressed in care of Reverend James W. Moore. Reverend Moore’s papers are located at the Austin Seminary Archives at the Austin Presbyterian Theological Seminary. The Seminary’s website provides a biography of Reverend Moore:

“Rev. James Wilson Moore (1797-1873) was the first Presbyterian minister to preach and settle in Arkansas and is known as the father of Presbyterianism in Arkansas. After studying at the Theological Seminary at Princeton, he was licensed to preach in 1827 by Northumberland Presbytery in Milton, Pennsylvania and then ordained as a missionary to Arkansas. In January of 1828 he preached the first Presbyterian sermon in Little Rock, which was then in the Territory of Arkansas. Moore married Elizabeth G. Green of New Jersey in 1830, and in 1840 the family settled in a country home Moore named ‘Ruralia,’ about thirty miles east of Little Rock. There Moore established a school for boys called Sylvania Academy where he taught for the next 25 years.”

One of Three Recorded Memphis 5-cent Tête-Bêche Pairs on Cover

1052  Memphis Tenn., 5c Red, Tête-Bêche Pair (56X2a). Produced from one of the two head-to-head vertical tête-bêche pairs from Positions 5/7 in the top rows of two impressions, clear to large margins on two sides, just touched or in on others, tied by neat “Memphis Ten. Aug. 20, 1861” circular datetamp on buff cover to Miss Sarah Barron, in care of R. H. Barron at Bayou Sara La., pair affixed over manuscript “Via New Orleans” route directive (Bayou Sara was a dockside settlement about 100 miles from New Orleans), vertical file fold clear of stamps, small edge tears, one of which affects stamps.

FINE AND RARE. ONE OF ONLY THREE RECORDED TÊTE-BÊCHE PAIRS ON COVER, AND THE ONLY COVER RECORDED WITH THE STAMPS HEAD TO HEAD.

If we count only the tête-bêche printing varieties and exclude the multiples which contain sideways positions on the plate, there are just three recorded examples of the Memphis 5c provisional tête-bêche. Each is a pair on cover, and each shows a unique orientation. The vertical pair on the cover offered here has the impressions aligned head to head. The other two are a foot-to-foot vertical pair (offered in the preceding lot) and a side-to-side horizontal pair. These tête-bêche multiples were created during the work-and-turn printing process. They differ from the sideways tête-bêche multiples, which reflect the unusual 5c plate layout (see lot 1050). The sideways multiples are only known in unused condition.

One of Three or Four Known Combinations of the Memphis Provisional Adhesive and Envelope

1053  Memphis Tenn., 5c Red (56X2). Ample margins to touching at bottom, bottom right corner torn before use and vertical crease at top, tied by “Memphis Ten. Aug. 1?, 1861” circular datestamp on 5c Red on Amber entire (56XU2) to Dr. James M. Brewer in Yorkville Tenn., two mended nicks at top of entire (clear of stamps)

VERY FINE APPEARANCE. MEMPHIS IS THE ONLY POST OFFICE REPRESENTED BY COVERS COMBINING THE POSTMASTER’S PROVISIONAL ADHESIVE AND PRINTED ENTIRE. THIS IS ONE OF THE FINEST OF THREE OR FOUR COMBINATION COVERS KNOWN TO US.

Three Confederate post offices issued provisional adhesive stamps and printed entire concurrently: Charleston S.C., Lynchburg Va. and Memphis Tenn. Of the three, only a few Memphis entire are known with an additional 5c provisional stamp for the 10c rate. In this case, the distance between Memphis and Yorktown — just over 100 miles — was well under the 500-mile limit for 5c. Therefore, the weight must have exceeded one-half ounce.

1054  **Memphis Tenn., 5c Red on Amber entire (56XU2).** Provisional printed partly off top of cover, cancelled by “Memphis Ten. Sep. 4, 1861” circular datestamp to Gaines Landing Ark., well-struck Memphis “Due 5” handstamp and also manuscript “Due 5”, expertly restored

VERY FINE APPEARANCE. A STRIKING EXAMPLE OF THE 5-CENT MEMPHIS PROVISIONAL ENTIRE ON AMBER. VERY UNUSUAL WITH BOTH THE MISPRINTING AND THE “DUE 5” MARKINGS.

The distance between Memphis and Gaines Landing is under 500 miles, so this was charged the extra 5c for excess weight, or perhaps the misprinted provisional was not accepted.

1055  **Memphis Tenn., 5c Red on Cream entire (56XU4).** With 10c Blue, Die A (11) affixed over printed provisional stamp and tied by “Chattanooga Ten. Aug. 27” (1863) circular datestamp, addressed to Mebanesville N.C., barely reduced at left and trivial edgewear

VERY FINE. THE ONLY RECORDED EXAMPLE OF THE RECENTLY-LISTED MEMPHIS PROVISIONAL ENVELOPE ON CREAM PAPER. THIS ENVELOPE WAS USED AS STATIONERY AFTER THE FALL OF MEMPHIS.

This is an August 1863 use from Chattanooga just before Confederate forces evacuated the city in September 1863. Memphis had fallen in June 1862, and this envelope was probably carried out by a civilian fleeing the city.

Lloyd Bowers, Postmaster

Lloyd Bowers was the postmaster of this strategically important Confederate port city during the war. He was one of the first postmasters to issue provisional stamps, and his decision to use the lithographic printing process places him in the company of only two other postmasters: Alfred Huger of Charleston S.C. and Stephen W. Murley of Livingston Ala.

Bowers’ stamps have been intensively studied over many years. The most recent work by Van Koppersmith has resulted in progress toward a complete understanding of the sizes and layouts of the lithographic stones used to print the 2c and 5c Mobile provisionals. Koppersmith’s articles on the Mobile provisionals can be found in the *Collectors Club Philatelist* (September-October 2005) and the *Confederate Philatelist* (April-June 2010).

The 2c and 5c sheets have multiple imprints below the bottom row which read, “Eng. & Pri. by W. R. Robertson Mobile.” William R. Robertson was an engraver and lithographic printer in Mobile, and current scholarship identifies him as the person solely responsible for creating the lithographic stones and printing the provisional.

A pair in the Tapling collection at the British Library has a large top sheet margin with part of an imprint which reads, “(exclusively at the Mobile Post Office.” This wording is almost identical to the imprint on the New Orleans provisional sheet, “Usable exclusively in the New Orleans Post Office.” Postmaster Bowers must have seen the sheets used by his colleague down river, Dr. Riddell, and adopted the same instructive imprint for his provisional issue.

The same design was used for the 2c and 5c denominations. The central design element is a five-point hollow star with the numeral value in the blank center. The areas between the points of the star feature figurative symbols of the South and Mobile’s marine heritage: young sailors in hats holding oars, a woman holding a rope attached to a large anchor, another woman holding a sickle, and an anchor and plow below the star. Only two Confederate post offices, Livingston and Mobile, issued stamps with a figurative design specifically created for stamps (the Danville postmaster used a stock image for his provisional envelopes). It is almost certain that the same printer — William R. Robertson — was responsible for both the Livingston and Mobile stamps.

By identifying plating marks on sheet-margin stamps and vertical multiples, Koppersmith has determined that the 5c stone was five horizontal rows in height. He has speculated that the layout might have followed New Orleans: five horizontal rows by eight vertical columns.

One of Finest 2-cent Mobile Provisional Covers Extant

1056 ☞ Mobile Ala., 2c Black (58X1). Huge margins all around showing parts of adjoining stamps at left and bottom, beautiful intense shade and impression, natural wrinkle from application, tied by bold “Mobile Ala. EXCEEDINGLY RARE USE OF THE 2-CENT MOBILE PROVISIONAL ON A CIRCULAR-RATE COVER AND ARGUABLY THE FINEST SINGLE-FRANKING EXTANT.

The Crown census records only 23 covers with the 2c Mobile provisional. A survey of auction records shows a small number of four-margins stamps on sound covers, and none as fine as this stamp and cover.

**One of Two Recorded Strips of Four of the Mobile 5-cent Provisional**

**Mobile Ala., 5c Blue (58X2).** Horizontal strip of four, full to large margins all around, **razor cuts between the stamps to facilitate separation (a form of perforation)**, bright color, tied by two perfect strikes of “Mobile Ala. Aug. 30, 1861” double-circle datestamp on yellow cover addressed to Mrs. John J. Walker, Choctaw Agency, Oktibbeha County, Mississippi, quadruple 5c rate for distance under 500 miles, vertical crease in cover far to the right of the strip, slightly reduced at top and most of backflap removed.

**EXTREMELY FINE. THIS HORIZONTAL STRIP AND ANOTHER VERTICAL STRIP ON COVER ARE THE LARGEST RECORDED MULTIPLES OF THE MOBILE 5-CENT PROVISIONAL. THIS IS ALSO ONE OF TWO RECORDED MOBILE PROVISIONAL MULTIPLES WITH THE RAZOR-CUT PERFORATIONS — THE OTHER IS A PAIR ON COVER. AN OUTSTANDING FRANKING OF ONE OF THE MOST ELABORATE PICTORIAL STAMPS ISSUED BY ANY AMERICAN POSTMASTER.**

This cover comes from the wartime correspondence between Major John J. Walker of the 20th Division Headquarters Staff, Army of Tennessee, and his wife Maria Walker. The original letters are located in the archives of Mississippi State University Libraries. Major Walker and his wife lived in Choctaw Agency, located in Oktibbeha County, Mississippi. Oktibbeha is a Native American word meaning either bloody water (because of a battle fought on the banks) or possibly icy creek (http://library.msstate.edu/specialcollections/manuscripts/civilwar.asp).

The Crown book lists two strips of four and two strips of three. The two strips of four exist in vertical and horizontal form, each on cover. The only strip of three on cover is offered in the following lot. There is another strip of three on piece (ex Caspary). The "strip of five" on cover listed in the Scott Catalogue was based on a report by Charles J. Phillips, which all specialists now agree was incorrect.

Van Koppersmith records four covers with the 20c rate paid by Mobile provisionals: the two aforementioned covers with strips of four and two other covers, each with two pairs.

Aug. 9, 1861” double-circle datestamp on yellow cover with Walker, Mead & Co.’s blue belt-shaped corner card, addressed to Mrs. John J. Walker, Choctaw Agency, Oktibbeha County, Mississippi, triple 5c rate for distance under 500 miles (1-1½ ounce letter), very minor repaired edge tears at top, small sealed tear barely into margin of strip — neither of these trivial flaws mentioned on certificate — otherwise in excellent condition

VERY FINE APPEARANCE. THE SECOND LARGEST RECORDED MULTIPLE OF THE MOBILE PROVISIONAL ON COVER AND ONE OF TWO RECORDED 15-CENT RATE COVERS WITH THE MOBILE PROVISIONAL. THIS IS THE ONLY 15-CENT RATE COVER WITH AN INTACT STRIP OF THREE.

This cover comes from the wartime correspondence between Major John J. Walker of the 20th Division Headquarters Staff, Army of Tennessee, and his wife Maria Walker. The original letters are located in the archives of Mississippi State University Libraries. Major Walker and his wife lived in Choctaw Agency, located in Oktibbeha County, Mississippi. Oktibbeha is a Native American word meaning either bloody water (because of a battle fought on the banks) or possibly icy creek (http://library.msstate.edu/specialcollections/manuscripts/civilwar.asp).

There is another strip of three on piece (ex Caspary). The “strip of five” on cover listed in the Scott Catalogue was based on a report by Charles J. Phillips, which all specialists now agree was incorrect.

Covers with 15c postage paid by Confederate States stamps are very rare, because the triple 5c rate for distances under 500 miles (1-1½ ounce letter) was only in effect for thirteen months, from June 1, 1861, to June 30, 1862. On July 1, 1862, the distance provision was eliminated, and the rate for a letter up to one-half ounce became 10c.

Vertical pair from the two bottom left corner positions on the stone, with huge left sheet margin and part of bottom sheet margin, rough separation but margins are mostly large at right and bottom, tiny margin tear at upper right, tied by two clear strikes of “Mobile Ala. Oct. 14, 1861” double-circle datestamp on cover to Florence Ala., from the Simpson correspondence, double 5c under-500 miles rate.

EXTREMELY FINE. A MAGNIFICENT CORNER-MARGIN PAIR OF THE MOBILE 5-CENT PROVISIONAL, WHICH HELPED TO ESTABLISH VAN KOPPERSMITH’S CONCLUSION THAT THE STONE LAYOUT WAS FIVE ROWS IN HEIGHT.

Van Koppersmith’s article in the Confederate Philatelist (April-June 2010) analyzes multiples and plateable stamps from the left column of the sheet and establishes beyond doubt that the Mobile 5c stone was five horizontal rows in height. The pair on this cover, apart from its superb quality, was used in Koppersmith’s analysis.

Mobile 5-cent Provisional Postmarked at Montgomery, Alabama

1063 § Mobile Ala., 5c Blue (58X2). Large side margins, ample at bottom, slightly cut in at top, bright shade, tied by “Montgomery Ala. Nov. 25, 1861” circular datestamp on cover addressed to local Montgomery resident, waterstains away from stamp.

FINE. ONE OF TWO RECORDED COVERS WITH THE MOBILE 5-CENT PROVISIONAL ACCEPTED FOR POSTAGE AT A POST OFFICE OTHER THAN MOBILE. THIS IS THE ONLY ONE POSTMARKED AT MONTGOMERY, ALABAMA.

Two covers are recorded with Mobile provisionals postmarked at other post offices. One is a January 1862 cover to Shelby Springs Ala. with the stamp tied by a Claiborne Ala. datestamp (Claiborne is 90 miles north of Mobile on the Alabama River). The other is the cover offered here, postmarked at Montgomery, about 170 miles north of Mobile. Because New Orleans and Baton Rouge accepted each office’s stamps, it is believed that the Mobile postmaster made similar arrangements with postmasters along the Alabama River.

William D. McNish was postmaster of Nashville during the turbulent period in May-June 1861 when Tennessee seceded and joined the Confederacy. Torn between his sworn oath as a U.S. postmaster and his loyalty to the Southern cause, McNish resigned but was careful to settle his U.S. post office accounts in full. McNish had anticipated the problems that would arise from the C.S.A. government’s delay in issuing postage stamps, and he took the initiative in preparing his own provisional stamps.

According to information contained in an article by Earl Antrim (Confederate Philatelist, June 1963), which Antrim stated “came from a memorial pamphlet put out by the Nashville Post office in March 1896,” Postmaster McNish ordered a local Nashville engraver named Dan Adams to make three plates from which 3c, 5c and 10c stamps could be printed. The 1896 publication also states that the stamps were printed at the offices of the Nashville Daily Gazette. This information is confirmed in an article by Jerry Palazolo, based on archival material in the Knoxville Public Library (“Insight into the Postal Operations of Nashville,” Confederate Philatelist, November 1969).

The U.S.-rated 3c stamps were printed in Red from a typeset form of five, and they were probably ready shortly after June 17, 1861. Since the new C.S.A. rates were already in effect, McNish’s 3c stamps were never used. The 5c and 10c engravings were made in wood, from which stereotypes were created to build up the printing plates.

Powell’s study of the 5c Nashville (“Plating the Nashville Provisional,” Confederate Philatelist, January-March 2008) reached the conclusion that the stereotypes were made in groups of six units, three wide by two tall. Working with photographs of the ex-Caspary tête-bêche blocks of twelve (lots 313 and 314) and the strip of five on cover (Siegel Sale 874, lot 116), Powell determined that the printing plates had to have been built up from 3-by-2 stereotype groups. Based on plate flaws unique to specific positions, Powell also concluded that the plate size was no less than 18 subjects, made from at least three six-unit stereotype groups, and that more than one plate was made. The pair offered in lot 1065 is proof that the stereotype “positions” determined by the ex-Caspary blocks were shuffled during the creation of additional stereotype groups, because this pair shows “Position 2” above “Position 1,” not to the right of it, as in the ex-Caspary block (lot 313). The tête-bêche arrangement in printed sheets occurred when one impression was made, then the sheet was turned 180 degrees, and a second impression was made.

The 5c and 10c provisionals were placed on sale on July 19, 1861. The 10c stamps are found in a fairly uniform shade of Green (always deep or dark). The 5c stamps come in a wide range of colors: a distinctive and rare Fiery Orange Red (lot 1064 in this sale); Brick Red (slightly orange); Carmine (lipstick red); Violet Brown (purplish brown with significant variation from light to dark); and Gray (with a slight bluish or brownish cast), which is as rare as the Fiery Orange Red. General Issue stamps reached Nashville in the late Fall of 1861, and Nashville fell to Federal forces at the end of February 1862 and continued to be occupied by the U.S. forces through the end of the war.

EXTREMELY FINE. A MAGNIFICENT AND INCOMPARABLE PAIR OF THE NASHVILLE 5-CENT BRICK RED PROVISIONAL ON COVER.

Aug. 21, 1861” circular datestamp on Hanging Lincoln Cartoon cover to “Messrs. B. S. W. Gafford & Co., Undertakers, Camden, Madison Cty., Miss.”, reduced at right, faint stain spots, minor edge wear

VERY FINE. ONLY TWELVE EXAMPLES OF THE CELEBRATED HANGING LINCOLN ENVELOPE ARE RECORDED. THIS IS THE ONLY EXAMPLE WITH A SOUTHERN POSTMASTER’S PROVISIONAL STAMP. ONE OF THE MOST CELEBRATED AND OUTSTANDING OF ALL CIVIL WAR ERA COVERS.

The Hanging Lincoln design is widely recognized as the most distinctive of all Civil War patriots. In this extraordinary cartoon, President Lincoln is hanging upside down from a tree limb, with his symbolic axe and fence rail tied around his neck. The caption reads “Abe Lincoln the destroyer. He once split Rails. Now he has split the Union.” To the left and right is the caption “The penalty of disregarding the constitution. Impeached, deposed, Tried and convicted” (there is a spelling correction from “diposed” to “deposed”). Standing beside Lincoln is a mustachioed Winfield Scott, labeled “Old Fuss n Feathers”, dropping his sword and exclaiming “My glory is gone for ever.” On the ground is the Union flag, captioned “The stars and stripes lie in the dust, Never to rise.” A star at left has the caption “The southern star is rising” and the Confederate 11-star flag towers above with the caption “The stars and bars shall for ever wave triumphant.” Along the bottom is the imprint “Copyright claimed. HM & WC Box 417 Nashville Tenn.” Despite continuing investigation, we have been unable to uncover the identity of the publishers “HM & WC.”

There are currently twelve recorded examples of the Hanging Lincoln cartoon envelope, all used within the Confederacy. This is the only one with a Postmaster’s Provisional paying postage.

Adams Express Company was required to ensure the prepayment of government postage (Federal and Confederate), although the letter was carried outside the regular mails. Very few covers are recorded with Confederate provisional stamps or markings used in conjunction with across-the-lines express service. This group includes the provisionals of Atlanta (handstamp), Houston (handstamp), Lynchburg (press-printed entire), Memphis (adhesive), Mobile (adhesive), Montgomery (handstamp), Nashville (adhesive and handstamp) and New Orleans (adhesive).

Only three across-the-lines express covers are recorded with the Nashville 10c adhesive provisional (Special Routes Census Nos. S-AD-44, 45 and 46), all dated at Nashville on August 1. Only two of the 10c covers are mixed frankings (the third is used alone). These two Nashville 10c mixed-franking covers carried by Adams, both North-to-South usages, are the only 10c adhesive Confederate provisionals known in combination with United States postage. As such, they are quite significant artifacts from this remarkable period of postal history.

Our records contain six genuine covers with the Nashville 10c Green provisional:
2) Tied by Sep. 15, 1861, Nashville datestamp, to Shelbyville Tenn., ex Caspary
3) 5c & 10c used together, tied by Aug. 21, 1861, Nashville datestamp, to D. Cleage, Athens Tenn., ex Caspary, Lightner, Graves and Boshwit
4) Tied by Aug. 1 (1861) Adams Express oval, used on 3c Star Die entire to Rev. Leavenworth, Petersburg Va., ex Kilbourne and Walske, the cover offered here
5) Tied by Aug. 1 (1861) Adams Express oval, used on 3c Star Die with additional 3c 1857, to Albert F. Ryan, Norfolk Va., ex Gallagher
6) Tied by “10” rate handstamp, Sep. 18, 1861, Nashville datestamp, on building corner card cover to Thos. H. Caldwell, Shelbyville Tenn., ex Needham, Kimmel, Haas and Rudy

The addressee, Reverend Abner Johnson Leavenworth, was at this time the principal and proprietor of the Leavenworth Academy and Collegiate Seminary for Young Ladies.

New Orleans, Louisiana  
John L. Riddell, Postmaster

John Leonard Riddell (1807-1865) was a scientist, inventor (the binocular microscope is to his credit), melter and refiner of the New Orleans Mint (1838-1848), and, from August 1, 1860, to February 19, 1863, the New Orlean's postmaster. Riddell owned slaves, but was opposed to secession. After Louisiana joined the Confederacy, and the new government’s postal system was inaugurated, Riddell was replaced as C.S.A. postmaster by two different men, but neither one was confirmed, so Riddell continued to perform his duties, including the issuance of provisional stamps.

On June 6, 1861, Postmaster Riddell placed an order for stamps with John V. Childs, an engraver and printer located at 10 Camp Street. The 5c Brown stamps were delivered on June 12, and one cover is recorded with a June 12 datestamp. 2c Red stamps were printed from a plate without the imprint, but these were evidently withheld from sale until January 1862. The 2c stamps in Blue were printed from plates with the imprint, and these were issued in late June or early July. Although 10c stamps were initially ordered, they were not printed. Handstamped envelopes were also sold as provisionals.

The stereotype plate of 40 subjects was arranged in five rows of eight. Imprints at the top and bottom of the 5c sheet read “Usable exclusively in the New Orleans Post Office.” On the 2c Blue sheet, a similar imprint appears at top and a three-line imprint at bottom explains the rates paid by a 2c stamp. The “exclusively” imprint is thought to have been added to the plates after Postmaster Riddell received complaints from other postmasters about attempts to use the stamps outside New Orleans. It was copied by the Mobile postmaster, Lloyd Bowers, when he ordered his own provisional stamps from a local printer.

Several different printings of the adhesive provisional stamps were made in 1861, including a color change for the 2c and some color variation for the 5c. The earliest and latest recorded dates for the different stamps are listed in the table below (adapted from Dr. Hubert C. Skinner’s 1978 Congress Book article):

The New Orleans provisionals exist in large numbers relative to other post offices’ stamps. The variety of New Orleans provisional printings and postal uses enables philatelists to form collections to a level of depth that is not possible for any other Southern post office.
One of Two Recorded Bottom Imprint Examples of the New Orleans 2-cent Provisional

1073 ★ New Orleans La., 2c Blue (62X1). Vertical pair, Positions 27/35, large margins with traces of adjoining stamps at left and part three-line imprint at bottom, just clear at top right, original gum, tiny h.r., horizontal creases thru top stamp, between stamps and in margin where it ends in small paper breaks, otherwise Very Fine, one of two recorded examples of the 2c Blue with bottom imprint, ex Caspary and Dr. Skinner, with 2001 P.F. certificate ................. Block of four, Positions 7-8/15-16, unused (no gum), full to large margins all around with traces of adjoining stamp at bottom and sheet margin at top right, few horizontal creases mostly between stamps not mentioned on accompanying certificate, small faint toned spots and natural inclusions

VERY FINE APPEARANCE. THIS IS THE LARGEST RECORDED MULTIPLE OF THE NEW ORLEANS 2-CENT BLUE POSTMASTER'S PROVISIONAL.

Our records contain just one other block, which is very defective. This block is illustrated in Dr. Skinner’s 1978 Congress Book article. Ex Caspary, Dr. Graves, Weill and Dr. Skinner. With 2001 P.F. certificate ................. Scott Value $6,500.00
New Orleans 2-cent Blue Provisional on Circular-Rate Cover

New Orleans La., 2c Blue (62X1). Large margins almost all around, just touching frameline in two places, distinctive bright shade and early impression on crisp white paper, tied by perfectly struck “New Orleans La. 29 Jul.” (1861) circular datetstamp on manila cover to Thomas P. Street in Liberty Miss., with original printed wholesale prices current enclosure

EXTREMELY FINE. WITHOUT QUESTION ONE OF THE FINEST NEW ORLEANS 2-CENT BLUE COVERS WE HAVE EVER ENCOUNTERED.

Approximately 30 covers are known with the 2c Blue (27 in Crown census), including circular rates and drop rates. More than half of the covers have stamps without four margins or faults in the stamp or cover. This is one of the most pristine covers we have seen.

The Only Recorded Example of the New Orleans 2-cent Blue Printed on Both Sides

New Orleans La., 2c Blue, Printed on Both Sides (62X1a). Very Fine stamp, used with normal 2c Blue (62X1), huge margins showing parts of three adjoining stamps, slightly in on two sides, both tied by clear “New Orleans La. Sep. 1” (1861) circular datetamp on fresh unsealed cover to Burtonton Miss., double 2c circular rate, the error has been lifted to show both sides

EXTREMELY FINE. THE ONLY RECORDED EXAMPLE OF THE 2-CENT PRINTED ON BOTH SIDES ERROR IN EXISTENCE. AN IMPORTANT PROVISIONAL RARITY AND KEY ITEM OF THE NEW ORLEANS POSTMASTER’S ISSUE.

Our records and the Crown census contain only one example of the 2c printed-on-both-sides error, which is the stamp on this cover. The old Dietz catalogue also lists an unused single and single on cover, but there is no basis for those entries.

The Crown book (page 264) contains the following quote from Charles J. Phillips: “In May 1890, the Scott Stamp & Coin Co. sold at auction the collection of my old friend C. B. Corwin. In this sale there was: 2c blue, a pair [sic] cancelled on cover, one stamp of the pair was printed on both sides. This unique item sold for $27.00! I do not know its present location.”

One of Two Recorded Covers with a Combination of Two Different Denominations of Southern Postmasters’ Provisionals

1078 ☷ New Orleans La., 2c Blue, 5c Red Brown on Bluish (62X1, 62X4). Three 2c and one 5c, each with large margins to slightly in on one side, bright colors, tied together by four strikes of “Paid” cancel, full clear strike of “New Orleans La. 1 Oct.” (1861) circular datestamp on cover to Dr. Peyton Grimes in Orange Court House Va., part of backflap removed, tiny tear in first 2c at left, opening tear into datestamp has been skillfully sealed, some very minor cosmetic improvements along top edge of cover.

VERY FINE APPEARANCE. THIS IS THE ONLY RECORDED COVER WITH BOTH DENOMINATIONS OF THE NEW ORLEANS POSTMASTER’S PROVISIONAL ISSUE. ONLY TWO COVERS ARE KNOWN WITH DIFFERENT SOUTHERN PROVISIONAL ADHESIVES USED TOGETHER, THIS BEING THE ONLY 2-CENT COMBINATION. A SPECTACULAR COVER AND OF THE UTMOST IMPORTANCE IN AMERICAN PHILATELY.

Combination frankings involving two different stamps are extremely scarce in Confederate philately. Even among the General Issues, covers showing 2c, 5c and 10c stamps used in any kind of combination are elusive, and those involving 2c stamps are exceedingly rare. We know of only two Confederate provisional combination covers: the Nashville Tenn. 5c and 10c combination, ex Caspary, Lightner, Graves and Boshwit (Siegel Sale 940, lot 357, realized $85,000), and this New Orleans 2c and 5c combination. The Nashville cover is a three-times 5c rate and has been skillfully reduced and restored. This New Orleans cover was prepaid at the 10c rate for distance over 500 miles (1c overpayment).

A Note Regarding the New Orleans 2-cent Red Covers in the D.K. Collection

The New Orleans 2c Red provisional is extremely rare on cover and has always been highly prized by collectors (it has a current Scott value of $25,000.00). Therefore, one might wonder what the thinking was behind D.K.'s decision to acquire three of the ten recorded covers.

The answer is color. If one compares the three stamps on each cover, there is a noticeable shade variation from one to the other. These were considered complementary to the five examples of the 5c Red Color Error in the collection (lots 1100-1104), of which seven are known in a range of shades on two different kinds of paper. The mixing of ink produced these color variations, and the 2c Red covers in the collection are actual used and dated examples of the different shades. Owning all of them makes philatelic sense.

There has never been a holding of New Orleans 2c Red covers of this quality and quantity. It surpasses even the great Alfred H. Caspary collection by one cover.

New Orleans 2-cent Dark Red on Circular-Rate Cover

New Orleans La., 2c Red (62X2). The 2c Red stamps were printed without the marginal inscription “Usable exclusively in the New Orleans Post Office”. The 5c and subsequent 2c Blue printings all have the imprint. It is the accepted theory that the 2c Red stamps were printed first, before Riddell added the imprint, and were withheld from use until January 1862 when the supply of 2c Blue stamps was exhausted. The Crown book lists six 2c Red covers, while Dr. Hubert C. Skinner (Congress Book, 1978) recorded eight covers. We have located ten covers.

Only One Other Such Combination Is Recorded, and This Is the Finer of the Two. An Important Postal History Artifact from Several Perspectives.**

This folded notice of Protest was dated June 14, 1861, by the notary public in New Orleans, Octave de Armas, and mailed to James Lester in Eddyville, Kentucky. It was probably postmarked at the New Orleans post office on the following day (June 15), but this type of circular datetamp (with large serif letters) is often difficult to read; in this instance, the day of the month is illegible. By the time this letter reached Nashville on or about June 17, the U.S. mail agent had already been withdrawn from the route between Nashville and Louisville (the last regular mail run was on June 12). On June 15, the Nashville postmaster, W. D. McNish, started to forward mail to Louisville by using the American Letter Express Company, who brought the mails across the lines and deposited them in the Louisville post office. This letter was among the first group of mail forwarded by express under this unusual arrangement.

Starting June 13, the Louisville postmaster, Dr. John J. Speed, decided to hold the north-bound mail received from Nashville, rather than divert it to the U.S. Dead Letter Office. Speed sent a request to Washington D.C. for instructions on how to handle the mail that was rapidly accumulating. When this letter arrived in Louisville on June 19, it was held until Postmaster Speed received instructions from the U.S. Post Office Department, which were wired on June 24, advising him to “forward letters from the South for the loyal states as unpaid after removing postage stamps...” Since it was impractical to remove stamps from all of the letters (although apparently that was attempted at first), Postmaster Speed created the “Southn. Letter Unpaid” marking to explain to the addressees that the U.S. stamps applied by the senders were invalid for postage. The first group of mail to be released with the “Southn. Letter Unpaid” marking was actually the mail received at Louisville by private express between June 17 and 25, which included the cover offered here. This group was released on June 25, but none of these letters was postmarked with the Louisville datestamp.

There are 29 “Southn. Letter Unpaid” covers recorded in the Special Routes book (No. 25 has been deleted as a fake since publication), only two of which have a Southern Postmaster’s Provisional stamps (both New Orleans). There is one other New Orleans provisional cover known that was addressed to Louisville, carried by American Letter Express from Nashville, but it bears only the “Due 3” marking and was not marked “Southn. Letter Unpaid” because it was delivered locally in Louisville.

New Orleans La., 5c Red Brown on Bluish (62X4). Oct. 4, 1861 folded letter — part-printed legal notice — originally franked with four 5c provisional stamps (one cut out from upper right and replaced with another stamp) — used in combination with pair of United States 3c Dull Red, Ty. III (26), all original stamps tied together by three strikes of “Paid” cancel, “New Orleans La. 6 Oct.” (1861) circular datetamp also ties two 5c stamps, manuscript “Due 6 cts.” for U.S. postage — demonetized 3c 1857 pair not recognized — with significant note written on inside panel, which reads: “Notices of Protest similar to the within to [list of names] by me received this 12 April 1862 and placed in the Post Office at Georgetown Ky. Postage paid & in time for next mail. Noah Spears NPLC.”, files folds, minor stamp faults

A REMARKABLE ACROSS-THE-LINES USE FROM NEW ORLEANS TO GEORGETOWN, KENTUCKY, CARRIED WELL AFTER MAIL EXCHANGE BETWEEN THE NORTH AND SOUTH WAS TERMINATED.

With the suspension of government mail exchange between Louisville and Nashville in June 1861, the express companies assumed the primary role in carrying letters across the lines. Such service was outlawed with the Federal ban on all commerce and exchange on August 26. This letter and other similar notices — as described in the contemporary endorsement — were sent from New Orleans to Georgetown, Kentucky, on October 4, 1861, weeks after express companies were banned from carrying such mail. The sender apparently expected that the double Confederate postage and double United States postage would assure its delivery. However, not only were the U.S. stamps invalid, the express companies were no longer carrying mail across the lines.

It is unclear how the letter reached Noah Spears (1793-1868), nor do we know his function. Some genealogical information about Spears can be found on the internet:

“...in 1853, he again established himself in business, opening a store in Georgetown, for the sale of dry goods, boots and shoes, etc., which he carried on successfully for some time. In 1860 he was appointed clerk in the Framer’s Bank, at Georgetown, and in 1868, he was elected cashier; which position he still fills. During the war he felt that it was his duty to support the Union, but, nevertheless, his sympathies were strongly Southern. Being unable to resist the natural current of events, however, he took no active part in the struggle, but was afterward arrested, owing to an overstrained interpretation of a Federal order, and lodged in prison; but after a short time, was released upon the interference and solicitations of friends, who were both numerous and warm.”

The New Orleans 5-cent Red Color Error

There is only one true color error among all Southern Postmasters’ Provisionals: the New Orleans 5c Red, which is found on both White and Bluish papers.

In his 1978 Congress Book article, Dr. Hubert C. Skinner theorized that either “too much red ink was introduced onto the platen in blending the brown ink or the components of the ink separated while the press was idle for a time.” This, he speculated, “produced a mottled impression on a very few sheets” and “would have been corrected as soon as the rollers passed across the platen a few times re-mixing or blending the ink.” The discovery of the hybrid Red-and-Brown stamp (lot 1101) confirmed Dr. Skinner’s theory. The ink mixture error had to have occurred more than once, because the stamps on White paper were printed in June, and the stamps on Blue paper were printed in August.

The five stamps presented in lots 1100 to 1104 constitute the largest number of the New Orleans 5c Red Color Error ever assembled by one collector. Each shade of Red is different, and together they provide an opportunity to see how five of the seven known copies compare to one another. Only two examples eluded D.K.: No. 1 listed below, the unused 5c Red on White, ex Ferrary, Hind and Brooks, which has not been seen since the 1943 Laurence & Stryker sale of the Brooks collection; and No. 3, a cut-in 5c Red on piece, which has not been seen publicly since it was photographed by Hiram Deats.

Our records contain the following examples of the 5c Red error:

Oakway, South Carolina
Jobbery Sanders, Postmaster

Jobbery Sanders was appointed postmaster of Oakway, South Carolina, in 1858 and continued as the town’s Confederate postmaster. Oakway’s population in 1861 was only 200, and the volume of mail was too small to justify a wood or metal cancelling device, so Postmaster Sanders simply postmarked mail by hand. His primitive handstamped adhesive provisional stamps were probably short-lived and used on a very limited basis prior to the arrival of General Issue postage.

The Oakway provisional stamp was discovered as early as 1907, but only since 1975 has it received Scott Catalogue recognition. Research by the late Daniel T. Gilbert, who owned the other Oakway cover (dated Oct. 9, 1861, ex Worthington), provided the historical evidence validating the provisional stamp. Soon after the Worthington-Gilbert cover was certified as genuine by The Philatelic Foundation, the September 18 ex-Ferrary cover was submitted for certification by the Weills on behalf of the owner, the Rev. Paul B. Freeland. The September 18 cover offered here has the “W.H.C.” mark of Warren H. Colson, the preeminent dealer of the first half of the 20th century. The cover was in Colson’s stock at the time of his death in 1963 and was acquired by the Weills; however, its existence was not widely known until 1976.

Mr. Gilbert established the validity of the Oakway provisional by traveling to South Carolina in 1974 and meeting J. B. Sanders, the postmaster’s grandson, who was 95 at the time. Sanders immediately recognized his grandfather’s writing and remembered him saying that he made up his own stamps before supplies of regular stamps arrived. Details of Gilbert’s findings were published in the Confederate Philatelist (September-October 1975), and news of the second cover (offered here) appeared in the November-December 1976 issue of the same publication.

During his term as postmaster Bass issued a 5c Red provisional adhesive stamp. The stamps were printed in Red from a typeset form of ten subjects at the offices of Andrew F. Crutchfield & Company, publisher of the local Petersburg newspaper, The Daily Express. The earliest recorded date of use is September 24, 1861, and the latest is dated in April 1862. Pittsylvania Court House, Virginia
James P. Johnson, Postmaster

James P. Johnson was appointed U.S. postmaster of Pittsylvania Court House (known as Chatham today) by President James Buchanan on January 20, 1859. He was appointed C.S.A. postmaster on July 29, 1861 (Richard L. Calhoun, *The Confederate Postmaster Provisionals of Virginia*). During his term as postmaster Johnson issued a 5c Red provisional adhesive stamp bearing his name. The typeset design is nearly identical to the Danville typeset provisional, and Danville’s postmaster, William D. Coleman, stated that his stamps were printed at the offices of the Democratic Appeal. For this reason philatelists assume that the same printer produced both postmasters’ stamps, substituting one name for the other. The Pittsylvania Court House stamps were printed on wove and laid papers. Dangerous counterfeits on wove paper were made from type and borders that closely resemble the originals, and these are often counted in census work. The count of genuine examples currently (and correctly) stands at 10 on Wove (66X1) and 3 on Laid (66X2). Details are provided in the descriptions of lots 1112 and 1113.

Very fine. One of three recorded Pittsylvania Court House 5-cent provisional stamps on laid paper, two of which have octagonal margins. One of the rarest and most outstanding of all Southern postmasters’ provisionals.

Ten Pittsylvania C.H. 5c provisionals are known on wove paper, but only three are recorded on laid paper (Scott 66X2). These are as follows:

1) Cut rectangular, Ty. I, cover to Secretary of the Commonwealth, Oct. 9, ex Worthington, Caspary, Lilly, Gallagher, Kilbourne and Gross
2) Cut to shape, Ty. I, cover to Geo. Rives, Feb. 1862, Siegel 1983 Rarities sale
3) Cut to shape, Ty. II, cover to Wm. T. Law, Dec. 20, the cover offered here

The date pattern does not indicate a specific time period for laid paper, and it is likely that the wove and laid papers were used interchangeably during the printing.

Pleasant Shade, Virginia
Robert E. Davis, Postmaster

The tiny town of Pleasant Shade had a population of 57 in 1860. Robert E. Davis was appointed U.S. postmaster by President James Buchanan on January 11, 1860. He was appointed C.S.A. postmaster on July 27, 1861, and was replaced by Eugene W. Spratley on July 14, 1863 (Richard L. Calhoun, *The Confederate Postmaster Provisionals of Virginia*).

Postmaster Davis had his provisional stamps printed at Andrew F. Crutchfield & Company, publisher of the local Petersburg newspaper, *The Daily Express*. This was the firm that printed the nearly identical Petersburg provisionals (see page 172). Crutchfield & Co. used five of the settings from the Petersburg form, substituting the names of the post office and postmaster, and printing the Pleasant Shade stamps in Blue instead of Red.

The Calhoun census, which accords with our own, records a total of 22 stamps, including an unused block of six, an unused vertical pair, seven unused singles, a used single off cover, a used single on piece, three singles on covers and one pair on cover. Details of the covers are provided in the description of lot 1114. The block and pair were reported by George B. Sloane to have been discovered in 1900 (Sloane’s Column, *Stamps*, Nov. 26, 1955).

Rheatown, Tennessee
David Pence, Postmaster

The 5c provisional stamps issued by C.S.A. Postmaster David Pence were printed by the same printer who produced the Tellico Plains, Tennessee, provisional. The June dates recorded for the Rheatown suggest that it came first, and the postmaster’s own recollections place the issue in “midsummer 1861” (see Crown book, page 307). Although dated examples show use into April 1862, a relatively long period of time, the issue is extremely rare. Details of the five recorded covers and one dated piece are provided in the description of lot 1115.

The same basic type form containing three subjects was used for the Rheatown and Tellico Plains provisionals. For the Rheatown, all three were 5c denominations. The inside border at the top of each stamp is made up of seven ornaments; the unique arrangement of these ornaments in each subject enables philatelists to identify the position of any stamp.

1116 Detail
Spartanburg, South Carolina  
Major John A. Lee, Postmaster

John A. Lee was a prominent merchant who served as postmaster of Spartanburg from 1850 through the end of the war. Residents of Spartanburg remembered him as the “Wartime Postmaster” (John B. O. Landrum, History of Spartanburg County, available at Google Books — thanks to Vince King for this citation).

Postmaster Lee created his provisional stamps by applying the “5” numeral rate marking inside the “Spartanburg S.C.” double-circle datestamp on a sheet of paper. The stamps are known cut square and cut to shape. As one might imagine, the stamps come on a variety of papers. Two types of “5” markings were used, and one example is known with the denomination omitted. The paper and numeral varieties are listed separately in the Dietz and Scott catalogues.

Spartanburg Provisional Used on Cover to a Member of the “Spartan Rifles”

VERY FINE. A CHOICE EXAMPLE OF THE SCARCE SPARTANBURG POSTMASTER’S PROVISIONAL ON COVER. APPROXIMATELY TWENTY COVERS ARE KNOWN.

Spartanburg S.C. takes its name from the “Spartan Rifles,” a group of militia soldiers during the Revolutionary War. The name was adopted by Confederate soldiers from Spartanburg during the Civil War.

Corporal Edward J. Dean and the Dean correspondence were the subjects of an article by the late Daniel M. Gilbert, published in the Confederate Philatelist.

Joseph Walker was enrolled as captain of the Spartan Rifles on April 13, 1861. Micah Jenkins, a resident of Yorkville, South Carolina, was mustered into service as colonel of the 5th South Carolina Volunteer Infantry Regiment in June 1861. He was elected colonel of the Palmetto Sharpshooters Regiment, South Carolina Volunteers, on April 13, 1862, and promoted to brigadier general in July 1862.

The Only Recorded Multiple of a Spartanburg Provisional

1118  

**Spartanburg S.C., 5c Black (78X1).** Vertical pair, cut to “8” shape with large margins virtually all around, touched at bottom, tied by one of three “Paid” handstamp strikes, matching “Paid” and “10” in circle handstamp, “Spartanburg S.C.” 1861 double-circle datetamp on orange-buff cover to “Corpl. Edwd. J. Dean, ‘Spartan Rifles’, 5th Palmetto Regt. So. Car. Vol., Coln. M. Jenkins, Commander, Tudor Hall P.O., Virginia, Care Capt. Jos. Walker, ‘Spartan Rifles’”, the pair is superb except for a lightly scuffed spot at center right (which seems to have been there prior to handstamping), very light cover horizontal crease barely affects pair, the cover is fresh and attractive, backflap removed and a bit rough at top, light vertical fold at left.

AN IMPORTANT AND VERY FINE COVER, BEARING THE ONLY RECORDED PAIR OF SPARTANBURG PROVISIONAL STAMPS — APPROXIMATELY TWENTY EXAMPLES ARE KNOWN ON OR OFF COVER.

Parham N. Booker, Postmaster

Uniontown’s postmaster at the start of the C.S.A. postal system was Parham N. Booker. Parham, one of eleven children, was the namesake son of a U.S. internal revenue officer. The senior Booker represented Madison County in the legislature in 1836 and moved to Uniontown sometime later. He became a planter and hotel keeper, and he also served as postmaster and mayor of the town. Booker Senior died in 1861, and we are not certain if both father and son ran the post office. Because of a permanent physical disability, Booker Junior did not serve in the Confederate Army, but served the government in a civil department.

Postmaster Booker issued three denominations of adhesive provisionals: 2c, 5c and 10c. They were probably typeset and printed at the offices of the local newspaper, the Weekly Herald. The same typeset form of four subjects was used to print all three values (although the spacing between subjects changed between two 5c printings). The numeral in parentheses between the “PA” and “ID” of “PAID” was changed for each value, and different color ink was used: Dark Blue (2c), Green (5c) and Red (10c). All three values were printed on Gray Blue paper, and the 2c and 5c are also known on White paper, which was probably used for subsequent printings. The 10c has not been found on White paper.

Each of the four different subjects is distinctive in the style and arrangement of the corner ornaments and hyphens in the letters “CSA”.

Position 1 (TL): Solid oval “Losenge” in all four corners, symmetrically arranged, “C-S-A”

Position 2 (TR): “Lobe” ornaments in top corners and “88 Loop” in bottom corners and beneath “PAID” — the only position configured as such

Position 3 (BL): Solid oval “Losenge” in top corners turned / / and turned \ \ in bottom corners, “-C-S-A-” label with hyphen before “C”

Position 4 (BR): Solid oval “Losenge” in all four corners, symmetrically arranged, “C-S-A-” label with hyphen after “A” but without hyphen before “C”

The addressee on this cover, Col. Andrew P. Calhoun, was the eldest son of the famous Southern statesman and States’ Rights advocate, John C. Calhoun. The correspondence containing three covers with Uniontown provisionals was found in Pendleton S.C. sometime shortly before they were reported in March 1934 by R. T. Freeman, a dealer in Atlanta Ga. who purchased the group. One cover has an enormous sheet-margin pair of the 5c on White (ex Caspary), and the two other covers have 10c stamps (Nos. 3 and 7 in the list above). This cover was illustrated in the March 24, 1934, Stamps article reporting the discovery, and the article stated that the cover has “already been sold.” If so, Daniel F. Kelleher was the buyer, and he in turn sold it in November 1934.

James A. Moody was appointed Victoria’s U.S. postmaster on May 22, 1846. He was appointed C.S.A. postmaster on July 12, 1861, and served until he was replaced by a U.S. postmaster in April 1865 (this information from Vince King).

Moody issued 5c and 10c provisional stamps bearing his name. All of the stamps were printed from a typeset form on green paper. The 5c and 10c settings with large numerals are quite similar in composition. A second 10c setting with a small italic numeral “10” was also used. The only Victoria provisional covers known are both franked with a single 10c with large numeral, dated March 30 and June 23, 1863 (the earlier cover is lot 1123 in this sale).

EXTREMEFLY FINE. ONE OF TWO RECORDED COVERS BEARING THE VICTORIA 10-CENT POSTMASTER’S PROVISIONAL, OF WHICH ONLY FIVE EXAMPLES ARE KNOWN. THE TWO 10-CENT COVERS ARE THE ONLY RECORDED COVERS FOR ANY OF THE VICTORIA PROVISIONALS.

Our records contain five examples of the Victoria 10c Type I (large thin numerals):

1) Mar. 30, 1863 cover to J. San Roman, ex Brooks, Weatherly, Kilbourne and Gross, the cover offered here
2) Jun. 23 (1863) cover to C. Hellenkamp, ex Caspary, Muzzy and Boker
3) Unused stamp with small repair, ex Hessel
4) A severely damaged stamp with one third of lower right missing when discovered by Albert Steves
5) Unused stamp with thin and horizontal crease ending in a small tear, from a recent find, ex Felton (Siegel Sale 1016, lot 646)

The two covers bearing the 10c Type I are the only covers recorded for any of the Victoria provisionals. The ex-Caspary cover was acquired by John R. Boker Jr. in the 1967 Muzzy sale and has not since been offered publicly. The cover offered here was acquired by Harold C. Brooks and sold to A. Earl Weatherly in another private transaction. Charles and Lucy Kilbourne acquired the cover directly from Weatherly in 1963. It was next sold in our 1999 Kilbourne sale and purchased by Charles and Tracy Shreve for William H.
