Auctioneer: Tracy L. Shreve, New York City Department of Consumer Affairs License #914454
Bidding
The following means are available for placing bids:

1) Attending the Live Auction in Person: All bidders must register for a paddle, and new bidders must provide references at least three business days in advance of the sale.

2) Live Internet Bidding: Instructions for participating as a Live Internet Bidder are provided on the page opposite.

3) Phone Bidding: Bidders can be connected to the sale by phone and bid through a member of staff. Requests for phone bidding are subject to approval (please contact our office at least 24 hours before the sale). A signed Bid Form is required.

4) Absentee Bids. All bids received in advance of the sale, either by mail, fax, phone, e-mail or internet, are Absentee Bids, which instruct the auctioneer to bid up to a specific amount on one or more lots in the sale. Absentee Bids sent by phone, fax or e-mail should arrive at least one hour prior to the start of the sale session. Bids entered through Live Internet Bidding will be visible to the auctioneer during the sale. Written bids should be entered legibly on the Bid Form in the sale catalogue. E-mail and internet bids should be carefully typed and double-checked. All new bidders must provide references. We recommend calling or e-mailing to confirm that Absentee Bids sent by mail, fax or e-mail have been received and entered.

Pre-Sale Viewing
Subject to availability, certain lots (except group lots) can be sent to known clients for examination. Requests must be made no later than 7 days prior to the sale. Lots must be returned on the day received. Postage/insurance costs will be invoiced. In addition to regular viewing, clients may view lots by appointment. Our staff will be pleased to answer questions or provide additional information about lots.

Expert Certification
Individual items offered without a PF or PSE certificate dated within the past five years may be purchased subject to independent certification of genuineness and our description. Please refer to the Conditions of Sale and Grading Terms for policies governing certification.

Shipping and Delivery
Procedures and charges for shipping lots are printed on the back of the Bid Form. Bidders are responsible for all prescribed shipping charges and any applicable sales tax or customs duties.

Price Realized
Prices realized are sent with each invoice. Bidders with e-mail will receive a Bid Results report after the sale. Session results are posted immediately to siegelauctions.com.
Live Internet Bidding at Siegel Auctions

BIDDING FROM YOUR COMPUTER LETS YOU BE PART OF THE LIVE AUCTION FROM ANYWHERE IN THE WORLD!

There’s NO SUBSTITUTE for following the auction in real time.
Live Internet Bidding lets you bid and buy as though you were right there in the saleroom.
And it’s easy.

This step-by-step guide will instruct you how to register, set your browser and use the bidding interface.

Start by following the simple steps to become a registered Live Internet Bidder.
Once you’ve been approved for bidding, you can listen to the auction and place bids with the click of a mouse.

Registering with STAMP AUCTION NETWORK & SIEGEL AUCTION GALLERIES

Live Internet Bidding is managed by Stamp Auction Network (SAN).
To bid, you must be registered and approved by both SAN and Siegel.
To decide what you need to do, choose the description below that best fits you.

I’ve already registered with SAN and have been approved by Siegel for internet bidding.

I’m a Siegel client, but I’m not registered with SAN.
Go to stampauctionnetwork.com/siegel and click on “Register” at the top. Check the box for Robert A. Siegel Auction Galleries (under “R”) and submit the form, indicating you are a Siegel client. Once registered at SAN, you’re ready for internet bidding.

I’ve bid through SAN before, but this is the first time I’ve bid in a Siegel sale.
Then you just need to be approved by Siegel. Go to stampauctionnetwork.com/siegel and click on “Update Registration” at the top. Your SAN account information will be sent to us for approval (you might be asked for other trade references). Once approved by Siegel for bidding, you’re ready for internet bidding.

I’ve never bid with Siegel, nor registered with SAN.
Go to stampauctionnetwork.com/siegel and click on “Register” at the top. Check the box for Robert A. Siegel Auction Galleries (under “R”) and submit the form with your trade references (please, no family members or credit card companies as references). Once registered at SAN and approved by Siegel for bidding, you’re ready for internet bidding.

“System Down” or “Lost Connection” events do occasionally happen.
If you have any problems with Live Internet Bidding please call 212-753-6421 for immediate assistance.

Live Internet Bidding works by allowing registered bidders to observe and place bids.
Live Internet Bidding will work with any browser on both PC and Mac operating systems.

Before bidding by internet for the first time, we recommend finding a sale in progress and listening to the public broadcast or logging in as a registered bidder. This will help you develop a feel for the sale tempo and bidding interface.

Log on to the auction at stampauctionnetwork.com/siegel.
You can also log on at siegelauctions.com
When you’re logged on as a Live Internet Bidder, the bidding interface shows a photo and description of the lot, the current bid (and your bidding status), options for placing competitive bids and buttons with bid increments.
• After you click on a bid amount, the auctioneer is immediately notified of your bid.
• retracting a bid is usually not acceptable, so please bid carefully.
• If you bid and then decide to stop, the “Pass” button will tell the auctioneer you are no longer bidding.
• You can send messages to the auctioneer (for example, a request for extension).
• You can track prior realizations from the bidding screen.

“System Down” or “Lost Connection” events do occasionally happen.
If you have any problems with Live Internet Bidding please call 212-753-6421 for immediate assistance.
The property described in this catalogue will be offered at public auction by Robert A. Siegel Auction Galleries, Inc. (“Galleries”) on behalf of various consignors and itself or affiliated companies. By bidding on any lot, whether directly or by or through an agent, in person, or by telephone, facsimile or any other means, the bidder acknowledges and agrees to all of the following Conditions of Sale:

1. The highest bidder acknowledged by the auctioneer shall be the buyer. The term “final bid” means the last bid acknowledged by the auctioneer, which is normally the highest bid offered. The purchase price payable by the buyer will be the sum of the final bid and a commission of 15% of the final bid (“buyer’s premium”), together with any sales tax, use tax or customs duties due on the sale.

2. The auctioneer has the right to reject any bid, to advance the bidding at his discretion and, in the event of a dispute between bidders, to determine the successful bidder, to continue the bidding or to reoffer and resell the lot in dispute. The Galleries’ record of the final sale shall be conclusive.

3. All bids are per numbered lot in the catalogue unless otherwise announced by the auctioneer at the time of sale. The right is reserved to group two or more lots, to withdraw any lot or lots from the sale, or to act on behalf of the seller. The Galleries will execute bidding instructions on behalf of clients, but will not be responsible for the failure to execute such bids or for any errors in the execution of such bids.

4. Lots with numbers followed by the symbol * are offered subject to a confidential minimum bid (“reserve”), below which the lot will not be sold. The absence of the symbol * means that the lot is offered without a reserve. If there is no reserve, the auctioneer has sole discretion to establish a minimum opening bid and may refuse an offer of less than half of the published estimate. Any lot that does not reach its reserve or opening bid requested by the auctioneer will be announced as “passed” and excluded from the prices realized in the sale. The Galleries may have a direct or indirect ownership interest in any or all lots in the sale resulting from an advance of monies or goods-in-trade or a guarantee of minimum net proceeds made by the Galleries to the seller.

5. Subject to the exclusions listed in 5(A), the Galleries will accept the return of lots which have been misidentified or which have obvious faults that were present when the lot was in the Galleries’ custody, but not so noted in the lot description. All disputed lots must be received by the Galleries intact with the original packing material within 5 days of delivery to the buyer but no later than 30 days from the sale date. (5A) EXCLUSIONS: The following lots may not be returned for any reason: lots containing 10 or more items; lots from buyers who registered for the pre-sale or received lots by postal viewing, thereby having had the opportunity to inspect them before the sale; any lot described with “faults,” “defects” or a specific fault may not be returned because of any secondary fault. Photographed lots may not be returned because of centering, margins, short/nibbed perforations or other factors shown in the illustrations. Lots may not be returned for any of the following reasons: the color of the item does not match the color reproduction in the sale catalogue or website listing; the description contains inaccurate information about the quantity known or reported; or a certification service grades a stamp lower than the grade stated in the description.

6. Successful bidders, unless they have established credit with the Galleries prior to the sale, must make payment in full before the lots will be delivered. Buyers not known to the Galleries must make payment in full within 3 days from the date of sale. The Galleries retains the right to demand a cash deposit from anyone prior to bidder registration and/or to demand payment at the time the lot is knocked down to the highest bidder, for any reason whatsoever. In the event that any buyer refuses or fails to make payment in cash for any lot at the time it is knocked down to him, the auctioneer reserves the right to reoffer the lot immediately for sale to the highest bidder. Credit cards are not accepted as payment.

7. If the purchase price has not been paid within the time limit specified above, nor lots taken up within 7 days from the date of sale, the lots will be resold by whatever means deemed appropriate by the Galleries, and any loss incurred from resale will be charged to the defaulting buyer. Any account more than 30 days in arrears will be subject to a late payment charge of 1½% per month as long as the account remains in arrears. Any expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of $250.00 per check will be charged for each check returned for insufficient funds.

8. All lots are sold as genuine. Any lot accompanied by a certificate issued by The Philatelic Foundation or by Professional Stamp Experts within 5 years of the sale date is sold “as is” and in accordance with the description on the certificate. Such lots may not be returned for any reason, including but not limited to a contrary certificate of opinion. Buyers who wish to obtain a certificate for any item that does not have a P.F. or P.S.E. certificate (dated as above) may do so, provided that the following conditions are met: (1) the purchase price must be paid in full, (2) the item must be submitted to an acceptable experting committee with a properly executed application form within 21 days of the sale, (3) a copy of the application form must be given to the Galleries, (4) in the event that an adverse opinion is received, the Galleries retain the right to resubmit the item on the buyer’s behalf for reconsideration, without time limit or other restrictions, (5) unless written notification to the contrary is received, items submitted for certification will be considered cleared 90 days from the date of sale, and (6) in the event any item is determined to be “not as described”, the buyer will be refunded the purchase price and the certification fee up to $600.00 unless otherwise agreed.

9. Until paid for in full, all lots remain the property of the Galleries on behalf of the seller.

10. Agents executing bids on behalf of clients will be held responsible for the failure to execute such bids or for any errors in the execution of such bids.

11. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs. Buyers outside the U.S. are responsible for all customs duties.

12. The bidder consents that any action or proceeding against it may be commenced and maintained in any court within the State of New York or in the United States District Court for the Southern District of New York, that the courts of the State of New York and United States District Court for the Southern District of New York shall have jurisdiction with respect to the subject matter hereof and the person of the bidder. The bidder agrees not to assert any defense to any action or proceeding initiated by Galleries based upon improper venue or inconvenient forum. The bidder agrees that any action brought by the bidder shall be commenced and maintained only in a Federal Court in the United States District Court for the Southern District of New York or the State Court in the county in which Galleries has its principal place of business in New York. These Terms and Conditions shall be governed by and construed in accordance with the substantive laws of the State of New York.

Grades, Abbreviations and Values Used in Descriptions

Our descriptions contain detailed information and observations about each item’s condition. We have also assigned grades to stamps and covers, which reflect our subjective assessment. For stamps, the margin width, centering and gum are described and graded according to generally-accepted standards (an approximate correlation to numeric grades is provided at right). Although we believe our grades are accurate, they are not always exactly aligned with third-party grading terms or standards for all issues. A lot may not be returned because a certification service grades a stamp lower than the grade stated in the description. Information from the P.S.E. Stamp Market Quarterly and P.S.E. Population Report is the most current available, but lots may not be returned due to errors or changes in statistics or data.

Grades and Centering

Extremely Fine Gem (90-100): The term “Gem” describes condition that is the finest possible for the issue. This term is equivalent to “Superb” used by grading services.

Extremely Fine (80-90): Exceptionally large/ wide margins or near perfect centering.

Very Fine (70-85): Normal-size margins for the issue and well-centered with the design a bit closer to one side. “Very Fine and choice” applies to stamps that have desirable traits such as rich color, sharp impression, freshness or clarity of cancel.

Fine (60-70): Smaller than usual margins or noticeably off center. Pre-1890 issues may have the design touched in places.

Very Good (below 60): Attractive appearance, but margins or perforations cut into the design.

Disturbed Original Gum: Gum showing noticeable effects of humidity, climate or hinging over more than half of the gum. The significance of gum disturbance in valuing a stamp in any of the Original Gum categories depends on the degree of disturbance, the rarity and normal gum condition of the issue and other variables affecting quality. For example, stamps issued in tropical climates are expected to have some gum disturbance due to humidity, and such condition is not considered a negative factor in pricing.

Catalogue Values and Estimates

Minor nicks, short edge tears, flap tears and slight reduction at one side are normal conditions for 19th century envelopes. Folded letters should be expected to have at least one file fold. Little cleaning of covers and small mends along the edges are accepted forms of conservation. Unusual covers may have a common stamp with a slight crease or tiny tear. These flaws exist in virtually all 19th century covers and are not always described. They are not grounds for return.

Covers

Unless otherwise noted, the currently available Scott Catalogue values are quoted in dollars with a decimal point. Other catalogues are often used for foreign countries or specialized areas and are referred to by their common name: Stanley Gibbons (SG), Michel, Zumsen, Facit, etc. Estimates are indicated with an “E.” and reflect our conservative valuation in dollars. Reserves will never exceed the low end of the estimate range; they will sometimes exceed Scott Catalogue value for stamps in Extremely Fine condition.

Because of certain pricing inconsistencies in the Scott Catalogue—for example, blocks that have no gum, the absence of premiums for Mint N.H. items, etc.—we cannot guarantee the accuracy of values quoted for multiples, specialized items and collection lots. We generally try to be conservative, but buyers may not return a lot because of a discrepancy in catalogue value due to Scott pricing inconsistencies.

Revised 1/2012
Selections from The William H. Gross Collection of
United States 1847 and 1851-56 Issues

Introduction by Charles F. Shreve

William H. Gross has always been fascinated by the provenance of items in his collection. In addition to studying and admiring the actual items, Mr. Gross has carefully researched old auction catalogues from the great “name” sales of the past century—collectors such as Emerson, Caspary, Newbury, Rohloff, Grunin and Ishikawa—and from his research he has learned how important items move from one outstanding collection to another. The motion of material, giving each new collector an opportunity to acquire and learn, is what keeps philately alive. So, if you ask why Mr. Gross is selling a selection of items from his magnificent United States collection, therein lies the answer.

The 375 lots in this catalogue comprise a selection of items from the 1847 and 1851-56 Issues collected by Mr. Gross during the past twenty years. Since Mr. Gross had privately acquired three large collections of these issues, in addition to buying individual items as they came up, he possesses an impressive quantity of 1847 and 1851-56 Issue covers. So much, in fact, that he feels he might be depriving other collectors of the opportunity to build their own collections. His instructions to Tracy Shreve and me were clear: go through his holdings and choose a variety of items in terms of importance and value, then sell them at unreserved auction. As he and his wife, Sue, have so generously done with all of their stamp proceeds, the money from this auction will be immediately donated to two major charitable institutions—Doctors Without Borders/Médecins San Frontières and Millennium Villages Project at the Earth Institute.

The selection of these items was made by Mr. Gross in careful consultation with myself and Scott Trepel. The 1847 Issue exhibit, which he plans to continue displaying, was kept out of the selection process, since each item fits into a story line. Apart from the exhibit there are many 1847 proofs, stamps and covers from the collections formed by John R. Boker, Jr., Wade Saadi and Joseph Hackmey, all three of which Mr. Gross acquired intact. In addition to the 1847’s, Mr. Gross also acquired the entire Hackmey collection of 1851-56 Issue covers. From these groups, Scott, Tracy and I have created what we believe will be an auction for everyone who collects United States classic proofs, stamps and postal history.

As a whole, this sale is one of the most outstanding offerings of classic imperforate United States covers ever made. The presence of so many highlights from past collections is staggering. One of Mr. Gross’ favorite legendary collections is Caspary’s. In this sale are several wonderful ex-Caspary covers, including the superb 10¢ 1847 used from Canada and tied by the New York “Paid” cancel. Hawaii is another area Mr. Gross enjoys collecting, but he has included a 13¢ Missionary cover in this sale, as well as the 3¢ 1851 and Hawaiian Kamehameha mixed-franking cover to Persia (he is retaining another one from the same correspondence with a 10¢ 1855 and Hawaiian 5¢ surcharge).

If such “iconic” covers are beyond your reach, you can choose among dozens of “little gems” in this sale, such as the off-cover 1847’s in choice quality with unusual cancellations, all of which come from the Saadi collection. Many covers from the Boker 1847 collection will be found, including unusual postmarks and cancellations, carriers and locals, railroads and waterway mail, Valentines and advertising covers, U.S-Canadian mail, foreign destinations and post-demonetization use of the 1847 Issue.

In closing, please allow Tracy and myself to once again thank Mr. Gross for his enduring support of the hobby and of organizations that benefit those much less fortunate than all of us. The decision to return this fabulous classic United States material to other collectors is based on Mr. Gross’ hope that a new generation of philatelists will carry on, deriving the same great pleasure from these items that he has enjoyed for years.

Doctors Without Borders thanks Sue & Bill Gross

Doctors Without Borders/Médecins Sans Frontières (MSF) thanks Sue and Bill Gross for their continued dedication to our field teams and patients, and for this, their most recent gift. The Gross’ ongoing support means that our teams are able to respond to emergencies around the world at a moment’s notice – recent examples being our responses to refugee crises in South Sudan and conflict in Syria and Mali.
Doctors Without Borders/Médecins Sans Frontières (MSF) is an independent international medical humanitarian organization that delivers emergency aid to people affected by armed conflicts, epidemics, natural or man-made disasters, and exclusion from health care in nearly 70 countries.

MSF was founded in 1971 as the first nongovernmental organization both to provide emergency medical assistance and to bear witness publicly to the plight of the people it assists.

HOW DO YOU END EXTREME POVERTY?

To make lasting change in any one sphere of development, we must improve them all.

The Millennium Villages are proving that, by fighting poverty at the village level through community-led development, rural Africa can achieve the Millennium Development Goals — global targets for reducing extreme poverty and hunger by half and improving education, health, gender equality and environmental sustainability — by 2015 and escape the extreme poverty that traps hundreds of millions of people throughout the continent.

The Millennium Villages project addresses the root causes of extreme poverty through a holistic, community-led approach to sustainable development. To meet the many different challenges each region faces, the villages use multiple, synergistic tools such as: community health workers, diversified local food production, commercial farming, malaria control, piped water, solar electricity and internet connectivity, to name a few.

Today, 500,000 people in 14 different sites in 10 countries are part of the project and we continue to see tremendous success across village sites.

The Millennium Villages project is grateful to Bill and Sue Gross for their enduring generosity and support.

Gallery Opening September 22, 2013

Named after its primary benefactor, the William H. Gross Stamp Gallery is the world’s largest gallery dedicated to philately. It provides an experience available nowhere else and offers something for everyone, from casual visitors to experienced collectors.

As visitors move through six thematic areas, stunning displays and interactive moments reveal the amazing stories that unfold from the museum’s unparalleled collection. Distributed throughout the thematic areas are hundreds of pullout frames containing more than 20,000 objects, providing ample opportunities to view noteworthy stamps that have never been on public display.

TO CONTRIBUTE
The William H. Gross Stamp Gallery will provide superb exhibition spaces that befit our world-class collections, and will invigorate public interest in philately. Eager to share the joy of philately, generous contributors have transformed the William H. Gross Stamp Gallery from dream to reality. Your gift will support the creation of an endowment for the gallery, securing its future, allowing the gallery to keep current, and creating a legacy for generations to come.

5c Red Brown, 10c Black, 1847 Reproductions, Panama-Pacific Small Die Proofs on Wove (3P2a-4P2a). 28 x 32mm, wonderfully fresh with deep shades, paper has very faint toning that is normally found on Panama-Pacific proofs, but is less pronounced on this desirable set.

EXTREMELY FINE. ONLY FIVE SETS OF THE 1915 PANAMA-PACIFIC SMALL DIE PROOFS ARE BELIEVED TO HAVE BEEN PRODUCED.

In 1915, for the Panama-Pacific Exposition, a limited special printing of 413 different small die proofs was created. Printed on yellowish wove paper, they are extremely scarce. At most five sets were produced. This is the first set of the 1847 Issue proofs we have offered since our 1999 Finkelburg sale. With 1997 P.F. certificates .............................................................. 5,500.00

5c, 10c 1847 Reproductions, Atlanta Trial Color Proofs on Card (3TC4, 4TC4). Complete sets of all five colors, full margins, fresh colors

VERY FINE. A SCARCE COMPLETE SET OF THE ATLANTA TRIAL COLOR PROOFS FOR THE 5-CENT AND 10-CENT 1847 REPRODUCTIONS.

The Atlanta trial color plate proofs on card were prepared for display at the 1881 International Cotton Exposition in Atlanta. Only one sheet of 50 in each color was made available after 1881. They were cut up into one set of blocks of eight, two sets of blocks of four, two sets of pairs and singles. Very few have been kept together as intact sets.

COMPLETE PLATE PROOF SHEETS ON INDIA PAPER

5c Red Brown, 10c Black, 1847 Reproductions, Plate Proofs on India (3P3, 4P3). Complete Sheets of 50, each with large outer margins, crisp shades, 10c with distinct plate scratches throughout first four horizontal rows which are not found on any of the stamps or proofs on card and bond. 5c Positions 31/41 also show scratches, couple inconsequential India paper imperfections, Position 10 in 10c sheet has trivial pinhole.

EXTREMELY FINE. A SPECTACULAR AND RARE SET OF SHEETS OF 50 OF THE 5-CENT AND 10-CENT 1875 REPRODUCTION PLATE PROOFS ON INDIA.

Clarence Brazer discussed the 1847 Issue essays and proofs in a 1947 Essay-Proof Journal article. The extensive plate scratches on the 10c India sheet are not found on the stamps printed in 1875, nor on the cardboard proofs produced between 1879 and 1893. Brazer opined that the India plate proofs were therefore produced about 1894 after the damage had occurred. Brazer estimated in his 1947 article that "probably five or six sheets of each value exist on India paper." We do not know the basis for Brazer’s estimate, but we believe this might be one of only two sets of sheets extant. Photographs of a set appear in the catalogues for the Jack Dick collection (ex Brazer) and Lilly collection, which appear to differ slightly from the set offered here. This set appears to match the set offered in our 1976 Rarities sale and a 1993 Christie’s sale. We have been unable to identify any other set of sheets on India. The India paper proofs are much scarcer than the card proofs, so it is unlikely that more than one or two sheets were cut up.

48 5c Red Brown (1). Margins clear to touched, slightly in at bottom left, bright color, cancelled by Canadian 6-ring target cancel in black, tiny tear at bottom right, one of the rarer markings on 1847 Issue stamps and a great strike, ex Stollnitz and Saadi, illustrated in Chronicle 217 (p. 29), with 1996 P.F. certificate .....................................................  3,450.00
**5c Red Brown (1).** Full to large margins, bold green numeral “5” in frame cancel of Princeton N.J., stamp cleaned which accompanying certificate states slightly affects the color of the cancel, an opinion with which we respectfully disagree, Very Fine appearance, a choice complete strike of this rare cancel, ex Saadi, with 1988 and 1992 P.F. certificates, please see lot 157 for an on-cover example. .... 1,700.00

**5c Dark Brown (1a).** Deep rich color, full to large margins, tied on small piece by red “Baltimore R.R.” straightline and “5” in circle cancels, Very Fine, a wonderful combination of markings, ex Saadi, with 1995 P.F. certificate........... 1,050.00

**5c Red Brown (1).** Beautiful warm shade and detailed impression — in our opinion, Orange Brown — large margins, neatly tied on small piece by red numeral “5” handstamp, Extremely Fine, ex Saadi, with 1983 and 1990 P.F. certificates, the latter describing the shade as Reddish Brown, but we think it is Orange Brown.............. 550.00
52  5c Dark Red Brown (1). Full to large margins, rich color, cancelled by bold strike of **blue “V” Roman numeral in circle** handstamp of Utica N.Y., Very Fine, a scarce cancel, ex Saadi, illustrated in *Chronicle* 217 (p. 25), with 1996 P.F. certificate. E. 400-500

53  5c Red Brown (1). Ample to clear margins, tied on small piece by **blue numeral “6” in circle** handstamp of Philadelphia, stamp with minute nick in top margin not mentioned on accompanying certificate, Fine and rare rate handstamp intended for use on incoming ship letters, ex Stollnitz and Saadi, illustrated in *Chronicle* 217 (p. 25), with 1996 P.F. certificate, please see lot 207 for an example on the 10c on-cover. E. 500-750

54  5c Dark Brown (1a). Three large margins to touching frame-line at bottom, dark shade, tied on small piece of letter by unusual **red numeral “X” divided into small segments**, Fine and unusual, ex Stollnitz and Saadi, with 1996 P.F. certificate. E. 400-500

55  5c Red Brown (1). Full margins at sides, slightly cutting at top and bottom, clear strike of **red “40” in circle** handstamp, Fine strike of this rate marking, undoubtedly used on a 40c rate cover to California, ex Saadi, with 1996 P.F. certificate. E. 400-500
56 5c Dark Brown (1a). Large margins, deep rich color and sharp impression, perfectly struck blue “PAID” and grid cancels, Extremely Fine, a lovely stamp, ex Saadi who classifies this as the Walnut Brown shade, with 1992 P.F. certificate .................. 900.00

57 5c Red Brown (1). Large margins to clear at top left, tied on small piece by bold strike of red “PAID” in arc handstamp of New York, Very Fine, the ubiquitous “Paid” arc of the pre-1847 era is actually quite scarce on the 1847 Issue, ex Haas (from our “Distinguished Connoisseur” sale 418) and Saadi, with 1991 P.F. certificate..... E. 750-1,000

58 5c Brown (1). Large margins, tied by neat strike of blue “Utica N.Y. Nov. 15” fancy double-oval datestamp on blue piece, Extremely Fine, while this datestamp is not rare on covers, it is very unusual to find it used to cancel an 1847 stamp, the postmaster at Utica normally cancelled the adhesive with a blue grid and struck the datestamp elsewhere on the cover during the 1847 period, ex Saadi, illustrated in Chronicle 217 (p. 22), with 1995 P.F. certificate .................. E. 750-1,000

59 5c Red Brown (1). Rich color and detailed impression, large margins including significant portion of adjoining stamp at bottom, ample at lower right, tied by bold red “New-York Apr. 2” circular datestamp on small piece, Very Fine, scarce use of the New York datestamp to cancel the 1847 Issue, ex Saadi, with 1991 P.F. certificate................................. 450.00
5c Dark Brown (1a). Large margins except slightly irregular at upper right (frameline clear), deep rich color, tied by red square grid cancel and “Paid 5” handstamp on small piece of letter, French transit datestamp at left, Very Fine, ex Saadi, with 1996 P.F. certificate. E. 750-1,000

5c Brown (1). Full to large margins, intense color — what we would describe as Dark Brown — tied on small piece by blue “TROY & NEW YORK/STEAM BOAT” framed two-line route agent’s handstamp, Very Fine and strike, a beautiful and scarce item, this marking was used on non-contract steamboats carrying mail between New York City and Troy, illustrated in Chronicle 217 (p. 24), ex Saadi, with 1991 P.F. certificate. E. 1,000-1,500

5c Red Brown (1). Vertical pair, rich color and beautiful proof-like impression, large margins, cancelled by bold complete strike of “STEAM” straightline handstamp

EXTREMELY FINE. A SCARCE VERTICAL PAIR OF THE 5-CENT 1847 ISSUE WITH A PERFECT FULL STRIKE OF THE “STEAM” HANDSTAMP USED ON MISSISSIPPI RIVER STEAMBOAT MAIL. A MAGNIFICENT OFF-COVER 1847 ISSUE MULTIPLE.

For an example of the “Steam” handstamp on cover, see lot 241 in this sale. This marking (or two similar markings) are found on Mississippi River steamboat covers that entered the post offices at Natchez and New Orleans.

**5c Red Brown (1).** Horizontal pair, huge margins including sheet margin at left, ample at bottom, tied by three neat strikes of blue “10” in fancy rectangular frame handstamp, matching “Huntsville Al. Jul. 24” circular datestamp on brown cover to Midway Ky., skillfully cleaned, small mended erosion spot at bottom edge

VERY FINE. THIS IS THE ONLY RECORDED USE OF THIS PRE-STAMP FRAMED “10” RATE HANDSTAMP ON A COVER WITH THE 1847 ISSUE.

Ex Gibson, Sampson, Rohloff, Haas, Kapiloff and Boker............................... E. 5,000-7,500
94  **10c Black (2).** Large even margins, deep shade, cancelled by sharp strike of blue grid with matching Negative “10” in Circle of Stars fancy rate handstamp, “Paid” straightline and “Huntsville Al. Feb. 19” circular datestamp on cover to Mobile, stamp has faint crease at top, has been lifted and reaffixed, minor wax seal spot, some edgewear and faint stain at upper left corner

VERY FINE APPEARANCE. ONE OF TWO RECORDED 1847 ISSUE COVERS WITH THE HUNTSVILLE PRE-STAMP “10” IN CIRCLE OF STARS FANCY RATE HANDSTAMP.

Huntsville is renowned among classic United States collectors for continuing to employ two ornate rate handstamps after the introduction of the 1847 Issue. The “5” in Star and “10” in Circle of Stars are found on covers with stamps, including the 1847 Issue and 1851 Issue. The 10c 1847 is exceedingly rare, with only two recorded. Huntsville received a supply of only 400 10c stamps.

95  **5c Red Brown (1).** Full to large margins, rich color, tied by vivid “paint” red grid cancel, matching “Mobile Ala. Feb. 1” circular datestamp, **overstruck by blue “Mobile Ala. Feb. 2”** circular datestamp on buff cover to Pensacola Fla., neatly docketed with 1851 yeardate. Extremely Fine, a most unusual combination of red and blue markings applied at the same post office on two consecutive days, ex Garrett and Boker ................................................................. E. 1,000-1,500
5c Red Brown (1). Vertical pair, large to huge margins, intense and sharp impression, tied by four clear strikes of “paint red” grid cancel, matching partly clear “Mobile Ala. Jun. 18” circular datestamp on cover to Clarissa Dayton in East Hampton N.Y., based on the correspondence this almost certainly originated in New Orleans and was handled at Mobile as unmarked way mail, tiny scissors-cut in margin at bottom left away from design.

EXTREMELY FINE GEM PAIR OF THE 5-CENT 1847 ISSUE WITH THE VIVID RED CANCELLATIONS OF MOBILE, ALABAMA.

Although there is no indication of origin, other covers to Clarissa Dayton with the same handwriting are known from New Orleans. Van Koppersmith refers to Mobile covers originating in New Orleans as unmarked way mail (Chronicle 215, pp. 196-198).

Ex Caspary, Garrett and Boker. E. 1,500-2,000

5c Red Brown (1). Vertical pair, large to huge margins showing trace of adjoining stamp above, beautiful rich color and detailed impression, tied by two clear strikes of “paint red” grid cancel, matching “Mobile Ala. May 12” circular datestamp on fresh blue folded letter to Whelen & Co. in Philadelphia, datelined at New Orleans, May 11, 1850, light horizontal fold.

EXTREMELY FINE GEM PAIR OF THE 5-CENT 1847 ISSUE IN A BRIGHT RED BROWN SHADE, USED ON UNMARKED WAY MAIL FROM NEW ORLEANS TO PHILADELPHIA VIA MOBILE.

Van Koppersmith refers to these Mobile covers as unmarked way mail (Chronicle 215, pp. 196-198).

E. 750-1,000
103  10c Black (2). Large margins all around, intense shade and detailed impression, tied by blue grid cancel, matching “Little Rock Ark. Sep. 3” circular datestamp on folded cover to Cincinnati O., 1850 docketing on back, light vertical file fold well clear of stamp

VERY FINE. ONE OF ONLY FIVE RECORDED 1847 ISSUE COVERS FROM ARKANSAS. THIS IS THE EARLIEST AND THE FINEST OF THE THREE REPORTED 10-CENT 1847 COVERS FROM ARKANSAS. A GREAT RARITY OF THE 1847 ISSUE.

The Alexander book records five covers from Arkansas with the 1847 Issue, of which three are confirmed as 10c frankings from Little Rock. One of the Arkansas 1847 covers has apparently not been seen for many years. This is probably the finest example of the 1847 Issue used from Arkansas.

Illustrated in Alexander census book (p. 17) Ex Sampson, Kapiloff and Boker.......... E. 3,000-4,000
104. 5c Red Brown (1). Large margins, dark “Chocolate” shade and sharp early impression, tied by one of two strikes of dark bluish-black large “5” pre-stamp rate handstamp with matching “Hartford Ct. Sep. 12” circular datestamp and “Paid” Pointing Hand handstamp on 1847 bluish folded letter to Norwich Conn., accompanied by unpaid stampless folded letter with the same “5” marking but no “Paid”

EXTREMELY FINE. AN EXCEEDINGLY RARE EARLY 1847 ISSUE COVER SHOWING IN SPECTACULAR STYLE THE TRANSITION FROM HANDSTAMPED MARKINGS OF THE PRE-STAMP ERA TO THE USE OF ADHESIVE STAMPS FOR PREPAYMENT.

A similar cover was offered in our 1969 sale of the Matthies collection. Ex Kapiloff and Boker. With 1974 P.F. certificate .......................................................... E. 2,000-3,000

106 5c Red Brown (1). Horizontal pair, full even margins including left sheet margin, crisp color and impression, cancelled by two strikes of magenta grid with matching "Hartford Ct. Jun. 25" circular datestamp, "Paid" Pointing Hand handstamp and large red "10" numeral rate handstamp on buff cover to Avon Springs N.Y.

EXTREMELY FINE. A SUPERB PAIR OF THE 5-CENT 1847 ISSUE ON COVER PREPAYING THE OVER-300 MILES RATE AND HANDSTAMPED WITH THE PRE-STAMP ERA MARKINGS OF HARTFORD, CONNECTICUT.

Ex Boker .............................................................................................................. E. 1,500-2,000
107  5c Red Brown (1). Large margins to clear at upper right, beautiful dark shade and early impression, tied by two strikes of blue Rectangle of Tiny Diamonds fancy cancel and matching “Middletown Con. Feb. 10” circular datestamp, additional matching “5” in circle rate handstamp on blue 1848 folded letter to New London Conn., very fresh

VERY FINE. A REMARKABLY ATTRACTIVE COVER WITH THE DISTINCTIVE MIDDLETOWN, CONNECTICUT, RECTANGLE OF TINY DIAMONDS CANCEL — ONE OF THE FEW “FANCY” CANCELLATIONS OF THE 1847 ISSUE PERIOD.

A similar cover was offered in our 1969 sale of the Matthies collection. Ex Lehman, Hart and Boker. .................................................. E. 2,000-3,000

108  5c Grayish Brown (1a). Huge margins all around including sheet margin at bottom, bright shade, crisp impression, tied by red grid cancel, matching “New London Ct. Sep. 17” datetamp and “5” handstamp on blue folded cover to Troy N.Y., stamp lifted (probably to determine condition—it is sound) and hinged in place

EXTREMELY FINE. A BEAUTIFUL BOTTOM SHEET-MARGIN EXAMPLE OF THE 5-CENT 1847 ISSUE IN THE GRAYISH BROWN SHADE.

Ex Boker. With 1982 P.F. certificate................................................................. E. 2,000-3,000

110  5c Red Brown (1). Full to large margins, cancelled by perfect strike of orange-red grid cancel, matching “Rockville Ct. Mar. 29” (ca. 1850) circular datestamp on bluish gray envelope to Norfolk Conn., wax seal (slight toning), Very Fine, ex Boker ..................................................................... E. 750-1,000

111  5c Red Brown (1). Three huge margins to full at left, gorgeous bright shade with strong reddish hue (almost enough to qualify as Orange Brown), cancelled by perfectly struck blue grid, matching “Willimantic Ct. May 1” circular datestamp on bluish folded cover to secretary of the missionary society at New York City street address, files folds clear of stamp, Very Fine, ex Boker .......... E. 750-1,000
112  5c Red Brown (1). Large to huge margins including bit of adjoining stamp at bottom, bright shade, cancelled by perfect strike of green “5” numeral with matching “Newcastle Del. Mar. 31” circular date-stamp on blue folded cover to Philadelphia street address, manuscript “32”, extreme edge of large left margin of stamp slightly overlaps edge of letter

EXTREMELY FINE. A STRIKING EXAMPLE OF THE 1847 ISSUE CANCELLED BY A PRE-STAMP ERA RATE MARKING IN TRUE GREEN.

10c Black (2). Horizontal pair, mostly full margins except where clear of frameline at bottom left, deep shade and sharp early impression, tied by red grid cancels, matching partly clear strike of “Washington City D.C. Jul. 16” (1847) circular datestamp on folded letter to Columbus O. clearly dated July 15, 1847

VERY FINE AND RARE USE OF A 10-CENT PAIR DURING THE FIRST MONTH OF THE 1847 ISSUE.

The 10c pair pays the 20c rate for a letter weighing between one-half and one ounce sent more than 300 miles. Washington D.C. received its first supply of 1847 stamps on July 9.

5c Dark Brown (1a). Large margins, rich “Chocolate” shade, tied by three clear strikes of black “5” in rectangular frame handstamp, matching “Alexandria D.C. Mar. 25” circular datestamp on 1848 folded cover to Charlottesville Va., vertical file folds well clear of stamps and marking, faint overall soiling. Extremely Fine, rare, this rate handstamp is associated with the Alexandria Postmaster’s Provisional and is seldom found on the 1847 Issue, ex Gibson, Rust, Sampson, Kapiloff and Boker ....... E. 1,000-1,500
116  

5c Dark Brown (1a). Horizontal pair, marvelous dark shade and sharp early impression, tied by lightly struck green grid cancels with matching “Tallahassee Flor. Aug. 14” circular datestamp on folded letter to James G. King & Sons in New York City, remarkably fresh and clean

EXTREMELY FINE. A SPECTACULAR AND VERY RARE USE OF THE 5-CENT 1847 ISSUE FROM FLORIDA WITH MARKINGS IN TRUE GREEN COLOR.

Several 10c 1847 covers from the James G. King correspondence are known from Tallahassee, but only two 5c covers are recorded. The pair on this cover comes from a very early printing, possibly the first, and must come from an early shipment to Tallahassee (1,700 were delivered). The green ink used to cancel the stamp and postmark the letter is an unmistakable true green, not one of the impure greenish-blue inks seen more frequently in this period.

10c Black (2). Large margins all around including part of adjoining stamp at top, tied by well-struck dark green “5” numeral handstamp, matching “Bath N.H. Apr. 6” circular datestamp and “FREE” handstamp on folded cover addressed to “Hon. James H. Johnson M.C., Washington D.C.”, stamp with additional manuscript cancel.

EXTREMELY FINE. A PHENOMENAL EXAMPLE OF THE 10-CENT 1847 ISSUE TIED ON A COVER BY A GREEN “5” NUMERAL HANDSTAMP AND SENT FREE TO A MEMBER OF CONGRESS. THIS IS ALSO THE ONLY RECORDED EXAMPLE OF THE 10-CENT USED FROM BATH, NEW HAMPSHIRE.

The addressee, James H. Johnson, was born in Bath and was a Democratic member of the 30th Congress, which met from March 4, 1847 to March 4, 1849. This cover could have been sent free of charge to a member of Congress, so the 10c 1847 stamp was not necessary. It may have been affixed by the sender to ensure that the letter would not be treated as unpaid by the post office. The “5” handstamp was likely applied in error, as the proper rate was 10c for distances greater than 300 miles.

EXTREMELY FINE. A MARVELOUS STRIKE OF THIS LARGE AND DISTINCTIVE FANCY CANCEL, TYING A SHEET-MARGIN EXAMPLE OF THE 5-CENT 1847 ISSUE ON COVER. FANCY CANCELLATIONS ON THE 1847 ISSUE ARE RARE.

Fancy “killer” cancels are extremely rare in the 1847-51 period. The term “killer” to describe the cancel was actually used by New York Postmaster Robert H. Morris. Although fancy rate markings from the pre-stamp era were used to cancel 1847 stamps, fancy cancels created for the specific purpose of “killing” stamps did not become popular until the 1850’s. The more distinctive designs are the St. Johnsbury Vt. Scarab, Trenton N.J. Star and Binghamton N.Y. Herringbone. Power Search contains only two off-cover examples plus the stamp offered in lot 45.

EXTREMELY FINE. THIS IS EASILY ONE OF THE FINEST RECORDED EXAMPLES OF THE FAMOUS BINGHAMTON HERRINGBONE CANCELLATION. VERY FEW FANCY CANCELLATIONS ARE KNOWN ON THE 1847 ISSUE. ONLY TWO EXAMPLES OF THIS CANCEL ARE RECORDED STRUCK IN BLACK.
Fancy “killer” cancels are extremely rare in the 1847-51 period. The term “killer” to describe the cancel was actually used by New York Postmaster Robert H. Morris. Although fancy rate markings from the pre-stamp era were used to cancel 1847 stamps, fancy cancels created for the specific purpose of “killing” stamps did not become popular until the 1850’s.
According to the Alexander 1847 book, the postmaster in Binghamton ordered his first supply of 1847 stamps from the postmaster of New York, Robert Morris. Although fancy rate markings from the Post Office Department, as he wanted to see whether local residents would use them. Since the order was not placed through official channels, he did not receive the standard 7-bar cancelling device and instead made his own.

*Very Fine. This is the only recorded use of the 1847 Issue from Sugar Creek, Wisconsin. More important is the extremely unusual configuration of the town marking with integral Roman numeral rate.*

This is the only reported use of the 1847 Issue from Sugar Creek, Wisconsin. This cover was the subject of an article in *Chronicle 62*, which notes “The writer had been to Milwaukee a day or two previous and had encountered there an old acquaintance from New York State. The Sugar Creek man was writing to a mutual friend to learn what attitude the folks back in Cohoes, and most particularly the Milwaukee man’s wife, now held toward him. It may be presumed that the Milwaukeean had left home under a cloud of public and private disapproval. It also is a fair guess that he provided the stamp when he asked the other fellow to write the letter. The single five-cent stamp was only half enough for the destination.”

Jun. 8” circular datetamp on light green 1849 folded cover to Baltimore, manuscript “Paid” at upper left, some slight wear, some expert internal mends mostly along folds.

VERY FINE APPEARANCE. AN EXCEEDINGLY RARE STRIP OF FOUR OF THE 5-CENT 1847 ISSUE PAYING THE DOUBLE 10-CENT RATE FROM BOSTON TO BALTIMORE. ONLY THREE COVERS WITH STRIPS OF FOUR HAVE THE U.S. EXPRESS MAIL MARKING.

Only 17 covers in the Alexander census are listed as having a multiple of four or larger of the 5c 1847 Issue. Of these, three are blocks and nine are strips of four. Three are used with the U.S. Express Mail marking. .......................................................... E. 5,000-7,500
5c Brown Orange (1d). Horizontal strip of four, large margins to barely in, bright color, tied by red square grid cancels, matching “New-York Apl. 8” (ca. 1851) circular datetstamp at right, on legal-size brown cover to an attorney in Albany N.Y., cover refolded to a more exhibitible size, third stamp small internal crease.

VERY FINE APPEARANCE. AN EXTREMELY RARE USE OF A STRIP OF FOUR OF THE 5-CENT 1847 ISSUE, PAYING THE QUADRUPLE 5-CENT UNDER-300 MILES RATE FROM NEW YORK CITY TO ALBANY. ONE OF THREE RECORDED MULTIPLES OF FOUR OF THE BROWN ORANGE SHADE ON COVER.

The Alexander census records 17 covers bearing multiples of four or larger of the 5c 1847 Issue, including nine strips of four. Only one other pays this quadruple under-300 miles rate. Considering the volume of mail passing through the New York City post office, this is a remarkably small number.

This is one of only two recorded covers with a strip of four of the Brown Orange shade (the other ex Matthies; there are no Orange Brown strips). A block of four on cover — described as the Brown Orange shade — was offered in the Ishikawa sale.

5c Red Brown (1). Two vertical pairs, originally forming a block of four, top stamps of each pair slightly cut in, margins at sides mostly large to just clear, detailed impression on deeply blued paper, tied by black grid cancels, red “20” handstamp for quadruple 5c under-300 miles rate and matching “Boston Mass. 10 Dec.” circular datestamp on folded cover to Howland & Aspinwall in New York City, light file fold does not affect stamps

FINE. AN OUTSTANDING AND VERY RARE FRANKING PAYING THE QUADRUPLE 5-CENT UNDER-300 MILES RATE FROM BOSTON TO NEW YORK CITY. ONLY TWO COVERS ARE RECORDED FROM BOSTON PAYING THIS RATE WITH 5-CENT 1847 STAMPS.

The Alexander census, recently updated by Mark Scheuer, contains four covers bearing four 5c stamps used from Boston. Two pay the double 10c over-300 miles rate (one to Baltimore and one to Philadelphia, offered as lots 199 and 200 in this sale). Two pay the quadruple 5c under-300 miles rate, including one to Eastport Me. and the cover offered here.

Apr. 18" (1848) circular datestamps, additional strike at right, on buff cover to Greenville Va., small part of back-flaps removed along with wax seal

VERY FINE. A RARE AND DESIRABLE USE OF THE 5-CENT 1847 ISSUE PAYING THE QUADRUPLE 5-CENT UNDER-300 MILES RATE.

It is highly unusual for a cover sent from Philadelphia to bear four 5c stamps, as there was a plentiful supply of 10c stamps in that city. Only three such covers are recorded. This style of Philadelphia circular datestamp was in use up until 1848, so this must be an 1848 year date.

VERY FINE. A GORGEOUS QUADRUPLE-FRANKING OF THE 5-CENT 1847 ISSUE ON A DOUBLE-RATE COVER TO PITTSBURGH.

The franking on this cover pays the double 10c over-300 miles rate. This was normally paid with 10c stamps, especially from a large post office such as Philadelphia, which had a plentiful supply of the 10c denomination on hand.

A WONDERFUL DOUBLE-RATE FRANKING WITH FOUR ARTFULLY ARRANGED EXAMPLES OF THE 5-CENT 1847 ISSUE. A COVER WITH WONDERFUL VISUAL APPEAL.

The Turner correspondence, which is known for overlapping stamps, is discussed in a Nov. 2009 Chronicle article by Gordon Eubanks. He records 15 overlapping 5c covers from this correspondence. All others bear two singles.

Apr. 28" circular datesstamp on buff cover to Mrs. George Evans in Brattleboro Vt., from the famous Evans correspondence.

VERY FINE AND CHOICE. A GORGEOUS EXAMPLE OF A DIAGONAL BISECT OF THE 10-CENT 1847 ISSUE FROM THE EVANS CORRESPONDENCE.

This bisect comes from the correspondence written by former U.S. Senator from Maine, George Evans, to his wife. The Evans correspondence was the subject of two articles by the late Susan M. McDonald (Chronicle Nov. 1969, Feb. 1984), who conjectured that Senator Evans was writing to his wife while she stayed at one of the medical spas existing in Brattleboro at the time. According to our records, the Evans correspondence yielded 16 bisects, all diagonal. They were all used between April 26 and May 26 of 1851. Eight are matched halves from four stamps.

EXTREMELY FINE. THE ONLY RECORDED BISECT OF THE 10-CENT 1847 ISSUE USED FROM BENNINGTON, VERMONT. POSTMASTERS IN VERMONT HAD A COMMON TENDENCY TO APPLY POSTMARKS AND CANCELLATIONS VERY CAREFULLY, AS THIS SUPERB BISECT COVER DEMONSTRATES.

Jun. 2” circular datestamp on black-bordered mourning envelope to Brooklyn Conn., cover with minor soiling not mentioned on accompanying certificate.

Very fine. A beautiful example of a vertical bisect of the 10-cent 1847 issue used from Hartford and tied by a magenta cancel. This is the only recorded 1847 issue bisect used from Hartford, as well as the only one on a mourning envelope.

The Alexander book lists two right vertical halves used as bisects from Hartford. However the other, with a magenta circular datestamp and black grid, has received a P.F. certificate as not genuine. That makes this the only bisect known from Hartford. It is also the only recorded 10c 1847 bisect on a mourning envelope.

VERY FINE APPEARANCE. A BEAUTIFUL EXAMPLE OF THE “TROY & NEW YORK STEAM BOAT” HANDSTAMP USED WITH THE 5-CENT 1847 ISSUE.

According to the Alexander census book, this marking was used on non-contract steamboats carrying mails between New York City and Troy. At Troy the mail would enter the U.S. mail system (or vice versa). The 2c marking indicates the amount due for the steamboat fee. Troy and Schenectady are approximately 20 miles apart, on opposite sides of the Hudson. This is a late use — the 1847 Issue was demonetized 11 days later.

Large margins to clear at bottom left, cancelled by perfect strike of blue “Propeller” fancy cancel with matching “Wilmington & Raleigh Railroad Jun. 7” route agent’s circular datestamp (ca. 1850), used with Honour’s City Post, Charleston S.C., 2c Black on Bluish (4LB8), Position 7, manuscript “X” cancel, large margins to just touching ornaments, on buff cover-front only to Powers & Weightman in Philadelphia, faint strike of “Propeller” cancel to the right of 10c stamp, two vertical folds, one crease 10c stamp, the same stamp also shows thinning when held to light, small mended corner at bottom right of front

FINE APPEARANCE. THIS IS THE ONLY RECORDED COMBINATION OF THE 10-CENT 1847 ISSUE AND HONOUR’S CITY POST FOUR-LINE CARRIER DEPARTMENT STAMP.

The original cover from which this front remains was prepaid 10c for the over-300 miles rate from Charleston to Philadelphia. The Honour’s 2c stamp paid for carrier delivery to the post office, but in this case it was brought directly to the route agent on board the Wilmington & Raleigh Railroad, who applied the “Propeller” cancel and circular datestamp.

John H. Honour, Superintendent of the Charleston Penny Post, advertised the commencement of carrier service in the Charleston Mercury on May 9, 1849. The earliest recorded Honour’s cover is postmarked May 24, 1849. The 10c 1847 is known used with the earliest Honour’s carrier stamps (two recorded), but this is the only recorded combination with the 1850-51 four-line typeset stamp. Three additional covers are known with the 5c 1847 and 4LB7 or 4LB8a stamps.

The addressee, Powers & Weightman, were renown for their manufacture of medicinal and other chemicals. The company was the first to introduce quinine to the United States.

A total of 12 to 15 covers with Scott 7LB1 are reported in the Lyons census (The Penny Post, July 2006), but a few of the listed covers have stamps that did not originate. There are only three 7LB1 covers with 1847 Issue stamps, each with a single 5c.

VERY FINE. ONE OF THREE RECORDED COVERS WITH THE PHILADELPHIA VERMILION STAMP (7LB8) USED IN COMBINATION WITH THE 1847 ISSUE.

A total of 20 to 22 covers with Scott 7LB8 are reported in the Lyons census (The Penny Post, July 2006), but several covers he lists have stamps that did not originate, and one of his 1847 combination entries ("w/ #1a 4-3-51") duplicates another entry ("3-8-51") due to his misreading of the postmark date. The true number of 7LB8 covers is probably closer to 15, and there are only three 7LB8 covers with 1847 Issue stamps, each with a single 5c. The other two were sold in our auction of the David Golden collection, one of which is also addressed to Griswold & Claiborne and has a notation indicating carrier service. The “Rough and Ready” stamp, with a portrait of then-presidential candidate Zachary Taylor, was issued by Bouton at a time when the first U.S. regular issue stamps were only one year old. Bouton’s mixture of politics and postage put him far ahead of his time. Only five 1847 Issue and 18L2 combination are recorded. This is the only 10c in the group.

A VERY FINE AND EXTREMELY RARE COVER BEARING THE 5-CENT 1847 ISSUE AND THE SEAL OF THE ANTI-SLAVERY SOCIETY ASSOCIATED WITH LUCRETIA MOTT. A WONDERFUL ARTIFACT OF AMERICAN HISTORY.

The Philadelphia Female Anti-Slavery Society was founded in 1833, partly as a result of the inability of women to become members of male abolitionist organizations. It was organized as a local chapter of the American Anti-Slavery Society, had an interracial membership and claimed as one of its founders the famous social reformer, women’s rights advocate and abolitionist, Lucretia Mott. It was headquartered at 5th and Arch Streets in Philadelphia, where a street marker stands today commemorating the Society.

Slavery-themed covers with the 1847 Issue are exceedingly rare. Apart from the Elijah Lovejoy memorial letter sheet sold in our David L. VERY FINE. A MARVELOUS EXAMPLE OF THE 5-CENT 1847 ISSUE USED ON A VALENTINE DURING THE 1849-51 TIME PERIOD WHEN THE TRIPLE RATE WAS ELIMINATED. A PHENOMENAL COVER.

The Post Office Reform Act of 1845 greatly simplified the rate structure for sending mail. It provided for a 5c rate per half ounce for distances under 300 miles, with an increase of 5c for each additional half ounce or portion thereof.

A clause included in the Act of March 3, 1849 (30th Congress, Session II, Ch. 104) modified the postage on a letter weighing more than one ounce to bring U.S. domestic rate progression in line with the 1848 U.S.-Great Britain postal treaty, which had gone into effect on February 15, 1849. The relevant clause reads:

“That the better to enable the postal treaty with Great Britain to go into full effect with equal advantage to both countries, letters shall be mailed as composing one rate only where the letter does not exceed the weight of a half ounce avoirdupois; where it exceeds a half ounce, but does not exceed an ounce, as composing two rates; where it exceeds an ounce, but does not exceed two ounces, as composing four rates...”

This change eliminated the the 15c rate for a letter weighing between one and one-and-a-half ounces. Letters weighing between one and two ounces would be charged four-times the single rate (20c for distances under 300 miles). The elimination of the triple rate went into effect with the Postmaster General’s notice on March 15, 1849, meaning this was used in either 1850 or 1851.

Stanley B. Ashbrook theorized that the first New York City Ocean Mail cancel was fashioned from the older “New York/Ship” postmark with the word “Ship” removed. It is known on a handful of March 1850 covers bearing stamps of the 1847 Issue. Creighton C. Hart described the five 1847 covers that were known to him, dated in March 1850 and “occasionally thereafter.” (Chronicle 97). The Polland collection contained a 5c 1847 cover with this cancel dated Oct. 9 (presumably 1850). After July 1851, the cancel was used in black on domestic letters traveling via ocean routes. The accompanying certificate states states that this letter originated in England, “probably via the Cambria.” At this time the Cunard steamers were still stopping at Halifax when bound from Liverpool to the United States (North Atlantic Mail Sailing, p. 28, footnote 35). The Cambria carried this letter, but it probably was added to the mail at Halifax, based on the absence of a one-shilling packet postage marking and the presence of the “4” pence rate. The blue manuscript “10c” is characteristic of New York City’s post office. The notation was probably applied by a clerk who read the Montreal address, but the letter was delivered to Laurie & Co. and re-mailed with the two 5c 1847 stamps prepaying the postage to Canada.

March 13th”, horizontal file fold far from stamp

The addressee firm’s principal, Edwin D. Morgan (1811-1883), began his business career as a grocer in Hartford, Connecticut, and later moved to New York City, where he became a successful wholesaler, broker and banker. He was active in politics, serving as an alderman and member of the New York State Senate from 1850 to 1853. Morgan became influential in the Republican Party and was elected governor of New York from 1859 through 1862. He served simultaneously as governor and head of the military department during the Civil War. In February 1863, Morgan was elected to the U.S. Senate and served one term until 1869.

The receipt docketing indicates this was sent from Gillespie, Moffatt and Company, one of the largest import-export houses in Canada. By the mid-1840’s, the firm handled more ocean trade than any other firm in Montreal.

This letter was marked by Gillespie, Moffatt and Company with the Montreal post office box number 186. The post office charged the account and affixed the 10c stamp to show that United States postage had been prepaid. In this case the stamp was left uncancelled, and upon arrival at New York City’s post office, it was cancelled with the standard “Paid” arc handstamp.

VERY FINE APPEARANCE. ONE OF THE RAREST UNITED STATES AND CANADIAN CROSS-BORDER FRANKINGS, WITH PARTIAL PAYMENT ACCEPTED FOR THE NEW 10-CENT RATE TO CANADA.

The treaty rate of 10c U.S. or 6p Canadian began on April 6, 1851. The 1847 Issue was demonetized on July 1st, leaving a brief period in which 1847 stamps could be used to prepay the treaty rate. This cover is very unusual, because it shows the 5c 1847 prepaying U.S. postage with Canadian postage collected in cash. The treaty specified that letters had to be entirely prepaid or sent collect. The cover offered here is unusual because the part payment of 5c was accepted. The counterpart to this franking is the legitimate combination of a 5c 1847 and Canada 3p Beaver.

VERY FINE. AN EXTREMELY RARE EXAMPLE OF THE “TROY & NEW YORK STEAMBOAT” MARKING USED WITH THE 10-CENT 1847 ISSUE ON A COVER TO CANADA. ONLY FOUR EXAMPLES OF THIS MARKING ARE KNOWN USED WITH THE 10-CENT TO CANADA. THIS IS THE ONLY RECORDED EXAMPLE TO QUEBEC, THE ONLY ONE OF THE FOUR WITHOUT A TOWN CIRCULAR DATESTAMP AND THE ONLY EXAMPLE FULLY PAID TO DESTINATION WITH THE UNITED STATES STAMP.

According to the Alexander book, the “TROY & NEW YORK STEAMBOAT” marking was used on letters carried by non-contract steamboats between New York City and Troy. The mail entered the U.S. postal system at the receiving office. The Troy receiving datestamp was used to cancel the stamps on the three recorded “TROY & NEW YORK STEAMBOAT” covers to Montreal, all of which are addressed to David Torrance. It is therefore likely that all four were sent by the same person.

On the cover offered here, the Troy circular datestamp was not applied and the stamp is tied by the blue grid cancel. No Canadian rate is indicated. Effective April 6, 1851 a new rate was established between the United States and Canada. Mail was no longer prepaid just to the border; a rate of 10c (or 6 pence Canadian) was established to or from any place in Canada (except for the West Coast). This was used just three days after the rate went into effect.

EXTREMELY FINE. AN OUTSTANDING 1847 ISSUE COVER, SHOWING ACCEPTANCE OF THE UNITED STATES 5-CENT STAMP ON MAIL FROM CANADA MONTHS AFTER THE ISSUE WAS DEMONETIZED. THIS REMARKABLE COVER FIRST CAME TO LIGHT IN 1989 AND RANKS AMONG THE MOST STRIKING EXAMPLES OF THE 1847 ISSUE USED FROM CANADA EXTANT.

The U.S.-Canada postal treaty of April 1851 provided for prepayment of full postage from the country of origin to the destination, eliminating the need for “paid to the lines” part prepayment and collection. The 6p rate in Canada and the 10c rate in the United States are the standard April 1851 treaty rates. After the 1847 Issue was demonetized on July 1, 1851, post offices in Canada continued to accept the old issue on mail to the U.S., as evidenced by several covers with 1847 stamps used in Canada well after demonetization. These were also considered fully paid on arrival in the U.S. The cover offered here was mailed in December 1851, months after demonetization, and the postmaster at Chippawa cancelled the stamp. The red “Paid 10 Cts” marking was applied in Canada to indicate that the postage was prepaid, half by the U.S. stamp and presumably half in coin. There are no U.S. due markings, so the Canadian “Paid” was apparently sufficient.

A REMARKABLE COVER, DEMONSTRATING THE USE OF THE 1847 ISSUE ENTIRELY OUTSIDE OF THE UNITED STATES ON MAIL BETWEEN PERU AND MEXICO, CARRIED VIA THE PACIFIC MAIL STEAM SHIP COMPANY LINE. ONLY TWO 1847 ISSUE COVERS HAVE THE "Pan. & San Fran. S.S." ROUTE AGENT’S CIRCULAR DATESTAMP.

The “Pan. & San Fran. S.S.” circular datestamp was used between November 1850 and June 1852 on mail handled by route agents aboard ships of the Pacific Mail Steam Ship Company. Contract mail carried by PMSS Co. was received in locked bags, but letters picked up en route were postmarked by official route agents, as evidenced by 25 recorded examples of these rare markings on covers. Only two of the covers have 1847 stamps (Wierenga census).

The two recorded 1847 Issue covers with the “Pan. & San Fran. S.S.” circular datestamp both originated in Peru (one in Lima, the other in Paita) and are addressed to Barron, Forbes & Co. in Tepic, Mexico. The other letter is dated November 11, 1851, at Paita. They were both datesteamped on December 4, 1851. Since the two covers followed the same journey, the following description applies to both.

This cover — with its letter, which is no longer present — was sent from Lima, Peru, in early November 1851, and carried out of the mails or inside another cover to the care of E. & T. Serruys Co., the Panama forwarding agents. It was stamped in Panama with the strip of three 10c 1847’s obtained from Amos B. Corwine, the United States mail agent in Panama. The fact that the stamps had been demonetized in the continental United States more than four months earlier apparently did not matter to Corwine. The mail was given to Gouverneur A. Ferris, the route agent on board the PMSS Co. California, which departed Panama on November 13. On its northbound run, the California evidently did not off-load the mail to Mexico at the ports of Acapulco, San Blas or Mazatlán, but carried it all the way to San Francisco, where the California arrived on December 2, carrying 179 bags of mail (Wierenga, p. 106). The 1847 covers to Mexico were postmarked by Ferris on December 4, one day before he departed on the PMSS Co. Golden Gate. On the southbound trip, the two 1847 covers were off-loaded at San Blas and then carried to Tepic.

This cover from Peru to Mexico via Panama was prepaid at the U.S. 30c Panama (Pacific Coast) rate. The stamps came from a supply of 5,000 10c 1847 Issue stamps sent to A. B. Corwine, to facilitate prepayment of U.S. postage on mail sent via Panama. They became available in Panama on July 16, 1850. Corwine’s responsibilities included arranging for mail to be carried across the Isthmus of Panama, between Chagres on the Atlantic side and Panama City on the Pacific side, and to receive mail for transport on the PMSS Co. line. It is this unique circumstance of postal history that made it possible for letters to have United States stamps, but never enter a U.S. post office.

The record of 10c 1847’s showing use of the stamp from Panama contains ten full covers, one piece and a strip of three off cover. Of these, eight covers bear three stamps each for the 30c Panama rate. Four covers were carried from Peru to Mexico via Panama. As noted above, only two have the “Pan. & San Fran. S.S.” circular datestamp.

Corwine served as the American commissioner in Panama until Lincoln removed him from office. He was an instrumental figure in the so-called 1856 Watermelon War, where inebriated Americans in transit antagonized a local seller of watermelon by refusing to pay, leading to riots — the vendor pulled a knife, the antagonist pulled a gun, a struggle ensued, and a bystander was shot. Corwine’s report of the incident was instrumental in the following short American occupation of the Isthmus, as well as payment of compensation and justification for future military actions to maintain neutrality of Panama.

Creighton C. Hart illustrated and described this cover in his May 1968 article on 1847 stamps used from Panama (Chronicle 58, pp. 46-49): “The fourth cover has a fine strip of three but instead of being pen cancelled, it is cancelled with red grids. Instead of the rather common black ‘STEAM SHIP,’ it has the desirable and rare red ‘PAN. & SAN FRAN. S.S.,’ this being the abbreviation for "Panama and San Francisco Steam Ship." This is the only "PAN. & SAN." cover known with 1847 stamps [Note: the second example has since been recorded]. When this cover was acquired by Mr. Shierson, it had an accompanying letter showing the origin of the cover to be Lima, Peru and the text of the letter related to the shipment of silver bars. When the cover was auctioned in 1961 the letter was missing. This cover is also in your editor’s collection.”

A famous cover from the J. Waldo Sampson, Charles Shierson and Creighton C. Hart collections. Illustrated and discussed in Chronicle 58, illustrated in Letters of Gold (p. 97) and discussed in Theron Wierenga’s The Gold Rush Mail Agents in California and Their Postal Markings 1849-1852 (pp. 101-107). VERY FINE APPEARANCE. A REMARKABLE AND RARE RETALIATORY RATE COVER FROM NEW ORLEANS TO SCOTLAND VIA BOSTON. ONLY TEN RETALIATORY RATE COVERS BEARING UNITED STATES STAMPS ARE RECORDED, OF WHICH JUST THREE ARE COMBINATION 5-CENT AND 10-CENT 1847 FRANKINGS.

The full history of the Retaliatory Rate period is told in our catalogue for the famous Rush cover, available at http://www.siegelauctions.com/2006/912/912.pdf. The so-called Retaliatory Period resulted from Great Britain’s effort to maintain its monopoly on transatlantic mail carriage through the subsidized Cunard steamship line, which operated without competition from 1840 through 1846. In response to the emergence of subsidized American packets in 1847 (the Ocean Line), the British issued an order (effective June 9, 1847) authorizing its receiving offices to collect the usual British packet postage on letters carried to England by American subsidized steamers. This effectively allowed England to collect 24c packet charges for every inbound letter, whether or not any service had been performed.

The United States vehemently protested the British order through diplomatic channels, but efforts to persuade the government to rescind the anti-American postal tariff were unsuccessful. In December 1847, U.S. Postmaster General Cave Johnson petitioned Congress for power to levy like charges on mail carried by British steamers to or from the United States, but he was not authorized to do so until June 1848. On all Cunard sailings from June 24, 1848 (the Caledonia from Liverpool) through December 31, 1848 (the Europa arriving at New York), American packet postage was required on all inbound and outbound mail to England whether or not one of the American vessels was used, creating the so-called Retaliatory Rate. Beginning with the departure of the Europa from New York on January 10, 1849, earlier rates were restored, and soon after the new U.S.-British treaty rate was effected.

This cover to Scotland reflects the dispute between Great Britain and the United States. The 35c in postage pays the U.S. 10c domestic rate for distances over 300 miles, plus a 1c overpayment of the 24c rate to England. This cover originated in New Orleans and entered the Mobile post office as unmarked way mail (see Van Koppersmith’s article in Chronicle 215, pp. 196-198). It was carried on the Cunarder Cambria, which departed New York on December 6 and arrived in Liverpool on December 20. The 24c prepayment was ignored, and the letter was charged one shilling for sea postage and inland delivery.

VERY FINE APPEARANCE. A RARE SHEET-MARGIN STRIP OF FIVE OF THE 5-CENT 1847 ISSUE USED ON A COVER TO ENGLAND, OVERPAYING THE 24-CENT TREATY RATE BY ONE CENT. A PHENOMENAL POSTAL HISTORY AND PHILATELIC RARITY.

As of February 15, 1849, the new postal treaty between the United States and Britain commenced, officially ending the punitive Retaliatory Rate period. Both sides agreed to a reciprocal 24c rate (or one shilling). For letters to Great Britain, a credit of either 3c or 19c was given, depending on whether it was carried by a British (usually Cunard) or American steamer line. The cover offered here was carried aboard the Cunarder Caledonia, which departed Boston on August 1 and arrived in Liverpool on August 14.

Only three covers franked solely with the 5c 1847 Issue are known paying the 24c rate, including one from Charleston which was carried on the same trip from Boston. The third was also carried by British packet. Four combination covers are also known (see previous lot).

VERY FINE. A "TRIPLE THREAT" COVER SHOWING USE OF A SHEET-MARGIN PAIR OF THE 5-CENT 1847 ISSUE FROM THE FIRST PRINTING (RARE ON OR OFF COVER), PAYING THE 10-CENT OVER-300 MILES RATE ON BRITISH PACKET MAIL TO FRANCE (RARE—ONLY SIX 5-CENT 1847 MULTIPLES ON COVERS TO FRANCE ARE RECORDED BY WALSKJE), AND, FINALLY, SENT FROM NEW ORLEANS TO MOBILE AS MARKED "WAY" MAIL. WITHOUT QUESTION, THIS ONE OF THE GREAT 1847 ISSUE TRANSATLANTIC COVERS.

Steven C. Walske, collector and noted authority on U.S.-French mails, published a comprehensive article on 1847 Issue covers to France in Chronicle 234, in which he states that only six covers to France have multiples of the 5c 1847 Issue. The reason for this is that the under-and-over-300 miles domestic rates applied only for a brief time before the uniform 5c British Open Mail rate was applied to British Packet mail to France. Walske writes: "When the U.S. 1847 stamps first came into use, the principal route between the United States and France was by the British-operated Cunard line to England and then by Dover packet and railroads within England and France. The United States had no postal treaties with either England or France, so letters could not be fully prepaid to their destination. Within the United States, inland postage to the departure port was required to be prepaid. Rates on the entire route were governed by the U.S. postal act of 1 July 1845 (5c per half ounce for less than 300 miles, 10c for over 300 miles) and by the France-England postal treaty of 1 June 1843. This treaty set English transit and sea postage of 10 decimes (equivalent to 20c U.S.) per 7.5 grams (0.2646 ounces) to be debited from England to France and indicated by a 'Colonies &c. Art. 13' marking applied in London. French inland rates, also set out in the 1843 treaty, varied according to distance. Thus, a recipient in France would be charged the French inland postage from the Channel port of entry (typically Boulogne during this period) plus the English transit and sea charges."

EXTREMELY FINE. ONE OF SIX 10-CENT 1847 ISSUE COVERS TO FRANCE RECORDED BY WALSKE — ONLY TWO SHOW USE OF THE STAMP TO PREPAY THE OVER-300 MILES RATE IN CONJUNCTION WITH BRITISH PACKET SERVICE. AN IMPORTANT TRANSATLANTIC COVER OF THE CLASSIC IMPERFORATE STAMP ERA.

Steven C. Walske, collector and noted authority on U.S.-French mails, published a comprehensive article on 1847 Issue covers to France in Chronicle 234, in which he states that only six covers to France have the 10c 1847 Issue paying postage. One of these is the “Rush” cover with a strip of six, which really stands in a class of its own. Another cover is prepaid 10c, to which 24c was paid in cash for the full 34c postage during the Retaliatory Rate period — that remarkable cover also falls into a different category. The remaining four covers divide into two prepaid for the over-300 miles rate, which applied to British Packet mail to France until July 1848, and two prepaid for the double 5c British Open Mail rate (they were over the half-ounce limit). Therefore, this cover is one of only two 10c 1847 Issue covers from the first period of British Packet mail to France.

Walske explains this period of U.S.-French mails: “When the U.S. 1847 stamps first came into use, the principal route between the United States and France was by the British-operated Cunard line to England and then by Dover packet and railroads within England and France. The United States had no postal treaties with either England or France, so letters could not be fully prepaid to their destination. Within the United States, inland postage to the departure port was required to be prepaid. Rates on the entire route were governed by the U.S. postal act of 1 July 1845 (5c per half ounce for less than 300 miles, 10c for over 300 miles) and by the France-England postal treaty of 1 June 1843. This treaty set English transit and sea postage of 10 decimes (equivalent to 20c U.S.) per 7.5 grams (0.2646 ounces) to be debited from England to France and indicated by a “Colonies &c. Art. 13” marking applied in London. French inland rates, also set out in the 1843 treaty, varied according to distance. EXTREMELY FINE. A SUPERB 5-CENT 1847 STAMP ON A MAGNIFICENT BLUE-LINED MOURNING ENVELOPE TO PARIS, FRANCE. THIS IS ONE OF TWO PRIVATE SHIP COVERS TO FRANCE WITH THE 1847 ISSUE, ACCORDING TO STEVEN C. WALSKE’S CENSUS.

Steven C. Walske, collector and noted authority on U.S.-French mails, published a comprehensive article on 1847 Issue covers to France in Chronicle 234, in which he states that only two covers are recorded that were carried by private ship to France. Regarding these covers, Walske writes: “Non-contract ships also carried small amounts of mail to France, and private ship rates applied to this type of mail in both the United States and France. In the United States, the 1845 inland rates applied: 5c per half ounce if sent less than 300 miles, and 10c if sent over 300 miles. France assessed a one decime (2c) ship fee plus variable inland rates until July 31, 1849. After that, collections in France were 3 decimes per 7.5 grams to the port of arrival or 6 decimes to other parts of France.” The other cover, illustrated in Walske’s article, also comes from the Octavius Yates correspondence.

The under- and over-300 miles domestic rates applied to U.S. mail to France for about one year, from July 1847 to July 1848. After the Retaliatory Rate conflict, the uniform 5¢ per half-ounce British Open Mail rate applied to British Packet mail to France, starting in February 1849. For this reason, multiples of the 5¢ 1847 (or, for that matter, a single 10¢ 1847) are rare on covers to France. This very late use in May 1851 was rated 15 decimes due in France; therefore, it did not exceed the half-ounce limit. The sender or clerk at the Franklin, Louisiana, post office may have been confused and paid the domestic rate for distance.

Winter writes: "Taken literally, the ‘U.S. STEAMSHIP/POSTAGE NOT PAID’ marking would mean that the U.S. inland postage was paid and the sea transit was not paid... Lacking any definitive information on this marking, examination of the few covers seen does not provide any sensible reason for New York’s use of the handstamp other than the incorrect rate mentioned above. Since so few of these markings have been reported it may be that the marking was abandoned soon after it was first used because it was ambiguous and confusing."

The Alexander census (Chronicle 174) lists another cover with the same hotel design and same addressee, dated October 2, 1851. It is interesting that the sender knew enough about the new postage rates to use a 5c stamp rather than 10c stamp for the old over-300 miles rate, and successfully used the worthless 5c stamp to evade paying 3c postage.

Arrival of the "Unico Sain."

The steamship Unico San arrived here this afternoon about 7 o'clock, from Panama, with the mails and passengers that left New York on the 21st of August. The Eastern and European intelligence by this arrival has been anticipated by the Pony Express and Overland mail. We have already published the names of most of the cabin passengers, as transmitted to us by our New York correspondents by the Pony Express, but for public convenience we reprint the entire list here.

Brevet Captain Sewall, W. F. Longfellow, Commander, U.S. San Francisco, August 30th at 8 A.M. received from Unico San a message to the effect that he had arrived at Panama August 13th at 7 P.M., transferred all mail to Unico San, and left for New York at 8 A.M. August 14th. The mail was delivered to Captain Sewall at 9 A.M. August 14th. The mail consisted of passengers, and left M. H. A. M. arrived at Panama August 13th at 7 P.M.; a vessel named the "Orion" arrived at Panama August 18th at 7 P.M.; and the "Pacific" vessel arrived at Panama August 19th at 7 P.M. The mail was received from the "Pacific" vessel on August 21st. It was forwarded by the American Consul. Here was a romantic story about what mail was sent and what was forwarded for publication.

The Unico San was in port at Panama. A ship, the "Mary," from San Francisco, arrived at Panama August 21st. The "Mary" was a small vessel, and the "Unico San" was a large steamship. The "Unico San" brought 45 passengers, 100 packages of freight, and 50 bags of mail.

VERY FINE. A SPECTACULAR POST-DEMONETIZATION ATTEMPTED USE OF THE 1847 ISSUE TO PAY THE 10-CENT TRANS-CONTINENTAL RATE FROM NEW YORK CITY TO A WELL-KNOWN NAVAL OFFICER AT SAN FRANCISCO.

This 1847 Issue cover has a number of remarkable aspects to it, which past students of postal history have struggled to completely understand. We hope to explain it accurately in the context of biographical and historical information, starting with the addressee.

Richard W. Meade III (1837-1897), also known as Richard W. Meade Jr., was a prominent U.S. naval officer who attained the rank of Rear Admiral in 1894. Meade started his service in 1856 and was promoted to the rank of lieutenant on January 28, 1858. Meade was an officer on the USS Saranac and sloop-of-war Cyane in the Pacific Squadron from 1859 to 1861, during which period this cover was mailed to him in San Francisco on August 21, 1860. Lieutenant Meade returned to the East Coast in mid-1861 and was hospitalized due to a severe tropical illness.

After his recovery, with the Civil War raging, Lieutenant Meade became a gunnery instructor. In January 1862 he became executive officer of the USS Dacotah and later held the same position on the gunboat Conemaugh. Lieutenant Meade’s Civil War record was distinguished, and he earned an excellent post-war reputation as a technologically-savvy reformer. After serving at the U.S. Naval Academy from 1865 to 1868, Meade was promoted to Commander, and in April 1868 he led an exploring expedition along the Alaskan coast as commanding officer of the USS Saginaw. He returned to Mare Island after a year or so. It is during this period that Commander Meade would have received the cover offered here, based on the notation “This letter has followed you to Alaska.”

In addition to the “Alaska” notation, the other notation on the back — “Found in ded letter Box — A. F. Gomez” — provides an important clue to the timing of final delivery. It was written by Antonio F. Gomez (1836-1911), a clerk in the United States Navy Pay Office, located at 202 Sansome Street. Gomez’ biography can be found at http://www.findagrave.com/cgi-bin/fg.cgi?page=gr&GRid=3528067. According to this source: “Gomez was a Parsee, the son of an Indian prince of the province of Punjab, and was born in Lahore in 1837. He left India at the age of 12 and went to London. He was given an education in that city and in 1860 made his home in Brooklyn, N. Y. Rev. Henry Ward Beecher, who took the young man in hand and was training him for the ministry, changed his name from Conjee Rustumjee Cohoujee Bey to Antonio F. Gomez. In 1863 Gomez entered the navy and served for two years during the Civil War. He came to San Francisco in 1867 and has been in the employ of the government ever since” (boldface for emphasis).

Therefore, the notation by Gomez could not have been written before 1867. It was not applied at the post office, but was written by Gomez at the U.S. Navy Pay Office. This cover and its contents were probably put inside a U.S. Navy Department envelope and sent to Commander Meade wherever he could be located during his tour of duty in Alaska.

Reconstructing the events, the cover was mailed from New York City with an old 10c 1847 stamp affixed at the upper right, but the 10c postage was paid by the current 1857 Issue stamps subsequently applied at upper left. It was carried on the August 21, 1860, sailing of the North Star, which arrived at Aspinwall on August 29. After crossing the Isthmus, it was carried by the Uncle Sam, which sailed from Panama on August 30 and arrived at San Francisco on September 14 (San Francisco Bulletin, September 14, 1860). Lieutenant Meade was unable to receive the letter in San Francisco, and it was advertised on June 11, 1861, at which point he had returned to the East Coast. After going unclaimed, the cover was put into the San Francisco Dead Letter Office and remained there for at least six years, at which point the U.S. Navy Pay Office clerk, Antonio F. Gomez, retrieved it and arranged to have it delivered to Meade, now in command of the USS Saginaw, sailing the Arctic waters off the coast of Alaska. Recognizing the amazing seven or eight-year journey this piece of mail took, someone wrote “This letter has followed you to Alaska.” Illustrated in Baker’s U.S. Classics (p. 144). VERY FINE APPEARANCE. A RARE DEMONETIZED USE OF THE 5-CENT 1847 FROM PHILADELPHIA.

The 1847 Issue was demonetized when the new 1851 Issue was released on July 1; however, based on surviving examples, major post offices evidently tolerated sporadic late use of 1847 stamps, at least for a period of time. This cover shows the 5c cancelled by the Philadelphia datestamp in black, a color of ink used only after 1851. The earliest possible date of use is October 22, 1852, long after demonetization. The recent Alexander census of post-demonetization 1847 covers (Chronicle 174) lists 69 examples, including four from Philadelphia.

Fort Union was established in July 1851, several miles north of the junction of the two main branches of the Santa Fe Trail. Military supplies shipped from Fort Leavenworth and St. Louis crossed the plains on the Santa Fe Trail and were stored at the Fort Union depot, where they were distributed to other posts in the Southwest. Dr. Thomas A. McParlin served as the first U.S. Army Surgeon at Fort Union.

The census of post-demonetization 1847 Issue covers by Thomas A. Alexander (Chronicle 174) lists two covers from Fort Union. One is listed under New Mexico, and the one offered here under Washington D.C. Although this was postmarked at Washington D.C., it is obvious that the 5c stamp was affixed by Dr. McParlin in Fort Union.

The “Rough and Ready” stamp, with a portrait of then-presidential candidate Zachary Taylor, was created by John R. Bouton during the election campaign of 1848. Bouton’s mixture of politics and postage put him far ahead of his time. The design was adopted by the successor to his post, Aaron Swarts.

Very few covers exist with a government 1c stamp paying the drop rate and a local-post adhesive paying the fee for delivery to the post office. This combination of the 1c 1851 and Swarts’ “Rough & Ready” issues is unique.

Of the eight used to pay the 1c circular rate, only two originated on the West Coast. ONE OF THE MOST REMARKABLE EXAMPLES OF A CALIFORNIA PENNY POST COMPANY FRANKED ENTIRE. EXAMPLES WITH ADHESIVE STAMPS FOR GOVERNMENT POSTAGE ARE RARE, THIS BEING ONE OF THREE WITH FOUR 3-CENT 1851 STAMPS. ANY PENNY POST ENTIRE WITH THE ADHESIVE STAMP TIED BY A COMPANY HANDSTAMP IS EXCEEDINGLY RARE.

The California Penny Post Company was established in June 1855 by Henry L. Goodwin (sometimes reported as “J. P.” Goodwin). The Penny Post advertised service in several larger California towns and cities, offering to carry letters to and from the local post office, to bring letters to one post office and deliver them to the addressee from the receiving office, and to run an express service between towns after the government mails were closed for the day. A specific rate was charged for each service, and these rates are reflected in the stamps and entires issued by the Penny Post. For a relatively short-lived operation, the Penny Post produced a large variety of stamps and printed envelopes to facilitate prepayment and collect-on-delivery mail.

Almost immediately the Penny Post incurred the wrath of the San Francisco postmaster, and Goodwin became involved in protracted litigation trying to fight the government. Most writers have reported that the Penny Post closed down after twelve to eighteen months, but we have never seen source documentation to establish exactly when service ended. There is one June 1, 1856, Penny Post entire with the name of the post and “Penny Postage Paid 7” crossed out (Siegel Sale 773, lot 219), which might be evidence that the Penny Post closed before that date.

The printed franks are found on plain envelopes and U.S. 3c stamped envelopes. The rates correspond to the company’s advertisements, but the application of these rates, patterns of usage and certain enigmatic covers have yet to be explained to our satisfaction. The cover offered here, for example, is a very rare use of the 5c frank on a plain envelope (34LU9) with U.S. postage paid by the 3c 1851 Issue. The 5c Penny Post rate covered delivery of the letter from the San Francisco office to the addressee. Why 12c government postage was required is not obvious from the cover itself. Perhaps the sender or Penny Post office in Stockton applied enough postage to one envelope to cover four letters for delivery in San Francisco.

A pencil note on back in Edward S. Knapp’s hand reads “P.P. can(cel) on 3c is a rarity. This cover one of the few examples known and one of the rarest items from Dr. Chase’s collection—1929”. The Scott footnote to 34LU1-34LU15 states “The U.S. adhesives are seldom cancelled with the Penny Post cancellation. When they are, the cover sells for more.”

VERY FINE. A REMARKABLE USE OF THE CALIFORNIA PENNY POST COMPANY FRANKED ENTIRE. EXAMPLES WITH ADHESIVE STAMPS FOR GOVERNMENT POSTAGE ARE RARE. THIS USAGE FROM ST. LOUIS SENT WESTWARD TO SAN FRANCISCO IS UNIQUE.

The California Penny Post Company was established on June 25, 1855, by Henry L. Goodwin (sometimes reported as “J. P.” Goodwin). The Penny Post advertised service in several larger California towns and cities, offering to carry letters to and from the local post office, to bring letters to one post office and deliver them to the addressee from the receiving office, and to run an express service between towns after the government mails were closed for the day. The cover offered here, for example, is a very rare use of the 5c frank on a plain envelope (34LU9) with U.S. postage paid by the 10c 1855 and 3c 1851 Issue. The 3c Penny Post rate covered delivery of the letter from the San Francisco office to the addressee. Very few Penny Post covers originating outside of California are known, and almost all came from the East Coast. The gap between the Feb. 23 origin date (indicated by the docketing) and the St. Louis Mar. 1 postmark date is intriguing. Perhaps the letter was written by someone travelling eastward from California, who carried with him a Penny Post entire and used it to mail the letter at Saint Louis. Another possibility is that the letter originated in the East, the entire (furnished by the California correspondent) was pre-stamped with the 10c for the transcontinental rate, then carried by a westward-bound traveller to Saint Louis and mailed from there. This latter scenario might explain the additional 3c stamp, possibly applied in response to a persnickety postal clerk who questioned the legitimacy of the 10c stamp.

3c Dull Red, Ty. II (11A). Vertical pair, large margins to slightly in at right, tied by well-struck “Sacramento City Cal. Nov. 30” circular datestamp on brown cover with Adams & Co. printed frank (missing “I” of “California”) at upper left, to Uniontown Ala., pair with scissors-cut at bottom right, cover with scuff in address which has been touched up.

VERY FINE. ONE OF SEVEN RECORDED EXAMPLES OF ADAMS & COMPANY’S PRINTED FRANK, OF WHICH ONLY TWO HAVE ADHESIVE STAMPS. THIS IS THE FIRST PRINTED FRANK USED BY ANY OF THE WESTERN EXPRESS COMPANIES. A COVER OF GREAT HISTORICAL IMPORTANCE AND ESPECIALLY DESIRABLE WITH THE 3-CENT 1851 ISSUE.

Adams & Company set up its California and Oregon business in December 1849 under the direction of William B. Dinsmore of New York and Daniel H. Haskell of Boston, with Alvin Adams as a third partner. Dinsmore left shortly thereafter. In 1852 I. C. Woods joined the firm and two years later became a partner. Its business in the shipment of gold, merchandise, parcels and letters flourished, and its related banking operations established Adams & Co. as a major force in the economic development of the West. All of this figuratively turned to dust in February 1855 with the failure of Page, Bacon & Company, a prominent banking firm. Two days later Adams Express collapsed as depositors rushed to withdraw their gold from a concern that was already weakened by competition (source: Wiltsee, The Pioneer Mule and The Pack Mule Express).

The significance of Adams & Company’s printed franks is two-fold: first, they were produced in 1853, making them the earliest franks actually printed on envelopes or stamped entire; and, second, their function “was to facilitate the deposit of mail in letter boxes after the normal business hours of the express. Much like a printed adhesive stamp, these could be used to prepare letters for mailing so that they could be deposited in a box and without having to wait in line if the express office was still open.” (Frajola).

With the Dale-Lichtenstein dispersal, the number of recorded examples of the Adams & Co. frank rises to seven, including three slightly different formats on plain envelopes, both stamped and stampless, and the 3c Nesbitt entire. Only two covers have adhesive stamps (pairs of the 3c 1851 in both cases).

VERY FINE. AN IMPORTANT AND SPECTACULAR COVER, CARRIED BY THE PACIFIC EXPRESS COMPANY WITHIN CALIFORNIA, THEN BY THE VANDERBILT LINE (OUTSIDE THE MAILS) TO NEW YORK CITY, WHERE IT ENTERED THE REGULAR MAILS FOR FINAL DELIVERY TO VERMONT. TRANSCONTINENTAL COVERS ACTUALLY CARRIED BY EXPRESS ARE EXCEEDINGLY RARE.

The Pacific Express Company was formed on March 2, 1855, by former employees of Adams & Company, the huge express and banking concern that went bankrupt in February 1855. Pacific Express operated until sometime in 1857, carrying mail between points in California and also through connections to the East Coast.

This cover was received by the Pacific Express office in Auburn on Jan. 4, 1856. It was carried by express about 35 miles south to the office at Sacramento, where it was datestamped again on Jan. 19. The New York Feb. 13 postmark date coincides with the Feb. 13, 1856, arrival date of the Northern Light, which departed San Juan del Norte on Feb. 5 (source: Wierenga, U.S. Incoming Steamship Mail 1845-1875). The trip from San Francisco to San Juan del Sur (SJ) was probably on the Sierra Nevada, but no specific departure and arrival dates are listed in the Wierenga tables. Both ships carried mail via the Nicaragua route. Allowing for the typical 12-day transit between San Francisco and SJ, the San Francisco departure of the Sierra Nevada was probably on or about Jan. 20, which fits with the Pacific Express Co. Sacramento Jan. 19 date.

We wish to emphasize the difference between an express cover to the East Coast that entered the regular mails in California (usually carried by a contract steamer via Panama) and one that was actually carried outside the mails thru an express company. They are entirely different from a postal history perspective, and covers carried outside the mails are far rarer.

This cover was carried across Nicaragua during the period in which William Walker was engaged in taking control of the country. The completion of the Panama Railway, the rate wars between competing lines and the country’s political instability eventually led to the decline of the Nicaragua route.

Gower datelined “Lahaina March 22d/54” to which the addressee has added an introductory letter on the other leaf, second dateline “Farmington Falls May 10/54”, minor cosmetic cover restoration — stain removal around edges and sealed opening tear at upper left — but the Missionary is intact without any paper addition or painting-in of design as so often encountered among examples of these classic rarities

**ONE OF SIX RECORDED COVERS WITH MIXED FRANKING OF HAWAIIAN MISSIONARY AND UNITED STATES STAMPS — THE ONLY COMBINATION INVOLVING THE 13-CENT “HAWAIIAN POSTAGE” STAMP. THIS IS THE LAST HAWAIIAN MISSIONARY COVER TO BE DISCOVERED — IT WAS FOUND IN A STEAMER TRUNK OF PAPERS WITH THE 3-CENT 1851 STAMPS PASTED OVER THE 13-CENT MISSIONARY.**

This cover is 3-II-COV-144 in our census of Hawaiian Missionary stamps (at http://www.siegel-auctions.com/dynamic/census/HI3/HI3.pdf) and No. 10 (13c Scott 3) in the Gregory census. There are 29 Hawaiian Missionary covers recorded in our census, which we believe to be a complete list of genuine covers. One of the covers we list has a small fragment of a 13c stamp, leaving 28 collectible covers. Of these 28, four are permanently held by the National Postal Museum, and a fifth is in the Reichspost Museum, leaving 23 Hawaiian Missionary covers available to collectors. Of the 23 available, only six have combination frankings with United States stamps, including the famous 2c cover. Only the cover offered here has the 13c “Hawaiian Postage” issue used with United States stamps. It is also one of seven genuine 13c “Hawaiian Postage” covers (with complete stamps) available to collectors. Two additional 13c “Hawaiian Postage” covers are in the National Postal Museum, and the tenth recorded cover has most of the stamp torn away, thus making it a study item rather than a collectible example. The Gregory book lists an eleventh Scott 3 cover that requires further study.

This cover was carried from Honolulu to San Francisco on the brigantine **Prince de Joinville,** departing on March 23 and arriving on April 10, 1854. It was carried from San Francisco to Panama on the steamship **John L. Stephens,** departing on April 15. It probably made the April 17 sailing of the **Illinois** from Aspinwall, which arrived at New York on April 25.

The sender, George D. Gower, was born in Farmington, Maine, in 1826 and for a number of years operated a lumber business. He served as Customs Collector of Lahaina from 1851 to 1854. The enclosed letter from Gower to Thomas Croswell & Son in Farmington included a payment draft for $1,000. It also mentions the birth of a daughter — Susan Charlotte was born in Lahaina on March 20, 1854, two days before this letter was written.

March 1854 is a relatively late use of the 13c "Hawaiian Postage" Missionary, but 13c is the correct composite rate, and the practice of affixing United States postage over Hawaiian postage is evidenced by several other covers from the same period. It is possible that Gower, as Customs Collector, had a supply of the three-year old Missionary stamps on hand. The short-lived practice of applying United States stamps (6c postage) over the 13c Hawaiian stamp was likely intended to avoid confusion over whether or not U.S. postage had been prepaid. The postmaster in Honolulu affixed the U.S. stamps to cover up the Hawaiian postage, and the letter was postmarked in San Francisco without applying a "Ship" or rate mark. The 2c ship fee was credited to San Francisco in the regular accounting. Fred Gregory records eight paste-over frankings with the 1853 Kamehameha III Issue and this one Missionary cover.

EXTREMELY FINE. A REMARKABLE MIXED-FRANKING LETTER, MAILED BY MARIA WHITNEY POGUE — THE FIRST MISSIONARY CHILD BORN IN HAWAII — TO HER SCHOOLMATE FROM MOUNT HOLYOKE, FIDELIA FISKE, WHO WAS ONE OF THE FIRST MISSIONARIES TO WORK AMONG THE NESTORIANS IN PERSIA.

The letter writer, Maria Kapule Whitney Pogue, was the daughter of Reverend and Mrs. Samuel Whitney and was the first missionary child born in the Hawaiian Islands (born October 18, 1820). Her brother, Henry M. Whitney, was Hawaii’s first postmaster and the printer of the Missionary stamps. Maria Whitney married John Fawcett Pogue in 1848, four years after his arrival with the Eleventh Company of missionaries. The Pogues moved from the island of Hawaii to Lahainaluna on Maui in 1851 and were stationed there until 1866.

In June 1854 Mrs. Pogue wrote this letter to Fidelia Fiske, her former roommate at Mount Holyoke and a missionary colleague. Miss Fiske travelled to Urmi (Orooomiah) in 1845 to join the missionaries, including her father, who were working among the Nestorians, a religious group whose ancient views of Christ were regarded by other Christians as heresy. Urmi is located on the plains east of Kurdistan in the northwest region of Persia. It was the site of a female seminary, of which Fidelia Fiske became the first principal.

The letter from Mrs. Pogue was addressed to the missionary house at 33 Pemberton Square, where arrangements were made for letters to be carried back and forth by missionaries travelling between the United States and foreign countries. After the journey from Hawaii to Boston, this letter was carried outside of the mails by vessel across the Atlantic and into the Mediterranean Sea. The journey is described in Faith.
Working By Love, a memoir of Fidelia Fiske’s life by Rev. Daniel T. Fiske (published in 1868). The ocean voyage brought the missionaries and mail to the port city of Smyrna, Turkey. From there they travelled north across the Aegean Sea to Constantinople, and, after a stop, they continued on the waters of the Black Sea to Trebizond in northeast Turkey. At Trebizond the missionaries prepared for the arduous land journey to Urumi, a distance of approximately 400 miles. Caravans of twenty horses crossed the plains and mountain passes, covering about fifteen to twenty miles per day. About midway, the caravan rested at Erzroom, where other missionaries were situated. Then came the last leg of the trip, the dangerous trek across the Kurdish region, which required another two weeks and exposed the missionaries to attacks from hostile Kurds. Upon reaching Urumi, the villages of the plains could be seen from the surrounding mountains.

An interesting feature of this letter is the manuscript note at the top of the address panel, “overland Contple 12 Octe 54”, which, based on the route to Urumi described in Fidelia Fiske’s biography, indicates “Overland via Constantinople (Turkey).” Where and by whom this route marking was applied is not known, but the letter was probably carried from Boston to Smyrna, then by water to Constantinople. Whether the land-journey commenced at Constantinople or, as described in Fiske’s biography, from Trebizond in northeast Turkey, is uncertain.

The letter itself discusses missionary life and problems of health. Mrs. Pogue writes with remarkable candor: “The increase of foreigners increases fearfully the amount of sin committed & we are appalled to think & see what is going on around us-. The ravages of small-pox last year you probably have heard of it-will nigh sweep off the nation-nothing but the most strenuous efforts & the most strict tabus kept the disease out from any part of the Is. It is remarkable that the disease was introduced first probably by a sailor’s intercourse with a prostitute at Honolulu & that that class of persons were the greatest sufferers. Wherever persons of bad character were found there we were sure to hear of the disease & most of the abandoned were carried off by it.” Fidelia Fiske received this letter and, according to docketing in her hand, answered it on April 29, 1855.

The postage rate that applied to this June 1854 letter was 5¢ Hawaiian, 6¢ U.S. postage and 2¢ ship captain’s fee. However, by this time the Missionaries had been superseded by the Kamehameha III issue (though the two issues were used concurrently). The short-lived practice of applying U.S. stamps (6¢ postage) over the 13¢ Hawaiian stamp was likely intended to avoid confusion over whether or not U.S. postage had been prepaid. The postmaster in Honolulu affixed the U.S. stamps to cover up the Hawaiian postage, and the letter was postmarked in San Francisco without applying a “Ship” or rate mark. The 2¢ ship fee was credited to San Francisco in the regular accounting. Fred Gregory records eight paste-over frankings with the 1853 Kamehameha III Issue and one Missionary cover (offered in lot 349).

VERY FINE. THIS IS AN EARLY USE OF THE HAWAIIAN 1853 5-CENT KAMEHAMEHA III ISSUE AND ONE OF TWO EXAMPLES OF A BISECTED 12-CENT 1851 STAMP USED FROM HAWAII. A WONDERFUL EXHIBITION ITEM.

This piece of mail arrived in San Francisco on August 2, just one day after the PMSS Co.’s Northerner left for Panama. Assuming it was held for the next PMSS Co. sailing, it would have been carried on the Winfield Scott on that vessel’s maiden voyage for the company, departing San Francisco on August 16 and arriving at Panama City on August 30. Mail from the Winfield Scott was carried by the U.S. Mail Steamship Co.’s Illinois, departing Aspinwall on September 2 and arriving at New York on September 10.

When this arrived in San Francisco, the use of bisected 12c stamps for the 6c transcontinental rate was still permitted. According to research by James Allen, the first official U.S. Post Office Department notice prohibiting the use of bisectional stamps was published on the East Coast on September 12, 1853. It is interesting that the Honolulu post office applied the “Hawaiian Islands” datestamp, indicating that U.S. postage had not been prepaid, and that San Francisco also treated the letter as unpaid at a time when bisected stamps were accepted. The only examples of a 12c 1851 bisect used from Hawaii are this cover front and a small piece with two bisects put together.

Fred Gregory records an off-cover example of the 5c Kamehameha “Boston” Engraved issue with a postmark dated June 6 (1853) and this front with the July 3 datestamp as the earliest uses of the issue. A VERY FINE COVER WITH THE HAWAIIAN 1857 "5" ON 13-CENT KAMEHAMEHA III PROVISIONAL STAMP USED IN COMBINATION WITH THE 12-CENT 1851 ISSUE. ONE OF TEN SUCH COMBINATIONS RECORDED BY GREGORY.

The 5c provisional surcharge was necessary due to a shortage of 5c stamps just after the transition from Postmaster Whitney to Jackson. Most were made by Jackson’s clerk, Alvah Clark, around the start of 1857. New supplies of the 5c stamp (Scott No. 8) were received at the end of June 1857.

Five of the eighteen 5c provisional covers recorded by Gregory (Hawaii Foreign Mail to 1870, Volume III, Appendix II-F) were carried on this trip of the Vaquero, which stopped at Honolulu on its way from Australia and carried two bags of mail when it cleared Honolulu on June 27, 1857. She returned to safe harbor with a broken mast and left again on June 29 with additional mail, arriving in San Francisco on July 16 (Gregory, Vol. II, pp. 54-55). The mail from the Vaquero, including this cover, was carried on the PMSS Co.’s John L. Stephens, departing San Francisco on July 20 and arriving at Panama City on August 3. It was then carried by the famous steamship Central America, departing from Aspinwall on August 3 and arriving at New York on August 12.

FINE. A COLORFUL AND RARE FRANKING PAYING THE DOUBLE 10-CENT TRANSCONTINENTAL POSTAGE AND 2-CENT SHIP CAPTAIN’S FEE ON A COVER FROM HAWAII TO THE UNITED STATES. BELIEVED TO BE THE ONLY RECORDED USE OF THE 10-CENT TYPE I FROM HAWAII.

This cover was carried on the bark Fanny Major, departing Honolulu on April 8, 1857, and arriving at San Francisco on April 28. It was datestamped by the San Francisco post office on May 5, the day the PMSS Co. Golden Gate sailed for Panama, arriving on May 18. The next day the ship caught fire after a seaman opened a barrel of alcohol to preserve the body of a dead baby and carelessly left the flammable liquid (and baby) unattended. The 12c United States postage on covers from Hawaii was usually paid with a single 12c stamp. Very few covers are known with 1c 1851 and 10c 1855 Issue frankings, and this is reported to be the only one with the scarce 10c Type I.

EXTREMELY FINE. A RARE COVER WITH THE 10-CENT 1855 ISSUE PAYING THE TRIPLE RATE TO HAWAII.

Elisha N. Allen (1804-83) was U.S. Consul in Honolulu 1850-53. He was appointed Minister of Finance for King Kamehameha III 1854-56. In 1856 he sailed back to New England and married Mary H. Hobbs, daughter of Maine legislator, Frederick Hobbs. The couple returned to Honolulu, where from 1857 through 1877 Allen was Chief Justice of the Kingdom of Hawaii Supreme Court. The Allen’s first-born son, Frederick, was born ten days after Prince Albert Edward Kauikoa Kuleiopapa, and the two children became playmates. In August 1864 Elisha Allen served as Chancellor for the coronation of King Kamehameha V under the new 1864 Constitution of the Kingdom of Hawaii. He was Minister Plenipotentiary from the Kingdom of Hawaii to the United States from 1856 until his death.

VERY FINE APPEARANCE. THE ONLY RECORDED USE OF THE 5-CENT 1856 ISSUE ON COVER TO BERMUDA. AN IMPORTANT POSTAL HISTORY RARITY OF THE CLASSIC IMPERFORATE PERIOD.

The recipient worked as a portrait artist and engraver, and in 1851 travelled to San Francisco with his friend, Jacob Bailey Moore. Brown worked for Moore for the next several months, gathering specimens and making drawings in the California countryside. In March of 1852, he was commissioned by John Russell Bartlett, head of the U.S.-Mexico Boundary Commission and a friend of Moore’s, to draw views of landscapes and Indians in Northern California, assist with collecting Indian vocabularies, and make maps of the area. From 1856 to 1859, he served as U.S. Consul for Bermuda. Little is known of his life after that date; his health was poor at the time of his resignation in 1859.

This cover was franked to pay the 10c direct rate by American Packet. The “NOT PAID” was likely applied in error in New York, though this may have gone as a private outbound ship letter.

The Ocean Penny Postage movement was started by an American, Elihu Burritt. Burritt had settled in Worcester Mass. as a blacksmith, where he began to study languages and became known as “The Learned Blacksmith”. On a trip to England in 1847 Burritt founded the League of Universal Brotherhood. He also advocated Ocean Penny Postage and the use of propaganda envelopes, believing it would promote trade and commerce (and therefore greater understanding) between nations. Very few propaganda envelopes were used from the United States. His plan was never adopted (as witnessed by the 24c in postage on this cover). In 1865 he was appointed by President Lincoln as U.S. Consular Agent for Birmingham, England.

It appears from the docketing that the addressee received the letter in Foochow on February 2, 1857, one day after its delivery in Hong Kong. The addressee worked as an agent for and later as a partner of the famous firm Augustine, Heard & Co. He went to China in 1849, and it is believed he drowned in the Indian Ocean on his way home to Providence in 1859.

BRITISH MAIL TO CHINA ADDRESSED TO A MEMBER OF THE PERRY EXPEDITION

The addressee, Dr. James Morrow, was appointed by Secretary of State Everett as agriculturalist on Commodore Matthew C. Perry's expedition to Japan. Commodore Perry initially opposed the inclusion of any civilians on his expedition. Morrow brought seeds and plants to Japan where they were gratefully accepted. The Japanese were fascinated with the quality of flour produced by an American corn mill, and Morrow was intrigued with the Japanese version of a cotton gin and the bark they used to produce strong paper. The Japanese had never seen a garden engine with a hose that would pump water, and a crowd of over 200 people gathered to watch the water being pumped into the air. Morrow notes that they looked "carefully at the suction hose as though they thought they had learned the secret of putting out fires." His position gave him more leeway than most on the expedition to explore the Japanese countryside. The expedition resulted in a three-volume report, which contained a list of plants collected in Japan and compiled by Asa Gray.

EXTREMELY FINE GEM STRIP AND AN IMMACULATE TREATY-RATE COVER. UNQUESTIONABLY THE FINEST 10-CENT 1855 IMPERFORATE TYPE I MULTIPLE KNOWN ON COVER.

This August 1857 cover is a late use of the imperforate 10c stamp, which was issued in mid-1855 and available in perforated form as early as July 1857. However, the strip shows an extremely early impression and shade, which one would not expect to find two years after the original printing. Likewise, the existence of perforated 10c stamps with similar color and impression is further evidence that sheets from the earliest printing of the 10c 1855 were on hand in mid-1857. The practical reason for this anachronistic use of early impressions is the stack principle of production, whereby the first sheets off the press were stacked toward the bottom, and the last sheets were placed on top. Thus, the early printings might be issued or run through the perforating machine much later, as in this case.

Kelley’s Island measures more than four square miles and is the largest American island in Lake Erie. Located near Sandusky, the island was first settled by Native Americans. During the War of 1812 the island served as a military rendezvous post. After the war, the Native Americans finally abandoned the island. Several attempts were made to settle it, to take advantage of its natural resources, but none was hugely successful until two brothers, Datus and Irad Kelley, purchased almost half of the island in August 1833. Other purchases followed, and they eventually owned the entire island. The name was changed to Kelley’s Island in 1840. Prior to settling the island, Irad was based in Cleveland, where he was a successful merchant, postmaster, sailor and real estate investor. The brothers started a very successful business exporting timber, limestone, fruit and wine from the island.

A postmaster was first appointed to Kelley’s Island in 1852. The first postmaster was George Kelley, the eldest of Irad’s six sons, who ran a general store. From 1854 to 1868 William S. Webb was postmaster, after George sold him the store.

The use of a printed design for the postmark is very unusual. This marking was the subject of an article in Chronicle 76. The author notes the existence of eight covers with this marking. All others bear single 3c imperforate or perforated stamps. This is the only example with other stamps or that was sent to a foreign destination.

The first 10c plate of 200 (left and right panes of 100) was laid down using a three-subject transfer roll with relief types A, B and C. The C Relief was used only for the bottom row (all Type I design). The A Relief (Type II design) was used to enter the entire second row, and the B Relief (Type III design) was used for the third row. This A/B alternating relief pattern was followed consistently for the fourth through ninth rows. The top row was entered with the A Relief, except for three positions: Positions 1 and 2 in the left pane, and Position 3 in the right pane. These "misplaced reliefs" are B Reliefs, and Positions 1L and 2L are Type III designs, while Position 3R was recut (Type IV). Position 3R1, one of the three misplaced relief positions on the plate, is also one of eight recut (Type IV) positions and the only recut position on the entire right pane of the plate.

Armitage in Exeter Ill., the circular contains a report from R. K. Swift, promoter of the Chicago Perfs, single pulled perf at bottom, barely affected from placement at edge of cover, small stain at bottom left corner of cover.

**VERY FINE. ONE OF ONLY FIVE RECORDED COVERS BEARING THE ONE-CENT CHICAGO PERFORATION. THIS IS THE ONLY ONE WITH A DATE SPECIFIED — MAY 29, 1856 — MAKING THIS THE EARLIEST DOCUMENTED DATE OF USE. ONE OF THE GREAT RARITIES OF THE ONE-CENT 1851-57 ISSUE.**

The origin of the Chicago perforation was revealed in an article published by Jerome S. Wagshal in the *Chronicle* 130 (May 1986). To briefly summarize Mr. Wagshal’s revelations, the inventor of the machine used to create the Chicago Perf stamps was Dr. Elijah W. Hadley, a Chicago dentist. He probably constructed the machine in 1854. Over a two-year period, beginning in November 1854, Dr. Hadley’s device was offered for sale to the Post Office Department thru R. K. Swift, a prominent Chicago banker and businessman. The distinctive 12½ gauge Chicago Perf was applied to sheets of the 1c (Plates 1 Late and 2) and 3c 1851 Issue, the former being considerably rarer.

According to the updated census of Chicago Perf items compiled by W. Wilson Hulme II (*Chronicle* 175, Aug. 1997), approximately 18 examples of the 1c Chicago Perf have been recorded, including five used on covers. These are: 1) Type II, Plate 2 (not plated), tied by Chicago May 29, 1856 datemark stamp on P. L. Wells May 28, 1856 circular to Armitage, the cover offered here (Siegel Sale 869, lot 3023, realized $26,000 hammer); 2) Type II, Plate 2 (not plated), ”Paid” cancel (no dated postmark), on P. L. Wells May 28, 1856 circular to Edmonstone & Co., Montreal, Canada, PFC, ex Ishikawa, Siegel 1983 Rarities sale and Dr. Martin (Siegel Sale 893, lot 38, realized $65,000 hammer); 3) Type II, Position 95L2, tied by grid cancel on P. L. Wells circular to Sheppard & Morgan, NYC, ex Jeffreys, currently in the Franklin Institute; 4) Type II, Position 48R2, “Paid” cancel on Lake View Water Cure circular (no date), Ashbrook Vol. II, p. 26, the current whereabouts or state of this cover are unknown; and 5) Plate 2 (unplated) used with strip of three of 3c (11) from Cherry Valley Ill. to Oregon Terr., ex Wagshal (Siegel Sale 994, lot 1140, realized $22,000 hammer). Summarizing the census data, there are currently five 1c Chicago Perf covers known, all Type II from Plate 2, one of which is part of the Franklin Institute’s collection. Of the four in private hands, one has not been seen and is known only from Ashbrook’s description. Therefore, only three confirmed covers are in private hands, two of which are May 28, 1856 printed circulars. The Armitage cover offered here is the only 1c Chicago Perf with a dated postmark (May 29, 1856).

Please see *Chronicle* 199 (August 2003) for an article documenting the Armitage correspondence. Ex Hackmey. With 2000 A.P.S. certificate. ................................................................. E. 20,000-30,000
Live Internet Bidding at Siegel Auctions

BIDDING FROM YOUR COMPUTER LETS YOU BE PART OF THE LIVE AUCTION FROM ANYWHERE IN THE WORLD!

There’s NO SUBSTITUTE for following the auction in real time.
Live Internet Bidding lets you bid and buy as though you were right there in the saleroom.
And it’s easy.
This step-by-step guide will instruct you how to register, set your browser and use the bidding interface.

Start by following the simple steps to become a registered Live Internet Bidder.
Once you’ve been approved for bidding, you can listen to the auction and place bids with the click of a mouse.

Registering with STAMP AUCTION NETWORK & SIEGEL AUCTION GALLERIES
Live Internet Bidding is managed by Stamp Auction Network (SAN).
To bid, you must be registered and approved by both SAN and Siegel.
To decide what you need to do, choose the description below that best fits you.

I’ve already registered with SAN and have been approved by Siegel for internet bidding.

I’m a Siegel client, but I’m not registered with SAN.
Go to stampauctionnetwork.com/siegel and click on “Register” at the top. Check the box for Robert A. Siegel Auction Galleries (under “R”) and submit the form, indicating you are a Siegel client. Once registered at SAN, you’re ready for internet bidding.

I’ve bid through SAN before, but this is the first time I’ve bid in a Siegel sale.
Then you just need to be approved by Siegel. Go to stampauctionnetwork.com/siegel and click on “Update Registration” at the top. Your SAN account information will be sent to us for approval (you might be asked for other trade references). Once approved by Siegel for bidding, you’re ready for internet bidding.

I’ve neverbid with Siegel, nor registered with SAN.
Go to stampauctionnetwork.com/siegel and click on “Register” at the top. Check the box for Robert A. Siegel Auction Galleries (under “R”) and submit the form with your trade references (please, no family members or credit card companies as references). Once registered at SAN and approved by Siegel for bidding, you’re ready for internet bidding.

Live Internet Bidding works by allowing registered bidders to observe and place bids.
Live Internet Bidding will work with any browser on both PC and Mac operating systems.

Before bidding by internet for the first time, we recommend finding a sale in progress and listening to the public broadcast or logging in as a registered bidder. This will help you develop a feel for the sale tempo and bidding interface.

Log on to the auction at stampauctionnetwork.com/siegel.
You can also log on at siegelauctions.com
When you’re logged on as a Live Internet Bidder, the bidding interface shows a photo and description of the lot, the current bid (and your bidding status), options for placing competitive bids and buttons with bid increments.
• After you click on a bid amount, the auctioneer is immediately notified of your bid.
• Retracting a bid is usually not acceptable, so please bid carefully.
• If you bid and then decide to stop, the “Pass” button will tell the auctioneer you are no longer bidding.
• You can send messages to the auctioneer (for example, a request for extension).
• You can track prior realizations from the bidding screen.

“System Down” or “Lost Connection” events do occasionally happen.
If you have any problems with Live Internet Bidding please call 212-753-6421 for immediate assistance.
Bid Form—15% Premium Sale

   - NAME: 
   - ADDRESS: 
   - CITY/STATE/ZIP: 
   - TEL. (DAY): FAX: 
   - E-MAIL: 

2. Have you purchased from us in the past 5 years? 
   - YES (if so, please go to Section 3)
   - NO (please provide a trade reference and bank information)

References:
- Stamp Firm: Telephone: 
- Bank: Account #:

3. In the space provided below, enter the **lot number** from **Sale 1041** and your corresponding bid. Please use **whole dollar amounts** only and enter the **maximum bid** you wish to have us execute on your behalf, according to the **bidding increments** on other side of this form. Your bid will NOT include the 15% buyer’s premium. We will advance the bidding at one increment over the next highest bid; therefore, you may be awarded the lot at less than your maximum bid. Please do not use “plus” bids or “buy” bids. If you wish to bid on one lot or the other, indicate your “or” bid between lot number/bid entries and bracket your choices. If you wish to place a **bidding limit** on the total amount of your bids, please enter your limit in the space marked “Limit Bids”.

**PLEASE NOTE BIDDING INCREMENTS AND SHIPPING CHARGES (ON BACK OF THIS PAGE)**

- **LIMIT BIDS**: Check this box if you wish to limit the total amount of your bids (not including the 15% buyer’s premium) in this sale. Your bids will be executed until your bidding limit no longer allows for additional bids. The **total amount you wish to bid** is: $__________

4. **AGREEMENT**: By signing this bid form, you agree to pay for purchases resulting from your bids, in accordance with the **Conditions of Sale** printed in the sale catalogue. You also agree to pay the 15% buyer’s premium, shipping costs (see reverse), and sales tax or use tax or customs duty which may be due on the total invoiced amount. It is understood that these bids will be executed by Siegel Auction Galleries as a courtesy to absentee bidders, but you waive the right to make any claim against the auctioneer or the firm, arising from the these bids. You **are responsible for your written bids**, including any errors on your part and any additions or changes to the bids herein.

Payment must be made by cash, check, money order or wire transfer. Credit cards will not be accepted.

Shipping and Transit Insurance

We will be pleased to arrange for shipping and transit insurance for purchases in this sale (except those described as “floor sale only”). To expedite billing and delivery of lots to hundreds of buyers per sale, we use standard charges for postage and insurance, based on the package weight and mailing requirements (see schedule). The standard charges are sometimes slightly more or less than the actual postage or Fedex fees, but we do not include any charge for our labor or packing costs. Therefore, we ask all buyers to remit the prescribed amount for shipping charges.

Transit insurance is provided in all cases, except when the buyer has furnished us with proof that insurance coverage is effective under another policy. Proof, in such cases, will be accepted in the form of a written certificate from the insurance carrier.

You are responsible for insurance charges, which will be added to your invoice. This coverage is provided for our mutual protection against theft or loss in transit.

Bidding Increments

The auctioneer may regulate the bidding at his discretion. However, to assist absentee bidders in establishing their maximum bid for each lot, the increments shown at right will be used in most cases. We recommend that written bids conform to these increments (those which do not will be reduced to the next level).

REVISED CHARGES FOR SHIPPING EFFECTIVE SEPTEMBER 1, 2010

We have reduced the Fedex Envelope charge to $20, reflecting the elimination of the fuel surcharge. All other charges remain the same.
