DENMARK, 1914.

I have examined the Newspaper postage stamp issued by the Kingdom of Denmark on July 4th, 1914, "Numeral and Posthorns" 38 øre orange, perforated 14 x 14 ½, on medium white wove paper with watermark "Multiple Crosses", Scott Catalogue #P18, Facit Catalogue #TI 18, unused, with complete sheet margin of 22 mm at top, a colour reproduction of which is below, magnified to 125% of true size, and am of the opinion that:

The stamp submitted is genuine in all respects, unused, with full original gum, and never hinged. The stamp has fresh paper, gum and colour, and is free from faults or repairs at the time of examination. A scarce stamp, especially in such bright condition.
