THE PROPERTY IN THIS CATALOGUE WILL BE OFFERED AT PUBLIC AUCTION BY ROBERT A. SIEGEL AUCTION GALLERIES, INC. (“GALLERIES”) ON BEHALF OF VARIOUS CONSIGNORS AND ITSELF OR AFFILIATED COMPANIES. BY BIDDING ON ANY LOT, WHETHER DIRECTLY OR THROUGH A THIRD PARTY, THE BIDDER CONSENTS TO THIS AGREEMENT. EACH BIDDER CREATES A “PERSON” BY TELEPHONE, FACSIMILE, INTERNET OR BY ANY OTHER MEANS, THE BIDDER ACKNOWLEDGES AND AGREES TO ALL OF THE FOLLOWING CONDITIONS OF SALE:

1. The highest bidder acknowledged by the auctioneer shall be the buyer. The term “final bid” means the last bid acknowledged by the auctioneer, which is normally the highest bid offered. The purchase price payable by the buyer will be the sum of the final bid and a commission of 18% of the final bid (“buyer’s premium”), together with any sales tax, use tax or customs duties due on the sale.

2. The auctioneer has the right to reject any bid, to advance the bidding at his discretion and, in the event of a dispute, to determine the successful bidder, to continue the bidding or to reoffer and resell the lot in dispute. The Galleries’ record of the final sale shall be conclusive.

3. All bids are per numbered lot in the catalogue unless otherwise announced by the auctioneer at the time of sale. The right is reserved to group two or more lots, to withdraw any lot or lots from the sale, or to act on behalf of the seller. The Galleries will execute bidding instructions on behalf of clients, but will not be responsible for the failure to execute such bids or for any errors in the execution of such bids.

4. Lots with numbers followed by the symbol ° are offered subject to a confidential minimum bid (“reserve”), below which the lot will not be sold. The absence of the symbol ° means that the lot is offered without a reserve. If there is no reserve, the auctioneer has discretion to establish a minimum opening bid and may refuse an offer of less than half the published estimate. Any lot that does not reach its reserve or opening bid requested by the auctioneer will be announced as “passed” and excluded from the prices realized lists after the sale. The Galleries may have a direct or indirect ownership interest in any or all lots in the sale resulting from an advance of monies or goods-in-trade or a guarantee of minimum net proceeds made by the Galleries to the seller.

5. Subject to the exclusions listed in 5(A), the Galleries will accept the return of lots which, subject to the Galleries’ sole judgment, have been misidentified or which have obvious faults that were present when the lot was in the Galleries’ custody, but not so noted in the lot description. All disputed lots must be received by the Galleries intact with the original packaging material within 5 days of delivery to the buyer but no later than 30 days from the date sale. (5A) EXCLUSIONS: The following lots may not be returned for any reason, or may not be returned for the reasons stated: (i) lots containing 5 or more items; (ii) lots from buyers who registered for the pre-sale exhibition or received lots by postal viewing, thereby having had the opportunity to inspect them before the sale; (iii) any lot described with “faux,” “defects” or a specific fault may not be returned because of any secondary fault; (iv) photographed lots may not be returned because of centering, margins, short/nibbed perforations or other factors shown in the photos; (v) the color of the item does not match the color photo in the sale catalogue or website listing; (vi) the description contains inaccurate information about the quantity known or reported; or (vii) a certification service grades a stamp lower than the grade stated in the description or on an accompanying certificate.

6. Successful bidders, unless they have established credit with the Galleries prior to the sale, must make full payment in cleared funds before the lots will be delivered. Buyers not known to the Galleries must make payment in full within 3 days from the date of sale. The Galleries retains the right to demand a cash deposit from anyone prior to bidder registration and/or to demand payment at the time the lot is knocked down, for any reason whatsoever. In the event that any buyer refuses or fails to make payment in cash for any lot at the time it is knocked down to him, the auctioneer reserves the right to reoffer the lot immediately for sale to the highest bidder. Credit cards (Visa, MasterCard and Discover only) can be accepted as payment, but will be subject to a 3% non-refundable Convenience Fee, which will be added to the total of the entire invoice (including hammer price, buyer’s premium, shipping and transit insurance charges and any applicable taxes). The buyer waives the right to dispute all credit card charges.

7. If the purchase price has not been paid within the time limit specified above, nor lots taken up within 7 days from the date of sale, the lots may be resold by whatever means deemed appropriate by the Galleries, and any loss incurred from resale will be charged to the defaulting buyer, and/or the Galleries may seek any other remedy prescribed by law to enforce payment. Any account more than 30 days in arrears will be subject to a late payment charge of 1⁄2% per month as long as the account remains in arrears. Any expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of $250.00 will be charged for a check returned for insufficient funds.

8. All lots are sold as genuine. Any lot accompanied by a certificate issued by The Philatelic Foundation or by Professional Stamp Experts within 5 years of the sale date is sold “as is” and in accordance with the description on the certificate. Such lots may not be returned for any reason, including but not limited to a contrary certificate of opinion or change in grade. Buyers may request a certificate for a lot containing not more than one item, which does not have a P.F. or P.S.E. certificate (dated as above), provided that the following conditions are met: (i) the purchase price must be paid in full, (ii) if submitted by the buyer, the lot must be submitted to an acceptable expertizing service with a properly executed application form within 21 days of the sale, (iii) a copy of the application form must be given to the Galleries, (iv) the Galleries retains the right to resubmit the item for reconsideration, without time limit or other restrictions, for the purpose of obtaining a subsequent opinion, (v) lots submitted for certification will be considered cleared 90 days from the date of sale, whether or not a certificate has been issued, unless the Galleries issues written approval of a further extension of return privileges, and (vi) in the event the lot is determined to be misidentified or misdescribed, pursuant to 5 and 5(A) of these Conditions, the Galleries will issue a refund to the buyer for the full purchase price and actual certification fees, but the reimbursement for certification fees (and related costs) shall not exceed 10% of the hammer price of the lot. Changes to a grade by the same certification service or a different grade from another certification service are not grounds for returning a lot.

9. Until paid for in full, all lots remain the property of the Galleries on behalf of the seller.

10. Agents executing bids on behalf of clients may also be held responsible for all purchases made on behalf of clients, unless otherwise arranged prior to the sale.

11. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs. Buyers who receive lots in the U.S. are obligated to pay whatever sales tax or compensating use tax might be due, at any time, and buyers outside the U.S. are responsible for all customs duties.

12. The bidder consents that any action or proceeding against it may be commenced and maintained in any court within the State of New York, within the United States District Court for the Southern District of New York, that the courts of the State of New York and United States District Court for the Southern District of New York shall have jurisdiction with respect to the subject matter hereof and the person of the bidder. The bidder agrees not to assert any defense to any action or proceeding initiated by Galleries based upon improper venue or inconvenient forum. The bidder agrees that any action brought by the bidder shall be commenced within a Federal Court in the United States District Court for the Southern District of New York or the State Court in the county in which Galleries has its principal place of business in New York. The bidder agrees not to use a public conflict resolution service and not to use any form of social media to publish comments or information about the Galleries and its employees which might harm the Galleries’ reputation or business.

These Conditions of Sale shall be governed by and construed in accordance with the substantive laws of the State of New York, and shall constitute an agreement that shall be binding on the parties, and their respective heirs, administrators, distributees, successors and assignees.

Grades, Abbreviations and Values Used in Descriptions

Grades and Centering

Our descriptions contain detailed information and observations about each item’s condition. We have also assigned grades to stamps and covers, which reflect our subjective assessment. For stamps, the margin width, centering and gum are described and graded according to generally-accepted standards (an approximate correlation to numeric grades is provided at right). Although we believe our grades are accurate, they are not always exactly aligned with third-party grading terms or standards for all issues. A lot may not be returned because a certification service grades a stamp lower than the grade stated in the description. Information from the P.S.E. Stamp Market Quarterly and P.S.E. Population Report™ is the most current available, but lots may not be returned due to errors or changes in statistics or data.

PRE-1890 ISSUES

Pre-1890 stamps in these categories trade at a premium over Scott value

Scott Value for “O.G.”

Disturbed Original Gum: Gum showing noticeable effects of humidity, climate or hinging over more than half of the gum. The significance of gum disturbance in valuing a stamp in any of the Original Gum categories depends on the degree of disturbance, the rarity and normal gum condition of the issue and other variables affecting quality. For example, stamps issued in tropical climates are expected to have some gum disturbance due to humidity, and such condition is not considered a negative factor in pricing.

Covers

Minor nicks, short edge tears, flap tears and slight reduction at one side are normal conditions for 19th century envelopes. Folded letters should be expected to have at least one file fold. Light cleaning of covers and small mends along the edges are accepted forms of conservation. Unusual covers may have a common stamp with a slight crease or tiny tear. These flaws exist in virtually all 19th century covers and are not always described. They are not grounds for return.

Catalogue Values and Estimates

Unless otherwise noted, the currently available Scott Catalogue values are quoted in dollars with a decimal point. Other catalogues are often used for foreign countries or specialized areas and are referred to by their common name: Stanley Gibbons (SG), Dietz, American Air Mail Catalogue (AAMC), Michel, Zumstein, Facit, etc. Estimates are indicated with an “E.” and reflect our conservative valuation in dollars. Reserves will never exceed the low end of the estimate range; they will sometimes exceed Scott Catalogue value for stamps in Extremely Fine condition.

Because of certain pricing inconsistencies in the Scott Catalogue—for example, blocks that have no gum, the absence of premiums for Mint N.H. items, etc.—we cannot guarantee the accuracy of values quoted for multiples, specialized items and collection lots. We generally try to be conservative, but buyers may not return a lot because of a discrepancy in catalogue value due to Scott pricing inconsistencies.

Revised 1/2012
Hale & Company was founded by James W. Hale (1801-92) in December 1843, immediately after the decision in United States v. Adams & Company, which seemed to green-light private competition with the U.S. Post Office on intercity mail routes. Hale, an experienced expressman and steamboat agent, had come to New York City from Boston in 1836 and worked at Hudson's News Room, which he bought and renamed the Tontine Reading Room. Hale had offered a variety of mail-forwarding services before starting his letter express, and he quickly emerged as the leader, with a vast network of offices and agents, and a purported 60% share of the Independent Mails.

The strength of Hale’s business lay in its cooperative arrangements with other companies. In later life, Hale claimed to have had 110 offices and 1,100 employees, but most of them were probably independent operators who served as Hale’s local agents. These smaller firms collected and delivered letters, and transported them over routes between large cities and smaller towns. Railroads and steamboats were used to carry the mail, either in a handheld valise or in an express rail car.

Through feeder routes and in cooperation with other companies that served the midwest, Hale & Co. was able to extend its reach to more than a thousand miles, and at a fraction of the cost of the government mail service. A total of nearly 150 cities were served by Hale and his agents, according to advertised offices and agents. As Michael Gutman points out in his Hale book and the Independent Mails book, some of the cities listed by Hale might have been used for promotional purposes, but actually carried little, if any, mail.

During Hale & Co.’s Independent Mail period, the firm also offered international service and advertised rates to different countries. The covers from St. John, New Brunswick, offered in this sale (lots 863-865) are rare examples of this service.

Hale & Co. issued adhesive stamps in 1844, predating the first postmasters’ provisionalals and the 1847 first federal issue. The octagonal Hale design pictures overlapping envelopes, some with pertinent information, such as the company’s addresses in New York City and Boston, and the twenty-for-a-dollar discount rate. The stereotype plate of twenty subjects (five across, four high) was built up from a matrix. There are three distinct states of the stereotype plate used to print Hale’s stamps. In the First State, the “13 Court St.” address is included in the design (Scott 75L1 in Blue and 75L2 in Red). The earliest recorded date of use of the First State/Issue is a 5c Blue on cover dated March 14, 1844 (offered in lot 536). The address line was removed from each position on the plate after Hale closed its 13 Court Street office, which gives us the Second State of the plate (Scott 75L5 in Blue only). This occurred sometime in May 1844, and the earliest recorded date of use of a stamp from the modified plate is May 20, 1844. The Third State of the plate resulted from damage to positions in the left and right vertical columns.

The Hale stamps were separated by cutting stamps with square margins or with octagonal margins. Stamps were also cut with an octagonal-shaped device and are referred to as die cut. Pairs are scarce, and strips of three or larger are very rare.

Some of Hale’s agents applied manuscript control marks to sheets before the stamps were sold and used—for example, Amos Bates initialed stamps “AB.” Some stamps were precanceled before use, and these are the earliest precancellations in the world. A small number of Hale stamps are found with change-of-address overprints, either in manuscript or handstamped. These are among the rarest stamps in United States philately.

The scope of philatelic and postal history study presented by Hale & Co. is extraordinarily broad, especially for a private enterprise. Michael Gutman has focused on Hale for decades, and his monumental published work, Hale & Co. Independent Mail Company 1843-1845, is the definitive research study of this fascinating subject. We have used the Gutman handstamp identification types in this catalogue.

We are honored to present Mr. Gutman’s collection, originally housed in 14 volumes and now offered in 380 lots. Collectors who have been intrigued by Independent Mails and private posts will be handsomely rewarded by taking the plunge into Hale with this sale. No offering like it has ever happened, and it is unlikely to happen again.

VERY FINE. THE UNIQUE EXAMPLE OF HALE & COMPANY'S 5-CENT BLUE SECOND ISSUE WITH THE "OFFICE 23 STATE ST." CHANGE-OF-ADDRESS OVERPRINT. ONE OF THE FEW STAMPS IN ALL OF PHILATELY OF WHICH JUST ONE EXAMPLE IS KNOWN.

For the history of the change-of-address overprints—handstamped and handwritten—including images of the various types, see http://siegelauctions.com/2016/1124/halecoa.pdf.

The change-of-address overprints were implemented after Hale relocated from 13 Court Street to 23 State Street. Both addresses appear in advertisements running from March 11 to May 29, 1844. This fact, together with other evidence, indicates that both offices operated for a period of time, and 13 Court Street was closed sometime in May 1844. The attempts by different offices to delete or change the old address were sporadic and short-lived. There are at least seven major overprint varieties, listed in Gutman’s Independent Mails book as Types A to G. The overprint applied here is Type G and appears to be the same as the "City Despatch, Office, 23 State St." red oval handstamp, with all traces of "City Despatch" removed (see Siegel Hall Sale 830, lot 258 for a complete strike of the handstamp). The Type G overprint on the Second Issue stamp offered here, Scott 75L6, is unique.

Hale & Co., 5c Blue, Street Address Omitted (75L5). Third State Position 17 “Wall” instead of “Wail” variety, huge square margins showing parts of two adjoining stamps, affixed over “Forced by A. Roberts & Co.'s Eastern Letter Express” double-line oval handstamp and tied by “Forced through/Hale & Co.'s/Letter Office — Boston” framed handstamp with “13 Court St.” deleted (Ty. VERY FINE OVERALL CONDITION. THIS IS THE ONLY RECORDED ROBERTS EXPRESS COVER WITH A HALE & COMPANY STAMP. AN OUTSTANDING EXAMPLE OF INDEPENDENT MAIL CONJUNCTIVE SERVICE.

Andrew Roberts began advertising his “Cheap Independent Letter Express” in July 1844, providing service between Boston and points in Massachusetts, New Hampshire, Maine and upstate New York, and charging rates of 4c, 5c, 6c, 7c, 9c, 10c and 11c. Sammis records ten covers with the Roberts oval handstamp, ranging in dates from Aug. 19 to Oct. 25, 1844, all but one of which are stampless. The cover offered here is the only Roberts’ Express cover with an adhesive stamp. In this case it appears that the stamp indicated payment for Hale’s service from Boston to New York City, and it was probably applied by Roberts’ office.

"City Dispatch Aug. 10". Manuscript local delivery postmark probably applied by Kimball (Hale's agent in Boston) and manuscript 6½" re-rating in the same hand over red Collect box handstamp (Ty. C4) on Aug. 10, 1844 folded letter from Boston to Lockport N.Y., slight wear along file fold, Very Fine, this manuscript marking has an odd non-contemporary look and the usage is perplexing, but it was considered genuine by Calvet M. Hahn (Sale 909, lot 4543) and by Mr. Gutman.................. E. 300-400

Hale & Co., New York City, Stampless Covers. Substantial collection of approximately 117 stampless covers in a thick binder, most with red forwarding ovals (Ty. F29 oval handstamp; Sep. 10, 1844 to New Bedford Mass., with two 75L1 with manuscript brush strokes thru old address, stamps toned and faulty, but very rare; Feb. 22, 1845 to Boston with two 75L5 cut to shape, stained file fold; Jan. 28, 1845 to Providence R.I. with 75L5 vertical pair, cut to shape at each end, tied by red Ty. E. 150-200

Hale & Co., 5c Blue, Address Deleted in Manuscript (75L1 var — Gutman Type C overprint). Pelure paper, square margins, one large with part of adjoining stamp, touching other sides, wrinkles, used on greenish July 31, 1844 folded letter addressed in blue to Philadelphia street address, manuscript "Paid", small rust mark at top, slightly toned, otherwise Fine, Gutman records this as the earliest Hale use from New Haven................................................................. E. 150-200

Two stamps, manuscript lines thru 13 Court St. address (used after move to 23 State St.), cut to shape roughly with margins in on left stamp and small faults, red "Forwarded by Hale & Co. from Cour. & Enq. Hale & Co., 5c Blue, Address Deleted in Manuscript (75L1 var — Gutman Type C overprint). Eight 1844 year-dated folded letters (one envelope) from New York City with 75L1 stamps showing lines or brush stroke thru old address (four with square margins, including two in Dark Blue, and four die cut or cut to shape), destination cities/towns include Boston, Haverhill, Philadelphia, Providence R.I. and Troy N.Y., one of the square-cut stamps is tied by red Collect box handstamp (Ty. C3), envelope has red Ty. F28 oval, others without markings, two have stamps with file creases thru them, others generally Fine and attractive despite minor toning or flaws, the Blue first issue stamps were changed by striking out the 13 Court St. address after Hale’s office moved to 23 State St., the modified plate with address removed was used to print 75L5 stamps — this is a large group of these very scarce Address Deleted stamps, all used on covers, see website PDF for complete scan................................................................. Hale & Co., 5c Blue, Street Address Omitted (75L5). Square-cut margins just barely in, light pastel shade, magenta manuscript crossed-lines precancel, used on July 25, 1844 folded letter from Boston to Schenectady N.Y., stamp has minor corner crease, Very Fine, the date of use and absence of any other markings indicates Hale carried this alone to Schenectady during the period he tried to compete with Pomeroy. E. 150-200

Hale & Co., 5c Blue, Street Address Omitted (75L5). Two on separate folded letters, both stamps with square margins, mostly ample to barely in, Aug. 29, 1844 to Boston with manuscript "A&D" control marking, other Sep. 17, 1844 with manuscript "NY" control marking (stamp toned and creased from file fold), Gutman notes that the "NY" is the only recorded cover originating in New York City with these control initials (or cancel), both covers have red Ty. F28 oval handstamps, Fine, scarce. E. 150-200

Hale & Co., 5c Light Blue, Street Address Omitted (75L5). Positions 17-19, horizontal strip of three, left stamp "Wail" instead of "Wall" variety, used with fourth stamp, Position 9, strip shows mechanical die-cutting but the stamps are unsevered, tied by multiple strikes of red "Forwarded by Hale & Co. from Courier & Enquirer Building, New York" oval handstamp (Ty. F29) on folded cover to Boston street address with sender’s notation "4 Sheets" (proof that Hale rated letters per sheet at least some of the time), docketed with Jul. 18, 1844 origin date, vertical file fold thru one stamp, a few small sealed tears in strip at joining points, still Fine, a remarkable quadruple-rate cover, the characteristics of this strip and the manner in which it was created are suggestive of private vending machine coils that were created nearly 70 years later, illustrated in Gutman Hale book (page 281), ex Schwartz and Dr. Puliafito. E. 400-500

Hale & Co., 5c Light Blue, With and Without Street Address (75L1, 75L5). 26 folded letters or covers from New York City to various destination cities/towns, includes 9 with 75L1 (3 square-cut, 6 cut to shape or die cut), and 17 with 75L5 (6 square-cut, 11 cut to shape or die cut), all single frankings, 75L1 covers include manuscript "6" to Boston with "2c" local delivery fee, two with red "6" ty. C14 handstamp, one with manuscript "N", two are tied; 75L5 covers include 15 cancelled or tied by red handstamps, one on a printed folded sheet with "Paid" and "One Sheet Only" printed on address panel, minor faults and file folds thru a few stamps, but this is a select group of Hale stamped covers from New York City, our estimate is quite conservative considering the value of a typical 75L1 or 75L5 cover, see website PDF for complete scan. E. 1,000-1,500
Brainard & Co., New York-Albany-Troy, 5c Black (24L1). Cut to shape clear of circle, uncanceled, red “Forwarded by Brainard & Co. Albany” oval (Ty. F1), red “6” due handstamp (Ty. C12) and “Collect/Six Cents/for/Hale & Co.” box handstamp (Ty. C2) on Sep. 3, 1844 folded cover (portion of letter with dateline intact) from Albany to Philadelphia street address

VERY FINE. ONE OF FOUR RECORDED COVERS SHOWING CONJUNCTIVE USE OF BRAINARD & COMPANY’S BLACK ADHESIVE AND HALE’S SERVICE TO PHILADELPHIA.

We record four Brainard & Co. 5c Black 24L1 covers from Albany to Cornelius & Co. in Philadelphia, each of which involved conjunctive service between Brainard (Albany to New York City) and Hale (New York City to Philadelphia). The dates are July (docketed “Jul/44”), Sep. 3 (the cover offered here), Sep. 9 and Nov. 26 (with two Brainard stamps). In three cases, the Brainard stamp paid half of the postage, and the other half (Hale’s share) was represented by a “6” due marking and Hale’s Collect box. The Nov. 26 cover (ex Peltz) bears two Black 24L1 stamps for both rates involved and no due marking, which corroborates the genuine double-rate franking and the three single frankings (half prepaid, half unpaid).

Illustrated in the Independent Mails book (p. 275) and Gutman’s Hale & Co. book (p. 252).

Brainard & Co., New York-Albany-Troy, 5c Blue (24L2). Large margins with upper left cut to circular shape, manuscript cancel, used with red “Forwarded by Brainard & Co. from Troy” oval handstamp and “Collect/Six Cents/for/Hale & Co.” box handstamp (Ty. C3) on folded cover from Troy to New York City street address, docketed with Mar. 7, 1845 origin date, toned file folds, otherwise Fine, a rare Brainard & Co. adhesive franking (Lyons records about 14 genuine 24L2 covers), the use of the Hale Collect box suggests an additional rate was charged for the Albany to NYC part of the route.

795 $ Forwarded by Brainard & Co. from Troy. Red oval handstamp applied in conjunctive use with “Collect/Six Cents/for/Hale & Co.” box handstamp (Ty. E. 400-500

C3 Collect box, one with “6” Ty. C12 handstamp), other two with Hale oval (one with two strikes of Ty. C3 Collect box, other with “Paid” that is not a Hale marking), destinations include Boston (2), Hartford, New Haven (2), New York City, Philadelphia (2) and Springfield Mass. (3, one with double Collect box), as usual for Brainard some of the markings a bit lightly struck, but a few are Very Fine, the group overall is of high quality, scarce and seldom offered in this quantity, see website PDF for complete scan ..........(Website PDF) E. 750-1,000

800  **Pomeroy’s Letter Express, 5c Black on Yellow Surface-Colored Paper (117L1).** Horizontal pair, ample to large margins, deep impression on brilliant colored paper, each stamp cancelled by lightly inked but strongly impressed Pomeroy “Cd.” cancel, impressions tie thru paper, on July 30, 1844 folded letter from Geneva N.Y. to Belleville near Newburyport Mass., written by a student at Geneva College, Benjamin Hale, to his mother, Mrs. Thomas Hale, clear strikes of red “Forwarded by Hale & Co. from Albany” oval and black “H. T. Crofoot’s Letter Office Newburyport” oval handstamps  

**EXTREMELY FINE. A COLORFUL AND EXTREMELY RARE TRIPLE CONJUNCTIVE USAGE, INVOLVING POMEROY’S LETTER EXPRESS (WITH ADHESIVE FRANKING), HALE & COMPANY, AND H. T. CROFOOT.**  

This beautiful cover demonstrates one of the most interesting aspects of the Independent Mail system in 1844-45: the cooperation among different firms to provide service between two distant locations. It was carried by Pomeroy’s Letter Express from Geneva to Albany, where it was handed over to Hale & Co. for the eastbound trip to Boston and from there to Newburyport. Hosea T. Crofoot, a bookbinder and expressman, had an agreement with Hale to carry mail between Boston and Newburyport. The pair of Pomeroy’s Letter Express stamps included their fee (one stamp) and the fee charged by Hale. Presumably Crofoot was compensated for his services out of the postage Hale received.  

Very few covers exist that show three Independent Mail companies’ service — so-called triple conjunctive usage — and this cover with the Pomeroy’s Letter Express pair is regarded as one of the most beautiful. A similar Pomeroy/Hale/Crofoot cover, except stamped with both Pomeroy and Hale adhesives, was sold for $23,000 hammer in our sale of the Dr. Carmen A. Puliafito collection (Sale 1214, lot 270).

F1), manuscript “Single” indicating single-rate letter, Extremely Fine, a rare Pomeroy’s Letter Express and Hale conjunctive use, one of the stamps paid the Pomeroy fee and the other paid for Hale’s service to Salem ........................................................ F38) on 1844 folded letter from Springfield Mass. to Saratoga Springs N.Y., red “POMEROY’S MAIL” straightline handstamp (Ty. PLE-HS2) indicating conjunctive use, Hale carried the letter from Springfield to Albany, and Pomeroy from Albany north to Saratoga, stamp has tiny tear in margin and slight crease in sheet margin, otherwise Extremely Fine, a very rare conjunctive usage, especially with the Hale adhesive and Pomeroy handstamp, Gutman notes this is the only Hale cover to Saratoga Springs ........................................ EXTREMELY FINE. THIS IS THE ONLY RECORDED GENUINE COVER WITH THE HALE & COMPANY WARREN OFFICE STRAIGHTLINE.

Warren lies between Providence R.I. and New Bedford Mass., approximately ten miles southeast of Providence. The “N” initial is a control marking applied by one of Hale’s agents in Providence. The unusual straightline handstamp used on this cover is possibly an independent agent’s own creation, as it is unlike the standard markings used by Hale’s offices. Only one other example is recorded, the stamp offered in lot 842.

END OF GUTMAN COLLECTION
Northern Liberties News Rooms, Sub Post Office. Type I circular mark, bold and incredibly detailed perfectly impressed at bottom left on folded letter datelined “Philadelphia Oct. 23, 1835” to Reverend Alexander McGill at Carlisle Penn., church business contents, red “Phila 25 Oct.” in octagonal frame, matching red “PAID” in octagon handstamp, manuscript “Paid 12 1⁄2” rate marking crossed out

EXTREMELY FINE. BELIEVED TO BE THE EARLIEST RECORDED USE OF THE NORTHERN LIBERTIES NEWS ROOM MARKING, WHICH WAS APPLIED TO MAIL HANDLED BY THE SUB POST OFFICE OPERATED BY ANDREW McMakin.

Prior to 1854, the Northern Liberties area (north of Vine Street) was outside Philadelphia’s city limits. Carriers were used to transport mail between outlying areas and the main post office in Philadelphia. The term Sub Post Office refers to a location where letters could be deposited for delivery to the main post office. The Northern Liberties News Rooms, which advertised its services as early as 1833, established a Sub Post Office in 1835. The proprietor at this time was Andrew McMakin. A news item appearing in the October 10, 1835, edition of the Philadelphia Saturday Courier states: “The enterprising, attentive and indefatigable proprietor of that popular establishment, the Northern Liberties Free Admission News Room, has found the business of his Sub Post Office so much on the increase, as to induce him to prepare a new and appropriate stamp, which we perceive is now imprinted upon all letters deposited at his office.” (from research by Elliott Perry and J. William Middendorf). Later advertisements link the Sub Post Office in Northern Liberties with the main Philadelphia post office, which reinforces its status as an authorized drop point for mail.

Debate among postal historians (Perry, Hahn et al) has focused on when the distinctive marking (Type I or II) was applied to letters. Some have argued that it is a press-printed impression applied to lettersheets prior to use and is, therefore, a carrier stamp. In support of the press-printed argument is the consistent orientation of the marking at the left side and at the same degree relative to the paper upon which it is impressed; it would be impossible to apply a handheld striking device so consistently. Arguing against this press-printed theory are those who cite the effects of folds on the markings and impressions thru the paper, physical evidence that proves the marking was applied after the lettersheet had been folded. Our opinion is that the markings were applied after the letter was folded and given to the Sub Post Office, but that a mechanical device — similar to a corporate seal — was used to make the impression. Each letter, when inserted into the device along the guides, would receive the impression in the same relative position and orientation, not unlike a three-hole paper-punch device commonly used today.

In summary, historical evidence supports the status of the Northern Liberties News Rooms Sub Post Office as an official carrier drop point for mail to the main Philadelphia post office. However, physical evidence refutes the claim that these lettersheets were sold to patrons as stamped stationery to indicate prepayment of the carrier fee; the marking is better classified as an elaborate and mechanically-applied indication of letter handling.

Calvet M. Hahn recorded between 12 and 14 examples of Type I (some duplication of items is possible). Offered to the market for the first time since 1991. Ex J. William Middendorf II. With 1991 P.F. certificate .......................................................... E. 10,000-15,000
Northern Liberties News Rooms, Sub Post Office. Very clear impression of Type II mark with a vertical line indicating presence of fold paper beneath at the time of application, the Type II shows portions of the design removed at center and around rim, red “Phila. 4 May” octagonal datestamp on Apr. 23, 1836, folded letter from Bethany to Philadelphia street address, no rate indicated, splits along file folds repaired and the entire inside of letter has been silked

VERY FINE APPEARANCE. THE FINEST OF THE FOUR RECORDED EXAMPLES OF THE TYPE II NORTHERN LIBERTIES NEWS ROOMS MARKING.

Although silked to repair splits, the condition of this cover is superior to that of the two other full covers; the earliest of the four recorded is a front only. This letter is also the only known example addressed to Philadelphia, where it received the datestamp, but was not rated.

884 U.S. Penny Post, St. Louis Mo., 2c Blue (8LB3). Large margins to just in at bottom, cancelled by bold strike of "1 ct" in frame, faults including creases and hinge-sealed tears

FINE APPEARANCE. ONE OF ONLY TWO OFF-COVER STAMPS AMONG THE SIX RECORDED EXAMPLES OF THE ST. LOUIS 2-CENT BLUE CARRIER (8LB3). A REMARKABLE CARRIER STAMP THAT WAS MODELED UPON THE ONE-CENT 1851 FRANKLIN DESIGN AND THE 3-CENT SILVER "TRIME".

Elliott Perry theorized that the design of this stamp was a cross between the 1851 1c stamp (ornamental border) and the 1852 3c silver coin known as a "fish-scale" or "trime", which had the shield in six-point star design (see Pat Paragraphs, reprint, pp. 263-264). The concept was "something between" 1c and 3c. Although previous reports date the stamp and covers to 1857, one of the Valentine covers has an enclosure that appears to have originated with the cover and is clearly dated 1853 (Siegel Sale 920).

Our records contain just six examples of 8LB3:

1) "1 ct" cancel, off cover, ex Golden, Kuphal and various Rarities sales
2) tied by "1 ct" in frame on cover to Edwin Harrison, ex Middendorf
3) used on large Valentine cover to Mrs. Scoot, dated Feb. 13, 1857, manuscript "X" cancel (not tied) and "Paid" straightline, ex Bulger, Siegel Sale 846, lot 2403
4) tied by "1 ct" in frame on cover to Miss St. Denis, Siegel Sale 846, lot 2404
5) cut to oval shape, tied by "Paid" in arc on large Valentine cover to Mrs. Scoot, Siegel Sale 920, lot 273.
6) "1 ct" cancel, boldly struck, off cover, the stamp offered here and unrecorded in our census.

890 **American Letter Mail Co., 5c Black (5L1).** Horizontal pair, large margins to in at bottom, tied by red brush strokes on double-rate folded cover to Philadelphia Pa., Feb. 16, 1844 docketing on flap as well as more of the red ink used to cancel the stamp, vertical file fold creases the right stamp, appears Fine, a very rare use of a pair of the American Letter Mail Co. Small Eagle, our records contain just six Small Eagle pairs used on five covers and one front ................................................. E. 300-400
Philadelphia Despatch Post, Philadelphia Pa., 3c Black (15L2). Cut to shape clear of circle all around, every letter of “Phila. Despatch Post” unusually well-defined, black “Paid” handstamp struck twice and “R & Co.” manuscript control, affixed with wax seal, cancelled by red “3” handstamp, matching partly struck “Phila. Despatch Post” circular timestamp on folded cover dated “1842” on back (must be December) to the Treasurer of the American Sunday School Union at 146 Chestnut Street. 

Extremely fine. One of the two finest of the six recorded covers bearing the Philadelphia Despatch Post circular black stamp. Based on the 1842 docketing, this is the earliest example of a United States adhesive stamp used outside New York City.

The Philadelphia Despatch Post is documented in an advertisement in the Philadelphia Public Ledger (Dec. 8, 1842) and in an expanded version with some differences. In the later ad, the stamps are priced at 3c individually, 31c per dozen and $2 per hundred. Valuable-letter registration for 6½c and a 6c rate on letters beyond two miles are quoted (no examples of either special service are known). The firm’s address is 93 Chestnut Street, not 83 South Second Street as in the earlier advertisement.

Dr. Vernon R. Morris Jr. has recently published his own comprehensive census, which updates and expands the census previously published by our firm.

Ex Caspary, Hollowbush, Schwartz and “Gordon N. John” ................. E. 15,000-20,000
Philadelphia Despatch Post, Philadelphia Pa., (3c) Black, Without Shading in Background, Initialed “R & Co.” (15L3). Thick coated paper with impression showing almost no background shading lines, three large margins, slightly in at left, cancelled by red outline “3” handstamp, impression ties stamp thru paper, on folded letter datelined “Phila. Jany. 9th 1844” to New York City, no Philadelphia Despatch Post handstamp or government handstamp, manuscript “12½¢” rate probably applied in Philadelphia.

Very fine. This is the earliest recorded use of this stamp “To the Mails” and therefore the earliest recorded use of a pictorial stamp outside of the city of issue.

Ex Ferrary, Hall and Dr. Morris. With 2001 P.F. certificate. E. 2,000-3,000

Fine. This is the rarest of the striding messenger stamps, issued by the Philadelphia Despatch Post, predecessor to D. O. Blood. This is a very early use.

The “R & Co.” Striding Messenger stamps without any background shading lines are extremely rare. This stamp shows an extremely worn impression with the buildings at left and right almost completely missing. This was used only three days after the earliest documented use (October 10, 1843, offered in D.K. collection, Sale 862, lot 62). Ex Kuphal. E. 1,500-2,000
D. O. Blood & Co., Philadelphia Pa., (1c) Black, “For the Post Office” (15L8). Square margins which are completely clear all around, tied by two strikes of red “PHILADA. Complete sheet of four panes of 24, unused (no gum), vivid bronze color, horizontal crease thru bottom two panes, top left pane with some typical minor wrinkling and tiny cracking, still Very Fine, a visually striking and extremely rare complete sheet, we are aware of four or five panes of 24 but this is the first sheet of 96 we have ever encountered, Scott value as four panes................. 5,000.00
“POST”. One word contained in broken circle applied by stencil in red, matching “PAID” straightline on folded Valentine’s Day poem dated Feb. 14, 1848, to Miss Cadwalader, 7 Vine Street in Philadelphia, yellow Blood’s advertising label at upper right (slight discoloration), Extremely Fine, Hahn records only two examples of this enigmatic “Post” marking, the advertising label ties it to Blood’s post, but the style of the marking is atypical of Blood’s in this period and the stencil application is more suggestive of Spence & Brown in Baltimore — in any case, an important Local Post rarity and certainly open to further research — ex Hollowbush, Hahn and Dr. Morris, with 2010 P.F. certificate ......................... E. 1,000-1,500

B. Post/5. Large dark blue stencil-applied rate handstamp on cover to William Stewart, a Baltimore attorney, with hand-colored comic Valentine entitled “A Lawyer”, the poetic assault reads (in part) “As tough as your parchment, as black as your heart, Made up of lies that would fill an ox cart...To wed with all these, I’m not such a dunce, I’d prefer the old Devil, your daddy, at once”, almost certainly original to cover. Very Fine, the better of only two recorded examples of this enigmatic local-post handstamp, this post is discussed in Kelly’s CCP series (Vol. 50, Bo. 4, p. 220), but virtually nothing is known about its operation, ex Hahn and Dr. Morris, with 2010 P.F. certificate ......................... E. 1,000-1,500

POST. Stencil arc and “Paid” straightline both applied in greasy red ink on brown cover to local Philadelphia street address, ms. “1849 from E. P. VERY FINE APPEARANCE. THE ONLY RECORDED BLOCK OF THE RARE BROWNE'S EASTON DESPATCH ENGRAVED STAMP.

The engraved stamp with a portrait of Washington, 30L3, was the subject of a study by Larry Lyons (The Penny Post, April 2006). In his article, he documents at least 37 examples and reconstructs the original plate layout using the multiple offered here. This block of six and pair, and three or four additional pairs, are the only known multiples. Lyons assigns Positions 2-5, 4-5/7-10 to this block and pair.

954 Balance of the William W. Steele Collection of Carriers and Locals. Two thick volumes filled with scores of genuine stamps and covers arranged together with counterfeits and fantasy issues (those acquired by Mr. Steele from the Sir Nicholas Waterhouse reference collection), all carefully annotated including the names of counterfeitters (Scott, Taylor, etc.), the genuine items cover a wide range of posts, but there are extensive sections of Blood’s, Boyd’s and Hussey’s Posts with many scarce issues and desirable multiples and covers — the following is a Scott number list of the genuine stamps we surveyed: LO6 (2), 3LB2 cover with 3c 1851, 5LB1 (2), 5LB2, 6LB5, 6LB5d, 1L2 block, 1L3 block, 1L4, 2L3, 5L1, 9L1 cover, 9L11 unused entire, 12L1-12L2 panes (a few), 15L14 and 15L15 blocks (several), Blood’s entries, 20L2 tied on Christmas Day cover (a beauty), numerous Boyd’s covers and blocks, 20L13 tied, 20L15 and 20L16 sheets of 100, 20L43A, Boyd’s entries, 25L1, 27L1, 35L1, 35L2, 40L1 (2 unused and a Sperati), 60L2, 62L4 (2), 66L1, 73L1, 74L2 cover, 74L1-74L2 sheets, 78L1, 87L1 (2), 87L2, Hussey’s in great depth including 87L56, 87LUP1-4, Special Delivery covers, 9L1, 91L1, 98L1, 107L1 cover (2, both tied), 108L1, 112L1, 112L3, 121L2, 121L3, 132L2, 141L3 blocks of 26 and 18, 143L1-5 Pony Express, Pomeroy sheets, 144L1 and 144L9 sheets of 6 — apart from the considerable value in genuine material, there are many hundreds of counterfeits and fantasies that have a market of their own, which we have not factored into our estimated value, there are also two fat albums of more modern “local post” creations (not counted in our estimate), condition is typical for this collecting area, and faults should be expected in the scarcer items, but overall this is a true collector’s collection, which would take years to recreate — it offers the philatelist an opportunity to launch into a new specialized area or to augment an existing collection, and for the dealer or eBay reseller, there is great profit potential, even without the criminal mentality of selling the counterfeits and fakes as genuine .................................................................................................................................................(Photo Ex) E. 15,000-20,000

George Washington. Free frank "President U.S." as President on folded cover to "Clement Biddle Esquire, Philadelphia", light strike of "New-York Feb. 7" straightline and barely struck "Free" handstamp, virtually intact wax seal, no date, repair around opening in back flap and sealed tear at top of address panel, light soiling

VERY FINE. A SCARCE AND ATRACTIONAL EXAMPLE OF GEORGE WASHINGTON’S “PRESIDENT U.S.” FREE FRANK.

After Washington resigned as Commander-in-Chief of the Continental Army, his non-private mail continued to arrive in great volumes. On April 28, 1784, his franking privilege was extended. Technically, he did not receive the right to free frank mail as President until the Act of March 3, 1792 (effective June 1, 1792, and just over three years into his first term), but he began franking in his own particular way as soon as he took office. Washington is the only president to use the “President U.S.” form of free frank without a signature.

“Mad” Anthony Wayne, 1782, Revolutionary War Flag-of-Truce Letters. Pair of letters, first signed by British Brigadier General Alured Clarke, writing as commander of the Crown’s forces in Georgia and datelined at Savannah on June 17, 1782, stating in part that the bearer, Captain William Johnson, is charged with a “Flag for the purpose of conveying a letter to Genl. Wayne”, second letter is General Wayne’s signed response to Clarke’s letter, datelined at Savannah on Aug. 8, 1782, referencing Clarke’s letter of June 17 and permitting certain merchants to proceed to the American lines, allowing said merchants to dispose of their goods and merchandise to the citizens of the United States, to export proceeds to the amount of said goods and merchandise to any British port, and granting them protection under a flag-of-truce from any vessels, cruisers or other ships of war of the United States, outstanding condition with both letters fresh and fully legible...........................

A HISTORIC PAIR OF REVOLUTIONARY WAR FLAG-OF-TRUCE LETTERS, ONE SIGNED BY AMERICAN GENERAL “MAD” ANTHONY WAYNE AND THE OTHER BY HIS GEORGIA COUNTERPART IN THE BRITISH ARMY, GENERAL ALURED CLARKE — WRITTEN JUST BEFORE AND AFTER THE SURRENDER AND EVACUATION OF BRITISH FORCES IN GEORGIA.

While many people think of General Cornwallis’s surrender at Yorktown in October 1781 as the end of the Revolutionary War, in fact British forces continued to occupy Savannah and Charleston S.C. when this first letter was written by General Alured Clarke, on June 17, 1782. On July 1, a delegation of Savannah merchants crossed the American lines to speak to General Wayne under a flag-of-truce similar to what Clarke was requesting in this letter (possibly even based on Clarke’s request here). Clarke’s formal surrender occurred shortly thereafter, on July 11. Wayne’s August 8 response came shortly after the Americans re-established control of Savannah. These historic letters straddle that surrender and describe General Wayne’s grant of a flag-of-truce to Savannah merchants to sell their goods and merchandise free of harassment by American forces.

Anthony Wayne (1745-1796) was one of the most fascinating and colorful generals of the American Revolution. During a military career that began during the Revolution and continued with Indian wars afterward, Wayne was noted for many military exploits and a fiery personality, earning him the sobriquet “Mad” Anthony. For a fine summary of General Wayne’s 1782 Savannah campaign, including reference to the July 1 flag-of-truce visit and General Clarke’s surrender, see the Journal of the American Revolution (Oct. 9, 2014, https://allthingsliberty.com/2014/10/anthony-waynes-1782-savannah-campaign)........................................................................ (London, England to Boston, Aug. 8, 1708) “B Sh 4d”. Manuscript rate (Boston Ship) on incoming folded letter datelined “London Augt. 8th 1708” addressed to Mr. Edward Watts at “Winnisimit near Boston In New England”, contents from Elizabeth Bellingham complaining recipient hasn’t sent her any money per their agreement and threatening to invoke her power of attorney, letter ends “I am your injured friend”, somewhat ragged along right edge of letter slightly affecting contents but not affecting address panel in any way

Very Fine. Reported to be the earliest example of a Boston Ship Letter Marking. A phenomenal and important early Colonial Artifact.

Winnissimit, meaning “good spring nearby” in the local language, is today known as Chelsea, Massachusetts. There is a Bellingham Square in Chelsea, and no doubt the sender of this letter was a member of that prominent family. The recipient, Edward Watts, was born in 1667 in Somerset, England and married Rebecca Smith in London in 1690. Based on the contents, he must have arrived in New England not long before this was sent. He passed away in 1714.

EXTREMELY FINE. A PHENOMENAL STRIKE OF THE “NEW YORK” MARKING ON A VERY EARLY FALMOUTH-NEW YORK PACKET COVER.

Falmouth’s location as a packet station was advantageous, as Britain was often at war and its remote location in Cornwall helped get mail past enemy naval vessels and privateers. According to Horowicz-Lowe (p. 13): “On 15th November 1755, the British Post Office dispatched the first regular mail packet from Falmouth to New York. From this time there were two packets sailing monthly to and from New York, and this service continued right through to the Revolutionary period with few interruptions.” This was likely carried on the fourth sailing from Falmouth, on the Harriot, which departed April 29, 1856 and arrived in New York on June 14.

(Falmouth-New York Packet, 1756) “NY 3.16dwt”. Manuscript postmark with “16” grain ship fee incorrectly applied to this packet letter, crossed out and correctly rated 3dwt (N.Y. to Phila.), red manuscript “PIN” prepaid 1sh packet rate on folded cover from England to John Reynell in Philadelphia, “1/3d” due in local currency (3dwt=9p x 1.67 inflation factor=15p, or 1sh3p without carrier fee), “15/NO” (Nov. 15) Bishop’s mark on back, sender’s directive “P the Pacquet”, receipt docketing “From George & Robert Udny, rec’d, 10th of 2nd mo 1756 Via New York”, slightly toned file fold

FINE APPEARANCE. THIS WAS CARRIED ON THE FIRST SAILING OF THE FALMOUTH PACKET TO NEW YORK. A GREAT RARITY.

The first sailing of the Falmouth-New York packet service was the Earl of Halifax which departed Falmouth December 13, 1755 and arrived in New York February 3, 1756. The receipt docketing of February 10, 1756 fits with the sailing information.

VERY FINE BLOCKADE-RUN LETTER FROM A CAPTAIN IN THE BRITISH OCCUPATION FORCE AT NEW YORK, SENT BY PACKET TO ENGLAND THROUGH THE AMERICAN PRIVATEER BLOCKADE.

Captain Montresor was a British military engineer and cartographer. He served in the 48th Regiment of Foot in North America from 1754 to 1779, including in the French and Indian War. The recipient of his letter, Myles Cooper, served as president of King’s College (Columbia University) in New York from 1763-75 and was a fierce loyalist. He was apparently difficult to locate as it took more time for the letter to get from London to Oxford (2.5 months) than it did to cross the Atlantic.

VERY FINE. A UNIQUE “ILLUSTRATED COVER” FROM THE 1839 MAIDEN VOYAGE OF THE BRITISH QUEEN.

The British Queen was owned by the British and American Steam Navigation Co. This letter was carried on her maiden voyage, which departed Portsmouth on July 12, 1839. This company chartered the Sirius for two voyages in 1838, in order to beat the Great Western Steamship Company as the first steamship company to make the transatlantic crossing. The British Queen was substantially larger than other transatlantic steamers used at the time, earning the company a profit. They built a second sister ship, the President, which was double the size of Cunard’s Britannia, but both ships were considered underpowered. The President was lost in 1841 and caused the collapse of the company. The British Queen was sold to the Belgian government.

FINE. A RARE EXAMPLE OF THE “ISLAS DE BARLOVENTO” TWO-LINE HANDSTAMP MARKING FROM SPANISH COLONIAL NEW ORLEANS TO FRANCE.

According to Dr. Yamil Kouri, this originated in Spanish New Orleans and was sent via Havana to Cadiz, Spain, where the “ISLAS DE/BARLOVENTO” (Windward Islands) marking was applied. It was then sent overland to France and rated 16 sous for a single-weight letter from Spain. Dr. Kouri records only one other New Orleans cover bearing this marking, rated 24 sols.

The sender, Antonio Patrick Walsh, was a native of Dublin, Ireland. Walsh served in the Spanish military and in the militia of colonial Louisiana under Spanish rule. He later became involved in shipping, serving Spanish commercial interests in the Caribbean and Mexico as third commander of the ship Louisiana and as the owner of the ship La Mexicana. Following his maritime service, Walsh settled in West Feliciana Parish, Louisiana, where he owned a cotton plantation. The treaty purchasing Alaska for $7.2 million (equivalent to $117.8 million in today’s dollars) was signed May 28 and the territory was formally transferred on October 18, 1867, less than a week before this was sent. The Resaca was commissioned by the Navy in 1866 and initially patrolled off the Mexican and Central America coasts to protect U.S. interests. After an outbreak of yellow fever affected the Jamestown and Resaca, both ships were sent to Alaska to effectively quarantine. It arrived in Alaska in August 1867 and stayed until 1869. VERY FINE. FEWER THAN A HALF-DOZEN 1869 PICTORIAL COVERS FROM ALASKA TERRITORY ARE BELIEVED TO EXIST. AN IMPORTANT COVER FOR THE ISSUE AND IN THE STUDY OF EARLY TERRITORIAL POSTAL HISTORY.

From 1867 until 1884, the region later known as the District of Alaska (1884), Territory of Alaska (1912) and the State of Alaska (1959) was officially known as the Department of Alaska. Until 1877 it was under the jurisdiction of the U.S. Army. The Census of 1870 reported 461 whites living in Alaska (with no effort made to count the Eskimo population). Covers from Alaska pre-dating the 1890s are rare, and the 1869 PRA Census estimated three to six extant.

A remarkable letter written during the Texas War of Independence, describing the siege of the Alamo, the Goliad Massacre, the “Runaway Scrape,” the Battle of San Jacinto, and the capture and imprisonment of Santa Anna. 2½ page letter on folio, datelined “Quintanna, Mouth of The Brazos, May 15, 1836” from John L. Sleight to his uncle, Cornelius Sleight, in Sag Harbor N.Y., address panel with blue “New Orleans La. May 26” circular datestamp, matching “SHIP” handstamp and magenta manuscript “27” rate (25c plus 2c ship captain’s fee), dampstains and small erosion area affecting a small part of the letter.

The author of this extraordinary contemporary account of the major events of the Texas War of Independence, John L. Sleight, was about 26 years old in May 1836 when he wrote this letter to his uncle, Cornelius Sleight, a resident of the east end Long Island port town of Sag Harbor, New York, where John was born circa 1810. John Sleight traveled to Texas and established his merchant business in Brazoria in the early 1830s. When the Mexican army under President Antonio López de Santa Anna launched its campaign to crush the Texian army, Sleight, a member of the Texas Volunteer Militia as early as 1832, was an active participant in the Texas struggle for independence. Although he did not participate directly in all of the events described in this letter, Sleight was well-informed of the details, and he served as one of Santa Anna’s prison guards after the Mexican leader’s capture at the Battle of San Jacinto.

Quintanna Mouth of
The Brazos, May 15, 1836

My Dear Uncle

I presume that you have been looking for some time past for letters from me but owing to our disturbances there has been but little communication with any parts of the U.S. An opportunity now offers and a leisure hour and I hasten to embrace it. You of course are acquainted with our affairs generally as I perceive that the New York papers has plenty of Texas news but I will give you a more particular description and a little more accurate. I will commence with the Fate of the Fortress of Bexhar and follow it up to the present date. The Thermopylae of Texas was taken in the latter part of February after a siege of their works by the forces of St. Anna with an army of 6,000 men. History does not record so gallant a resistance and so tragic an end. Not one of the defenders escaped to tell the dreadful tale. A negro man and wife were the sole survivors. 182 men fell gloriously fighting for liberty but they exterminated hundreds of the savage foe. 521 were left on the field and 1000 wounded most of them mortally. After burning the bodies St. Anna marched his forces to La Bahia a strong fortress on the San Antonio River and well manned and commanded by Col. Fanning [sic - Fannin] - he was ordered by General Houston to evacuate the place and retreat to the Colorado to join the Main Army. his force consisted of 487 men. their retreat was cut off and they were surrounded by 2000 of the Enemy who commenced an attack and after a well-fought action of five hours they held off - leaving 1000 men dead on the field and 600 horses. they ordered reinforcements of 900 men and camped on the field that night. he had 7 men killed and 40 wounded and consequently was obliged to remain there that night. in the morning he was completely surrounded by them and not one drop of water. proposals was made to them and articles of treaty entered into and he surrendered as honourable prisoners of war our private property to be respected and we were to be sent to the United States. Our army was marched back to the fort and detained five days when all were ordered out to march for the bay of Copona [sic ñ Copano Bay]. And on the way the principal part was inhumanely massacred. Not more than 20 escaped to tell the horrid tale. It would seem natural to think that St. Anna’s vengeance was nearly glutted by this time but he took up the line of march for the Brazos swearing vengeance and a total extermination of men women and children. Our army retreated towards the Trinity. St. Anna following the hot pursuit and the whole country west of the Brazos completely depopulated. On the San Jacinto our army took a stand determined to check him in his mad course. thus the army encamped 12 miles apart. St. Anna commenced fortifying and heaving up entrenchments and making his position as strong as possible. Our army attacked him [“with 1,500 men” crossed out] on the eve of the 21st of April at 4PM with 650 men and in 19 minutes completely routed his whole lines and in one hour and 20 minutes gained one of the most complete victories that was ever fought killing 690 and taking 800 prisoners. With St. Anna at their head and 42 officers many of them of rank. they had 38 officers killed, two of them Generals. Our loss is 7 killed and 15 wounded. St. Anna is very anxious about his fate. he is perfectly willing to acknowledge our independence, cede us territory to the west Bank of the Rio Grande and pay the expense of the war if the congress of Mexico will ratify it. I think he will escape with his head. I belong to the Guards stationed about his prison and have frequent opportunities of seeing him. from his appearance I should not think him a very smart man. he is six feet in height and well made and rather prepossessing but he has caused us an immensity of trouble and made hundreds of poor men. Our crops are all cut off. No cotton will be made this year. the Farmers are returning to their homes and are endeavoring to make bread. Many of the merchants are completely ruined and are Bankrupts [sic] for thousands but we have this consolation we have the finest country on Earth and our lands will soon be valuable. I do not believe there ever was so [“great” crossed out] large a field for speculation as there is in Texas at this time and will be probably for years. Cous. has lost several hundred Dols but I am in hopes that I shall recover it for him. It was done by the orders of Government. I have presented the claim and think it will be allowed. He will not do for this country. he so completely unqualified for business of any kind and so wayward in his disposition that nothing can be done with him according to your request. I have done all that was in my power to and shall continue to do so until he makes up his loss. then I shall advise him to return home [missing] up the country at present once was well [missing] from him.

I remain truly yours,

Jno L. Sleight

VERY FINE. A RARE 5-CENT NEW YORK POSTMASTER’S PROVISIONAL WITH “RHM” SIGNATURE ON A LETTER FROM JAMES LENOX IN NEW HAMBOURGH AND MAILED FROM NEW YORK CITY.

In his article in Chronicle 99, Phillip Wall traced the history of the James Lenox “RHM” covers. Lenox was a prominent New York philanthropist and book collector in the mid-1800’s. His collection of books and paintings formed the core of the Lenox Library on 5th Avenue, which became part of the New York Public Library in the late 1800’s. He was also a founder of Presbyterian Hospital. Lenox spent the summer of 1845 in a manor house in New Hamburgh while his Fifth Avenue townhouse was being built. From there he corresponded with associates in New York and Boston. Wall records seven covers sent by Lenox from New Hamburgh with “RMH” initialed stamps. This cover is the earliest of the seven and the only one that was mailed from New York.

VERY FINE. THE EARLIEST RECORDED USE OF THE 1847 ISSUE IN TEXAS, AND A REMARKABLE USE ENTIRELY WITHIN TEXAS.

According to official distribution records from the post office, Houston did not receive any supplies of the 1847 Issue until May 1848, and no post offices in Texas received any before January 2, 1848 (Galveston). This stamp must have been carried privately from some place outside of Texas. The next earliest confirmed date of use is November 13, 1849. The yeardate is unknown on five but all are used earlier than July and so cannot be used in 1847. New Orleans received a supply on August 27, 1847, so it is possible this was acquired there. The recipient, Thomas Ward, is a prominent figure in Texas history. After losing an arm and a leg to a cannon misfire during Texas Independence Day in 1840, he was later mayor of Austin on three separate occasions (each lasted less than a year) and served as U.S. Consul to Panama under President Franklin Pierce.

1157 5c Brown (1). Large even margins, deep shade from worn impression, tied by double-struck black grid cancel, “N. Brunswick N.J. Apr. 19” small circular datestamp and large “5” rate handstamp on envelope to 36 South St., New York City, manuscript “X” thru rate handstamp, diminutive “2 Cents” in manuscript just above date, also faint “2c” to the right of stamp

EXTREMELY FINE. A REMARKABLE COVER WITH THE 5-CENT 1847 ISSUE PAYING THE INTER-CITY POSTAGE AND THE “2 CENTS” MANUSCRIPT MARKING INDICATING A POSTAL FEE PAID OR DUE.

The 2c rate on this cover is enigmatic. The New York City postmaster reestablished carrier service in December 1848 with a 1c fee for delivery from the post office to the addressee. The “2 Cents” on this cover was applied either at the originating office (New Brunswick N.J.) or at the New York office, possibly to indicate an advertised fee.

VERY FINE COVER. A BEAUTIFUL AND RARE USE OF THE DEMONETIZED 5-CENT 1847 ISSUE ON A HOTEL CAMEO ADVERTISING COVER — THE STAMP WAS ACCEPTED AS PAYMENT FOR THE 3-CENT RATE. THE “NEW-YORK” CIRCULAR DATESTAMP WAS NEVER STRUCK IN BLACK DURING THE PERIOD WHEN THE 1847 ISSUE WAS VALID.

The Alexander census (Chronicle 174) lists another cover with the same hotel design and same addressee, dated Sept. 25, 1851 (offered in our William H. Gross Sale 1041, lot 322). It is interesting that the sender knew enough about the new postage rates to use a 5c stamp rather than 10c stamp for the old over-300 miles rate, and successfully used the demonetized 5c stamp to evade paying 3c postage.

VERY FINE. A WONDERFUL USE OF THE 10-CENT 1847 ISSUE ON A COVER SENT PRIOR TO THE START OF THE APRIL 1851 TREATY BUT ACCEPTED AS A TREATY RATE USE. THIS IS THE EARLIEST REPORTED TREATY RATE COVER.

Effective April 6, 1851 a new rate was established between the United States and Canada. Mail was no longer prepaid just to the border; a rate of 10c (or 6 pence Canadian) was established to or from any place in Canada (except for the West Coast). The sender of this letter was apparently unaware of the impending rate change and marked it “paid to the lines”. However, by the time his letter arrived in Canada the new treaty was in effect, so it was considered fully prepaid to destination.

EXTREMELY FINE. A PHENOMENAL SHEET MARGIN BISECT OF THE 10-CENT 1847 ISSUE, FROM THE STILPHIN CORRESPONDENCE. ONE OF THE MOST DRAMATIC BISECTS, BY VIRTUE OF THE SHEET MARGIN AND OVERALL FRESHNESS, THAT WE HAVE EVER ENCOUNTERED.

The fascinating history of the discovery of the Stilphin correspondence is detailed in an article by Susan M. McDonald (Chronicle 115). An elderly lady in Syracuse N.Y., the last of her family, decided to destroy her family’s correspondence, which was in several trunks in her attic. When all but one trunkful was destroyed, she stopped to rest and noticed an advertisement to buy old stamps in a magazine. She eventually sold the contents of the trunk to a collector, Wallace MacLaren, who had placed the ad. The correspondence included several stampless and 1851 Issue covers, and also seven 5c 1847 covers and five 10c bisects. She almost destroyed the bisects, fearing the torn stamps were valueless. She later discovered another four bisects, and three others have subsequently been found, for a total of twelve from the Stilphin correspondence. Most were sent to Mary Stilphin by her future husband, Rev. John B. Foote.

VERY FINE APPEARANCE. AN OUTSTANDING AND EXTREMELY RARE FIRST DAY COVER OF THE 1851 3-CENT ORANGE BROWN. THIS IS ONE OF THREE EXAMPLES KNOWN FROM CINCINNATI AND ONE OF ONLY THREE KNOWN WITH CONTENTS REFERENCING THE NEW 1851 ISSUE.

Joseph Diaz, Ship 'Pocahontas', care of Messrs. Makee Anthon & Co. Honolulu, Sandwich Islands”, sender’s directive instructions “Via California”

VERY FINE. A PHENOMENAL USE OF SIX ONE-CENT 1851 ISSUE STAMPS ON A COVER TO HAWAII. BELIEVED TO BE A UNIQUE FRANKING, AND QUITE LIKELY THE Earliest Recorded Use of a United States Adhesive Stamp to or From Hawaii.

The ship Pocahontas, a whaling vessel built at Wareham, Massachusetts, in 1821, was lost in 1857. There are several pieces of information we can use to narrow down the year of use of this cover. The United States stamps on this cover paid the 6c rate for distances over 3,000 miles. The rate was in effect from July 1851 thru April 1855. Hawaiian postage would have been paid in cash. Makee Anthon & Co. was a prominent forwarder who would hold mail for arriving ships, but the business was dissolved in 1852. That would narrow the period of use to 1851 or 1852. The New Bedford Whaling Museum is in possession of Captain Diaz’s log books, from a voyage to the North Pacific from 1850-1853. According to the Dennis Woods abstracts, an exhaustive collection of voyage abstracts of Yankee whalers compiled from the newspaper The Whalemens' Shipping List and Merchants' Transcript (1843-1917), the Pocahontas was at Honolulu October 1851, which is positive proof that this August cover was mailed in 1851, within the first two months of the 1851 Issue’s release.

1228 3c Rose Red (11). Horizontal pair and ⅓ of another stamp adjoining, tied by “New-York Sep. 8” circular datestamp and bold “Due 6” handstamp on brown cover to Greenfield Mass., the “6” due rate crossed out in pencil and re-rated “due 5”, manuscript “1854” year date, edge faults mostly confined to corners, otherwise Fine, a number of interpretations of this usage are possible, the most intriguing being that the sender franked it for a double rate plus carrier fee, but the P.O. rated it as a triple rate with the bisect not accepted (5c plus 1c), then decided to accept the bisect, leaving only the unpaid portion due (5c), another possibility, which a P.F. certificate (no longer accompanies) seems to embrace, is that the pair was inadvertently cut ⅓ into the next stamp, and the “Due 6” was struck in error, then corrected, the “bisect” is 6.5 mm in width, almost exactly ⅓ of the full design (19.5 mm); to attribute this cut to simple carelessness seems to us to be a greater stretch of imagination than to accept the prepaid carrier fee theory, but the P.F. has opined that it “is not a bisect usage.” Offered on its own merits, ex Piller ........................................ 3c Dull Red, Ty. 1, Chicago Perf 12½ (11 var). Position 78R6, perfs intact on three sides, roughly separated at left, tied by "Chicago Ill. Aug. 4, 1856" circular datestamp on cover to Skaneateles N.Y., manuscript "R. K. Swift Bro & Johnston" return address across top, with original printed enclosure from the Swift Brothers' banking firm.

Wilson Hulme speculates in his article in Chronicle 175 that R. K. Swift distributed Chicago perf stamps to various businesses as a trial or to strengthen the possibility of selling the perforating machine to the post office. Many of the businesses were in a straight path between Swift's bank and Elijah Hadley's (inventor of the machine) office (p. 167). Hulme recorded two covers with an R. K. Swift printed corner card and this cover with the firm's printed enclosure (there are others with signatures or writing that can be tied to Swift, discussed in lot 1231). This cover and enclosure are illustrated in Chronicle 175, page 162, where described as having "the highest degree of desirability".

Wilson Hulme recorded two covers with the R. K. Swift corner card, the cover with Swift printed enclosure offered in lot 1230, and two with handwriting at top which included "R.K. Swift & Co.". An additional cover signed R.K. Smith was sold in our Hulme Sale 964 (lot 181) but was not recorded in his census in Chronicle 175. There is also one cover addressed to Swift not recorded in the Hulme census (Sale 964, lot 182). There are five additional covers recorded which have handwriting that ties them to Swift & Co., including one with an address written by Swift himself.

VERY FINE. THIS IS THE UNIQUE EXAMPLE OF A 3-CENT CHICAGO PERF MULTIPLE. AN IMPORTANT ARTIFACT OF EARLY PERFORATION OF UNITED STATES STAMPS.

The origin of this experiment was revealed in an article published by Jerome S. Wagshal in Chronicle 130 (May 1986). The inventor of the machine used to create the Chicago Perf stamps was Dr. Elijah W. Hadley, a Chicago dentist. He probably constructed the machine in 1854. Over a two-year period, beginning in November 1854, Dr. Hadley’s device was offered for sale to the Post Office Department thru R. K. Swift, a prominent Chicago banker and businessman.

There is one strip of three of the 1c 1851 issue recorded with Chicago perfs. There is also a 3c cover with two singles of the Chicago perf, but only this pair is known as a multiple.

VERY FINE. THIS IS THE EARLIEST DOCUMENTED USE OF A PERFORATED STAMP IN THE UNITED STATES. ONLY THREE ARE RECORDED WITH THE FEBRUARY 28, 1857, DATE — TWO FROM NEW YORK AND ONE FROM PHILADELPHIA.

The first experimentally perforated stamps were delivered to the U.S. government on February 24, 1857. Seven cities were chosen for distribution. According to the North American and United States Gazette of February 27, "...Ninety thousand were ordered for the cities of Philadelphia and New York, and thirty thousand for New Orleans and other cities of the South and West." The earliest documented use of a perforated stamp is February 28, 1857, based on two covers from New York and one from Philadelphia. The experimental period continued until June 10, 1857, when the original six-year contract with Toppan, Carpenter expired. It was renewed on April 8, 1857, effective June 10, from which point all stamps were perforated as mandated by the new contract terms.

The cover offered here was certified in 1975 by The Philatelic Foundation for Calvet M. Hahn and offered in the Siegel 1976 Rarities sale as a "First Day Cover," based on the belief that Saturday, February 28, is the first day that perforated stamps went on sale at New York and Philadelphia. Approximately 75 covers from the experimental perforation period have been recorded by Hulme, and February 28 stands as the earliest documented use.

Competition was keen, and companies used spectacular images and colorful printing to get attention. Speed of delivery and careful handling were of the utmost importance to merchants, thus the text emphasized attributes such as record trips of “107 Days,” “A1 Ship,” “Fast sailing and good delivery of cargo,” and so on. VERY FINE. ONLY NINE EXAMPLES OF THE HONOLULU STRAIGHTLINE POSTMARK ARE RECORDED STRUCK IN BLUE. A GREAT HAWAIIAN RARITY.

This cover was carried on the bark Spartacus, which departed Honolulu November 7, 1850, and arrived in San Francisco on December 10. It was carried to Panama on the California, which departed on December 15 and arrived on January 3, 1851. After crossing the Isthmus by mule and riverboat, it left Chagres on the Falcon, which departed on January 12 or 13 and arrived in New York on January 24 after a stop at Havana.

Fred Gregory records a total of 35 examples of this straightline marking. Of these, the first nine are struck in blue, including one other with the same markings and sent on the same ships as the example offered here. The change from blue to black seems to have occurred after December 7, 1850. ....................................................... E. 15,000-20,000

VERY FINE APPEARANCE. THE ONLY RECORDED USE OF THE UNITED STATES 30-CENT 1860 ISSUE FROM HAWAII. AN OUTSTANDING COVER, NOT ONLY FOR ITS SIGNIFICANCE IN HAWAIIAN POSTAL HISTORY, BUT MORE GENERALLY AS A CLASSIC UNITED STATES 1857-60 ISSUE AND TRANSATLANTIC MAIL USAGE.

This cover was carried on the American bark Yankee, which cleared Honolulu on July 18, 1861, and arrived in San Francisco on August 7. The following day it was sent to Placerville for the next stagecoach departure on the Central Overland Route to St. Joseph, Missouri. The Central Overland Mail Co. took over the mail contract from Butterfield when the Southern Route was jeopardized by the Civil War. Service began on July 1, 1861 (source: Fratola website).

Once this cover reached New York, it was carried on the Inman steamer City of Washington, which departed on August 31, 1861. At Queenstown the mail for Prussia was off-loaded and sent to London, then on to Antwerp, Belgium, and Aachen, where it entered the Prussian mail system on September 13. The next day it was delivered in Lubeck.

1853 5-CENT KAMEHAMEHA III ISSUE—FIRST PRINTING
MIXED FRANKING WITH 10-CENT AND 12-CENT U.S. 1851-55 ISSUES

1402 5c Blue, Thick White Wove (5). Top sheet margin position with clear to large margins on two other sides, slightly in at bottom, beautiful color and impression, tied by vivid red “Honolulu * U.S. Postage Paid * May 1” circular datestamp on buff cover addressed in the hand of the Rev. Titus Coan from Hilo to his son, Titus Munson Coan, in New Bedford, Massachusetts, used with United States 1855 10c Green, Ty. III (15) and 1851 12c Black (17), 12c large margins to clear at bottom left, 10c has two margins, in at right and bottom, each stamp tied by “San Francisco Cal. 21 May” circular datestamp.

Very fine. A remarkable mixed franking, precisely prepaying the Hawaiian 5-cent rate, the United States 20-cent double rate, and the 2-cent ship captain’s fee.

There is evidence on this cover indicating that when it left the post office at Hilo, there was additional Hawaiian postage affixed, which was removed at Honolulu, and, in its place, the two United States stamps were affixed. Beneath the 10c and 12c stamps are scuffs in the envelope, of the size and shape that would result if other stamps were peeled off. The scuffs were not there when the address was written (the letter “n” of “Munson” is affected), but were there before the U.S. stamps were affixed and then cancelled at the San Francisco post office (the datestamps are impressed over the scuffs). The Honolulu “U.S. Postage Paid” marking confirms that the letter was fully prepaid at Hilo, probably with two 13c Kamehameha stamps, which, together with the 5c, would nearly cover the 32c postage (underpaid 1c or charged to sender). The use of 10c and 12c 1851-55 Issues on the same cover from Hawaii is rare — in this case, they precisely paid the 22c U.S. postage (2 x 10c postage plus 2c ship captain’s fee).

This cover was carried on the American bark Yankee, which cleared Honolulu on May 3, 1856, and arrived in San Francisco on May 20. It was carried by the Pacific Mail Steamship Company’s John L. Stephens, departing on May 21 and arriving at Panama City on June 4. The mail was carried across the isthmus to Aspinwall, and from there it left on the U.S. Mail Steamship Company’s George Law, departing June 4, 1853, and arriving in New York on June 13. The George Law was renamed Central America in 1857, the year that she sank in a hurricane, claiming hundreds of lives and tons of gold.

Archer at Port Gibson, Mississippi, red pencil “32c” crossed out, some minor spots of wear at edges

VERY FINE. THE ONLY RECORDED COVER BEARING A PAIR OR ANY MULTIPLE OF THE 1853 5-CENT KAMEHAMEHA III FIRST PRINTING. AN OUTSTANDING UNITED STATES AND HAWAII MIXED-FRANKING COVER.

This cover comes from the Archer correspondence, which includes the unique Missionary/Kamehameha mixed franking from our Honolulu Advertiser sale (now part of the Smithsonian National Postal Museum collection). The small red pencil “32c”, a Hawaiian post office notation, accurately reflects the necessary postage for a double-rate letter (2 x 5c Hawaiian and 2 x 10c U.S. plus the 2c ship captain’s fee). The pair of U.S. 12c 1851 stamps involved a 2c overpayment, but overpayments were not unusual.

This cover was carried on the American bark Yankee, which cleared Honolulu on September 4, 1856, and arrived in San Francisco on September 21. It was carried by the Pacific Mail Steamship Company’s Golden Gate, departing on October 6 and arriving at Panama City on October 20. The mail was carried across the isthmus to Aspinwall, and from there it probably caught the October 20 sailing of the U.S. Mail Steamship Company’s George Law, which arrived in New York on October 30. The George Law was renamed Central America in 1857, the year that she sank in a hurricane, claiming hundreds of lives and tons of gold.

VERY FINE. AN OUTSTANDING AND VERY RARE “PASTE-OVER” MIXED FRANKING WITH THE 13-CENT KAMEHAMEHA III ISSUE PREPAYING POSTAGE AND THE 3-CENT 1851 ISSUE PAIR APPLIED BY THE HONOLULU POST OFFICE TO CREDIT THE UNITED STATES FOR ITS SHARE OF POSTAGE.

This cover was carried on the American schooner Restless, which cleared Honolulu on July 13, 1854, and arrived in San Francisco on August 9. From there it was carried by the Pacific Mail Steamship Company’s Oregon, departing on August 16 and arriving at Panama City on August 31 after a stop at Acapulco. The mail was carried across the isthmus to Aspinwall, and from there it was carried by U.S. Mail Steamship Company’s Empire City, departing on September 2 and arriving in New York on September 12.

The 13c stamp prepaid the 5c Hawaiian postage, 2c ship captain’s fee and 6c transcontinental rate. The short-lived practice of applying United States stamps (6c postage) over the 13c Hawaiian stamp was likely intended to avoid confusion over whether or not U.S. postage had been prepaid. The postmaster in Honolulu affixed the U.S. stamps to cover up the Hawaiian postage, and the letter was postmarked in San Francisco without applying a “Ship” or rate mark. The 2c ship captain’s fee was paid by the Honolulu post office.

Fred Gregory records eight such paste-over frankings (plus one earlier Missionary cover). There are two other covers from the Moore correspondence, one with a similar paste-up (Honolulu July 29) and the other with a 13c stamp (Honolulu July 12) and “Ship 22” double-rate due marking applied at San Francisco. All three were carried on the same vessels from San Francisco to New York via Panama.

This cover was carried on the American bark *Fanny Major*, which cleared Honolulu on July 26, 1856, and arrived in San Francisco on August 25. From there it was carried on the Pacific Mail Steamship Company’s *Golden Age*, which departed September 5 and arrived in Panama City on September 18. After crossing the isthmus to Aspinwall, it was carried on the U.S. Mail Steamship Company’s *Illinois*, which departed on September 19 and arrived in New York on September 27.

Following the United States rate change, effective April 1, 1855, the 13c Kamehameha III stamp could no longer prepay the full rate from Hawaii to the U.S. East Coast, which increased from 13c to 17c. In consequence, the patrons of Hawaii’s postal system began using 5c stamps plus 12c U.S. stamps, or 13c stamps plus 4c cash, or, in this case, 5c and 13c stamps together, incurring a one-cent overpayment. During the period starting in April 1855, it was already a regular practice to affix U.S. postage stamps to outbound letters on which the U.S. rate had been prepaid.

FINE APPEARANCE. A RARE MIXED-FRANKING COVER WITH THE 1857 5-CENT KAMEHAMEHA III ISSUE AND UNITED STATES 12-CENT 1851 ISSUE. ONLY A FEW ARE KNOWN WITH THE “OVERLAND” HANDSTAMP, WHICH WAS APPLIED IN SAN FRANCISCO TO INDICATE THE TRANSCONTINENTAL ROUTE.

This cover was carried on the American whaler Architect, which cleared Honolulu on November 17, 1859, and arrived in San Francisco on December 11. It was then carried by the Butterfield overland stage route to St. Louis (via Los Angeles and El Paso).

As explained by Richard C. Frajola and Michael Perlman in their important article on the California “Overland” mail directive markings (available at http://www.rfrajola.com/overland/overland.htm), there were two different, successive meanings of this handstamp. The first, when applied prior to January 23, 1860, was that the letter was received too late for the mail steamer departure from San Francisco, and that it would be sent by the Butterfield overland mail instead. After January 23, when the default for mail transportation was changed to the overland mail route, the “Overland” marking meant that the letter was received too late for the stagecoach departure from San Francisco, and that it would be sent by next overland mail instead. In San Francisco, two different versions of the “Overland” straightline were used. In the case of this cover, dated at San Francisco on December 12, 1859, the meaning of the “Overland” is “received too late for steamer.”

The Perlman-Frajola census records 14 “Overland” marked covers from Hawaii.

A FINE APPEARING AND EXTREMELY RARE DOUBLE-RATE MIXED-FRANKING COVER WITH A COMBINATION OF IMPERFORATE 1851 AND PERFORATED 1857 ISSUES.

This cover was carried on the American bark Comet, which cleared Honolulu on January 24, 1860, and arrived in San Francisco on February 10. At this point the San Francisco post office began sending all mail by the Butterfield overland stage route to St. Louis (via Los Angeles and El Paso) unless the letter was specifically marked for steamship service via Panama.

The stamps on this cover correctly prepay double-rate postage: 10c Hawaiian, 20c U.S. and 2c ship captain’s fee. The Gregory census reports two covers with a Hawaii 5c 1857 pair and U.S. 12c 1851 and 10c 1857 Issues. The other cover was sold in our sale of the Golden collection. This cover is the finer of the two.

The Gregory census of 1861 5c Third Printing covers lists three with pairs (the largest size multiple known on cover). Of the three, only this cover is a mixed franking with United States stamps. The 5c Kamehameha III pair prepaid the U.S. and Hawaiian postage, and the U.S. stamp was affixed at the Honolulu post office. The practice of applying the U.S. stamp over the Honolulu marking is evidenced by a fair number of covers in this period.

1860 2-CENT BLACK ON GRAYISH — PLATE 3-E
USED ON COVER WITH MELCHERS & COMPANY HANDSTAMP

1859-63, 2c Black, Grayish (16). Plate 3-E, Type III (Westerberg Position 1), ample to huge margins including top sheet margin and 6.5mm of right-hand gutter margin, tied by red "Honolulu Hawaiian-Islands Aug. 1" (1860) circular datestamp on gray cover to Mrs. Gustav Reiners, Wailua Falls, Kauai, full clear strike of "Forwarded by Melchers & Co. Honolulu" oval handstamp, short sealed tear in cover at right, minor tropical stained spots on cover and stamp.

VERY FINE. THIS IS THE ONLY RECORDED NUMERAL ISSUE COVER WITH A HANDSTAMPED FORWARDER’S MARKING AND ONE OF TWO EXAMPLES OF THE MELCHERS & COMPANY OVAL.

According to Gregory, two German immigrants, Gustav C. Melchers and Gustav Reiners, established Melchers & Company in Hawaii in 1852. Melchers returned to Germany in the mid-1850s. Reiners returned to Germany in 1861, leaving the business in the hands of F. A. Schaefer, who bought out the other partners in 1867. Gregory records two examples of the Melchers & Co. oval: one on a newspaper wrapper to Europe and the other on the cover offered here.

Because mail-forwarders were entrusted primarily with letters sent between the islands and other countries, the use of inter-island stamps in conjunction with forwarder markings was extremely limited. We know of just two Numeral covers handled by forwarders, but only this cover received a handstamped forwarder’s marking before it was carried by inter-island schooner for Kauai. The other cover has a 2c Blue Numeral and manuscript notation on back indicating that Waterhouse & Co. forwarded the letter (ex Caspary).

1419  1859-63, 2c Black, Grayish (16). EXTREMELY FINE APPEARANCE. A RARE WIDE-MARGINED EXAMPLE OF THE 1860 2-CENT HAWAIIAN NUMERAL TIED ON COVER.
The recipient, Levi Haaelea was an important figure in Hawaiian history. He was a high chief of the Kingdom of Hawaii. His wife was Princess Kekauonohi, the granddaughter of Kamehameha I.

1421  1859-63, 2c Black, Grayish (16). Plate 3-E, Type I (Westerberg Position 3), large margins to clear, sealed horizontal tear at bottom left, tied by bold strike of blue Lahaina Customs House seal with full-rigged ship on cover to Rev. S. E. Bishop at Honolulu, June 7, 1860 docketing at left indicates this was mailed by Cornelia Ann Bishop to her husband, cover lightly cleaned with two mended nicks at bottom
FINE APPEARANCE. THIS IS THE LATEST RECORDED USE OF THE LAHAINA CUSTOMS HOUSE SEAL ON COVER. FEWER THAN TEN FULL COVERS WITH THIS CANCEL ARE REPORTED.
This marking was used by Cornelius S. Bartow, the Lahaina postmaster, before he received cancelling devices ordered through the Honolulu post office. In a letter to the postmaster-general, he refers to this provisional cancellation: “Did you order a stamp for the department of this place? It seems to me to be very necessary, as I am now compelled to use the Custom House seal.” The marking was usually struck in an oily greenish-blue ink, which left very poor impressions.
The Rev. Sereno Edwards Bishop was the son of the Rev. Artema and Elizabeth Bishop, missionaries of the Second Company. Rev. Bishop was the Seaman’s Chaplain at Lahaina from 1853 to 1862, the period in which this cover was mailed, evidently while he was visiting Honolulu.

VERY FINE APPEARANCE. ONE OF THREE RECORDED TÊTE-BÊCHE PANES OF THE 1865 5-CENT BLUE “INTERISLAND” NUMERAL ISSUE. ONE OF THE GREAT RARITIES OF HAWAIIAN PHILATELY.

Apart from the Post Office sheet of 25 comprising two complete panes of ten and a tête-bêche row, offered in our Honolulu Advertiser sale, we record two tête-bêche panes of ten. The other was lot 633 in the Tows sale. A block of six and a block of four are the only other known multiples larger than a pair.

EXTREMELY FINE. A REMARKABLE TÊTE-BÊCHE PAIR OF THE 1865 ONE-CENT HAWAIIAN NUMERAL ON LAID PAPER. THIS IS THE ONLY TÊTE-BÊCHE MULTIPLE CONTAINING THE RESET STATE OF TYPE IX.

The type at left, “Hawaiian Postage”, is known in three states on this plate. State A only shows the “Ha” and “e”, State B shows only the “Ha”, with the rest of the type dropped out. State C shows the type fixed so all letters are visible.

According to the Westerberg book, this was the first plate with the odd numbered types on the right side of the plates. This and other characteristics indicate it was the last plate used before the form was reset for the first 5c Numeral. In the order of printing, it follows the 2c, Scott 24. Oct. 12, 1861” circular datestamp and matching “PAID” handstamp on red and blue 7-Star Confederate Flag Patriotic cover (F7-19), Gow imprint, addressed to Shelbyville Tenn., few small filing holes, minor wear

VERY FINE. AN EXTREMELY RARE EXAMPLE OF THE 5-CENT NASHVILLE POSTMASTER’S PROVISIONAL ON A PATRIOTIC COVER. A PHENOMENAL EXHIBITION ITEM.

We have used the term “Grayish Brown” to describe the shade of this stamp, based on our experience with expertizing groups. The Gray 61X4 shade is often called “Violet Brown” 61X5 when it has a slight brownish hue. This stamp is not the normal Violet Brown, and it is used in October 1861 when the Gray stamps were generally used, but rather than risk a return over subjective differences of opinion among experts, we will call this stamp “Grayish Brown” and offer it as 61X5.

VERY FINE APPEARANCE. AN EXTREMELY RARE LARGE MULTIPLE OF THE CONFEDERATE STATES “NUMBER ONE” FROM STONE 2. THIS BLOCK OF 18 IS THE LARGEST RECORDED MULTIPLE FROM STONE 2.

The unique full pane of 100, as well as the two half-panes of 50, all from the Ackerman sheet of 200, are from Stone 1. Apart from this block of 18, the largest multiple we have offered from Stone 2 since 1993 and in all our Rarity sales is a block of four. Noted lithograph collector Leonard Hartmann believes that this is the largest known multiple, with the next largest a block of 10.

VERY FINE. A BEAUTIFUL AND RARE EXAMPLE OF THE JEFFERSON DAVIS MEDALLION PATRIOTIC DESIGN WITHOUT THE ALLEGORICAL BACKGROUND SCENE. PARTICULARLY DESIRABLE USED FROM FLORIDA.

1712 1c Blue, Ty. Ib (5A). Position 9R1E, large margins to just in showing part of sheet margin and full ornaments at top, rich Plate 1E color, perfectly struck blue "Philadelphia Pa. Dec. 29" (1851) circular datestamp, very faint and small internal crease

VERY FINE APPEARANCE. ONLY SIX POSITIONS FROM PLATE ONE EARLY FURNISHED TYPE Ib STAMPS.

Type Ib was produced only as an imperforate stamp. Six positions on Plate 1 Early furnished stamps qualifying as Type Ib — Positions 3-6R and 8-9R — distinguished by the complete design at top and nearly complete design at bottom. When first entered on the plate, these six positions (as well as 7R1E) had the complete design at top and bottom. However, unlike 7R, small portions of the bottoms were burned away. These top-row positions usually have an ample top margin, but frequently the margins are close or cutting into the sides or bottom.

FINE APPEARANCE. A SCARCE UNUSED EXAMPLE OF THE 1857 10-CENT TYPE I.
Type I stamps are only found on the 20 positions that comprise the bottom row of the plate. Due to narrow spacing on the plate and difficulties in aligning the perforating machine, stamps at the bottom of the plate usually have perforations cutting into the bottom portion of the design. **2c Black, Atherton Shift (73 var).** Sharp impression and wide top margin which clearly shows the double transfer at top left, grid cancel, small surface scrape at top and reperf at left (as usual for this straight-edge position)

FINE APPEARING EXAMPLE OF THE RARE ATHERTON SHIFT, THE MOST PRONOUNCED OF THE BLACK JACK DOUBLE TRANSFERS. ESPECIALLY DESIRABLE WITH THE WIDE TOP MARGIN, WHICH COMPLETELY SHOWS THE VARIETY.

According to the Allen book, the Atherton shift got its name from Stanley Ashbrook, who first discovered it in the summer of 1923 in the collection of J. P. Atherton. Concerning this double transfer, Mr. Ashbrook wrote: "Here we have one of the most remarkable double transfers on U. S. stamps that I have ever seen. I have for years classed the One Cent 1851, Type II, 89R2, as the No. 1 among remarkable examples of this variety and in my opinion this 2c Black Jack could well rank as No. 2. Perhaps some would even rank it equal to the 1c..." He stated further that it was his opinion, supported by other authorities whom he had consulted, that the variety must surely have come from an early or first condition of one of the plates, and that later it had been burnished out and a fresh entry made. The fact that every line in the Atherton Shift "is razor sharp" led him to conclude that the plate from which it came was very new.

COMPLETE IMPERFORATE MINT SHEET OF 400 CONTAINING
THE SINGLE AND DOUBLE 5-CENT CARMINE TRANSFER ERRORS

2011 ★★★ 5c Carmine, Imperforate, Error (485). Complete sheet of 400, containing Mint N.H. upper left pane of 100 with double error, lower right pane of 100 with Mint N.H. single error (bottom of pane with a single hinge, far from the error block) and normal Mint N.H. panes of 100 at upper right and lower left, rich color, few trivial imperfections in outer edge of selvage as is to be expected.

EXTREMELY FINE. A VERY RARE INTACT SHEET OF 400 OF THE 1917 5-CENT IMPERFORATE ERROR. FEWER THAN 50 SHEETS WERE RELEASED TO THE PUBLIC AND NEARLY ALL HAVE BEEN BROKEN UP.

During the course of production of the normal 2c plate—Plate 7942—three subjects were noted to be weakly transferred: Positions 74 and 84 in the upper left quadrant, and Position 18 in the lower right. The plate was sent back to the siderographer, who burned out the three entries and re-entered them. Instead of the 2c transfer roll, he mistakenly used the 5c transfer roll for the 2c plate. The sheets were printed in the normal 2 Red color, but three stamps in each sheet of 400 were 5c stamps, which were normally printed in blue—that is how the 5c Red errors came to be.

The misentered plate and the sheets produced from it passed unnoticed, and the 5c error stamps were issued to the public. The largest number of sheets to reach collectors were perforated 11 (Scott 505). A smaller number were perforated 10 (Scott 467). The rarest of the errors are the imperforate stamps (Scott 485). On May 2, 1917, the Third Assistant Postmaster General sent out a printed notice informing postmasters of the error and recalling the "mis-printed" sheets, but by then the red cats were out of the bag.

The largest group of sheets discovered at one time were all imperforate, but they never made it to collectors. 755 imperforate sheets of 400 stamps (2,265 errors) were on their way to a company for private perforating when they were found in the Chicago post office and returned to Washington, D.C., for destruction. Three of the Chicago sheets were kept for the National Philatelic Collection.

Philip H. Ward, Jr. later reported that he bought two sheets from John Klemann, a New York dealer, who said he acquired them from Joseph Leavy, curator of the national collection, but Klemann may have been lying about his source, since he was involved in the purchase and sale of the New York find of imperforate sheets—48 sheets of 400, also intended for private perforating. The hoard was found in a New York post office and bought in two stages (25 and 23) by Edgar Nelton, a stamp dealer. He and a partner named George Tuttle sought financing from Klemann and accepted becoming one-quarter partners (whether it was one-quarter each or together is unclear). Sometime later, Klemann reported to his partners that he sold most of the sheets to Col. Edward H. R. Green. Years later, Nelton's account reflected his bitterness over what he considered to be a poor financial outcome from the discovery and Klemann's role in the sale. It does not take much imagination to see that Klemann told his partners one thing and did another, taking more than his share by underreporting profits.

An excellent series of articles on the 5c error by Kevin Lowther was published in 2012 in the U.S. Specialist and is available online to members. We recommend it to anyone who wants to know more about this fascinating episode of philatelic history—and we recommend this sheet as an impressive example of the double and single errors in a large multiple.

There are no 5c stamps graded Gem 100 and this is the only Mint N.H. 98J (the 9c has three 98J's).

VERY FINE. A NEWLY DISCOVERED ERROR OF THE 1973 CROSSED FLAGS ISSUE. THIS SHEET CONTAINS WHAT MAY WELL BE THE ONLY THREE EXAMPLES OF THIS ERROR IN EXISTENCE.

This issue has been known with a blue omitted error (1509b) since at least 1976. Datz records 100-125 examples of that error. This red “United States” omitted error was previously unreported. Given the almost 50 years since the stamp was issued, it seems doubtful that others will emerge apart from the three contained in this sheet. This will be newly listed in the 2022 Scott Specialized Catalogue. We have proactively assigned it No. 1509g (the next sub-letter available).

This step-by-step guide will instruct you how to register and use the bidding interface.

Registering with Siegel Auction Galleries

To bid, you must be registered and approved by Siegel.
To decide what you need to do, choose the description below that best fits you.

I want to become a Siegel client and bid in auctions
Go to bid.siegelauctions.com and click on Login at the top. Then click on the link for Sign Up Now. You will need to register and provide trade and banking references.

Internet bidding works by allowing registered bidders to observe and place bids, either before the sale or in real-time during the auction.

Live Internet Bidding will work with any browser on both PC and Mac operating systems, or with our app.

Before bidding by internet for the first time, we recommend observing an auction in progress. This will help you develop a feel for the sale tempo and bidding interface.

Log in and participate in the auction at bid.siegelauctions.com

When you’re logged on as an internet bidder, the bidding interface shows a photo and description of the lot, the current bid (and your bidding status), options for placing competitive bids and buttons with bid increments.

• After you click on a bid amount, the auctioneer is immediately notified of your bid.
• Retracting a bid is not acceptable, so please bid carefully.
• You can track prior realizations from the bidding screen.

“System Down” or “Lost Connection” events do occasionally happen.

If you have any problems with Live Internet Bidding please call 212-753-6421 for immediate assistance.

Shipping & Insurance

We will be pleased to arrange for shipping and transit insurance for purchases in this sale, except for lots marked or announced as “floor sale only.” To expedite billing and delivery to hundreds of buyers in each sale, we use standard charges for postage and insurance under our policy. These charges are based on the package weight and mailing requirements, according to the schedule shown here. Our standard charges do not include a fee for our services, and they may be slightly more or less than the actual postage or Fedex fee. We ask all buyers to remit the invoiced amount for shipping and insurance.

Transit insurance is provided in all cases, except when the buyer has furnished us with documentation that insurance is effective under the buyer’s own policy.

There will be no added insurance charge for shipments of less than $75,000 value. Shipments valued in excess of $75,000 may require supplemental insurance and/or special courier service, the estimated cost of which will be furnished to the buyer prior to shipment. If the buyer refuses to pay the estimated charges or furnish proof of self-insured coverage, the buyer will be responsible for picking up the lots at our office and any resulting sales tax.

Bidding Increments

The auctioneer may regulate the bidding at his discretion. However, to assist absentee bidders in establishing their maximum bids, the increments shown here will be used in most cases. We recommend that written bids conform to these increments—bids that do not will be reduced accordingly.
