

# Letter of Authenticity

Friday, February 19, 2010  
Certification: J33818

To Whom It May Concern:

This letter will serve as a certificate of authenticity for a/an Thomas Edison signed stamp, which we thoroughly examined.

The signature(s) is/are consistent considering slant, flow, pen pressure, letter size, and other characteristics that are typical of the other exemplars that we have examined in our hobby and professional career.

This item has been examined by one or more PSA/DNA experts. On behalf of Collectors Universe, it is our considered opinion that the signature(s) is/are genuine. Your authenticated item has been permanently marked with an invisible DNA daub that will fluoresce under a patented laser lamp.

We appreciate your business and look forward to examining other collectibles for you in the future.

Yours in Signatures,

On behalf of the PSA/DNA Autograph Authentication Team

# EDISON LABORATORY

ORANGE, N.J., U.S.A.

August  
sixth  
1930

Mr. Rennier Pigman,  
177 Park Street,  
Ridgefield Park, N.J.

Dear Sir:

We are in receipt of your letter of August 2nd, on the subject of a block of stamps which you sent here to be autographed by Mr. Edison. Mr. Edison receives innumerable requests for his autograph, so many in fact that he has found it necessary to decline the favor, except on rare occasions. If the stamps which were returned to you from here were enclosed in one of our Edison Laboratory envelopes there is no doubt that the signature is that of Mr. Edison. If you wish to send us the stamps we will then be able to tell you definitely whether they bear Mr. Edison's initials.

Yours very truly,

  
J. V. Miller  
For Mr. Edison.

Ediphoned  
IWW/D

Due to Mr. Edison's advanced age, it has been found necessary for him to conserve his strength for matters of utmost importance in connection with his business and experimental work. He, therefore, regrets very much that he is unable to comply with your request of *July 29<sup>th</sup>* for *autograph*

Secretary to  
Thomas A. Edison
